Mission Statement

The mission of the college is to provide an educational environment that meets students where they are and prepares them for successful and rewarding careers in a global and diverse society.

President's Message

Welcome to Nash Community College, you've made a great choice to continue your education by enrolling with us. Whether you are a first generation student or seeking to advance in your career, Nash Community College has the resources to support you from start to finish.

Speaking of resources, the recently implemented Success Network has enhanced the holistic nature of how students are supported at the College. The Network serves as a "hub" to connect students with success coaches, tutoring services, and on-campus resources like the food pantry, Single Stop, Student Government Association and the library to name a few.

It is important for the College to meet students where they are and to consider each individual's circumstances when working with students.

Nash Community College is known in eastern North Carolina and

throughout the North Carolina Community College System for its unique programs, innovative campus and nurturing environment. We are proud to offer many challenging programs that prepare students for transfer to four-year universities, provide training for local workforces, and expand the horizons for all who seek to achieve more in life. At NCC, we continually adapt to the growing demands of industry and to the needs of current and future students in order to better serve Nash County and the region..

For over five decades students like you have relied on Nash Community College when pursuing a degree, diploma, certificate, or workforce training. Every student has a choice when considering a college, and our team is delighted that you chose to become a Nash Community College Nighthawk.

Lew K. Hunnicutt, Ph.D.

The College

Significant Dates in the History of Nash Community College

- 1957** The Community College Act is passed by the North Carolina Legislature, providing an avenue for local governing bodies to establish an institution in their own communities.
- 1967** The first Board of Trustees of the “Nash County Technical Institute Unit” is appointed.
- 1967** Jack D. Ballard is hired as the first president of the institution.
- 1967** Nash Technical Institute is established on September 7, 1967.
- 1975** The new campus is formally dedicated.
- 1979** The college community is saddened by the untimely death of its first President, Jack Ballard.
- 1980** The second president of Nash Technical Institute is selected, Dr. J. Reid Parrott, Jr.
- 1982** The name is changed from Nash Technical Institute to Nash Technical College.
- 1983** The Nash Technical College Foundation is incorporated.
- 1987** The General Assembly gives authority to Nash Technical College to convert to a community college, enabling the college to offer the college transfer program and to change the name to Nash Community College.
- 1997** Nash Community College participates in the statewide effort of reengineering all of its curriculum programs.
- 1998** Nash Community College changes from a quarter system to a semester system. An evaluation of all curriculum programs and services was conducted to meet workforce training needs and to ease transfer of programs and courses within the community college system as well as to the four-year institutions.
- 1999** The Betsy B. Currin Child Development Center opens providing on-campus childcare and a model instructional laboratory for students enrolled in the early childhood and teacher associate programs.
- 1999** The Business & Industry Center is completed that includes the Allen H. and Winnie E. Brown Auditorium, the Continuing Education Department, Campus Store, and administrative offices.
- 1999** Dr. J. Reid Parrott, Jr. retires as President of Nash Community College and is granted the title of President Emeritus.
- 2000** Dr. Katherine M. Johnson is selected as the third President of Nash Community College.
- 2000** The Julian B. Fenner Memorial Clock is given to the College as the first historical marker from Skipper Fenner Parker in memory of her late husband Julian Fenner, who served as the first Chairman of the Board of Trustees.
- 2000** North Carolina voters approve a 3.1 billion dollar Higher Education Bond Referendum providing funds for on-campus repairs, renovations and eventual construction of a science and technology building.
- 2001** The College receives a grant from the DeLeon Carter Foundation to construct the Myrtle Carter Henry Amphitheater.
- 2002** Reaffirmation of accreditation received by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).

- 2003** The Myrtle Carter Henry Amphitheater is dedicated on June 3, 2003.
- 2004** Nash Community College receives one million dollar EDA grant.
- 2004** Ground-breaking ceremony for Science and Technology Center.
- 2005** Nash County native Dr. Marvin R. Joyner selected as interim president.
- 2005** William S. Carver, II is selected as the fourth President of Nash Community College.
- 2005** The Science and Technology Center is dedicated on October 26, 2005.
- 2007** Nash Community College's Betsy B. Currin Child Development Center (CDC) received accreditation by the National Association for the Education of Young Children (NAEYC).
- 2008** Nash Community College Foundation celebrates 25th anniversary.
- 2010** Nash Community College purchases additional 25 acres.
- 2011** Nash Community College celebrates reaffirmation of accreditation by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC).
- 2012** Approved bond referendum for Continuing Education and Public Services Building.
- 2012** Nash Community College celebrates 45 years of teaching and learning.
- 2012** Business and Industry Center expanded to include Culinary Arts and Hospitality Management classrooms.
- 2012** Betsy B. Currin Child Development Center expanded to include Early Childhood Education classrooms.
- 2013** Road constructed to connect south campus to Eastern Avenue.
- 2013** \$1.5 million Economic Development Administration grant received for Continuing Education & Public Services Building.
- 2013** Ground-breaking ceremony for Continuing Education & Public Services Building.
- 2015** Continuing Education and Public Services Building dedicated on June 16.
- 2016** Approved bond referendum to support Advanced Manufacturing and Veterinary Technology expansion.
- 2017** Ground-breaking ceremony for the Advanced Manufacturing and Cosmetology Buildings.
- 2018** Ribbon cutting and dedication ceremony for the Advanced Manufacturing and Cosmetology Buildings.
- 2019** Ribbon cutting ceremony for Nash-Rocky Mount Early College High School expansion into Building C.
- 2019** William S. Carver, II retires as President of Nash Community College and is awarded the Order of the Long Leaf Pine.
- 2019** Dr. Lew Hunnicutt is selected as the fifth President of Nash Community College.

Nash Community College

Nash Community College is located at 522 North Old Carriage Road in Rocky Mount, NC. The college was founded in 1967 and is a public two-year post-secondary educational institution with an open door admissions policy. Approximately 12,000 citizens participate in programs at Nash Community College annually.

The College is located on 111 acres midway between Nashville and Rocky Mount, NC, less than a mile off U.S. Highway 64 Bypass and U.S. Interstate 95. While the primary service area is Nash County, the convenient location attracts students from the surrounding counties of Edgecombe, Franklin, Wake, Wilson, and Halifax.

Modern buildings including the Continuing Education and Public Services Building, Advanced Manufacturing Building, Cosmetology Building, Science and Technology Building, the Business and Industry Center, and a five-star rated Child Development Center comprise the campus physical plant.

As a comprehensive community college, ninety-nine academic programs are offered, many of which lead to a degree, diploma or certificate. Included are two-year technical and college transfer programs which give the students the knowledge and expertise required for challenging careers or successful transfer to four-year colleges or universities. Vocational, occupational, business, and industry related programs are offered which prepare students for jobs and provide a skilled workforce for the area.

Additionally, the College offers Adult Basic Education, High School Equivalency, and Adult High School to meet the diverse needs of the citizenry in Nash County and the surrounding area. The College employs approximately 500 full and part-time faculty and staff to provide administrative and instructional services to students.

The Catalog

Nash Community College publishes an annual catalog for the purpose of providing students and other interested persons with information about the College and its programs. The provisions of the catalog are not to be regarded as an irrevocable contract between students and Nash Community College. The College reserves the right to change any provisions, requirements, or schedules at any time or to add or withdraw courses or program offerings. Every effort will be made to minimize the inconvenience such changes might create for students. The College further reserves the right to request a student to withdraw at any time when it considers such action to be in the best interest of the College. **This catalog is valid for five years from the date of enrollment at Nash Community College.**

Americans with Disabilities

Nash Community College is committed to making reasonable accommodations for individuals with documented qualifying disabilities in accordance with the Americans with Disabilities Act (ADA) of 1990 and Section 504 of the Rehabilitation Act of 1973.

Affirmative Action Statement

Nash Community College does not unlawfully discriminate in the recruitment of students or employees or with respect to employment terms and conditions on the basis of an individual's race, color, national origin, sex, sexual orientation, gender, gender expression, gender identity, genetic information, disability, age, religion, or veteran status.

Conflicting Policies

All policies of the N.C. Community College System and all North Carolina State Laws, Statutes or otherwise, shall take precedence over the procedures stated in this manual. All procedures or parts of existing procedures of Nash Community College in conflict with the revised procedures as stated in this manual are hereby repealed.

Non-Discrimination Statement

Nash Community College does not unlawfully discriminate in offering equal access to its educational programs and activities or with respect to employment terms and conditions on the basis of an individual's race, color, national origin, sex, sexual orientation, gender, gender expression, gender identity, genetic information, disability, age, religion, or veteran status. The following resources have been designated to handle inquiries regarding the non-discrimination policies:

ADA Counselor

522 N. Old Carriage Road
Rocky Mount, NC 27804
252-451-8260

Director of Human Resources

522 N. Old Carriage Road
Rocky Mount, NC 27804
252-451-8258

For further information on notice of non-discrimination, see the list of addresses and phone numbers for Office of Civil Rights (OCR) locations that serve your area, or call (800) 421-3481. Nash Community College is an Equal Opportunity Affirmative Action College and accommodates the need of individuals with disabilities.

Visitors

Nash Community College prides itself on being an open door institution. The open door, while important to the College Mission, applies to the admissions process. The College does, however, welcome visitors and guests identified with a specific college function. For reasons of safety and security, it is necessary that Nash Community College be aware of every person on campus. Therefore, the College's visitation procedures are intended to protect the safety of students, faculty, staff, and other community constituents. All campus

visitors are directed to log in, or report the nature of their visit, to the College's reception area located in the Business and Industry Center at 522 North Old Carriage Road. Persons who are not conducting business or purposely engaged in a sanctioned activity of Nash Community College may be asked to leave the premises. Anyone on the campus observed loitering will be asked for identification, and to register as a visitor, including the purpose of the visit, or to leave the premises. In the event a person is asked to leave the campus, and does not cooperate, he/she may be subject to the penalties associated with trespassing. Visitors should also note that Nash Community College law enforcement are sworn Nash County deputies, as such, they have the authority to question, detain, or arrest anyone involved in illegal acts on campus. Offenses committed by Nash Community College students may be referred to the appropriate Nash Community College administrator and dealt with accordingly.

Community College Status

The NC General Assembly approved the College's request for community college status during the 1987 legislative session, and on July 1, 1987 the institution was named Nash Community College.

This designation permits the college to offer transfer degrees which are accepted by member institutions of the University of North Carolina and other four-year universities and colleges. Academic coursework standards have been approved and accredited for the awarding of the Associate in Arts, Associate in Engineering degrees, and the Associate in Science degrees, the Associate in General Education, in addition to the Associate in Applied Science degree.

Accreditations/Program Approvals

Nash Community College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees. Questions about the accreditation of Nash Community College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

The Physical Therapist Assistant program is accredited by the Commission on Accreditation in Physical Therapy Education (CAPTE), 3030 Potomac Ave., Suite 100, Alexandria, Virginia 22305-3085; telephone 703-706-3245.

The Automotive Systems Technology program is accredited by the National Automotive Technicians Education Foundation (NATEF), (101 Blue Seal Drive, S.E. Suite 101, Leesburg, VA 20175).

The Computer-Integrated Machining Technology program is accredited by The National Institute for Metalworking Skills (NIMS), (10565 Fairfax Boulevard, Suite 203, Fairfax, VA 22030, 703-352-4971, www.nims-skills.org).

The Early Childhood Education Program at Nash Community College is accredited by the Commission on the Accreditation of Early Childhood Higher Education Programs of the National Association for the Education of Young Children, (1313 L Street, NW #500, Washington, DC 20005, (202) 232-8777). The accreditation term runs from March 2015 through March 2022.

The Medical Assisting diploma program is accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Medical Assisting Education Review Board (MAERB), (25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763, 727-210-2350, www.caahep.org).

The Veterinary Medical Technology program is accredited by the Committee on Veterinary Technician Education and Activities (CVTEA) of the American Veterinary Medical Association (AVMA) as a program for educating veterinary technicians. 1931 North Meacham Road, Suite 100, Schaumburg, IL 60173-4360, 800-248-2862 www.avma.org

The Cosmetology program is approved by the North Carolina Board of Cosmetic Arts, (1207 Front Street, Suite 110, Raleigh, NC 27609, (919) 733-4117).

The College is approved by the North Carolina State Board of Nursing to offer the Associate Degree in Nursing and Practical Nursing, a diploma program, (P.O. Box 2129, Raleigh, NC 27602, (919) 782-3211).

The Basic Law Enforcement Training (BLET) program is approved by The North Carolina Criminal Justice Education and Training Standards Commission; and The North Carolina Sheriffs' Education and Training Standards Commission.

Comprehensive Cycle of Continuous Improvement

Nash Community College's ongoing comprehensive cycle of planning and evaluation is centered on Assessment, Improvement, Planning, Intervention, and Evaluation (APIE) (Attachment 2, APIE Planning Cycle). The College evaluates and assesses all academic and non-academic programs and institutional services.

Academic program evaluations are completed annually in conjunction with advisory committees that provide stakeholder input. All departments are required to complete a SWOT (Strengths, Weaknesses, Opportunities, and Threats) analysis for all programs.

All employees are provided the opportunity for departmental, programmatic, and college-wide input through advisory participation, surveys and committee assignments. Students

are able to provide feedback on academic and non-academic programs, faculty, instruction, and intuiional services through course evaluations (Attachment 4: sample – student evaluation) and advisory committee participation (Attachment 5: sample – Advisory Committee Roster). All institutional services and non-academic programs also undergo an advisory committee evaluation process, which allow stakeholders to provide input and complete a SWOT analysis to help determine the effectiveness of the programs and services. All resulting data is analyzed and incorporated into the continuous improvement cycle.

Continuing Education

The College's Continuing Education Division has met the agency requirements to offer the following courses or programs:

- Detention Officer Certification Course - The North Carolina Sheriffs' Education and Training Standards Commission
- Emergency Medical Responder, EMT, Advanced EMT and Paramedic - North Carolina Office of Emergency Medical Services
- Emergency Medical Dispatch (EMD, EFD, and EPD) - International Academies of Emergency Dispatch
- Firefighting & Rescue Training - North Carolina Office of the State Fire Marshal, NC Emergency Management and National Fire Academy
- General Instructor Certification - The North Carolina Criminal Justice Education & Training Standards Commission
- Notary Public - North Carolina Secretary of State
- Nurse Aide I & II - North Carolina Department of Health and Human Services Division of Facility Services
- Speed Measurement Instrument Certification (Radar, Time-Distance, and Lidar) - The North Carolina Criminal Justice Education & Training Standards Commission
- Vehicle Safety Inspection - The North Carolina Division of Motor Vehicles

Tree Campus USA®

Nash Community College holds Tree Campus USA® recognition by the Arbor Day Foundation for its commitment to effective urban forest management.

Tree Campus USA is a national program created in 2008 by the Arbor Day Foundation and to honor colleges and universities for effective campus forest management and for engaging staff and students in conservation goals. Nash Community College achieved the title by meeting Tree Campus USA's five standards, which includes maintaining a tree advisory committee, a campus tree-care plan, dedicated annual expenditures for its campus tree program, an Arbor Day observance and student service-learning project.

Bee Campus USA

Nash Community College is the 28th educational institution in the nation to be certified as an affiliate of the Bee Campus USA program, designed to marshal the strengths of educational campuses for the benefit of pollinators. College students, faculty, administrators, and staff have long been among the nation's most stalwart champions for sustainable environmental practices.

To earn the distinction, NCC established a Bee Campus USA committee to develop a Campus Pollinator Habitat Plan which included a locally native, pollinator-friendly plant list with regional sources for the plants and a least toxic integrated pest management (IPM) plan. Additionally, as a certified bee campus, the college hosts annual events to raise awareness of the importance of pollinators and annually sponsors and tracks student service projects to enhance pollinator habitats on-and off-campus. NCC biennially offers a pollinator protection course and incorporates pollinator protection topics into curriculum.

Admission Requirements

Nash Community College adheres to the “Open Door” philosophy in regards to college admission. However, the College reserves the responsibility to conditionally assign students in regards to program entry. Students must meet all curriculum program standards for full acceptance and subsequent degree requirements.

Nash Community College reserves the right to refuse admission to any student who has been suspended, expelled, refused admission by, or left another educational institution due to code of conduct violation(s).

Prospective students must be high school graduates or possess the equivalent, as prescribed by the State of North Carolina or must be at least 18 years old or meet special eligibility requirements.

Curriculum Program Admission Procedures

The following required procedures must be completed prior to admittance into a curriculum program of study:

1. Completion of a NCC application. Applicants must apply online at www.nashcc.edu. In-State students will need to complete the Residency Determination Service (RDS) as part of this process.
2. Submission of an official final high school transcript documenting graduation from high school or an official copy of HSE (High School Equivalency) or AHSD (Adult High School Diploma) scores. To be considered official, transcripts must be unopened and received directly from the institution attended or sent electronically directly from the school to the Office of Admissions at admissions@nashcc.edu. All transcripts become the property of Nash Community College and cannot be reproduced or returned to the student. Faxed copies are not considered official transcripts. The College will recognize high school diplomas from regionally and nationally accredited schools or home schools registered with the state. Unaccredited high schools operating in the State of North Carolina are also permissible as long as they are considered valid. In order for a student to be fully admitted to their program, the transcript must be received within 30 days of their first semester enrolled.
3. Students with an associate degree or higher may submit a college transcript in place of a high school transcript with the exception of applicants seeking Veteran's (VA) benefits. Students seeking VA benefits must submit a high school transcript and all college transcripts before being eligible for certification.
4. Completion of Course Readiness Assessment (CRA). Students may submit SAT or ACT scores in lieu of taking a CRA (five years current from first date of enrollment into Nash

Community College). Placement testing information may be found at www.nashcc.edu/cra. Established minimum scores required on the SAT and ACT are described under “SAT and ACT Scores.” Students having graduated high school within ten years from the first date of enrollment into Nash Community College may be exempt from completing the assessment. Please see **Placement by High School GPA**.

5. A conference with the Director of Placement and Career Services for the purpose of reviewing assessment scores and discovering career goals.
6. Students seeking admittance to Health Sciences programs should reference the section titled “Admission to Health Sciences Programs” for additional program application steps.

Placement By High School GPA

High school graduates, who graduated within ten years of enrollment, must provide an official high school transcript for evaluation. Admissions will only evaluate high school Grade Point Averages based on submission of official high school transcripts. A student may be eligible to enroll directly into college level gateway courses based on their unweighted high school Grade Point Average (GPA) if they meet the following criteria:

1. The student graduated from high school within ten years prior to their first date of enrollment with Nash Community College.
2. The student has at least a 2.8 unweighted GPA. (Current high school students, who apply to the College before graduation, may be evaluated based on the completion of their first semester junior year.)
3. The student must demonstrate completion of qualifying math courses.

Readmission Procedures

Students who return after an absence of more than one year shall complete a new application for admission to update student information. Students returning to a curriculum program must follow current program admission procedures and requirements.

Student Access and Success

Nash Community College uses Student Access and Success to assess students for enrollment into gateway courses for each degree or diploma program (see exceptions that follow regarding degree holders and transfer students). Students can meet enrollment requirements for gateway courses in one of three ways:

1. Official High School Transcript - See "Placement by High School GPA" section above
2. SAT and/or ACT scores - Applicants with SAT and/or ACT scores can enroll in gateway courses if their scores meet the following criteria:

Tests Taken Prior to March 2016

Gateway courses with math prerequisites

SAT Math > 500

ACT Math > 22

Gateway courses with English and Reading prerequisites

SAT Critical Reading > 500

ACT Reading > 22 or ACT English > 18

SAT/ACT scores are valid for five years.

Tests Taken After March 2016

Gateway courses with math prerequisites

SAT Math > 530

ACT Math > 22

Gateway courses with English and Reading prerequisites

SAT Critical Reading > 480

ACT Reading > 22 or ACT English > 18

SAT/ACT scores are valid for five years.

3. **Course Readiness Assessment** – Applicants who do not meet the above criteria for enrollment into gateway courses can take the College's approved course readiness assessment. Currently Nash Community College offers one form of assessment approved for placement purposes. This assessment is the state mandated RISE Placement Test given through EdReady powered by NROC.

Requirements to take a Course Readiness Assessment (CRA):

To qualify to take the CRA an applicant must:

1. Apply to Nash Community College
2. Have a valid driver's license or state-issued ID
3. Be prepared to test for approximately 2 to 4 hours (depending on the assessment)

Special note: Personal calculators are not allowed, one will be provided for you.

To test, applicants must obtain a testing slip from the Office of Placement and Career Services and schedule the test in advance. The assessment is administered in the testing room. After testing, the student may return to the Office of Placement and Career Services to meet with the Director to discuss the scores and their next steps.

Transferring CRA Scores to Another School:

Nash Community College proudly offers all assessments to Nash Community College students at no charge. However, individuals interested in taking a placement test at the College with the goal of transferring the scores to another school must pay a \$20.00 fee at the cashier's window before testing and it must be scheduled in advance. The fee will be waived if the applicant has previously attended Nash Community College and now wishes to transfer.

The Following is a Detailed Description of each CRA the College Offers:

RISE

NROC's RISE Placement Test is a computerized placement test that is divided into two sections: Math (three tiers) and English (two tiers). (Direct placement into Calculus I is also available if an applicant qualifies with appropriate high school courses, test scores and/or other forms of Student Access and Success placement). The RISE assessment is currently offered Monday -Thursday at 9:00 am and 1:30 pm. (Testing is available by appointment only). Written portions of the CRA are available for students needing accommodations; however, proper documentation will be required.

THE RISE PLACEMENT TEST

The **RISE Placement Test** for English has two tiers.

- Tier One: Introduction to College Reading and Writing, Identifying Main Ideas, Discovering Implied Meaning, Interpreting Bias, Analysis through Definition, Learning Across Disciplines
- Tier Two: Exploring Comparative Elements, Informed Opinions through Causal Chains, Applied Critical Analysis, Using Sources in Critical Reading and Writing

The **RISE Placement Test** for Math has three tiers.

- Tier One: whole numbers; fractions and mixed numbers; decimals; ratio, proportion, and rates; percent; measurement, geometry, and real numbers
- Tier Two: solving equations and inequalities; graphing; exponents and polynomials; concepts in statistics
- Tier Three: rational expressions; radical expressions and quadratic equations; factoring; systems of equations and inequalities; and functions

RISE Reassessments

RISE scores are valid for ten years from the year the assessment was given. Applicants are allowed to test twice in a 10-year period; however, prior to taking the assessment a second time, it is recommended that students study in the Math Tank and English Studio or independently to upgrade deficiencies. Students must wait five business days before retesting, unless otherwise noted by the Director of Placement and Career Services. Students may review sample problems and videos on the College's website (www.nashcc.edu/cra).

Additional Information

- The RISE Placement Test may take two to four hours to complete. Students may take the test in sections over several days if preferred.
- The test is by appointment only. Please contact the Office of Placement and Career Services to schedule your appointment.
- Students must present a valid photo ID to take the RISE Placement Test.
- Students requiring accommodations with a documented disability should contact the ADA Counselor, at (252)-451-8260.
- Upon completion of the test, students will receive a summary of their test results and their placement for the gateway math and English needed for their chosen program of study.

To schedule a test, please contact: Director of Placement and Career Services Phone: (252) 451-8261 Fax: (252) 451-8401 Email: ncccounselor@nashcc.edu.

Remote Placement Testing

Nash students who are not physically able to come to campus may use the College's remote testing option to take the NROC/EdReady RISE assessment. The student will have to find a proctoring company or institution that will allow them to test at their location. The student must pay any proctoring fee that is incurred for the use of the service. Once the student has found a location, the student must complete the form for remote testing through the Office of Placement and Career Services. Someone from the Office of Placement and Career Services will verify the company or institution and approve the form. Further instructions will be given to the student and the service provider to effectively access the test. Remote placement testing must be scheduled. To schedule remote testing contact the Office of Placement and Career Services.

Degree Holders

Students with a four-year degree from an accredited college or university are not required to take the Course Readiness Assessment (CRA). However, a documented official transcript is required.

Student Access and Success (SAS) Placement

Students entering college and have graduated within the last 10 years may be able to be placed into remediation/developmental courses or gateway courses by the use of their high school GPA. The unweighted high school GPA must be listed on the official transcript and the student must have completed NC MATH II or its equivalent. The Placement and Career Counseling Services Office will review the transcript for placement.

Admission by Transfer

Nash Community College will accept transfer students from other regionally or nationally accredited universities or colleges provided that such students complete the required admission procedures and provide an official transcript from the institution(s) previously attended. Transcripts must be evaluated by the College Director of Records and Registrar. Educational work completed from recognized and accredited post-secondary institutions may, where applicable, be credited toward the requirements of a degree, diploma, or certificate program at Nash Community College. Transfer credit is the sole responsibility of Nash Community College. For additional information, see "Transfer of Credit between Institutions".

Admission of Veterans Administration (VA) Educational

Benefits Recipients

Students who are eligible to receive VA educational benefits are required by law to furnish official written records (Official Transcripts) of all prior education and training. Such records will be evaluated and credit may be granted toward graduation requirements. No person shall be certified to the Veterans Administration for the purpose of receiving VA educational benefits until such records are on file. Please contact veterans@nashcc.edu for questions or additional information.

Admission of Non-Degree Seeking Students

A classification of non-degree seeking student is designed for high school graduates or non-graduates who are 18 years of age or older and want to enroll in courses without declaring a major program of study. Non-degree seeking students will be permitted to accumulate eighteen (18) credit hours before completing program admission requirements. Upon completion of eighteen (18) credit hours, non-degree seeking students must talk with

a counselor prior to registration to declare a program of study and complete registration in individual classes. When the student selects a program of study, appropriate credits earned as a non-degree student will be accepted toward meeting the requirements for graduation. Once a program of study is declared, students must register for the appropriate English and Math courses associated with the declared program of study. Students declaring a program of study must meet all Curriculum Program Admission Procedures. Non-degree seeking students are ineligible for Title IV Funding.

Career and College Promise Program

The Career and College Promise (CCP) program allows high school students the opportunity to be dual enrolled in high school and Nash Community College. The CCP program provides students the opportunity to accelerate exposure to college-level coursework toward an associate's degree for transfer to a senior institution or a technical certificate in preparation for entering the workforce. The CCP program is comprised of the College Transfer pathway, Career and Technical Education, and Cooperative Innovative High Schools (CIHS).

College Transfer Pathways

High school juniors and seniors with an unweighted 2.8 high school GPA or qualifying test scores are eligible for coursework in one of four areas: Associate of Arts, Associate of Science, Associate of Engineering, and Associate of Nursing. These courses are designed to fulfill the first year of a transfer degree in the respective area.

Career Technical Education (CTE)

High school juniors and seniors with an unweighted 2.8 GPA or principal approval are eligible to enroll in CTE certificates as outlined on the CCP web page (www.nashcc.edu/ccp). Upon completion of the coursework, students will be awarded a college certificate. Students that complete the certificate can then enroll in other courses toward degree completion. (Students must meet course prerequisites as outlined in the college catalog.)

Cooperative Innovative High Schools (CIHS)

The CIHS schools within the Nash County Public Schools (NCPS) represent a partnership between NCPS and Nash Community College to provide students with an opportunity to earn their high school diploma as well various forms of college credentials.

Articulated Credit for High School Courses

Public high school students and recent high school graduates (less than two years from high school graduation) may request the articulation of specific high school courses to community college credit per the 2017 Articulation Agreement issued by the NC Department of Public Instruction and the North Carolina Community College System. Students

will need to submit documentation attesting to the completion of approved courses with a grade of “B” or higher in each course and a raw score of 93 or higher on the normed post-assessment for consideration by the Registrar’s Office.

Nash-Rocky Mount Early College High School

The Nash-Rocky Mount Early College High School is designed to introduce students to the college setting by taking Nash Community College courses while in high school. This is a five-year program through which students have the opportunity to earn a high school diploma and a college transfer associate degree. For additional information regarding the Early College, please refer to www.ncpschools.net.

Center for Industry, Technology & Innovation (CITI) High School

CITI High is a collaborative endeavor between the Nash County Public Schools and Nash Community College. Students at CITI High School will be able to complete studies in one of the associate of applied science programs as part of their high school graduation credits. Through an academic foundation, paired with career-informed courses and work-based learning experiences, graduates of the CITI High School will be prepared to enter the workforce with solid credentials upon graduating from high school. For additional information regarding CITI High, please refer to their website at www.ncpschools.net.

Continuing Education Enrollment

Please contact the Continuing Education department concerning enrollment in Continuing Education classes.

Admission of Undocumented Immigrants

In accordance with the North Carolina Administrative Code (23 NCAC 02C .0301), the College will adhere to the following policy with regards to admission of undocumented immigrant students. As defined by the code, an undocumented immigrant is an immigrant who is not lawfully present in the United States. North Carolina community colleges shall admit undocumented immigrants under the following conditions:

1. Community colleges shall admit an undocumented immigrant only if he or she attended and graduated from a United States public high school, private high school, or home school that operates in compliance with State or local law.
2. When determining who is an undocumented immigrant, community colleges shall use federal immigration classifications.
3. Undocumented immigrants admitted under Subparagraph (b) (1) of this Rule must comply with all federal and state laws concerning financial aid.

4. An undocumented immigrant admitted under Subparagraph (b) (1) of this Rule shall not be considered a North Carolina resident for tuition purposes. All undocumented immigrants admitted under Subparagraph (b) (1) of this Rule must be charged out of state tuition whether or not they reside in North Carolina.
5. When considering whether to admit an undocumented immigrant into a specific program of study, community colleges shall take into account that federal law prohibits states from granting professional licenses to undocumented immigrants.
6. Students lawfully present in the United States shall have priority over any undocumented immigrant in any class or program of study when capacity limitations exist.

Residency Determination

Residency and the appeals process is now regulated by the State of North Carolina. The following message regarding the residency process is required of all students, and is managed by the state:

The state of North Carolina partially subsidizes the cost of North Carolina public college and university tuition for all students whose domicile, or permanent legal residence, is in North Carolina. Residency determination establishes if students should have in-state or out-of-state tuition. Because North Carolina residency status is governed solely by North Carolina statute, lack of eligibility for in-state status in another state does not guarantee in-state status in North Carolina. The residency statute mandates only those who can demonstrate a minimum of twelve months of uninterrupted domicile (legal residence) in North Carolina are eligible for in-state tuition. The statute also places the burden of proof on the student to establish, by a preponderance of evidence, that they are a bona fide domiciliary rather than mere residents of North Carolina.

For more information about residency, how it's determined, and the process for appealing residency status for the state of North Carolina, visit www.ncresidency.org

Tuition, Fees and Other Expenses

Nash Community College receives financial support from local, state, and federal sources, making it possible to offer students educational opportunities at minimal cost. The tuition fee is set by the North Carolina General Assembly and is subject to change without notice. The cost of textbooks, laboratory fees, supplies, and college activity fees vary by curriculum and are an additional expense.

Payment of tuition and fees must be arranged at the time of registration with a payment option secured by the posted deadline to pay. If tuition and fees have not been paid, or financial aid or a payment plan secured, by the last day to pay the student will be dropped from their classes.

Students may be eligible to receive education tax credits that can offset some expenses. There are two education credits available, the American Opportunity Credit and the Lifetime Learning Credit. Students should refer to IRS Publication 970, Tax Benefits for Education for further information.

Student Activity Fee

The Board of Trustees of Nash Community College has approved a \$5.00 per credit hour (\$35.00 max) student activity fee. This fee entitles a student to participate in all Student Government Association activities, and to have coverage under the College's Student Accident Insurance Plan.

Student Technology Fee

The Board of Trustees of Nash Community College has approved a Student Technology Fee of \$6.00 per credit hour to a maximum of \$48.00 per semester. This fee entitles a student use of computers and other technology services.

College Access Parking and Security (CAPS) Fees

The Board of Trustees of Nash Community College has approved a CAPS Fee of \$14.00 per semester. This fee is used to address security, safety, and parking needs on campus.

Student Accident Insurance

All students who register for curriculum classes are insured for accidental injuries which may occur while in class or on college property. This coverage does not apply to commuting time between home and class.

Students in Continuing Education classes may acquire student accident insurance at a minimum cost per session. This charge may be required for some Continuing Education classes.

Information regarding detailed coverage of this policy may be obtained from the Student and Enrollment Services Office or by visiting the College website at www.nashcc.edu/studentaccident.

Student Health Insurance

Nash Community College is pleased that students have an opportunity to purchase medical, vision, and dental insurance coverage through a group plan designed for community college students and their families. The Community College Student Insurance medical plan and vision plan are offered by United Healthcare and the dental plan is offered by Humana. United Healthcare and Humana are responsible for enrollment, eligibility verification, benefits administration, and premium collection for the plans. The program requires a minimum of 3 credit hours per semester. It is important to note that NCC does not specifically endorse this plan or these providers. The plan is a voluntary option for our students. Interested students should contact the plan provider to directly enroll or compare with other plans. For additional information, please call the plan provider at 1-800-509-6988 or visit www.studentccsi.com.

Refund Policy – Curriculum Credit Courses

1. A refund shall not be made except under the following circumstances:
 - a. A 100 percent refund of tuition shall be made if the student officially withdraws prior to the first day of class(es) of the academic semester as noted in the college calendar. Also, a student is eligible for a 100 percent refund of tuition and activity fees if the class in which the student is officially registered fails to “make” due to insufficient enrollment.
 - b. A 75 percent refund of tuition shall be made if the student officially withdraws from the class(es) prior to or on the official 10 percent point of the semester.
 - c. For classes beginning at times other than the first week (seven calendar days) of the semester, a 100 percent refund of tuition shall be made if the student officially withdraws from the class prior to the first class meeting. A 75 percent refund of tuition shall be made if the student officially withdraws from the class prior to or on the 10 percent point of the class.
 - d. For contact hour classes, use 10 calendar days from the first day of the class(es) as the determination date.
 - e. No refund will be made on such fees as student activity, technology, success, CAPS, cap and gown fee, etc.

2. To comply with the applicable federal regulations regarding refunds, federal regulations will supersede the state refund regulations stated in this rule.
3. The refund policy is set by the State Board of Community Colleges and is subject to change without notice.
4. Where a student, having paid the required tuition for a semester, dies during that semester (prior to or on the last day of examinations of the college the student was attending), all tuition and fees for that semester may be refunded to the estate of the deceased.
5. Past due balances from a prior term may be deducted from any refund due.

Textbooks and Supplies

The cost of textbooks and supplies will vary according to the curriculum. Textbooks and supplies may be purchased at the college Campus Store as well as the online Campus Store. Textbook and other information is available online at www.nashcampusstore.com.

In addition to textbooks and supplies, individual programs may require additional costs for uniforms, malpractice insurance, assessment tests, state licensing exams, criminal background checks, drug screens, etc.

Select classes offer Inclusive Access books, an interactive digital textbook available through Moodle. Students taking inclusive access courses will be charged on their student account for course materials. This charge may be paid in person at the Cashiers office, online through WebAdvisor, or charged to the student's Financial Aid account.

Other Costs

Students in the Electrical/Electronics Technology, CISCO Certificate, Machining, and Architectural Technology program are required to purchase basic tools. Tool costs are available from the respective department.

Intellectual Property Rights

In an educational and academic environment, the development of creative, original, and scholarly works of various forms is encouraged and supported. A wide variety of legal protections governing copyrights, patents, trademarks, and trade secrets exist for the benefit of the author and the supporter of such projects. The rights of faculty, staff, students, and the College in the creation of intellectual property should be protected to the fullest extent of the law. Negotiated agreements are encouraged whenever possible to protect the rights

of all parties involved in the creation of intellectual property, particularly when the potential exists for monetary gain. Intellectual property includes, but is not limited to, scientific discoveries or inventions, computer software, scholarly publications, works of art, movies, dramatic productions, etc.

The College has no intellectual property rights for works created by faculty, staff, or students as the result of individual initiative outside of the scope of regular job duties or traditional scholarly work created for academic purposes, as long as no more than incidental use of College facilities is made. The author retains responsibilities for securing copyrights and/or patents, and receives sole benefit and royalties from dissemination of the works. While the author retains intellectual property rights of traditional scholarly work, the College retains the right to unlimited, royalty-free use of works created for academic purposes using College resources. To avoid a dispute or concern about the ownership of intellectual property, the faculty, staff, or student should obtain clarification prior to creation. If significant use of institutional resources is anticipated, the faculty, staff, or student and the College should agree in writing before the project begins regarding use of facilities, rights to the work product, sharing of benefits related to commercialization of the product, and rights and ownership of the products of any such projects. Intellectual property right disputes involving students is addressed using the due process review by the Student Affairs Committee and described in the Catalog in the Student and Public Grievance/Complaint Procedure.

Addressing Distance Education Student with Disabilities

Nash Community College has a proactive approach on preparing faculty in distance education for students with disabilities. The college ensures all syllabi and materials that are used are ADA compliant and meet the needs of students with disabilities.

Admission to Health Sciences Programs

The Health Sciences programs have additional, selective admissions requirements. Qualifying students are first expected to complete all general admission procedures to the College. Course work include on-campus classroom and laboratory hours as well as off-campus clinical learning experiences performed at contracted health care facilities throughout Central and Eastern North Carolina. Reliable transportation is critical. Students can expect costs associated with uniforms, meals, and travel related to clinical learning experiences. Prospective students are encouraged to review program related information online for the respective health sciences program at www.nashcc.edu/healthsciences, including Program Information Packets, Student Handbooks and/or estimated program expenses.

Criminal Background Checks and Drug Screens

Criminal background checks and drug screens are not required for admissions to the Health Sciences programs. Once admitted to the program, however, students can expect to submit

to criminal background checks (state and/or federal, which may also include fingerprint, National Sex Offender Search, social security verification, and health care fraud and abuse) and drug screens in order to meet regulatory criteria of facilities participating in the clinical education component of the Health Sciences program. The Health Sciences faculty recognizes and is fully supportive of clinical facilities mandating criminal background checks and/or drug screens on students in the program.

If a clinical facility prohibits a Health Sciences student from participating at the facility based on the results of the criminal background check and/or drug screen, the student will be dismissed from the respective Health Sciences program. No alternative clinical experience will be arranged on behalf of the student, resulting in the inability of the student to meet the curriculum requirements of the program. Students are encouraged to follow due process procedures described in respective Health Sciences program Student Handbooks should they feel ineligibility was determined as a result of false or inaccurate information. Students can expect to absorb all costs related to criminal background checks and/or drug screens. Specific procedures will be provided to students in the Health Sciences program upon acceptance and enrollment. Students should also expect to submit to a criminal background check, at their own cost, when seeking eligibility for state licensure or national certification.

Admissions to Associate Degree Nursing (Day Option)

A. Nash Community College Application

Students must complete an application for admission to Nash Community College by January 30 before beginning Step I. Submission of high school transcripts is also required for program admissions (See Curriculum Program Admission Procedures).

B. Associate Degree Nursing Program Application Process

Step I: Submit an Associate Degree Nursing program application to the Health Sciences Admissions Coordinator by February 1 for consideration for admissions in the following fall semester (August). To be eligible for a program application, the student must meet the following criteria:

1. Students must be eligible for enrollment in ENG 111 without a co-requisite and MAT 171 without a co-requisite.
2. The student's overall grade point average must meet or exceed 2.0.
3. Students must complete a Nurse Aide I program and demonstrate current certification on the North Carolina Registry for Certified Nursing Assistant I (CNAI). The student is responsible for providing documentation to the Health Sciences Admissions Coordinator upon program application.

Note: Only letter grades of “C” or higher in non-nursing courses and nursing (NUR) courses with a grade of “B” or higher will count toward completion of the Associate Degree Nursing degree.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Should there be more qualified applicants than space available, applicants are ranked and selected for admission based on the following criteria:

1. HESI-A2 composite percentage score.
2. Successful completion of the following courses with a grade of “C” or higher by the program application deadline of February 1:
 - BIO 168 Anatomy & Physiology I 2 Points
 - BIO 169 Anatomy & Physiology II 2 Points
 - MAT 171 Precalculus Algebra 2 Points
3. An earned degree (Associate, Bachelor, etc.) will score 2 points in the ranking of students.
4. Current NAII status by the NCBON will score 1 point in the ranking of students. Documentation must be submitted to the Health Sciences Admissions Coordinator by the application deadline.
5. A student currently enrolled at the College will score 1 point in the ranking of students.

Step IV: Applicants will be notified of their admission status by mail utilizing the address on file at the College. All additional correspondence will occur through the College's student email. Applicants notified of conditional admission must complete the following steps by specified dates to be accepted into the ADN Program:

1. Submission of a completed physical examination form. The physical exam can be performed within a time frame of 12 (twelve) months prior to enrollment for the fall semester.

2. Immunization requirements must be complete in accordance with North Carolina Law as well as recommended immunizations for students working in the health care environment.
3. Submission of evidence of current AHA BLS Provider CPR certification.

Admissions to Associate Degree Nursing Program (Evening Option)

A. Nash Community College Application

Students must complete an application for admission to Nash Community College by January 30 before beginning Step I. Submission of high school transcript is also required for program admissions (see Curriculum Program Admission Procedures).

B. Associate Degree Nursing Program Evening Option Application Process

Step I: Submit an Evening Option Associate Degree Nursing program application to the Health Sciences Admissions Coordinator. Applications for the next cohort will be accepted September 1, 2021 – February 1, 2022 for consideration for admissions in the following fall semester (August 2022). To be eligible for a program application, the student must meet the following criteria:

1. All non-NUR prefix curriculum coursework must be completed by the application deadline.
2. The student's overall grade point average must meet or exceed 2.0.
3. Students must complete a Nurse Aide I program and demonstrate current certification on the North Carolina Registry for Certified Nursing Assistant I (CNAI). The student is responsible for providing documentation to the Health Sciences Admissions Coordinator upon program application.

Note: Only letter grades of "C" or higher in non-nursing courses and nursing (NUR) courses with a grade of "B" or higher will count toward completion of the Associate Degree Nursing degree.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Should there be more qualified applicants than space available, the following criteria will be used to determine those selected for admission:

1. HESI-A2 composite percentage score.
2. An earned degree (Associate, Bachelor, etc.) will score 2 points in the ranking of students.
3. A student currently enrolled at the College will score 1 point in the ranking of students.
4. Current NAEL status by the NCBON will score 1 point in the ranking of students. Documentation must be submitted to the Health Sciences Admissions Coordinator by the application deadline.

Step IV: Applicants will be notified of their admission status by mail utilizing the address on file at the college. All additional program correspondence will occur through the College's student e-mail. Applicants notified of conditional admission must complete the following steps by specified dates to be accepted into the ADN Program evening option:

1. Submission of completed physical examination form. The physical exam can be performed within a time frame of twelve (12) months prior to enrollment for the fall semester.
2. Immunization requirements must be complete in accordance with North Carolina Law as well as recommended immunizations for students in the health care environment.
3. Submission of evidence of current AHA BLS Provider CPR certification.

Admissions to Advanced Placement for the Licensed Practical Nurse (Transition Program)

A. Nash Community College Application

Students must complete an application for admission to Nash Community College by October 30 before beginning Step I. Submission of high school transcripts is required for program admissions (see Curriculum Program Admission Procedures).

B. LPN Nurse Transition Plan Program Application Process

Step I: Submit LPN Transition Plan program application to the Health Sciences Admissions Coordinator by November 1 for consideration for admissions in the following spring semester Nursing Transition Concepts (NUR 214) course. To be eligible for a program application, the student must meet the following criteria:

1. Students must be eligible for enrollment in ENG 111 without a co-requisite and MAT 171 without a co-requisite.
2. Students must have taken or be currently enrolled in: ACA 122, BIO 168 and CHM 130/130A. If selected for program entry, students must have completed or be currently enrolled in PSY 150 and BIO 169.
3. Students must demonstrate successful completion of NUR 101, NUR 102 and NUR 103 from a regionally and nationally accredited university or college.
4. The student's overall grade point average must meet or exceed 2.0.
5. Evidence of a current unencumbered LPN license. The student is responsible for providing this information to the Health Sciences Admissions Coordinator upon program application.

Note: Only letter grades of "C" or higher in non-nursing courses and nursing (NUR) courses with a grade of "B" or higher will count toward completion of the Associate Degree Nursing degree.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Should there be more qualified applicants than space available, the following criteria will be used to determine those selected for admission:

1. HESI-A2 composite percentage score.
2. Successful completion of the following courses with a grade of "C" or higher by the program application deadline of November 1:

• BIO 168 Anatomy & Physiology I	2 Points
• BIO 169 Anatomy & Physiology II	2 Points
• CHM 130/130A Intro to Chemistry/Lab	2 Points
• MAT 171 Precalculus Algebra	2 Points
3. An earned degree (Associate, Bachelor, etc.) will score 2 points in the ranking of students.

Step IV: Applicants will be notified of their admission status by mail utilizing the address on file at the College. All additional program correspondence will occur through the College's

student e-mail. Applicants notified of conditional admission must complete the following steps by specified dates to be accepted into the LPN Transition Plan:

1. Submission of a completed physical examination form. The physical examination can be performed within a time frame of twelve (12) months prior to enrollment for the fall semester.
2. Immunization requirements must be complete in accordance with North Carolina Law as well as recommended immunizations for students working in the health care environment.
3. Submission of evidence of current AHA BLS Provider CPR certification.
4. Evidence of successful completion of ACA 122, BIO 168, and CHM 130/130A; completion of or enrollment in BIO 169, AND PSY 150.

Admissions to Practical Nursing Diploma (PN) Program

A. Nash Community College Application

Students must complete an application for admissions to Nash Community College by January 30 before beginning Step I. Submission of high school transcripts is also required for program admissions (see Curriculum Program Admission Procedures).

B. Practical Nursing Diploma Application Process

Step I: Submit Practical Nursing program application to the Health Sciences Admissions Coordinator by February 1 for consideration for admissions in the following fall semester (August). To be eligible for a program application, the student must meet the following criteria:

1. Students must be eligible for enrollment in ENG 111 without a co-requisite and MAT 171 without a co-requisite.
2. The student's overall grade point average must meet or exceed 2.0.
3. Students must complete a Nurse Aide I program and demonstrate current certification on the North Carolina registry for Certified Nursing Assistant I (CNAI). The student is responsible for providing documentation to the Health Sciences Admissions Coordinator upon program application.

Note: Only letter grades of "C" or higher in non-nursing courses and nursing (NUR) courses with a grade of "B" or higher will count toward completion of the Practical Nursing diploma.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count

towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Should there be more qualified applicants than space available the following criteria will be used to determine those selected for admission:

1. HESI-A2 composite percentage score
2. Successful completion of the following courses with a grade of "C" or higher by the program application deadline of February 1:
 - BIO 168 Anatomy & Physiology 2 Points
 - BIO 169 Anatomy & Physiology II 2 Points
 - MAT 171 Precalculus Algebra 2 Points
3. An earned degree (Associate, Bachelor, etc.) will score 2 points in the ranking of students.
4. Current NAI status by the NCBON will score 1 point in the ranking of students. Documentation must be submitted to the Health Sciences Admissions Coordinator by the application deadline.
5. A student currently enrolled at the College will score 1 point in the ranking of students.

Step IV: Applicants will be notified of their admission status by mail utilizing the address on file at the College. All additional program correspondence will occur through the College's student e-mail. Applicants notified of conditional admission must complete the following steps by specified dates to be accepted into the PN Program:

1. Submission of a completed physical examination form. The physical exam can be performed within a time frame of twelve (12) months prior to enrollment for the fall semester.
2. Immunization requirements must be complete in accordance with North Carolina Law as well as recommended immunizations for students working in the health care environment.
3. Submission of evidence of current AHA BLS Provider CPR certification.

Readmissions and Transfer Policies for Nursing Programs

Readmission Policy

The following policy clarifies the conditions under which a student who exits the program without satisfying all of its requirements may return to the program to resume progress toward the Associate Degree Nursing or Practical Nursing Education Diploma.

1. A student who fails to complete any of the Nursing programs as scheduled may reapply to the program by meeting the admissions criteria that are in effect at the time of reapplication.
2. A student who fails to complete the nursing programs as scheduled is eligible for two (2) readmissions. This includes a total of three (3): one (1) application for initial admission to a nursing program; and, two (2) readmissions. The total of three (3) admissions includes all tracks of the Nash Community College Nursing Programs. A student who applies for nursing program re-entry for the first semester of the curriculum sequence will participate in the admission process as stated in the specific nursing program admission procedures. Students who have not been enrolled in the nursing programs in greater than three (3) years must re-apply through the general application process.
3. Re-entry into the programs is not guaranteed and will be considered on a case by case basis considering the point of re-entry, the number of currently enrolled students at the point of re-entry, and space availability for confirmed clinical education learning experiences.
4. The student will be required to demonstrate retention of knowledge and skills in NUR courses by successfully completing both a written proficiency examination with a minimum score of 80% and laboratory competency examination for each prerequisite course to the point of re-entry, regardless of an original passing grade for the course. A dosage calculation examination will also be required. The student must achieve a score of 90 or above on the dosage calculation examination to be eligible for re-entry. A challenge exam taken by a student seeking readmission to a nursing program counts toward the total number of eligible readmissions. (refer to #2 above) All proficiency exams must be completed between 30 and 120 days prior to the beginning of the semester that the student plans to re-enter.
5. A student may be approved to audit a NUR course prior to the semester of desired re-entry. The student is eligible to audit a NUR course if they have received a grade of "B" or higher for the NUR course from the previous academic year, or equivalent transfer course work, and have successfully completed proficiency examinations and competencies for the NUR course during the readmission process to the nursing program. The student approved to audit a NUR course will not be admitted to the program or permitted to participate in the clinical portion of the course. Approval to audit a NUR course is considered on a case by case basis as with the applicant who is seeking readmissions.
6. A student dismissed from a nursing program as a result of inappropriate internet use; misconduct or unprofessional behavior during on- and off-campus learning activities; non-adherence to laboratory safety and clinical education policies; or, significant

concerns in regard to clinical expectations for safety, ethical, and legal standards will not be considered for re-entry to the Nursing programs or subsequent admissions to any health sciences program at Nash Community College.

Transfer Policy

The following policy clarifies the conditions under which a student who wishes to transfer from another nursing program may resume progress toward the Associate Degree Nursing or Practical Nursing Education Diploma.

1. Completion of the admission requirements as stated in the Admission Policy.
2. Submission of transcript(s) from all other nursing program(s) and other post-secondary work for which the student requests transfer credit.
3. The Director of Records and Registrar and the Director of Nursing Programs will evaluate the transcript and determine course eligibility for transfer.
4. Transfer into programs is not guaranteed and will be considered on a case by case basis considering the point of re-entry, the number of currently enrolled students at the point of re-entry, and space availability for confirmed clinical education learning experiences.
5. The student will be required to demonstrate retention of knowledge and skills in NUR courses by successfully completing both a written proficiency examination and laboratory competency examination for each prerequisite course to the point of re-entry, regardless of an original passing grade for the course. A dosage calculation examination will also be required of all transfer students.

Admission to Physical Therapist Assistant Program

A. Nash Community College Application

Students must complete an application for admissions to Nash Community College by May 18 before beginning Step I. Submission of high school transcripts is also required for program admission (see Curriculum Program Admission Procedures)

B. Physical Therapist Assistant Program Application Process

Step I: Submit a Physical Therapist Assistant program application to the Health Sciences Admissions Coordinator by May 20 for consideration for admissions in the following fall semester (August). To be eligible for a program application, the student must meet the following criteria:

1. The student's overall grade point average must meet or exceed 2.0.

2. Students must be eligible for enrollment in ENG 111 without a co-requisite and MAT 171 without a co-requisite.

Note to students: Only letter grades of "C" or higher in non-PTA courses and PTA courses with a grade of "B" or higher will count toward completion of the Physical Therapist Assistant degree.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Applicants are ranked and selected for admission based upon the following:

1. HESI-A2 composite percentage score.
2. Successful completion of the following courses with a grade of C or higher by the program application deadline date of May 20:
 - BIO 168 Anatomy and Physiology I 2 points
 - BIO 169 Anatomy and Physiology II 2 points
 - MAT 171 Precalculus Algebra 2 points
3. An earned degree (Associate, Bachelor, etc.) will score 2 points in the ranking of students. The student is responsible for providing documentation of this information to the Health Sciences Admissions Coordinator by the program application deadline date of May 20.
4. A student currently enrolled at the College will score 1 point in the ranking of students.

Step IV: Applicants will be notified of their conditional admission status by mail prior to the registration period for the fall semester. All additional program correspondence will occur through the College's student e-mail. Applicants notified of conditional admission must complete the following steps by specified dates to be accepted into the PTA Program:

1. Applicants must submit evidence of a recent (within one year) physical examination, using a form provided by the College and available from the Health Sciences Admissions Coordinator. The physical exam must be updated annually following enrollment into the PTA program. Immunization requirements must be complete in accordance

- with North Carolina Law as well as recommended or required immunizations for students working in the health care environment.
2. Applicants must submit evidence of current AHA BLS Provider CPR Certification.
 3. Applicants must submit evidence of a minimum of forty hours of observational experience in a physical therapy setting under the supervision of a licensed physical therapist. The requisite form is available from the Health Sciences Admissions Coordinator.
 4. Submit evidence of current health insurance coverage which must remain effective through completion of clinical learning.

Physical Therapist Assistant Program Readmission

The following policy clarifies the conditions under which a student who exits the Program without satisfying all of its requirements may apply for readmission to resume progress towards the Associate in Applied Science in Physical Therapist Assistant degree.

1. A student who fails to complete the PTA program as scheduled may reapply to the program by meeting the admission criteria in effect at the time of reapplication.
2. A student will be required to proceed through the general selection and acceptance procedures along with all other candidates for the following year if a student demonstrated academic failure or withdrawal by the end of the first technical semester (PTA prefixed courses).
3. A student who reapplies for re-entry at the point of non-progression will be considered if less than three (3) years has passed. In situations where greater than three (3) years have passed, the student will need to apply through the general application process and will be expected to start with the first technical semester of PTA-prefix courses.
4. A student must submit a written letter of intent for readmission to the Program Director describing reasons for leaving the program, desire for re-entering the program, detailed plan of academic preparedness for future success and the anticipated semester of re-entry. The written request must be received within 90 days of the anticipated semester start date.
5. A personal interview may be scheduled between the prospective student and an appropriate member of the PTA program.
6. Re-entry into the program is not guaranteed and will be considered on a case by case basis considering the point of re-entry, space availability per the number of currently

- enrolled students at the point of re-entry, prior academic and clinical student performance, and the number of confirmed clinical education learning experiences.
7. A student will be required to demonstrate retention of knowledge and skills in PTA technical courses by successfully completing both a written proficiency examination and laboratory competency examination for each prerequisite course to the point of re-entry, regardless of an original passing grade for the course. A student must follow the same program course sequence and expected completion timeframe as currently enrolled students at the point of program re-entry.
 8. A student will be required to meet all program policies and maintain satisfactory academic progress throughout the program.
 9. A student dismissed from the program as a result of inappropriate internet use; misconduct or unprofessional behavior during on- or off-campus learning activities; non-adherence to laboratory and clinical education policies; or significant concerns in regard to clinical expectations for safety, ethical, and legal standards will not be considered for re-entry to the PTA program or subsequent admissions to any health sciences program at Nash Community College.
 10. Any student is allowed only two (2) attempts to complete the PTA program.
 11. A student will receive written notification of readmission status.

Admission to Medical Assisting Program

A. Nash Community College Application

Prospective students must complete an application for admissions to Nash Community College by June 28 before beginning Step 1. Submission of high school and all post-secondary transcripts is required for program admission (see Curriculum Program Admission Procedures).

B. Medical Assisting Program Application Process

Step 1: Submit a Medical Assisting program application to the Health Sciences Admissions Coordinator by June 30 for consideration for admission in the following fall semester (August). To be eligible for a program application, the applicant must meet the following criteria:

1. Students must be eligible for enrollment in ENG III without a co-requisite.
2. Students must be eligible for enrollment in MAT 143 without a co-requisite.

3. The student's overall grade point average must meet or exceed 2.0.

Note: Only letter grades of "C" or higher in non-medical assisting courses and medical assisting (MED) courses with a grade of "B" or higher will count toward completion of the Medical Assisting degree or diploma.

Step II: Eligible applicants will be invited to take the HESI Admission Assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the exam fee to take the A2. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

C. Determination of Admission Status

Step III: Should there be more qualified applicants than space available, the following criteria will be used to determine those selected for admission:

1. HESI-A2 composite percentage score
2. Successful completion of the following courses with a grade of "C" or higher by the program application deadline date of May 20:
 - BIO 163 Basic Anatomy & Physiology 2 points
 - MAT 143 Mathematical Meas & Literacy 2 points
3. An earned certificate, diploma, or degree in any Health Care discipline, or degree (Associate, Bachelor, etc.) in any field, will also earn 2 points added to the HESI-A2 score. The student is responsible for providing documentation to the Health Sciences Admissions Coordinator by the program application deadline date of June 30.
4. A student currently enrolled at the College will score 1 point in the ranking of students.

Step IV: Notification of Admission

Applicants will be notified of their admission status by mail prior to the registration period for the fall semester. All additional program correspondence will occur through the College's student e-mail.

D. Additional Medical Assisting Program Requirements

1. Students accepted into the Medical Assisting Program must submit evidence of a recent physical examination, using a form provided by the College and available from the Health Sciences Admissions Coordinator. The physical exam must take place no earlier than one year prior to the Clinical Practicum, which takes place during the third semester of the Program (May – July). Immunization requirements must be completed

in accordance with North Carolina Law, as well as with recommended immunizations for students working in the health care environment.

2. Students must submit evidence of current AHA BLS CPR Certification.

Medical Assisting Readmission (Degree and Diploma)

The following policy describes the conditions under which a student who exits the program without satisfying all of its requirements may return to the program to resume progress toward the Diploma in Medical Assisting or the Associate in Applied Science in Medical Assisting degree.

1. A student who fails to complete the MED program as scheduled may reapply to the program by meeting the admissions criteria that are in effect at the time of reapplication.
2. Re-entry into the program is not guaranteed and will be considered on a case by case basis considering the point of re-entry, the number of currently enrolled students at the point of re-entry, and confirmed space availability for clinical education learning experiences.
3. The student will be required to demonstrate retention of knowledge and skills in MED technical courses by successfully completing a written proficiency examination and laboratory competency examination for each prerequisite course to the point of re-entry, regardless of an original passing grade for the course.
4. A student dismissed from the program as a result of inappropriate internet use; misconduct or unprofessional behavior during on- and off-campus learning activities; non-adherence to laboratory safety and clinical education policies; or significant concerns in regard to clinical expectations for safe, ethical, and legal standards will not be considered for re-entry to the MED program or subsequent admissions to any health science program at Nash Community College.

Medical Assisting Transfer (Diploma or Degree)

An applicant who wishes to transfer successfully completed MED technical courses required for the Diploma or Associate in Applied Sciences in Medical Assisting from another CAAHEP accredited program may be considered for entry to the program by meeting the admissions criteria that are in effect at the time of application with the following considerations:

1. Transfer into the program is not guaranteed and will be considered on a case by case basis considering the point of entry, the number of currently enrolled students

at the point of entry, and space availability for confirmed clinical education learning experiences.

2. Applicants will be required to demonstrate retention of knowledge and skills for MED technical courses previously completed if more than one year has elapsed since completion of the course. Retention will be demonstrated by successfully completing both a written proficiency examination and laboratory competency examination for each course to the point of re-entry regardless of an original passing grade.
3. Per Nash Community College Graduation Requirements, a minimum of 25 percent of the required semester credit hours of the Diploma or Associate in Applied Sciences in Medical Assisting must be earned at Nash Community College.

Admission to Veterinary Medical Technology Program

Students must complete the general admissions application to Nash Community College by May 18th before beginning Step I. Submission of high school transcripts is also required for program admission (see Curriculum Program Admissions Procedures).

Veterinary Medical Technology Program Application Process

Step I: Submit a VMT program application to the Health Sciences Admissions Coordinator by May 20th for consideration of admission in the following fall semester (August). To be eligible for a program application, the student must meet the following criteria:

1. Students must be eligible for enrollment in ENG 111 without a co-requisite and MAT 171 without a co-requisite.
2. The student's overall grade point average must meet or exceed 2.000.

Step II: Eligible applicants will be invited to take the HESI admission assessment (A2) on annually established dates. Testing will be offered at Nash Community College and allowed once per calendar year. Test scores are valid for two years. The higher score will count towards admission. Students will be required to pay the cost to take the A2 at the time of scheduling. Picture ID is required at the testing site. Nash Community College will only accept A2 scores that are directly transferred from HESI.

Determination of Admission Status

Step III: Applicants are ranked and selected for admission based upon the following criteria:

1. HESI -A2 composite percentage score
2. Successful completion of the following courses with a grade of C or better by the

program application deadline date of May 20:

- CHM 130/130A General Organic and Biochemistry/Lab 2 points
 - MAT 171 Precalculus Algebra 2 points
3. An earned degree (Associate, Bachelor, etc) will score 2 points in the ranking of students. The degree awarded must be reflected on the official transcripts submitted to Admissions by the application deadline.
 4. Being employed as a Veterinary Assistant, completing a Veterinary Assistant Certificate program, or demonstrating related work or training experience and handling exposure to animals will score 2 points in the ranking of students. Documentation must be submitted to the Health Sciences Admissions Coordinator upon program application.
 5. A student currently enrolled at Nash Community College will score 1 point in the ranking of students.

Step IV: Applicants will be notified of their conditional admissions status prior to the registration period for fall semester. All program related correspondence will occur by mail (limited) or through the College's student e-mail. Applicants notified of conditional admission must complete the following steps by the established deadlines to be accepted into the VMT Program:

1. Submit evidence of a recent (within one year) physical examination, using a form provided by the College and available from the Health Sciences Admissions Coordinator.
2. Must show proof of a current tetanus vaccination. It is also strongly recommended that the student receive the pre-exposure rabies vaccine. If a student opts to receive the rabies vaccine, it should be completed by the Fall Semester of the first year. If a student has already received the vaccine, proof of an adequate blood titer within the previous 2 years should be provided. If a student declines the rabies vaccine then a waiver must be signed.

In the event that the ranking process results in the same ranking score for more than one student to be offered a seat, priority will be given first to a student currently attending NCC, then the highest overall GPA.

Veterinary Medical Technology Readmission

The following policy clarifies the conditions under which a student, who exits the program, without satisfying all of its requirements, may return to the program to resume progress toward the Associate in Applied Science in Veterinary Medical Technology.

1. A student who fails to complete any of the VMT program as scheduled may reapply to the program by meeting the admissions criteria that are in effect at the time of reapplication. Students who reapply to re-enter at the point of non-progression will be considered if less than three (3) years have passed. In situations where greater than three (3) years has passed, the student will need to apply through the general application process, and be expected to start the beginning of VMT prefix courses.
2. Re-entry into the programs is not guaranteed and will be considered on a case-by-case basis considering the point of re-entry, the number of currently enrolled students at the point of re-entry, and space availability for confirmed off-campus clinical, laboratory and work-based learning experiences.
3. The student will be required to demonstrate retention of knowledge and skills in VMT technical courses by successfully completing both a written proficiency examination and laboratory competency examination for each prerequisite course to the point of re-entry, regardless of an original passing grade for the course.
4. A student dismissed from the VMT program as a result of inappropriate internet use; misconduct or unprofessional behavior during on- and off-campus learning activities; non-adherence to laboratory safety, clinical education and policies; or, significant concerns in regard to clinical expectations for safety, ethical, and legal standards will not be considered for re-entry to VMT Program

Admission to Criminal Justice/ Forensic Science/ Basic Law Enforcement Training Programs

All prospective students are advised that the North Carolina Criminal Justice Education and Training Standards Commission sets minimum standards for employment for law enforcement officers, correctional officers, state youth services officers, probation and parole officers, surveillance officers, and intake officers. Some of the minimum standards currently used by criminal justice agencies are age, citizenship, health and physical fitness, education, drug testing, psychological screening, background screening, and freedom from felony and/or serious misdemeanor convictions. Applicants with a felony conviction are not eligible for employment with a criminal justice agency.

Applicants with a class "B" misdemeanor conviction within the last five years will not be eligible for employment with a criminal justice agency. (Ref: North Carolina Administrative Code Title 12:09A. 0204 (3) (A) G.S. 176-6 and 17-10).

Students who have concerns or questions in regard to eligibility are encouraged to contact the Criminal Justice Department or the Basic Law Enforcement Training (BLET) School Director.

Admission to Cosmetology Program

The Cosmetology, Natural Hair Care and Manicure student applicant should be 18 years of age and able to provide a high school diploma or a adult high school equivalency. Students not yet 18 must provide a high school diploma.

All new students start in the Fall semester. In addition to completing the general admission procedures, applicants must submit a current (within 12 months) and satisfactory tuberculosis skin test report. This report must remain current while in the program.

Students should also submit a current state ID or driver's license and social security card. All home school students and public high school students in the 10th and 11th grade should apply through the Career and College Promise Program.

Cosmetology program applicants should be aware that the North Carolina State Board of Cosmetic Art reserves the right to deny licensees to anyone convicted of felony; even after successfully passing the state examination.

Admission to Early Childhood Education Program

Students entering the Early Childhood Education Program should be cautioned that according to the provisions of North Carolina General Statute 110-91(8) persons with certain criminal records or personal habits or behavior which may be harmful to children are excluded from operating or being employed in a child care setting regulated by the NC Division of Child Development. Should a student seek employment in a regulated center a criminal background check will be performed as required by NC General Statute.

Nash Online (Distance Education)

Nash Community College works to ensure that students enrolled in distance education courses are being provided with the same quality instruction and content, and have access to the same services as on-campus students.

Distance Education Course Definitions

Online Course (OL) – A course in which instruction and materials are presented entirely online using a Course Management System (CMS). Courses may have proctored testing. Completion of a mandatory Enrollment Verification activity is required by every online student within the first 10% point for each online course.

Blended Course (B) - Blended classes combine traditional face-to-face instruction with online instruction where 50% or less of instruction takes place online and required face-to-face classroom sessions are appropriately predetermined by the instructor. Both face-to-face and online components must be integrated, and a required face-to-face meeting will occur within the first 10% point of the course. A schedule of expected on-campus class sessions will be made available by the instructor in a Course Management System (CMS) at the beginning of each blended course.

Hybrid Course (H) - Hybrid classes combine traditional face-to-face instruction with online instruction, where greater than 50% but less than 100% of instruction takes place online and required face-to-face classroom sessions are appropriately predetermined by the instructor. Both face-to-face and online components must be integrated, and a required face-to-face meeting will occur within the first 10% point of the course. A schedule of expected on-campus class sessions will be made available by the instructor in a Course Management System (CMS) at the beginning of each hybrid course.

Virtual (V) - Virtual learning allows for course participation from almost any remote site. The expectation of virtual courses, those identified with the letter V in the course title, is that students will attend and participate online during the scheduled course time. NCC's virtual learning environment is interactive and students are able to communicate with their instructors and other students in real time during the class. A schedule of expected virtual class sessions will be made available by the instructor in a Course Management System (CMS) at the beginning of each virtual course.

Moodle

OpenLMS is the primary course management system used to facilitate distance education courses at Nash Community College. OpenLMS is based on the Moodle platform and commonly referred to as "Moodle" in college communication. Every enrolled curriculum student will receive Moodle login credentials. Login instructions are provided at moodle.nashcc.edu. For security purposes, sharing your student login credentials is prohibited.

Nash Community College requires all faculty members to make their contact information and course syllabus available in Moodle. Faculty utilize Moodle to include supplemental handouts and resources, grades, and assignment submission links. Other forms of supplemental online instruction may be used in addition to Moodle. Students are encouraged to have independent access to the Internet as a supplemental part of every Nash Community College course.

Online Courses

The College provides courses online via the Internet and shall follow the requirements below in the offering of these classes. It is assumed by the College that any student who enrolls in an online course is acquainted with the Internet, a word processing program, web searches, the use of a web browser, and communicating via e-mail. The student will have a Student Email account provided by the College.

1. The three criteria for establishing an online course are listed below:
 - a. The course content is consistent with the mission/purpose of the College.
 - b. The need for the course to be taught in this manner is student-driven.
 - c. The required development lead time and resources to offer the course are adequate and available.
2. Students shall follow the general admission procedures of the College and shall register for the course as the semester schedule indicates (note Admission requirements in the College Catalog).
3. (OL) section courses officially begin the first day of the scheduled course and will not be made available to students until the first day of the class. Every student in an online (OL) course is required to complete the Enrollment Verification Activity or first course assignment within the first 10 percent point of each online (OL) course in order to remain enrolled in the course. Completion of the Enrollment Verification Activity or first course assignment indicates that an online (OL) course student verifies his or her enrollment and attendance in the online (OL) course. Online (OL) courses are to be made unavailable to any online (OL) course student who does not complete the Enrollment Verification Activity or first course assignment within the first 10 percent of the course. Furthermore, the student is to be marked as a "no show"(NS) in WebAdvisor attendance tracking. Instructors are responsible for submitting a 10 percent Census Report after the predetermined 10 percent point of each online course.
4. Online course requirements, prerequisites, grading and transfer credit shall be consistent with the course when taught in the traditional manner.
5. If a text is required for the online course, it shall be consistent in content with the course when taught in the traditional manner.

6. Satisfactory progress and required attendance will be monitored by assessing the completion of assignments by their respective due dates as noted on the online course outline.
7. Students will evaluate the course and the instructor for Fall and Spring courses in accordance with the established evaluation procedure of the College at the 70% point of the course.
8. Students taking online courses are subject to the Academic Progress Policy of the College.
9. Nash Community College does not impose additional student charges related to online programs.

Distance Education - Academic Integrity and Online Proctoring

Nash Community College puts forth an effort to eliminate costs to students associated with verification of student identity by allowing the instructor to determine if an exam or activity requires proctoring. Students should check the course syllabus to determine if the course(s) require proctoring services, available through the NCC Campus Store. All students registered for online courses are expected to have laptops equipped with a webcam and microphone capable of recording activities and taking proctored exams.

Nash Community College requires weekly assignments in online courses to gauge understanding of the course concepts. At the discretion of the instructor and the Department of Digital Teaching and Learning, students may be asked to record themselves demonstrating course skills and activities or taking an online exam. Inconsistency, or variances, in the weekly performance assessments or on major exams may prompt the instructor to require a proctored exam.

If proctoring is deemed necessary, the instructor may require the use of an external proctoring company or require the student to verify identity using a government-issued ID or ID issued by NCC by sharing a live snapshot or recording of themselves holding a valid ID. The activity may be monitored in real-time with webcam, or submitted as a video recording.

Commitment to Online Student Enrollment

The college makes every effort to ensure that distance education students are able to enroll and submit the necessary documentations from a distance. The college has staff who work with distance education students throughout the enrollment process without the need for in-person interactions.

If it is determined that a distance education student needs to take a placement test, the student will follow the Remote Placement Testing procedure described in the College Catalog.

Counseling Distance Education Students

Distance education students have the same access to resources as the College's traditional, on-campus students. The College provides in-person, virtual, and other digital communication forms for counseling, orientation, advising, and other student support services. Information about student support and counseling services are available in the College Catalog and on the College's website.

Online Tutoring and Supplemental Instruction

All students, including distance education students, have access to tutorial and supplemental instruction resources. Some of these include, but not limited to Smarthinking, online office hours, Turnitin.com, Writing tutoring, NCLIVE, Tutoring for Life, Achieve 3000, etc. Distance education instructors share and provide students with the college's online tutoring resources.

The college also provides tutoring to our distance education students. Where available, tutors are set up in labs on campus with access to a webcam and monitor that allows students to log in ask questions from remote locations.

Online Advising

All distance education students are assigned an academic advisor, which may include the Advising Center. The Advisors are available remotely to assist the student to create a plan of study to ensure the student has the best chance of successfully graduating and receiving stackable credentials throughout the degree.

Academic Regulations

Student Rights and Responsibilities

Each student is guaranteed the privilege of exercising his or her rights of citizenship under the Constitution of the United States without fear or prejudice. In addition to constitutional rights as a citizen, each individual enrolled at the College is guaranteed additional student rights, which are listed below:

Students are free to pursue their educational goals. Appropriate opportunities for learning in the classroom and on the campus shall be provided by the College.

Free inquiry, expression, and assembly are allowed by students following College approved guidelines and that in no way impairs the learning environment. These guidelines may be obtained from the Vice President of Student and Enrollment Services.

Due process is guaranteed to all students who have a concern regarding college decisions that directly affect them. Appeals are directed to the Student Affairs or Academic Review Committee.

Evaluation of student academic performance shall not be prejudicial. All students are entitled to an explanation of the basis for course grades. The College, however, has the right to set academic standards, which students are expected to meet.

The College and members of the College community have the right to expect personal safety, protection of property, and the continuity of the educational process.

Students are expected to acquaint themselves with and observe College regulations and policies contained in this catalog and all announcements made through the Administration.

It is the responsibility of each student to be knowledgeable and meet the graduation requirements of the College in his/her particular program of study and to maintain the minimum required grade point average. Counselors and academic advisors will work with all students, but the final responsibility is that of the individual student.

Student complaints not related to the Student Affairs Committee or the Academic Review Committee may be submitted in writing to the Vice President of Student and Enrollment Services. The Vice President will respond in writing within seven (7) working days. The student may appeal this decision to the Vice President of Instruction and Chief Academic Officer.

Academic Integrity

Nash Community College upholds the integrity of the academic process. Academic dishonesty undermines that integrity. Academic dishonesty includes cheating and plagiarism. Cheating is an attempt to use unethical or dishonest means to perform work for a course. These may include, but are not limited to, copying the work of others, bringing unapproved sources of information during tests or other work ("cheat sheets," the use of information stored on electronic devices, the use of others' work on out of class assignments, etc.), and any other covert means to complete work without the approval of the instructor. Cheating encompasses both those giving and receiving aid.

Plagiarism is the undocumented use of information or the work of others presented as one's own. Nash Community College recognizes two types of plagiarism - accidental plagiarism and deliberate plagiarism.

Accidental plagiarism occurs when a student attempts to cite their sources, but does so improperly or incompletely. Nash Community College treats accidental plagiarism as poor work, and it will be graded as such.

Deliberate plagiarism occurs when a student copies the work of others or purposefully uses information from sources with no attempt to document it and presents it as their own. Nash Community College treats deliberate plagiarism as academic dishonesty.

Academic dishonesty is dealt with as follows:

1. For a first offense within a course, the student will receive a zero for the work in question. The student will be counseled by the instructor. An Academic Dishonesty Report form will be forwarded to the Vice President for Curriculum and Chief Program Officer and maintained on file.
2. For a second offense within a course, the student will receive an F for the course. An Academic Dishonesty Report form will be forwarded to the Vice President for Curriculum and Chief Program Officer and maintained on file.
3. Repeated offenses may lead to the recommendation of additional actions and penalties, including suspension or expulsion from the College in accordance with the Student Dismissal, Suspension, or Expulsion Authority procedure.

Registration

Students are required to register by the beginning of each semester on registration dates which are shown on the calendar in this catalog. Prior to the end of each semester, currently enrolled students may register with an advisor or through WebAdvisor for the following semester. Students who are on academic progress must register with an advisor, department chair or counselor as referenced later in the Academic Regulations section. Students who owe past due balances from prior terms will not be allowed to register until past due balances have been paid.

Audit

Through the 85 percent point of fall and spring terms and an equivalent period of the summer term, a course may be changed from a credit to audit with no academic penalty. For an official change of status, the student must obtain, complete, and submit the necessary form on WebAdvisor in the Student Forms area.

Any student who wishes to continue attending classes following the change to an audit status must declare this intent on the audit form. Students at the time of registration declaring audit status for a course will not be required to complete this process. Students are encouraged to attend classes and participate in all class activities. Changing from credit to audit is not permitted after the designated date for a given term. Audited courses receive no grade and no quality points. Classes being audited are not eligible for financial aid or VA benefits.

Course Section Numbers

The following section numbers are used on registration schedules to describe the time frames, type of course, or groups of students served:

Sections	Courses
01-19	Day Courses
20-29	Evening Courses
30-31	Proficiency Only (ZP)
40-42	Career and College Promise High School
43-46	CIHS: Early College High School
47-49	CIHS: CITI High School
60-69	Fast Track Courses
70-79	Independent Study Courses
80-84	Electric Line Construction Technology-EMC
85-87	Electric Line Construction Technology-Duke Energy
88-89	Electric Line Construction Technology-ElectriCities
90-99	Miscellaneous Off-Campus Courses
01S-19S	Self-Supporting Courses
B01-B99	Blended Courses
H01-H99	Hybrid Courses

OL01-OL99	Online Courses
V01-V99	Virtual Courses
01G-99G	Global Courses
C01-C99	Concurrent Course with Continuing Education
01P-99P	Primary Linked Courses
01D-99D	Dependent Linked Courses
SK	Basic Skills Plus

Student Classification

<i>Freshman</i>	A student who has completed fewer than 32 semester hours.
<i>Sophomore</i>	A student who has completed 32 or more semester hours.
<i>Full-Time Student</i>	A student who is registered for 12 or more semester hours.
<i>Part-Time Student</i>	A student who is registered for fewer than 12 semester hours. 3/4 time = 9 – 11 credit hours 1/2 time = 6 – 8 credit hours Less than 1/2 time = 1 – 5 credit hours
<i>General Student</i>	A student who is registered for specific curriculum credit courses, but who has not declared a curriculum major or completed 18 credit hours.
<i>Conditional Student</i>	A student who has not completed admission procedures.
<i>Course Load</i>	A student who carries a minimum of 12 hours of credit is considered a full-time student. However, the normal load to progress for graduation is 16 hours per semester. Any student attending Nash Community College shall not enroll in more than 21 credit hours per semester without permission of the department chair and Associate Vice President of Instruction. Any student enrolled in two or more colleges concurrently during a semester shall give each college complete enrollment information including the name of each college enrolled, the number of credit hours taken, the class schedules, and other relevant information.

Any student found exceeding a total of 21 credit hours during a semester at two or more institutions and failing to give complete and accurate enrollment information shall be prohibited from taking courses at Nash Community College for one academic year.

Attendance Policy

Nash Community College is an attendance taking institution. Attendance or online academically related participation is required of all curriculum courses regardless of program, degree level, or delivery type. All courses at Nash Community College are web-enhanced. In order for a student to receive the optimum benefit of instructional programs, regular class attendance is required and recorded by the appropriate faculty member using the College's approved attendance recording system. All syllabi will reflect the appropriate attendance requirement. It is the student's responsibility to inquire about and complete missed assignments. A withdrawal process will be initiated for students who fail to attend classes for sections with scheduled seated class time (face to face sections) or demonstrate academically related participation for scheduled online sections (blended, hybrid or online sections) after two (2) weeks or 14 consecutive calendar days of recorded absences (excluding scheduled breaks of 5 consecutive days). Some programs may have additional attendance or participation requirements as detailed in syllabi and other program documentation.

Students must be physically present at least once within the first 10% of a face to face, blended or hybrid course in order to remain in the course. Students taking online classes must submit the Enrollment Verification Activity (EVA) on or before the 10% point of the online class. Any student not physically present or failing to complete an assigned activity, as required by the course delivery format, on or before the 10% point will be reported as a No Show (NS). No Show students are eligible for a 100% tuition refund. Students reported as a No Show will have the semester credit hour total reduced, which may impact financial aid award status.

After the 10% point, the following list constitutes a student is attending for the College's required weekly attendance records submitted and verified by each faculty member:

- Physically attending a class (required for courses with scheduled seated class time)
- Submitting or completing an approved academic related assignment, exam, interactive tutorial, or participating in computer-assisted instruction
- Attending an assigned study group
- Participating in online discussions or activities related to academic matters
- Contact with the faculty member to discuss academic subject matters related to the course

For attendance recording purposes, the following list does NOT constitute a student is attending or participating in academically related activities:

- Physical absences from a class with scheduled seated class time
- Logging into an online course without additional evidence of participation in online academically related activities, assignments or exams (includes all third party learning management systems)
- Email correspondence or other contact with a faculty member that is not related to the specific academic subject matter of the course
- Participating in academic counseling or advisement

Withdrawal Policy

All students have the option to withdraw from any class before the semester 85% point without academic penalty. The student must submit the student Withdrawal Form from WebAdvisor under the heading "Student Forms" by the designated withdrawal date. A student should consult with an instructor or counselor before withdrawing from a course to determine if the action can be avoided. Students receiving financial aid should consult with a financial aid staff member to determine the impact course withdrawal will have on existing and future award status. Students that completely withdraw or stop attending all classes before the 60% point of the semester may be required to repay a portion of their financial aid award back to Nash Community College and/or the department of education.

Faculty are required to initiate the administrative withdrawal procedure on or before the semester 85% point if the student demonstrates two (2) consecutive weeks of non attendance. Students who fail to attend after the semester 85% point will be awarded a course grade based on the grading criteria described in the course syllabus. Nonattendance is defined by missing two consecutive weeks of regularly scheduled class meetings (if applicable) in addition to no participation in any assignments or activities during that period as described in the Attendance Policy.

Students being approved for excused absences, such as trips, illness, etc., are still required to be actively participating in class by completing Moodle assignments, discussion boards, or any approved activity at the discretion of the instructor. Online classes require weekly participation in course activities, discussion boards, or assignments. Correspondence with an instructor or signing into an online course does not constitute participation for attendance purposes. A W grade is non-punitive and will not affect the student's GPA. Faculty documentation will reflect the last date of attendance or participation based on College attendance records.

The College grants each student two (2) days of excused absences per academic year for religious observances. In order for the absence to be excused, students must notify the College in writing within the first ten (10) days of any class and/or course in which they are enrolled. Notification must include the dates of the religious observance for the requested absence. Written notice to the college shall be deemed received when the required "Student Notification of Request For Excused Absence for Religious Observances Form" is received by the Vice President of Student and Enrollment Services (SES), available in SES.

For the purpose of this policy, an excused absence is an absence for which the student is held harmless for failure to attend a scheduled class and for which the instructor provides the student the opportunity to make up any tests, exams, assignments, or other work missed as a result of the absence. Should the student fail to complete the tests, exams, assignments or other work missed during the excused absence after the instructor has provided a reasonable opportunity to complete the missed assignments or other work,

the instructor is authorized to give no credit for the missed work. The excused absence shall still be recorded as an absence for attendance purposes, and could impact a student's enrollment in the course should they fail to adhere to the attendance requirement of the institution.

Request for Medical Withdrawal

The student seeking a withdrawal for medical reasons past the normal withdrawal deadlines should meet with a counselor in Student and Enrollment Services (SES) located in building A. The counselor will discuss the reason for the medical withdrawal and, if the counselor believes the medical reasons are appropriate, provide the student with guidance for the proper submission of documentation.

The student should complete the Request for Medical Withdrawal form(s) and present supporting documentation to the Vice President of Student Enrollment Services and Admissions for review. Acceptable documentation must include a physician's signature, a specific recommendation to withdraw due to medical reasons, and dates verifying that the medical condition corresponds to the semester in which the medical withdrawal is requested.

Medical withdrawals will be recommended for all courses within the specified semester unless the documentation clearly states why the student's medical condition does not require withdrawal from all courses. Supporting medical documentation will be kept confidential.

If the Vice President of Student Enrollment Services and Admissions recommends the medical withdrawal, each instructor will be notified. In the event it is a part-time instructor, the department chair will be informed and appropriate contact is made by the Department Chair.

The Vice President of Student Enrollment Services and Admissions will have the authority to approve or not approve the medical withdrawal.

If approved, the signed Medical Withdrawal Form will be forwarded to the Registrar and Director of Records to officially document the withdrawal.

If the medical withdrawal is not approved, the student has the right of written appeal to the Vice President of Student and Enrollment Services who will have the authority to review all supporting documentation, including the medical documentation submitted by the student, to issue a final resolution of the matter.

Attendance for Veteran Students

The Department of Veterans Affairs (VA) and the North Carolina State Approving Agency (SAA) requires institutions of higher learning to report when a student has a class schedule change, discontinues class attendance or is not regularly attending. The College's policy for veteran student attendance is as follows:

- Students applying for VA educational benefits are notified that in order to remain eligible for the Department of Veteran Affairs (VA) educational assistance benefits regular attendance, per policy, is required.
- When a student's absence exceeds two consecutive weeks, the instructor is required to administratively withdraw the student from class.
- An email will be sent to the veteran student's College provided email account notifying him/her that they will be reported to the Veterans Services Officer (School Certifying Official) for missing more than two consecutive weeks of attendance.
- The Veterans Services Officer (School Certifying Official) will report the last date of attendance to the Department of Veterans Affairs on VA-Once.

Veteran Student Responsibilities:

1. Attend all class sessions (traditional and/or online).
2. Stay in contact with the College's Veterans Services Officer (School Certifying Official) in the event you have questions concerning attendance and VA requirements.
3. Check your College-provided email daily and respond to emails from instructors and the College Veterans Services Officer (School Certifying Official) in a timely manner.
4. If you have been reported to the VA for nonattendance, and you return to class, your re-enrollment is not guaranteed. If your re-enrollment request is approved, it is your responsibility to inform the Veterans Services Officer (School Certifying Official) and request reinstatement of benefits.
5. If you are approved to re-enroll in the class, you will need to continually attend for a period of 30 calendar days, with attendance being verified by the instructor and the Veterans Services Officer, before benefits may be recertified with the Department of Veterans Affairs.

Additionally, NCC recommends that students participating in virtual courses have high speed, wired internet access with a bandwidth of 256k uplink and 512k downlink.

Grading System

The following grading system is used in all courses by Nash Community College. On student transcripts a "P," "S," or "R" grade denotes that the course is not calculated into the current academic grade point average (GPA). Additionally, any course grade with an "*" beside it (ex. C*) has been excluded from GPA calculations. Zero-numbered courses are not included in the academic GPA, hours completed, or hours attempted.

Letter	Numerical Equivalent	Quality Points per Semester Hour
A	90–100	4
B	80–89	3
C	70–79	2
D	60–69	1
F	Below 60	0

W – Withdrawal

A grade of W denotes official withdrawal from a class after the 10% point. This grade is non-punitive and will not affect the student's GPA. Students may withdraw themselves from a class up until its 85% point. Faculty must administratively withdraw students after two consecutive weeks of nonattendance. Please see the Attendance and Withdrawal Policies in this catalog for more detailed information on what constitutes nonattendance, and the procedure for withdrawing from a course.

WA – Withdrawal Attendance *(Grade no longer used as of January 2017)*

After the 85 percent point, an instructor uses a WA during the semester when a student has absences exceeding fifteen (15) percent of the course hours. This grade is punitive and will negatively affect the student's GPA. Faculty will record and submit the last date of attendance for all grades of W.

WE - Withdrawal Emergency

Pandemic withdrawal used in Federal and State emergency.

I – Incomplete

A grade of I denotes no grade and no quality points because of incomplete work. This grade can be given when a student has completed at least 80 percent of his course work. The student must complete the required work and remove the I by the end of the fourth week of the next semester. Otherwise, the I will be recorded as an F.

IE – Incomplete Emergency

Pandemic incomplete grade used in Federal and State emergency.

AU – Audit

An AU denotes no grade and no quality points. A student may initiate a change from credit to audit on or before the semester 40 percent point. This grade is non-punitive and will not affect the student's GPA.

NS – Never Attended

NS denotes no grade and no quality points because the student registered but never attended before the 10 percent point of classes. This grade is not included in hours attempted in GPA calculations and is non-punitive and will not affect the student's GPA. Late course entry is not permitted.

LA – Temporarily Late

LA is a temporary grade designation to be used by the Director of Records and Registrar when course information is not reported on time from the instructional department through no fault of the student.

ZP – Credit By Proficiency Examination

A student may earn credit-by-examination for a given course by demonstrating a required level of proficiency in meeting the established course competencies. Before being allowed to take a course by proficiency examination, a student must provide documented evidence of experience/aptitude or licensure/certification related to the course content. The College will offer Credit by Proficiency Exam not inconsistent with procedures set forth by 1D SBCCC 800.8. Students requesting credit by proficiency examination shall have completed or ensured the following is in place:

1. Complete Credit-by-Examination Request available from the Director of Records and Registrar. Note: students are not eligible for credit by proficiency for a previously attempted course;
2. If the student has appropriate documentation, the Director of Records and Registrar will notify the responsible Department Chair and Vice President of Instruction and Chief Academic Officer for scheduling of proficiency section of course, faculty

assignment, and scheduling of examination. The Department Chair will approve the examination and attest that course competencies are adequately addressed.

3. The student must register and pay all fees prior to scheduling and taking the proficiency examination;
4. The Department Chair and student will schedule an examination between or during the first five (5) days of the semester and no later than census for the course;
5. Credit by examination must be part of the regularly scheduled semester course offerings;
6. A student may not take a challenge/proficiency exam if the student has already earned a grade for the course.
7. If the student is successful, with an equivalent grade of "C" or higher, the instructor will notify the Registrar's office that the student has successfully challenged the course and a grade of CE will be entered in the Student Information System;
8. If the student does not achieve a grade of "C" or higher, the student must complete a drop/add form and enroll in the non-proficiency section, or drop the course subject to the refund requirements;
9. Hours earned by proficiency will not be counted for financial aid or VA benefits, but are allowed as part of the college residency requirement for graduation. Also, students may not use more than 30% proficiency credit in meeting the required hours for graduation or according to collaborative agreement program contracts;
10. Students will not be allowed to attempt more than two (2) courses by proficiency examination per semester;
11. Students will not be allowed to take an examination for credit more than once for any course;
12. Career and College Promise (CCP) students may participate in challenge/proficiency examinations to earn college credit but may not earn dual high school credit. CCP students must enroll in, and successfully complete, the college course to receive dual credit.
13. Credit by examination will be used to calculate credit toward program requirements.
14. College personnel must complete the following steps in addition to those above:

15. Any faculty or staff member must receive prior administrative approval by the Vice President of Instruction and Chief Academic Officer to test by proficiency;
16. The Vice President of Instruction and Chief Academic Officer will inform the President in writing each semester of those staff members wishing to test by proficiency;
17. The College will only use qualified instructors in the subject area to administer test by proficiency; and
18. To avoid the appearance of a conflict of interest, the College will not allow individuals to test by proficiency for courses within their respective departments.

T – Transfer Credit

A grade of T (Transfer Credit) denotes credit received by transfer from another institution. Only the hours of credit will be recorded.

S – Satisfactory

A grade of S (Satisfactory) denotes successful completion of a course and/or associated clinical course objectives and no quality points. The grade is not included in computing GPA. Course hours are used for determining financial aid eligibility related to credit hours attempted and satisfactory academic progress.

U – Unsatisfactory

A grade of U (Unsatisfactory) denotes unsuccessful completion of a course and/or associated clinical course objectives and has no quality points. The grade is not included in computing GPA. Course hours are used for determining financial aid eligibility related to credit hours attempted and satisfactory academic progress.

XA - 90-100

A grade of XA is awarded in developmental or zero-numbered courses. Quality points are not earned for these courses and grades are not included in the calculation of grade point average.

XB - 89-90

A grade of XB is awarded in developmental or zero-numbered courses. Quality points are not earned for these courses and grades are not included in the calculation of grade point average.

XC - 70-79

A grade of XC is awarded in developmental or zero-numbered courses. Quality points are not earned for these courses and grades are not included in the calculation of grade point average.

P, P1, P2 = Passed

A grade of P (Passed) denotes successful completion of course. The grade is not included in computing grade point average. Course hours are used for determining financial aid eligibility related to credit hours attempted and satisfactory academic progress.

R - Repeat/RT-Retake

A grade of R (Repeat) or RT (Retake) denotes unsuccessful completion of course. The course should be repeated. The grade is not included in computing grade point average. Course hours are used for determining financial aid eligibility related to credit hours attempted and satisfactory academic progress.

CC - Course Completion

CC indicates a student successfully achieved the outcomes expected for the course and completed the minimum requirements. The CC grade is given for the pre-curriculum math DMA's.

EL – Credit by Experience

The granting of curriculum credit for nontraditional educational experiences due to passing certification license for public safety.

GPA Calculation

To calculate a GPA, multiply course credit hours by the quality point value of the grade in that course to determine the quality points earned for that course. Add the quality points earned and divide the sum by the total number of semester credit hours attempted. See the following example:

Course	Grade	Course credit hours attempted	x	Grade value	=	Quality points
Course 1	B	3	x	3	=	9
Course 2	B	4	x	3	=	12
Course 3	WA	3	x	0	=	0
Course 4	A	4	x	4	=	16
Course 5	C	3	x	2	=	6
Totals		17				43

In this case, divide 43 by 17 to get a 2.529 grade point average.

Quality Point Average

The earned quality point average is calculated by dividing the total number of quality points earned by the total number of semester hours attempted. On the 4.0 quality point

system, a 2.0 is a C. Only those courses which are required for graduation shall be included in the calculation of the grade point average for veteran students. Satisfactory progress for veteran students is defined as a 2.0 grade point average on courses required for graduation. Fundamental or zero-numbered courses shall not be included in the grade point average calculation either for satisfactory academic progress or for graduation requirements for the veteran student.

Grade Forgiveness Procedure

Nash Community College automatically computes the GPA for a student using the best grade received for each course. It is not necessary to request forgiveness for a course grade when the course is retaken.

Transfer students are encouraged to talk with a transfer advisor about how grade forgiveness will impact transcripts.

Repeating Courses

A student may repeat a course only once if a passing grade has been previously received for the course. In such cases, the higher grade will be used to calculate the grade point average. For graduation, the credit earned for a course will not be counted more than once in determining the total number of hours needed for graduation. This policy does not apply to students enrolled in developmental courses. It is understood that it may be necessary for students to repeat the developmental courses in order to attain a level of proficiency required to meet prerequisite requirements or for entry into curriculum programs.

Course Substitutions

The College shall determine course substitutions in curricula programs in certain circumstances, however, the appropriate number of hours must be met in the curriculum standard category. Course substitutions shall add value to the applicable major, related, general education, or work experience segments of the curriculum program and should be limited to no more than two course substitutions per program. Required major core courses are not allowed to be substituted. Course substitutions may be initiated by an academic advisor, and must be approved by the appropriate department head with oversight of the program of study. All substitution approvals must be verified by the Director of Records and Registrar. Documentation of this approval will become part of the student's permanent file in accordance with the North Carolina Community College System's Records Retention Policy.

Change of Grade Policy

After a grade has been posted on a student's record, it may be changed only under the following conditions:

1. The student submits a written request to the instructor within thirty days from the date the grade is given.

2. The student forwards a copy of the request to the Associate Vice President of Curriculum and Chief Program Officer, Vice President of Student Enrollment Services and Admissions, and the Director of Records and Registrar.

The instructor in consultation with the Vice President of Curriculum and Chief Program Officer will determine whether to grant or to deny a change of grade and will notify the Director of Records and Registrar. A change of grade must be made within the semester for which the request is filed. Students may appeal decisions made through the Academic Review Committee.

Grade Reports

Grades for all courses taken during a semester will be posted to WebAdvisor. There will be a 24-hour grace period for instructors to post grades on WebAdvisor, with the exception of the last day of classes when grades must be posted by 9:00 am the following day.

Scholastic Honors

Dean's List

To qualify for the Dean's List, a full-time student must make a 4.0 quality point average for the semester. A student who receives an incomplete will not be eligible for the Dean's List. Developmental courses (DRE and DMA) do not count towards satisfying Dean's List requirements.

Honor Roll

To qualify for the Honor Roll, a full-time student must make a 3.3 quality point average for the semester and must have no grade lower than a C. A student who receives an incomplete will not be eligible for the Honor Roll. Developmental courses (DRE and DMA) do not count towards satisfying Honor Roll requirements.

Transfer of Credit Between Institutions

Educational work completed at recognized regionally and nationally accredited postsecondary institutions may, where applicable, be credited toward the requirements of a degree, diploma, or certificate program at Nash Community College. The student may file an official transcript of all post-secondary work for evaluation, but final acceptance or rejection of the transfer credit is Nash Community College's decision. Transfer credit will not be granted for any grade lower than a C. A minimum of 25 percent of the semester credit hours of a degree or 50 percent for diplomas and certificate programs of study is required in residence for graduation from Nash Community College. Fundamental courses taken through the North Carolina Community College system within the past two years will be accepted for transfer. DMA's and DRE's will be accepted from NCCCS permanently. Technology credits older than five years will be evaluated on a course-by-course basis.

Credit will be allowed for up to thirty-two (32) semester hours of work based on testing with the College Level Examination Program (CLEP). The student must request that the CLEP exam scores be sent to Nash Community College for review by the Director of Records and Registrar. A score in the 50th percentile or above as recommended by the American Council on Education must be achieved to earn credit on most CLEP subject exams. No credit is given for the general exam.

Credit for DANTES Subject Area Exams, USAFI courses, and for service school training may be granted where appropriate to the student's curriculum. DANTES scores must meet ACE (American Council on Education) recommendations. Service school training will be evaluated on the basis of A Guide to the Evaluation Experiences in the Armed Service published by the American Council on Education. USAFI courses will be evaluated on the basis of the current catalog of the United States Armed Forces Institute.

Having experience or a particular skill set may qualify the student to take a proficiency exam in order to receive credit for a course with similar content or skills. The student should contact the department chair for the course(s) in question for information regarding a credit by proficiency exam.

Credit earned at Nash Community College may be transferred to similar programs at other institutions in the North Carolina Community College System as well as many four-year colleges. The North Carolina Comprehensive Articulation Agreement addresses particular courses and institutions for which this applies. This agreement can be viewed at <http://www.northcarolina.edu/college-transferarticulation-agreements/comprehensive-articulation-agreement-caa>. Other colleges and universities may also accept credit earned at Nash Community College on a course by course basis.

Credit for Nontraditional and Prior Learning

The granting of curriculum credit for nontraditional and/or prior learning will be considered upon receipt of appropriate official documentation. A committee, including the Vice President for Instruction, the Vice President for Corporate and Economic Development, the Vice President of Student and Enrollment Services, and the related content area expert, will review and evaluate the documentation, determine the applicability to the student's educational program. A recommendation will be made to the Vice President for Instruction for final approval. Transfer credit for nontraditional and/or prior learning from an accredited institution is limited to no more than 75 percent of an associate degree, and 50 percent of diploma or certificate requirements. The student will receive written notification of credit awarded on the transfer credit evaluation form. Credit for nontraditional and/or prior learning will be noted on student transcripts.

Transfer of Credit Between Programs

Any student who wishes to change from an unfinished program of study to a second program of study, and possibly transfer credit between the programs may do so without restriction as long as the requirements for the new program are met. However, students wishing to make a third program of study selection should meet with a counselor to discuss career options, academic problems, etc. Program change forms are available from WebAdvisor under the heading “student forms” and are to be submitted electronically.

A program change form may be submitted at any time during the semester, but the Registrar and Director of Records will not make an official data entry change until after the semester has been completed and before the start of the new semester.

Credit earned in any program may be applied to a different program. Fundamental courses are awarded institutional credit only and are listed in the catalog. No credit will be awarded for work taken on a non-credit basis. Credit hours successfully completed and quality points earned in a prior program which are applicable to the new program will be applied toward graduation.

Quarter System Classes

Courses taken under the quarter system may not be equivalent to semester course hours and will be evaluated on a case-by-case basis by the Director of Records and Registrar.

Credit from AP and IB Testing

Nash Community College participates in Advanced Placement (AP) and International Baccalaureate (IB) programs and awards credit based on the following schedule. These schedules are reviewed annually by the Testing Committee and are subject to change without notice.

To be considered for credit and/or placement, students must ask the appropriate testing service to send official test results to Nash Community College.

Advanced Placement Exams

Exam	Minimum Score	Awarded Credit
Biology	3 or 4	BIO 111
Biology	5	BIO 111 and BIO 112
Calculus AB	3*	MAT 263
Calculus AB	4 or 5	MAT 271
Calculus BC	3	MAT 271
Calculus BC	4, 5	MAT 271 and MAT 272
English	3	ENG 111
English	4	ENG 111 and ENG 114

Exam	Minimum Score	Awarded Credit
English	5	ENG 111 and ENG 112
History	3	HIS 131
History	4 or 5	HIS 131 and 132
Psychology	3,4 or 5	PSY 150

*If MAT 271 is needed for a program, the student should ask about Direct Calculus Placement.

International Baccalaureate Scores

Students at NCC may receive placement through the International Baccalaureate program. Typically, students can earn advanced placement and /or college credit with scores of 5, 6, or 7 on higher level exams. Students will be granted placement or credit on a course-by-course basis, depending on individual scores, rather than on the basis of completion of the IB diploma.

To be considered for credit and/or placement, students must ask the appropriate testing service to send NCC their official test results.

Academic Progress

Reminder: Receiving Financial Aid is dependent upon satisfactory academic progress. Refer to the Financial Aid section of the catalog for details.

A student's academic progress is monitored to assist the student in successfully completing a chosen program of study within a given time period. The following scale is used to ensure that the student will attain a cumulative grade point average of 2.0 which is required for completion of all certificate, diploma, and degree programs.

Hours Attempted	Cumulative GPA	Action
1-18	< 1.5	Academic Review
19-36	< 1.5	Academic Warning
Over 36	< 2.0	Academic Probation

Academic Review

A notification is sent to inform students about NCC services that are available to help them have a successful college experience. Students will be reminded that a GPA of 2.0 is required for completion of degree, diploma, and certificate programs.

Academic Warning

A notification is sent to warn students that, if the GPA does not improve, the student will be placed on Academic Probation with a reduced course load. Students will be reminded

that a GPA of 2.0 is required for completion of degree, diploma, and certificate programs. Students will need to register with an advisor.

Academic Probation

A notification will be sent. The student will be allowed to take only 10 credit hours. Students will be reminded that a GPA of 2.0 is required for completion of degree, diploma, and certificate programs. Students will need to register with the Director of Placement and Career Services in Student Services.

Graduation Requirements

The following general requirements apply to all programs for graduation; however, there may be additional departmental requirements.

1. A student must meet all curriculum requirements with an earned overall grade point average of 2.00.
2. A minimum of 25 percent of the semester credit hours of a program of study of a degree (A.A., A.E., A.S., A.A.S., or A.G.E.) or one half certificate or diploma program must be earned at Nash Community College.
3. All financial obligations to Nash Community College must be met before a diploma is awarded or transcripts are sent from the institution.
4. Application for graduation must be made by the posted deadline of the expected graduation semester.
5. Degree seeking students - Must have an official high school, high school equivalency, or Adult High School Diploma (AHSD) transcript on file showing graduation.

In order to satisfy the specific course requirements for degree completion all students must:

- Successfully complete the courses in an individual program of study.
- Provide an official transcript for transfer credit from an accredited institution for courses completed with a C or better.
- Provide evidence of CLEP and DANTES course completion (individual students will be allowed only thirty-two (32) hours in satisfying degree requirements).

Nash Community College does not award credit for experiential learning, certificates, training, and/or continuing education courses. Students may pick up degrees and diplomas one month after classes have been completed.

Continuous Enrollment

A student maintains continuous enrollment provided a break in enrollment does not equal or exceed one year, excluding summer semesters.

Catalog of Record

Students are expected to meet the catalog requirements in effect at the time of their enrollment into a curriculum program. Anyone not in continuous enrollment for more than one year (not counting Summer) will be readmitted under the requirements of the current catalog. A student who changes programs must meet the requirements of the catalog in effect at the time of the change of program. A student's academic advisor can recommend substitution of courses with adequate cause. All substitution approvals must be verified by the Director of Records and Registrar.

Most courses can be counted for credit toward graduation for an indefinite period of time. Some courses that depend heavily on technology, speed and accuracy, and physical skills will be subject to review after five years unless the student has been continuously enrolled. Courses subject to review may include, but not limited to, keyboarding, computer, and trades courses.

A catalog year is considered current for five years from the date the student was admitted to their program of study.

Graduation Exercises

Spring Commencement Ceremony Participation

Graduation exercises are held each spring for students of Associate and Diploma programs of study. The cap and gown may be purchased at the NCC Campus Store to participate in commencement exercises. Graduation letters will be sent in March. Graduates from the preceding summer and fall semesters will be invited to participate in graduation.

Early Commencement Ceremony Participation

Associate and Diploma students scheduled to graduate at the end of the summer semester following the spring commencement ceremony may request to participate in the spring commencement ceremony. In addition to stated graduation requirements, the following requirements must be met:

1. A student may have a one course maximum remaining to meet graduation requirements. Nash Community College will not be held responsible if a course is not offered during the summer semester.
2. Proof of enrollment in remaining course at Nash Community College or another institution is required.
3. Request for participation in the spring commencement ceremony is due at the same time application for graduation is due during the spring semester (end of the extended registration week).

Students participating before the summer semester course requirement is met will not receive an honor cord until the conclusion of the summer semester, if eligible.

Certificates and Diploma programs do not include scholastic honors.

Degrees, Diplomas, and Certificates Granted

Upon recommendation of the faculty and approval of the Board of Trustees, the appropriate degree, diploma, or certificate will be awarded to a student who has completed the curriculum requirements.

Transcripts

Current and former students may request copies of their academic transcript via the College web site at www.nashcc.edu/transcripts. The College uses a third party vendor, National Clearing House, for the delivery, tracking, and reporting on the sending of transcripts. Transcripts may be delivered by mail or, if available, in a recipient's preferred electronic format. Transcript requests through the National Student Clearinghouse website are usually filled in less than 24 hours. You will be required to create an account and you will be able to pay for transcripts with a credit card. National Student Clearinghouse is fully secure and Family Educational Rights and Privacy Act (FERPA) compliant.

The College provides limited on-campus transcript requests. In person requests for transcripts will be charged at a higher amount than requests generated through National Clearing House. Additionally, there is a 48-hour turnaround time for on-campus requests. During peak times of the year (for example, during pre and post registration periods), processing time will be longer.

Transcripts will not be released if the student is financially indebted to the College or if existing counseling has not been completed for Direct Loans. (A student does, however, have the right to inspect the contents of his/her educational records). Transcripts in the folder from other institutions are property of Nash Community College and will not be returned to the student or copied and will not be forwarded.

A College photo identification card or governmental approved photo identification card is required before transcripts can be released to a student or designated person. A student giving authorization to release a transcript to a designated person must do so in writing and a student signature is required on the Transcript Request Form (which includes a Release of Information Form). The College is authorized to release educational records in accordance with the Family Educational Rights and Privacy Act (FERPA).

North Carolina graduates may receive official copies of their HSE (High School Equivalency) transcripts at no charge by completing a Transcript Request Form available from the North

Carolina Community College System website. Requests can also be made in person at 200 W. Jones Street, Raleigh, NC, between the hours of 8:00 a.m. – 4:00 p.m.

In response to inquiries from the general public, prospective employers, etc., the College will, without student consent, release directory information. Directory Information consists of the student's name, address, telephone number, academic classification, major field of study, participation in officially recognized activities, dates of attendance, degrees and awards received.

Any student who wants to make a request that directory information not be released should contact the Admissions Office.

HSE Verification, Transcript and Diploma Requests

2014 Test Completers

Effective May 2, 2014, the North Carolina Community College System transitioned its HSE credentialing process from the issuance of paper transcripts and HSE diplomas to a paperless electronic transcript system for students taking the test in 2014. The 2014 tester have has the option of ordering a professionally printed North Carolina HSE diploma which is free of charge. Duplicate transcript and diploma requests will cost \$15.00. Students will log onto their MyGED.com account for subsequent requests and may forward their transcripts to prospective employers, colleges or universities.

2002-2013 Test Completers

Duplicate transcript or diploma requests will cost the completer \$15.00. Test takers will need to sign in to <http://exchange.parchment.com/students> to securely order their duplicate transcripts, verifications or diplomas.

1940-2001 Test Completers

The North Carolina Community College System (NCCCS) High School Equivalency (HSE) Records Office will fulfill verification, transcript and diploma requests for individuals who tested before 2002. There will be no charge. Detailed information and a FAQ is posted on the NCCCS web site at

<http://www.ncccommunitycolleges.edu/college-and-career-readiness/basic-skills-plus>.

If you have additional questions concerning this process, contact the NCCCS at steinbeiserd@ncccommunitycolleges.edu or call 919-807-7214.

Student Files

The College shall maintain an application for admission, a transcript of high school work, and documentation of college Course Readiness Assessment scores or Standardized Test scores (SAT/ACT) for all degree or diploma students. The College shall maintain additional information such as medical forms as required for students enrolled in certain

programs. All file forms are property of Nash Community College and will not be returned to the student, and will not be forwarded. The Admissions Office shall ensure that appropriate documents are in the permanent student file. Student records maintained on the College computerized system, Ellucian Colleague and OnBase, are secured by the firewall and password protected.

The Director of Records and Registrar maintains all registration documents, records of release of information, and correspondence relating to the student. Except for the permanent transcript data which is transferred to disk, the paper copy of permanent records of students not enrolled for five (5) years from the date of last enrollment shall be destroyed as specified in the Records, Retention and Disposition Schedule for Institutions in the North Carolina Community College System.

Performance Measures

The Performance Measures for Student Success Report is the North Carolina Community College System's (NCCCS) major accountability document. This annual performance report is based on data compiled from the previous year and serves to inform colleges and the public on the performance of the 58 community colleges. The Nash Community College (NCC) results for academic year 2020 are as follows:

Measure	NCCCS Excellence Level	NCC
A. Progress of Basic Skills Students	42.5%	40.1%
B. Student Success Rate in College-Level English Courses	70.4%	51.6%
C. Student Success Rate in College-Level Math Courses	54.5%	49.8%
D. First Year Progression	71.8%	64.2%
F. Curriculum Completion	61.3%	47.2%
G. Licensure and Certification Passing Rate	1.09	0.93
H. College Transfer Performance	91.1%	83.8%

Financial Aid

Applying for Financial Aid

Nash Community College makes every effort to provide financial assistance, where need exists, for students whose primary goal is to acquire post-secondary education. While students who qualify for aid are usually assisted, the institution expects that all resources at the students' disposal will be used and that the financial aid will supplement these resources.

Application Process

All applicants for financial aid at Nash Community College must:

- Complete "The Free Application For Federal Student Aid" (FAFSA) at <http://fafsa.gov> to receive a "Student Aid Report" which determines eligibility.
- Complete and submit documents requested by the Financial Aid Office.
- If additional documents are needed, a Financial Aid Document Request letter will be sent to your campus email account.

Priority Dates

In order to provide adequate time for processing and awarding financial aid prior to the first day of classes each semester, priority dates are established. Students that submit financial aid applications after the established priority dates should be prepared to pay for tuition, fees, and books. Financial aid award notifications are mailed (electronically or via the U.S. Postal Service) within two weeks of application file completion. Established priority dates for receipt of all required application documents are as follows:

Fall Semester - June 1
Spring Semester - November 15
Summer Semester - April 1

Students are encouraged to apply for financial assistance when they apply for admission. To receive financial aid a student must have a high school diploma from an accredited school or high school equivalency and must be admitted to Nash Community College.

The Financial Aid Office reserves the right to ask for verification of financial information and uses the standards in the current verification guide of the US Department of Education.

Financial Aid is awarded on the basis of need and Satisfactory Academic Progress. It is essential to apply early (January through March) to be given priority consideration for aid since applications will be processed on a first-come, first-served basis.

Financial Aid is awarded based on full time enrollment. Adjustments to awards will be made based on enrollment status after the ten percent point of the semester.

Due to federal regulations, enrollment status is determined by Clock Hour conversion for all diploma and Pell eligible certificate programs. This conversion process may cause a decrease in a student's financial aid award. (This directly affects students in diploma programs such as Cosmetology, Practical Nursing, etc.)

Financial Aid advisors are available to answer any student questions related to financial aid.

Drug Convictions and Financial Aid Eligibility

Students convicted of drug offenses committed while receiving Title IV federal financial aid may be ineligible for federal financial aid for one or more years from the date of conviction. Federal aid includes: Federal Student Loans, Federal PLUS Loans, Federal Grants and Federal Work Study.

Penalties for Drug Convictions

Possession of Illegal Drugs:

- First Offense: 1 year from the date of conviction
- Second Offense: 2 years from the date of conviction
- Third and Subsequent Offenses: Indefinite ineligibility from the date of conviction

Sale of Illegal Drugs:

- First Offense: 2 years from the date of conviction
- Second and Subsequent Offenses: Indefinite ineligibility from the date of conviction

How to Regain Eligibility for Federal Financial Aid After a Drug Conviction

Students can regain eligibility for federal programs no matter how many or what type of drug convictions they have. Students must successfully complete an acceptable drug rehabilitation program that meets the standards set by Congress and the Department of Education. Students will regain eligibility on the date the program is completed.

What is an Acceptable Drug Rehabilitation Program?

An acceptable drug rehabilitation program must require passing TWO unannounced drug tests AND it must either:

1. Be qualified to receive funds from a federal, state or local government agency or program, or from a state or federally licensed insurance company, or
2. Be administered or recognized by a federal, state or local government agency or court, or by a state or federally licensed hospital, health clinic, or medical doctor.

Free Application for Federal Student Aid (FAFSA)

Question 23 on the FAFSA form asks if the student has ever been convicted of a drug related offense. Answering this question falsely, if discovered, could result in fines up to \$20,000, imprisonment, or both.

Convictions During Enrollment

According to the United States Department of Education, if a student is convicted of a drug offense after receiving federal aid, the student must notify the Financial Aid Office

immediately and that student will be ineligible for further aid and required to pay back all aid received after the conviction.

Types of Aid

There are two main types of aid for which a student may be eligible: Gift Aid, which consists of grants and scholarships and does not have to be repaid, and Self-Help Aid which consists of loans and part-time employment. Loans must be repaid.

Each program is regulated by federal, state, and institutional policies. It is essential to consult the Financial Aid Office for details concerning financial aid program specifics, rights and responsibilities of the student, budget information, eligibility criteria, and the application process.

Gift Aid

Grants

A grant is a gift that does not have to be repaid. Grants available include:

Federal Pell Grant

Federal Pell Grants make funds available to eligible Nash Community College students based on enrollment status in a one or two-year curriculum. The actual amount of the grant is determined by the Department of Education. Undergraduate students who have a Bachelor's Degree and/or who are in default of student loans or who have received an overpayment are not eligible for Federal Pell Grants.

Federal Supplemental Educational Opportunity Grant (FSEOG)

Federal Supplemental Educational Opportunity Grants are gift aid for undergraduates with exceptional financial need. Pell Grant recipients with the lowest Expected Family Contributions (EFCs) are given first priority.

North Carolina Community College Grant

Students must be North Carolina residents enrolled for at least six (6) credit hours per semester in curriculum programs. Eligibility is determined based on the same criteria as the Federal Pell Grant; students not eligible for the Federal Pell Grant may be considered for the grant based on their expected family contribution as determined on the Student Aid Report. Students who have earned the baccalaureate (4 year) college degree are ineligible.

North Carolina Education Lottery Scholarship

To be eligible, students must be North Carolina residents enrolled for at least six (6) credit hours per semester in curriculum programs. Eligibility is determined based on the same criteria as the Federal Pell Grant; students not eligible for the Federal Pell Grant may be considered for the grant based on their expected family contribution as determined on

the Student Aid Report. Students who have earned the baccalaureate (4 year) college degree are ineligible. Applicants must complete the Free Application for Federal Student Aid (FAFSA) which is also used to qualify for Federal Pell Grants.

Child Care Grant Program

Assistance with child care expenses from the Child Care Grant Program is contingent upon availability of funds for qualified students enrolled in eligible programs. Applications are available in the Financial Aid Office.

Self-Help Aid

Direct Loans

Direct Loans are low-interest loans for students to help pay for the cost of education after high school. The lender is the U. S. Department of Education and serviced by authorized institutions.

A Subsidized Loan is awarded on the basis of financial need. The six month grace period on interest charged on federal student loans has been suspended, meaning that interest will begin accumulating immediately after a student graduates. This will affect loans made between July 1, 2012 and June 30, 2014.

An Unsubsidized Loan is not awarded on the basis of need. Students will be charged interest from the time the loan is disbursed until it is paid in full. If students allow the interest to accrue (accumulate) while in school or during other periods of nonpayment, it will be CAPITALIZED – interest will be added to the principal amount of the loan, and additional interest will be based on the higher amount.

Students interested in the Direct Loan Program must complete the following:

1. Be admitted into an approved degree, diploma or certificate program, and be maintaining Satisfactory Academic Progress in that program.
2. Complete the FAFSA (Free Application for Federal Student Aid) for the current aid year.
3. Provide additional documents if requested by the Financial Aid Office. Sometimes FAFSA data is incomplete, or the US Department of Education selects a student for verification. If the Financial Aid Office needs additional information before determining your loan eligibility, please comply as quickly as possible.
4. Complete the Nash Community College Loan Confirmation Form available on the College's website.

5. Complete Loan Entrance Counseling. This can be done online at www.studentloans.gov. Once you access this web site, select "Log In" on the right side of the page. If you have had a previous loan with Nash Community College or other institutions, you must complete this process again for the current aid year.
6. Complete the Electronic Master Promissory Note (MPN) at the secure Department of Education site at www.studentloans.gov. Once you access this web site, select the option for "Complete Master Promissory Note." If you have had a previous loan with Nash Community College or other institutions, you must complete this process again for the current aid year.
7. Review your Federal Stafford Loan balance and/or total debt by going to the National Student Loan Database System www.nslds.ed.gov, print and attach a copy to your application. Your loan will not be processed if you do not include a copy of your loan summary.
8. Determine how much the student needs to borrow and the loan period. This will allow the student to complete the Loan Amount Requested and the Requested Loan Term on the Nash Community College Loan Confirmation Form. All loans come in TWO disbursements.

Student Type	Completed Credits	Subsidized	Unsubsidized	Annual Max (Sub+Unsub)
Dependent	Less than 33	\$3,500	\$2,000	\$5,500
Dependent	33 or more	\$4,500	\$2,000	\$6,500
Independent	Less than 33	\$3,500	\$6,000	\$9,500
Independent	33 or more	\$4,500	\$6,000	\$10,500

Note: Students enrolled in all pre-curriculum courses will be limited to borrowing at the first year level until they complete the required pre-curriculum courses.

9. Complete the Nash Community College Loan Confirmation Form (www.nashcc.edu) by December 1 for fall semester, April 15 for spring semester, and June 1 for summer term.
10. Attend and finish your classes. You must attend your classes to be eligible for the loan disbursements. If you withdraw or drop below half-time (6 credits) before your loan is disbursed, the funds will be returned to the Department of Education. Loan refunds (balances remaining after tuition and book charges are deducted) will be disbursed according to the refund method previously selected by the student using Heartland ECSI's RefundSelect portal. Refund dates will be posted on the Financial Aid web site.

Note: Transfer students will not be able to receive the full yearly award if they have already received a disbursement from another school.

Loan Increase

If students want to increase their loan, then they must complete the Nash Community College Loan Increase Form. The student must specify the reason for the increase, and the reason must be in accordance to the requirements listed on the master promissory note. The form must be completed by December 1 for fall semester, April 15 for spring semester, and June 1 for summer term.

Exit Counseling

Students must complete exit counseling if they have either dropped below half time (less than 6 hours), have left the college due to withdrawing or have graduated. The Department of Education (regardless if the student plans to transfer to another school), regulations require that students complete an exit counseling session for their subsidized or unsubsidized Federal Stafford Loans.

The counseling session provides information about how to manage student loans after college and provides information on loan repayment. Exit Loan Counseling can be completed on the federal web site at www.studentloans.gov.

You will not be allowed to reregister for classes or to request transcripts from the College until the exit counseling session has been completed.

Student Employment

The Federal College Work Study Program

The Federal College Work Study Program provides part-time work in academic and administrative departments on campus for eligible students to assist them with paying part of their educational expenses while attending classes. Students must complete the "Free Application for Federal Student Aid" (FASFA), be enrolled at least half-time, and be making satisfactory progress in an eligible program. Applications are available in the Financial Aid Office.

To Maintain Eligibility for Financial Aid

To remain eligible for financial aid, a student must satisfy requirements of the following policies:

Satisfactory Academic Progress

The Federal Student Financial Handbook states the following: "The regulations for satisfactory progress were initially published in October 1983 and were amended on December 1, 1987; April 29, 1994; and November 29, 1994. Every school participating in Student Financial

Assistance (SFA) Programs must monitor its SFA recipients to ensure that they are meeting satisfactory progress standards.”

Satisfactory Academic Progress will be calculated at the end of each academic term and will include all periods of enrollment.

In order to be eligible for financial aid, students must meet the following minimum guidelines:

- **Maximum Time Frame:** Students must complete an eligible program within a time frame not to exceed 1.5 times the normal published time frame. For example, if the academic program length is 70 credit hours, the maximum credit hours that may be attempted is 105 credit hours ($70 \times 1.5 = 105$). The calculation of the maximum time frame includes all hours attempted at Nash Community College and transfer credits from other institutions.
- **Quantitative Standard:** Students must complete 67 percent of the total cumulative credit hours attempted. For example, if a student has attempted 50 credit hours, the student must earn credit for at least 33 hours ($50 \times .67 = 33.5$). Course grades of AU, R/RT, W, WA, WF, WP, F, and I are not considered completions and will adversely affect a student's satisfactory academic rate calculations.
- **Qualitative Standard:** Students must maintain successful academic progress as defined by the Nash Community College catalog (1-36 hours attempted, minimum GPA of 1.5; over 36 hours attempted, minimum 2.0 GPA).

Students who fail to meet the minimum standards for Satisfactory Academic Progress at the end of the semester will be placed on financial aid warning. A student may continue to receive financial aid for one semester while on financial aid warning provided they are otherwise eligible. Students should use this opportunity to re-establish Satisfactory Academic Progress. If, at the end of the financial aid warning period, the student is meeting the minimum requirements for satisfactory academic progress, the financial aid warning is lifted.

Students who fail to make Satisfactory Academic Progress after the financial aid warning semester will be ineligible for financial aid until satisfactory progress has been met. A student may attend the next semester(s) (at the student's expense) in order to meet the minimum standards for Satisfactory Academic Progress.

Satisfactory Academic Progress (SAP) Appeals

Students have an opportunity to appeal their financial aid if they are placed on financial aid suspension. Each student has a lifetime total of three times to appeal their aid. Students will be notified about their SAP status once grades are posted at the end of the semester and will receive a Satisfactory Academic Progress Appeal Form. Appeals will not be granted for previous semesters. Appeals can only be reviewed for the current semester for which the student is seeking enrollment. No appeals will be retroactive.

An appeal will be granted only if the student can document extenuating circumstances that prevent him or her from meeting the Satisfactory Academic Progress Standards. Appeals submitted without documentation will not be considered. Documentation may include, but is not limited to, one or more of the following: statement signed by a physician with dates of treatment/hospitalization verifying that the student's medical condition significantly impacted his or her ability to successfully complete the semester; death certificates or obituary; statement from employer on letterhead and signed by a supervisor, etc. Students must provide a typed explanation stating the reason(s) for their appeal. They must indicate how their circumstances have changed so that they can comply with the policy in the future.

All appeals will be reviewed by the SAP Financial Aid Review Committee. The SAP Financial Aid Review Committee does not meet with students or supporting parties; therefore, it is important for you to provide all information requested on the SAP Appeal Form. The SAP Financial Aid Review Committee meets the first Thursday of every month. In order for the student's appeal to be reviewed by the committee, the appeal must be submitted to the Financial Aid Office by 12:00 noon on the Wednesday before the Financial Aid Review Committee meeting.

Financial Aid Policies and Procedures

Financial aid award packages are based on current funding information from state and/or federal governments and are subject to change. Awards will automatically be posted to a student's account once all items that have been requested from the Financial Aid Office have been received and processed. Students must notify the Financial Office if they decide not to attend Nash Community College or if they choose to decline any funds awarded to them.

Financial aid funds are credited to the student's account at the beginning of each semester to be applied to eligible education expenses. Tuition, fees, and campus store charges are deducted from available financial aid funds. The financial aid office will verify class attendance for each financial aid student. Once attendance and enrollment status has been verified, the remaining award will be disbursed according to the refund method previously selected by the student using Heartland ECSI's RefundSelect portal.

A student must be enrolled in an eligible program to receive financial aid. Any classes taken outside of the student's current program of study may cause a decrease to his/her expected financial aid award.

A student cannot receive financial aid for classes completed by proficiency examination or classes that are audited.

If a student withdraws from all of his/her classes before the 60 percent point in the enrollment period, he/she will be required to repay a portion of the award to the US Department of Education. The student will need to make arrangements to repay this money within 45 days from the withdrawal date. The student should understand, as well, that they could possibly become ineligible for financial aid if they do not make arrangements to repay the money to the US Department of Education.

Financial aid recipients must renew applications each year to be considered for the upcoming academic year as outlined in "Applying for Financial Aid."

Lifetime Limit

Effective with the 2012-2013 Award Year, a student's eligibility for Federal Pell Grant is limited to 12 semesters (or its equivalent).

Refunds and Repayment

Refunds to students receiving Title IV federal funds will be handled in the same manner as specified in the institutional refund policy. The refund policy of the College shall be consistent with the North Carolina Administrative Code and may designate different refund specifications for curriculum and continuing education. Information regarding refunds may be obtained from the Business Office. A student may be required to repay a portion of the Student Financial Assistance (SFA) award if he/she withdraws from the institution or reduces his/her course load before the 60 percent point of the enrollment period.

Financial Aid Disbursement Options

All eligible students whose financial aid has been processed will receive an email from Nash Community College's disbursement partner, Heartland ECSI. This email will direct the student on how to select the student's preferred refund method. Options will be available for refund disbursement methods. If the student is due a financial aid refund, the funds will be disbursed using the student's selected refund method on a designated date each semester.

Late-Start Classes

Students enrolled in late-start classes will have their disbursement reduced or will not receive a financial aid (Pell and/or Direct Loan) disbursement until the late-start classes have begun and attendance has been verified with the instructor through the 10 percent point of class. Please contact the Financial Aid Office for specific information regarding late-start classes.

Veterans Affairs

A Veterans Certifying Official is available to assist veterans and eligible persons who wish to apply for VA educational assistance. Most programs being offered by the College are approved for training under the GI Bill®. Application forms and information may be obtained

from the Financial Aid Office or online at www.nashcc.edu/va. The VA sponsors the following educational assistance programs for qualifying veterans and other eligible persons: Chapter 30, 31, 32, 33, 35, 1606 and 1607.

Students applying for VA benefits must meet curriculum program admission requirements. Please refer to the curriculum program admission section of the Nash Community College catalog.

In-State Tuition for Certain Veterans and Other Individuals

Residency and the appeals process is now regulated by the State of North Carolina. The following message regarding the residency appeal process is required of all students, and is managed by the state:

The state of North Carolina partially subsidizes the cost of North Carolina public college and university tuition for all students whose domicile, or permanent legal residence, is in North Carolina. Residency determination establishes if students should have in-state or out-of-state tuition. Because North Carolina residency status is governed solely by North Carolina statute, lack of eligibility for in-state status in another state does not guarantee in-state status in North Carolina. The residency statute mandates only those who can demonstrate a minimum of twelve months of uninterrupted domicile (legal residence) in North Carolina are eligible for in-state tuition. The statute also places the burden of proof on the student to establish, by a preponderance of evidence, that they are a bona fide domiciliary rather than mere residents of North Carolina.

The Department of Veteran Affairs covers a percentage of in-state tuition for students who are eligible for the Post 9/11 GI Bill®. Students who do not have 100% eligibility will need to make payment arrangements for any remaining tuition balance.

For more information about residency, how it's determined, and the process for appealing residency status for the state of North Carolina, visit www.ncresidency.org. Effective August 1, 2021, Chapter 30, 31, and 33 recipients are no longer required to enroll at a public institution of higher learning within a three-year period after leaving the service in order to benefit from in-state tuition and fees.

What Affects VA Benefits Eligibility

It is the responsibility of the veteran to advise the VA Certifying Officer regarding program and enrollment changes. Failure to notify the VA Certifying Officer of these changes may result in termination of benefits at the end of the subsequent term upon receipt of the student's official grade report. Other factors that may create a loss or reduction of benefits are:

- Dropping courses
- Taking late starting classes
- Failing classes

- Taking hybrid or online coursework
- Taking courses previously passed, including by proficiency examination
- Being placed on Academic Probation I or Academic Probation II, or directed withdrawal.

Veterans Affairs (VA) Documentation

VA regulations governing institution-approved training of veterans and or dependents of veterans require certain documents be on file with the Certifying Official prior to certification of enrollment. Certification will not be made until the VA Certifying Official receives all documentation. It takes approximately 60-90 days from the date of certification for benefits to start.

Required VA documentation are as follows:

1. Nash Community College Admissions Application and all required curriculum program admissions documentation.
2. Completed application for VA benefits and all required supporting documentation, including, but not limited to the following:
 - a. Copy of DD-214 or National Guard form DD-2384, "NOBE", signed by the unit commander;
 - b. Copy of marriage certificate (for spouse);
 - c. Dependent children's birth certificate (if applicable) and;

*** If VA benefits have been received for prior training at another institution, complete a Change of Program or Place of Training form (22-1955 for veteran and form 22-5495 for Dependents).

Each semester, after tuition and fees have been paid, all veterans and dependents of veterans are required to submit the Veteran Services Enrollment Form.

VA students will not be certified for benefits until the Certifying Official has received the Veteran Services Enrollment Form. The VA does not pay the tuition and fees for students who are receiving Chapter 30, 32, 35, 1606, or 1607 benefits. These students will need to use financial aid, pay out of pocket, or set up a payment plan to prevent their classes from being dropped.

Chapter 33 & 31 VA Students

After completing all of the proper steps for certification and having registered for classes, the VA Certifying Official will place a hold on Chapter 33 & 31 student's schedule to prevent being dropped from classes for non-payment.

Vocational Rehabilitation

The Vocational Rehabilitation Program offers services as necessary to enable a student with a physical and/or mental disability to become self-supporting. Students should contact Vocational Rehabilitation Services at www.ncdhhs.gov/divisions/dvrs to apply for education assistance.

NCC Foundation Scholarship Endowments

Endowed scholarships are derived from the interest earned on the principal amount of a gift from the sponsor that has been invested for perpetuity. The college is honored these companies and/or individuals have chosen to establish these perpetual gifts of education.

Student Services

Student Advisement

Students are assigned an academic advisor that assists in planning and scheduling courses. Students are encouraged to meet with their advisors prior to registration to affirm educational goals and progress toward graduation. Students will meet with their assigned advisor or with a member of Advising Center staff to apply for graduation in the semester prior to graduation.

The Advising Center, located in Building B, Room 2034, provides walk-in and email (advising@nashcc.edu) advising services for a variety of programs. Students can find their advisor at: bit.ly/nccadvisor or via WebAdvisor. Special credit students (those with fewer than 15 credit hours) and collaborative programs are also advised in the Advising Center.

Advising Center

The Advising Center is located in Building B, Room 2034 and provides advising and registration assistance to students. New students are encouraged to visit the Advising Center to meet with an advisor in preparation of registering for their first semester. Current students are encouraged to visit the Advising Center prior to registering for classes in subsequent semesters. For additional information, please contact advising@nashcc.edu or 252-451-7350.

Student Wellness Center

The Student Wellness Center located in Building B, Room 2111 provides confidential and free mental health services, including anxiety, depression, PTSD, Substance Use, Autism supports, Crisis Intervention, Safety Planning; Recovery and Veterans Supports. Additional helping services through Single Stop include access to screening for federal, state, and local programs, SNAP application and recertification services, Medicaid/Affordable Healthcare applications, free income tax preparation, financial counseling, and legal referrals. Blue Love resources for emergency assistance are also provided as well as Referrals to community helping agencies for shelter, food, and childcare.

Students may access Student Wellness Center services from our website, by email, or by calling directly. For clinical service referrals, contact Heather Christman, MSW, LCSW, LCASA 252-451-7363 and email swell@nashcc.edu. For Single Stop services, email singelstop@nashcc.edu or call 252.428.7334.

Early Intervention

Nash Community College is focused on helping students succeed from the first day of class until the day they graduate. From time to time, it may become apparent to a faculty or staff member that a student is struggling in reaching their academic goals. Faculty or staff may refer the student to a Success Coach through

Aviso, who will discuss various resources available, both on and off campus, that will enable the student to succeed.

Services to Students with Disabilities

Nash Community College is committed to providing equal access to education for persons with disabilities. Reasonable accommodations are made for students with disabilities who qualify for admission. The ADA Coordinator assists with admission and registration as needed, makes referrals to and works with agencies which serve the needs of students with disabilities. At the student's request, the ADA Coordinator will meet with the student to assess individual needs, documentation, and determination of reasonable accommodations. It is the responsibility of the student to make his/her request known to the ADA Coordinator. Current documentation must be provided from a licensed/certified professional that adequately substantiates the need for reasonable accommodations. All documentation and records provided will be maintained in a confidential manner according to the Family Educational Rights and Privacy Act of 1974. Requests for accommodations should be made as early as possible, for it may take up to four (4) weeks for reasonable accommodations to be in place. For more information, please contact the ADA/Disabilities office at ada@nashcc.edu.

Service Animals on Campus

Policy

Consistent with the American with Disabilities Amendments Act (ADAA), it is the policy of Nash Community College that individuals with disabilities are permitted to be accompanied by their Service Animal. This includes areas of the college campus where students, visitors, participants in services, programs or activities, or invitees are allowed. Exceptions may include situations when safety is an issue, or when it is determined that the service animal could interfere with the fundamental nature of the activities being conducted. Please contact the ADA Coordinator with questions regarding exceptions or denial of a service animal being permitted in certain situations.

Definitions

A Service Animal is "any dog that is individually trained to work or perform tasks for the benefit of an individual with a disability, including, a physical, sensory, psychiatric, intellectual or other mental disability." Other species of animals whether wild or domestic, trained or untrained, are not service animals except that of miniature horses, if individually trained and deemed reasonable, may be used for the benefit of individuals with disabilities (Definitions, 28 C.F.R. ' 35.104, 2011 and Service Animals, 28 C.F.R.' 35.136, 2011).

If an individual's need for a Service Animal and the qualifications of the animal are not obvious, the individual may be asked: (a) whether the animal is required because of a disability; and (b) what work or task(s) the animal has been individually trained to perform.

An Emotional Support (ES) Animal is not a Service Animal and does not require specialized training; it is a companion animal that provides a therapeutic benefit to his or her person. The student must have a verified disability and a physician or mental health professional must write an annual prescription calling for an ES companion.

A Service Animal or Emotional Support Animal may be excluded from campus, classrooms, or other facilities, when:

1. The animal's behavior poses a direct threat to the health or safety of others.
2. The animal is out of control and the animal's handler does not take effective action to control it (see note below).
3. The animal's behavior fundamentally alters the nature of the programs, services, facilities, privileges, advantages, or accommodations at issue.
4. The animal is not housebroken (owner is responsible for disposal of any animal waste on campus grounds).
5. The animal is sick, dirty, has strong odor, not groomed, or has evidence of fleas or ticks.
6. The animal is not licensed and fully inoculated in accordance with local/state law.

A service animal must have a visible collar with tags and be under the control of its handler at all times. A service animal shall also have a harness, leash, or other tether, unless either the handler is unable because of a disability to use a harness, leash, or other tether or the use of a harness, leash, or other tether would interfere with the service animal's safe, effective performance of work or tasks, in which case the service animal must be otherwise under the handler's control (e.g., voice control, signals, or other effective means.)

Conflicting Disabilities

Persons who have asthma/allergy/medical issues related to animals are encouraged to make their condition known to Disability Services (for students) or

Human Resources (for employees) by providing medical documentation to support their condition. Action will be taken to consider the requirements of both parties as efficiently as possible.

Requests for Accommodations: Students/Visitors

Students or visitors using a service animal are welcome in all areas of campus that are open to the public. Specific questions related to the use of the service or emotional support animal should be directed to the College's ADA coordinator.

Employees

Employees requesting reasonable accommodations, including the use of a service or emotional support animal should contact Human Resources.

Visitors and Guests Requesting Accommodations

Individuals attending a NCC function, event, or graduation ceremony are eligible for reasonable accommodations under the ADA. Please contact the ADA Coordinator at least 48 hours prior to the event to make a request. Requests should be made in writing. Every effort will be made to provide reasonable accommodations for requests made in a timely manner. If you are requesting interpreters for a NCC sponsored event, these requests need to be made two (2) weeks prior to the date interpreting services will be needed.

Your request can be made by:

Email: ada@nashcc.edu

Phone: 252-451-8260

Fax: 252-451-8401

Orientation Activities

It is recommended that all students participate in a college orientation program. Multiple opportunities will be available for students and will be shared via email. Students who have questions about orientation related events, can email successcoaching@nashcc.edu for additional information.

Career Planning and Placement Center

Counselors assist students with every step of the career planning and placement process. This includes helping students obtain employment and helping local businesses by referring students for part-time and full-time positions.

Each of the career planning and placement process steps has numerous corresponding resources related to that step. The information may be found on the web page, which is www.nashcc.edu/careers.

To help students reach their particular employment goals, highlighted services include:

Career Fairs

Annually the College schedules career fairs and company interviews on campus. Upon request, presentations for interviews and resume' preparation are provided to classes and community groups.

College Foundation of North Carolina (CFNC)

Counselors use CFNC Career Center and the CFNC Career tools. After signing up for a free account you will be able to take advantage of all the free resources provided by CFNC. These programs will not only assist you with a career direction, but will also help you learn more about yourself, improve your job-seeking skills and explore occupations, majors, and schools.

Career Search

Nash Community College utilizes an online career search engine called EmployMeNCC. As part of a statewide consortium connecting North Carolina community college students and graduates to employers, resources, and materials, EmployMeNCC will assist you as you pursue your career goals.

EmployMeNCC Website Resources include:

- Review employer postings and apply for co-ops, internships, and jobs
- Career Planning Resources
- Career TV (Career Videos)
- Interview and Salary Resources
- Resume and Cover Letter Resources

To use EmployMeNCC as a Nash Community College student or graduate just visit www.nashcc.edu/employmencc then create a profile using your student ID number and Nash Community College email.

Additionally, employers can utilize EmployMeNCC by posting careers on the site for free.

Success Coaches

Nash Community College's Success Coaches proactively help students succeed in their classes by working with them on study skills, test taking strategies, organizational strategies, motivation, and self-advocacy. Success Coaches also help connect students to resources on campus as well as community resources. Success Coaching services are available to any curriculum student. Currently, students are

assigned a success coach if this is their first time at Nash Community College. If a student is not assigned a success coach they can request one and one will be assigned to them by contacting successcoaching@nashcc.edu.

General Student Regulations

Student Health Services

Nash Community College maintains no health facilities although first aid supplies are located in all labs and offices. In the event of injury or illness, the student should contact a faculty or staff member.

The responsibility for medical services rests with the student and/or his parents or guardian. Emergency facilities are located nearby at Nash UNC Health Care. Transportation to receive medical services will not be provided by College staff members; however, the College officials will assist the student in contacting emergency services or an individual as designated by the student. The student is personally responsible for all expenses associated with emergency services. For more information, see www.n4chealth.com.

Student Identification

For concerns relating to safety and security, all students should make arrangements to have an official Nash Community College photo ID made. College ID's are prepared in the Student Services Office on the first floor of Building "A." Identification cards will be used to verify enrollment, and also will be utilized for student entry into Nash Community College sponsored events. Students should be prepared to present proper identification when asked by college staff and campus law enforcement personnel. ID's should be updated each semester in Student Services.

Student IDs are included as part of the college activity fee; however, a charge of \$5 will be assessed for replacement.

Housing

Nash Community College does not provide housing for students either on or off campus.

Internet Use

Use of the Internet must be in support of education and research and consistent with educational objectives as outlined by the College. Faculty, students, staff and other authorized individuals shall be expected to exercise responsible, ethical behavior when using the Internet. The use of the Internet is a privilege and can be revoked for violation of College Internet Policy or Guidelines. Inappropriate or

illegal use of the Internet shall result in legal action up to dismissal, in accordance with all policies of the College.

All Internet users shall adhere to the following:

1. Transmission of any material in violation of any law, regulation, or Board policy is prohibited.
2. Use of the Internet for commercial or non-college related activities is prohibited.
3. Users shall not create, access, display, download, or transmit any text file, picture graphics, or sound clip or engage in any conference that includes material which is obscene, libelous, indecent, vulgar, profane, or lewd, or which advertises any product or service not permitted to minors by law.
4. Users shall not create, access, display, download, or transmit threatening, racist, sexist, obscene, offensive, annoying or harassing language and/or material, such as broadcasting unsolicited messages or sending unwanted mail.
5. Users shall not engage in activities to damage hardware, disrupt communications, waste system resources, or overload networks with excessive data.
6. Users shall be required to adhere to all copyright, trademark, and licensing agreements and laws including seeking permission when required. Existing College policies on copyright apply.
7. The use of College technology resources by students, visitors, and College employees signifies agreement to the above stated computer use guidelines.

Twelve (12) months after the end of a student's last enrolled semester, without exception, access to NCC student email, LMS materials, online storage, or any other technology resources provided to actively enrolled students will be revoked, and the account terminated and inaccessible. If an applicant does not register for courses for the semester indicated on their Admissions application, access to their NCC accounts will be revoked and the account terminated and inaccessible after the close of registration for the semester.

Campus Photo and Video Use

Nash Community College does not collect photograph/video release forms. The College does however use faculty, staff, and students as the best resource for marketing. All students and visitors should be advised that campus events are regularly photographed and videotaped. NCC cannot guarantee any individual will be excluded from media coverage. Additionally, as a public campus, NCC cannot be responsible for content obtained or disseminated by any individual or group.

All original media content created during normal College operations become the property of Nash Community College. The College reserves the right to archive photographs and video footage and use the content for, but not limited to, marketing. The College's Marketing Department also reserves the right to distribute media content through a variety of channels and/or publications. Students participating in a photograph or video may be given the opportunity to approve images used. Students wishing to do so should request in writing removal from the photograph or video in question. Questions concerning photographs, videos, and publications should be directed to the Marketing Department.

Social Media Guidelines

The Nash Community College Marketing Office establishes official Nash Community College social media sites. Marketing will coordinate all initial set-up and posts to any pages to insure consistent content. Administrative access may be given to employees as appropriate.

Employees, students, and friends of the College are encouraged to follow the College via its social media sites. Please consider the following regarding the use of social media sites:

1. Treat everything you post on the Internet as though it were available to the general public.
2. Use common sense when posting information, comments, photos, etc. on personal and official Nash Community College social media sites. Everything you post reflects on you both as an individual, and in many cases as an associate of the College.
3. Remember, College related social media sites may be subject to monitoring, archiving, and disclosure to third parties in accordance with North Carolina Public Records Law.
4. Participation on any Nash Community College related social media site should be conducted in a socially responsible way (no obscenity, racial slurs, personal insults, profanity, etc.). Such posts or comments on official or

affiliated Nash Community College social media sites will be removed and may be addressed according to the Nash Community College student code of conduct.

5. Do not post confidential or proprietary information.
6. Know and follow Nash Community College's student regulations and internet usage policy as all College regulations will be enforced on official social media sites.

Questions, comments, suggestions, or requests related to the Colleges' social media presence should be emailed to nccpr@nashcc.edu.

Campus Sexual Violence Elimination (SaVE Act) Procedure

Introduction

Nash Community College is committed to providing a safe learning and working environment. NCC is required to comply with federal law, specifically the Jeanne Clery Act and the Campus Sexual Violence Elimination (SaVE) Act. Nash Community College has adopted procedures to help prevent and respond to incidents of sexual assault, domestic violence, dating violence, and stalking. These guidelines apply to NCC students, faculty, and staff as well as contractors and visitors.

Nash Community College will not tolerate sexual assault, domestic violence, dating violence, or stalking, as defined in this procedure, in any form. Such acts of violence are prohibited by Nash Community College procedure, as well as state and federal laws. Violators of these types of behaviors are subject to penalties up to and including dismissal or separation from Nash Community College regardless of whether they are also facing criminal or civil charges in a court of law.

Definitions

Consent - is explicit approval to engage in sexual activity demonstrated by clear actions or words. Non-verbal communication silence, passivity, or lack of active resistance does not imply consent. Consent has not been obtained in situations where the individual is forced, pressured, manipulated, or has reasonable fear. Consent also has not been obtained when an individual is incapable of consent due to physical or mental incapacity, or is under the influence of drugs or alcohol.

Dating Violence - refers to violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim.

Domestic Violence – is physical or psychological behaviors used by one person in a relationship to control the other. Partners may be married or not married; heterosexual, gay, or lesbian; living together, separated or dating.

Sexual Assault – has been committed if an individual by force or the threat of force engages in sexual relations against the will of another person.

Stalking – occurs when an individual engages in a course of conduct (harassment) on more than one occasion, directed at a specific person, which would cause a reasonable person to fear for their or her safety or the safety of others, or causing emotional distress.

Reporting an Incident

Nash Community College encourages any member of the college community who has experienced sexual assault, domestic violence, dating violence, or stalking, or knows of another member of the community who has experienced sexual assault, domestic violence, dating violence, or stalking to report the incident to College officials.

If a Nash Community College student, faculty or staff member, visitor, or contractor has experienced a sexual assault, domestic violence, dating violence, or stalking, they should immediately report the incident to the Nash Community College Police Department (NCCPD) at 252-451-8313.

Individuals who are on campus can also make an in-person report at the NCCPD, Building B, office number 2149. The NCCPD will assist all members of the college community by assessing the incident, advising the victim on how to seek legal protection, and making the victim aware of medical, counseling, and other support services. If a reported incident did not occur on campus, the NCCPD can assist the victim in notifying the local law enforcement agency with jurisdiction over the crime. **In case of an emergency or ongoing threat, a victim should get to a safe location and call 911.** Calling 911 will put you in touch with an emergency dispatcher.

Students who have experienced a sexual assault, domestic violence, dating violence, or stalking may also report an incident to Student Services located in Building A, or to the College's Title IX Coordinator at 252-451-8258.

Employees, contractors and campus visitors who have experienced a sexual assault, domestic violence, dating violence, or stalking may also report an incident to the Human Resources Director, Title IX Coordinator at 252-451-8258.

These offices will provide victims of sexual assault, domestic violence, dating violence, and stalking with information about available support services and resources, and also assist any victim in notifying the appropriate law enforcement agency, if the victim chooses to do so.

Victims are not required to report to area law enforcement in order to receive assistance from or pursue any options within Nash Community College. For more information, please visit the section on how to report an assault.

Reporting sexual assault, domestic violence, dating violence, and stalking to the police (including the Nash Community College Police Department) does not commit the victim to further legal action. However, the earlier an incident is reported, the easier it will be for law enforcement to investigate.

Written Notification of Rights and Options

Any student or employee who reports an incident of sexual assault, domestic violence, dating violence, or stalking, whether the incident occurred on or off campus, shall receive a written explanation of their rights and options as provided for under this procedure.

These rights and options include the rights of a victim to:

- a. Go to court, and to file a domestic abuse complaint requesting an order restraining your attacker from abusing you, and/or an order directing your attacker to leave your household, building, school, college, or workplace;
- b. Seek a criminal complaint for threats, assault and battery, or other related offenses;
- c. Seek medical treatment (the police will arrange transportation for you to the nearest hospital or otherwise assist you in obtaining medical treatment if you wish);
- d. Request the police remain at the scene until your safety is otherwise ensured;
- e. Request that a police officer assist you by arranging transportation or by taking you to a safe place, such as a shelter or a family or friend's residence; and
- f. Obtain a copy of the police incident report at no cost from the police department.

Procedures Victims Should Follow

If an incident of sexual assault, domestic assault, dating violence, or stalking occurs, it is important to preserve evidence so that successful criminal prosecution remains an option.

The victim of a sexual assault should not wash, shower or bathe, douche, brush teeth, comb hair, or change clothes prior to a medical exam or treatment. If a victim has removed the clothing worn during the assault prior to seeking medical treatment, that clothing should be placed in a paper (not plastic) bag and brought to the hospital when treatment is sought. If the victim is still wearing the clothes worn during an assault, a change of clothes should be brought to the hospital so that the clothes containing possible evidence can be preserved and examined for evidence of the crime.

Evidence of violence, such as bruising or other visible injuries, following an incident of sexual assault, or domestic or dating violence, should be documented with photographs. Evidence of stalking, including any communications such as written notes, email, voice mail, or other electronic communications sent by the stalker, should be saved and not altered in any way.

On-Campus and Off-Campus Resources

Nash Community College, Nash County, the Town of Nashville, and the City of Rocky Mount, all offer other important resources to the victims of sexual assault, domestic assault, dating violence, or stalking, including medical treatment, counseling services, and advocacy that victims may wish to utilize.

The following Nash Community College employees and on-campus offices can assist members of the NCC community in considering options and navigating through any resources or recourse they may elect to pursue.

A victim need not formally report an incident of sexual assault, domestic violence, dating violence, or stalking to law enforcement or NCCPD in order to access the following resources:

Sexual Assault Response Team (SART) Members:
reportsexualmisconduct@nashcc.edu

Director of Human Resources,
Title IX Coordinator for students, faculty, staff, contractors and visitors

Accommodations

Nash Community College is committed to providing a safe learning or work- ing environment. This is regardless of whether a student or employee reports an incident of sexual assault, domestic violence, dating violence, or stalking to law enforcement or pursues any formal action. Upon request, Nash Community College will make any reasonably available change to a victim's academic class schedule, or employee's work environment. When a reported incident of abuse involves more than one member of the Nash Community College community, the College's Title IX Coordinator, Human Resources Director, Vice President of Student Services or NCCPD may also issue a formal letter prohibiting the individuals from contacting one another, either on or off campus. Students should contact the Vice President of Student Services Office (522 North Old Carriage Road, Building A, Room 2023, 252-451-8327) for assistance, and employees may contact the Office

of Human Resources (522 North Old Carriage Road, Business and Industry Center, 252-451- 8258) for assistance.

NCCPD officers will advise victims of a reported incident of sexual assault, domestic violence, dating violence, or stalking about how to seek a restraining order from a criminal court that directs the accused to refrain from abuse and to leave the victims household, building, school, college, or workplace.

Nash Community College will ensure that restraining orders issued by courts are fully up- held on all College-owned, used, and controlled property. If any member of the Nash Community College community obtains a restraining order, it should promptly be communicated to NCCPD and a copy of that order for compliance. Nash Community College will take measures to protect victims from any further harm. If the NCCPD determines that an individual's presence on campus poses a danger to one or more members of the College community, the NCCPD shall notify the individual verbally and in a follow up letter that the individual must leave campus or be subject to being arrested for trespassing.

Victim Confidentiality

Nash Community College recognizes the sensitive nature of sexual assault, domestic violence, dating violence, and stalking incidents. The College will respect the privacy of individuals reporting incidents of abuse, to the extent that doing so is permitted by law and consistent with the College's need to protect the safety of the community.

College employees are required to share with the Title IX Coordinator information they obtained concerning a report of sexual assault, or an incident of domestic or dating violence, or stalking. The Title IX Coordinator will investigate the incident, track trends (including possible multiple reports involving the same assailant) and determine whether steps are needed to ensure the safety of the campus community. It is the victim's choice to participate in the investigation; however, the College may proceed with an investigation without the victim's permission if there is a concern for the safety of other members of the community.

In all cases, the NCC Police Department should be notified for Clery Act reporting requirements.

Reports made to the NCCPD will be shared with the Title IX Coordinator in all cases, and may also be made public (maintaining the victim's anonymity) and shared with the accused in cases where criminal prosecution is necessary. Reports received by the College concerning the abuse of a minor or juvenile must be reported to law enforcement officials in compliance with state law. All mem- bers

of the Nash Community College community are required by College policy to report any instances of known child abuse or neglect to the NCCPD. The NC- CPD will in turn report such information to the appropriate authorities.

Reports and information received by the NCC Clinical Outreach Counselor is considered legally protected or “privileged” under NC law. The Clinical Outreach Counselor will not share information learned from victims with others within the institution (including the College’s Title IX Coordinator) or with any third party except in cases of imminent danger. Absent circumstances of imminent danger, the only information that the Clinical Outreach Counselor will report to the College concerning incidents is statistical information. Statistical information does not identify the victims, and will be included in the annual Clery reporting requirements.

Reports of sexual assault, domestic or dating violence, or stalking, which are shared with NCC’s Title IX Coordinator or other College officials, will be treated with the greatest degree of respect and privacy possible.

A victim’s ability to speak in confidence and with confidentiality may be an essential path to recovery

Nash Community College Educational Programs

Nash Community College is committed to increasing the awareness of and prevention of violence. The College will make continued efforts to provide students and employees with education programs, and strategies intended to prevent rape, acquaintance rape, sexual assault, domestic violence, dating violence, and stalking.

To address the issue of sexual assaults, domestic violence, dating violence, and stalking in a college environment, Nash Community College will periodically offer practical guidance for risk reduction, violence prevention, and bystander intervention. SaVE Act information can be found on the College’s web site and publications.

Personal Safety Workshops –The College will provide opportunities for members of the community to learn about safety precautions. The NCCPD and the Office of Student Services conduct awareness workshops on a wide variety of subjects including, but not limited to alcohol awareness, the definition of consent and sexual assault, and wellness.

New Student Orientation – Orientation programs addressing awareness of and prevention of violence are delivered by members of the orientation staff.

Safety Escorts – If requested, the NCCPD provides safety campus escorts during normal operating hours. This service typically provides students, faculty, and staff with an escort from class to various parking locations.

Crime Alerts – The NCCPD shall issue as necessary crime alerts to members of the Nash Community College community. Alerts may be circulated at times, not in response to specific incidents, but as general reminders to community members about measures that members of the community can take to enhance personal and property security.

New Employee Orientation – All new employees receive training on Sexual Harassment and Title IX through the Office of Human Resources. The NCCPD also provides new employees with information concerning issues of safety and personal awareness on such subjects as emergency preparedness, campus security authorities, and awareness of and prevention of violence.

Student Conduct

Nash Community College students are expected to conduct themselves as responsible adults in accordance with generally accepted standards of morality and decency at all times. The following behaviors, while not inclusive, will warrant immediate suspension or other disciplinary action:

1. Physical abuse or assault, domestic violence, dating violence, threats, intimidation, stalking, abusive communication (written or verbal), and/or conduct that threatens or endangers the physical or psychological health or safety of another person.
2. Sexual violence, coercion, or harassment against another individual whether perpetrated by a stranger or acquaintance, including attempted rape, and sexual assault, sexual misconduct, stalking, voyeurism, exposure, sexually harassing communication (includes electronic), unwanted touching, and sexual activity in a context of emotional coercion.
3. Retaliation against an individual cooperating with a College-related investigation.
4. Fighting.
5. Disruption of learning activities.
6. Damage to or destruction of College or private property.

7. Assault on a College employee, a student, or any other person while on campus or at College- sponsored events.
8. Insubordination toward a College employee (failure to comply with the directions of any College official, faculty, staff, or law enforcement officer acting in the performance of their duties) or showing disrespect toward an employee, student, or other person.
9. Committing any act (verbal, electronic, written, or other) which intimidates, threatens, degrades, or disgraces a College employee or the College itself, student or other person on campus.
10. Any series of behavioral patterns that cause a faculty or staff member to seriously question the student's interest in learning.
11. Stealing or attempting to steal school property or personal property belonging to another student, employee or visitor while on the campus of Nash Community College.
12. Possessing, using, transmitting or being under the influence of any narcotic, hallucinogenic drug, amphetamine, barbiturate, marijuana, alcoholic beverage, or any other kind of intoxicant while on campus. Students using drugs that are officially authorized by a physician and are likely to cause impairment of performance in lab, shop, or clinical areas should consult the appropriate instructor.

Note: *Using a drug officially authorized (prescribed to an individual) by a physician will not be considered a violation of this regulation.*

13. Academic Dishonesty (for more information, please see Academic Integrity section).
14. Gambling while on campus or at a College-sponsored activity.
15. Intentionally and openly using profanity (verbal, electronic, written, or other) in such a manner that listeners could be embarrassed, offended or insulted.
16. Intentionally and openly engaging in obscene activities while on campus or at a College sponsored event.
17. Illegal use of the Internet or other violations of the Internet policy.

18. Displaying or wearing gang clothes, or displaying gang graffiti/symbols, or flashing gang signs.
19. Intentionally and openly exposing undergarments to such a degree that it embarrasses or offends others.
20. Making excessive noise, including loud conversations, car stereos, etc. that disturbs others anywhere on campus (students using music players, computers, cell phones, or other electronic devices on campus must use headphones or earphones).
21. Any display of affection that offends others.
22. Possessing a firearm or weapon as outlined in NCGS 14-269.2. Possessing any dangerous chemical or explosive elements or component parts thereof not used by the student for lawful College studies.
23. Forgery, altering, or misuse of College documents, records, or instruments of identification with intent to deceive.
24. False reporting of an emergency: the false reporting of a bomb, fire, or other emergency in any building, structure, or facility by means of activating a fire alarm or in any other manner.
25. Actions violating the College Diversity Statement.
26. Knowingly providing false information to a College employee conducting an investigation of violations of the Student Conduct Code or Academic Dishonesty and/or obstructing an investigation of violations of the Student Conduct Code or Academic Dishonesty.

Student and Public Grievance/Complaint Procedure

As a matter of practice, Nash Community College believes that most student grievances can be informally resolved. Any student (traditional, non-traditional, distance education, etc.) who has a grievance should express the concern with the appropriate College personnel responsible for the source of the grievance. When informal procedures do not resolve the grievance, written student grievances should be sent to the Vice President of Student Services with the following information, if available:

- Name of the student accused of violating the student conduct
- Clear explanation of the nature of the incident

- Names, addresses, and phone numbers of witnesses
- Names, addresses, and telephone numbers of those filing the complaint

The Vice President of Student Services will determine the appropriate College personnel to review the grievance. The grievance will be reviewed and written notification of the resolution of the College's position of the grievance will be sent to the student within 15 working days of the receipt of the grievance. The Vice President of Student Services will maintain records of all formal complaints and responses. Nash Community College will not review anonymous grievances. Members of the public may register grievances by sending signed, written statements to the Office of the President, Nash Community College, PO Box 7488, Rocky Mount, NC 27804-0488.

If a Student or Public Grievance is not resolved to the complainant's satisfaction through the procedure outlined above, the complaint can then be referred by the complainant to the University of North Carolina General Administration; information on the procedure is at www.northcarolina.edu/complaints.

If a student believes that any member of the Nash Community College community has violated the College's policy against discrimination, harassment, or retaliation, or the College's Sexual Violence Policy, the student should report his or her concerns in accordance with those policies detailed in the College policy.

Distance Learning Complaint Process for Out of State Students

Nash Community College desires to resolve student grievances, complaints and concerns in a prompt, fair and agreeable manner. Students residing outside of the State of North Carolina while attending NCC who desire to resolve a grievance should follow the College's Disciplinary Due Process Procedure. However, if an issue cannot be resolved internally, you may file a complaint with your State. The Student Grievance Contact Information for Individual States provides phone numbers, emails and/or links to state education agencies. NCC is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award the Associate in Arts, Associate in Science, Associate in General Education, and Associate in Applied Science degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of Nash Community College.

Review of the Grievance

When a complaint is received, the Vice President of Student Services or his or her designee reviews the grievance. If a complaint is received that alleges a student has engaged in behavior that would violate the College's Sexual Violence Policy, the complaint will be immediately forwarded to the appropriate College Title IX Coordinator or Deputy Coordinator. All other complaints will be evaluated by the Vice President of Student Services or his or her designee to determine the disciplinary action, if any.

Notification of Complaint or Disciplinary Action

The student will be notified in writing of a meeting to discuss the complaint lodged at which time his or her attendance is required. Failure to attend this meeting may result in the College proceeding with the resolution of the complaint (including disciplinary action) without the student's contribution.

A student who has been charged under the College's student grievance or disciplinary process will have the right to be:

1. informed of the grievance or disciplinary proceeding
2. notified in writing of the complaint or disciplinary action
3. informed of the appeal process before the College's Student Affairs Committee (for disciplinary issues) or the College's Academic Review Committee (for violations of the College's academic rules)

Academic Review Process

The Academic Review Committee meets annually to review and approve the College's Academic Review process. Academic Review Panels are created under the auspices of the Academic Review Committee. Academic Review Panels investigate instructional matters including, but not limited to, consideration of the waiver of academic rules. Any member of the College community may petition for an Academic Review Panel to hear cases and questions concerning academic rules. The petition must be made within 30 calendar days of the alleged issue. A petition received after 30 calendar days will not be heard.

The Vice President of Student Services or his/her designee shall be responsible for informing the parties involved and the student(s) of the date, time and location of the hearing. A designee of the Vice President of Student Services will serve as Chair of the Academic Review Panel and shall convene the Academic Review Panel no later than 15 business days (excluding holidays and academic breaks) after a request for an Academic Review Panel hearing. If a student fails

to attend the scheduled hearing, the appeal is considered dropped and may not be reopened for the same alleged issue. The Panel's purpose is to investigate and make recommendations to the Vice President of Student Services. The Academic Review Panel is an investigative and recommendation group; it is not a judiciary body or court. Procedures and actions appropriate to a court are not necessarily appropriate to this group. Five faculty and two staff members, appointed by the Vice President of Student Services, serve on these Panels.

The Chair is a designee of the Vice President of Student Services, who serves in that capacity without a vote, with the Vice President of Instruction and Chief Academic Officer or their designee serving in a resource capacity. The committee members will establish all procedures and actions generally following the principles of Robert's Rules of Order. A student, faculty or staff member initiates an investigation by this Panel upon the presentation of a petition to the Vice President of Student Services. This petition must clearly state in writing the reasons for the request of an investigation. The Panel will then conduct the investigation using resources and witnesses as it deems appropriate. A student may have an advisor present during the Academic Review Panel hearing. The advisor may not ask questions or speak to the Panel members or witnesses. His or her role is to give guidance to the student when requested. An advisor may be removed or dismissed for being disruptive or not abiding by restrictions imposed. The Panel makes its findings based on the preponderance of the evidence standard.

A quorum shall consist of five out of seven Panel members. The Panel will make its recommendation to the Vice President of Student Services. The Panel's recommendation is final and appeals may only be initiated to the Vice President of Student Services if additional information brought forth by the initiating individual indicates discrimination on the basis of age, sex, national origin, religion, disability or if there is substantial evidence that procedural due process was denied.

Student Affairs Appeal Process

The Student Affairs Committee meets annually to review and approve the College's Student Affairs appeal process. Students Affairs Panels are administrative panels that investigate student affairs, including but not limited to, disciplinary issues. The Panel's purpose is to investigate and make recommendations to the Vice President of Instruction and Chief Academic Officer. Two faculty members, two staff members, and three students, appointed by the Vice President of Instruction and Chief Academic Officer, serve on these panels. The Chair is a designee of the Vice President of Instruction and Chief Academic Officer, who serves in that capacity without a vote with the Vice President of Student Services or his/her designee serving in a resource capacity. Any member of the College community may petition for a Student Affairs Panel to hear cases and questions concerning

disciplinary issues. The petition must be made within 30 calendar days of the alleged issue. A petition received after 30 calendar days will not be heard.

The petition must clearly state in writing the reason for the request of an investigation. A designee of the Vice President of Instruction and Chief Academic Officer will serve as Chair of the Student Affairs Panel and shall convene the Student Affairs Panel no later than 15 business days (excluding holidays and academic breaks) after a request for a Student Affairs Hearing. The Panel will conduct the investigation using resources and other individuals or issues which may become a matter of the investigation. The Student Affairs Panel is an investigative and recommending group; it is not a judiciary body or court. Procedures and actions appropriate to a court are not necessarily appropriate to this group. This Panel is one element in the established procedure for due process at Nash Community College. A Student may have an advisor present during the Student Affairs Panel hearing. The advisor may not ask questions or speak to the panel members or witnesses. His or her role is to give guidance to the student when requested. An advisor may be removed or dismissed for being disruptive or not abiding by restrictions imposed. The panel makes its findings based on the preponderance of the evidence standard.

A quorum shall be five out of the seven members. The Panel will make its recommendations to the Vice President of Instruction and Chief Academic Officer. The Panel's recommendations are final and appeals may only be initiated to the Vice President of Instruction and Chief Academic Officer if additional information brought forth by the initiating individual indicates discrimination on the basis of age, sex, national origin, religion, disability or if there is substantial evidence that procedural due process was denied.

Procedure of Academic Review and Student Affairs Panels

The procedure below is the process that is followed for an Academic Review and/or Student Affairs Panel hearing. Procedural mistakes will not nullify the Panel's decision unless the procedural mistakes were unduly prejudicial.

Any member of the College community who has requested an Academic Review or Student Affairs Panel hearing is entitled to the following:

- Communication setting forth the date, time, and location of the meeting
- Communication setting forth the individual's right to be accompanied by an advisor
- Communication stating the individual's right to have witnesses testify in their favor

- A list of the members on the Academic Review or Student Affairs Committee and the procedure for challenging the participation of a member for reasons of conflict of interest.

The Academic Review or Student Affairs Panel hearing shall be conducted as follows:

- Prior to the start of the hearing, all parties participating in the hearing shall sign a statement of confidentiality and nondisclosure.
- The meeting will be called to order at the predesignated date and time by the chair once a quorum has been established with the following individuals in attendance:
 - Panel chair, quorum of panel members, resource staff, and administrative assistant (for the collection of minutes).
 - The complainant, the respondent, an advisor (if desired), and any witnesses will be asked to wait outside the hearing until called upon.
- Once the meeting is called to order, the chair will announce the purpose for the meeting, including any relevant information pertaining to the circumstances leading up to the meeting.
- Next, the chair will ask the complainant, including any of their witnesses, into the room. All individuals giving testimony will then be asked to sign an honesty statement before proceeding.
- The complainant will then be asked to present the facts that support his or her allegations that the student violated a provision of student affairs, student conduct, and or the College's academic rules. If the complainant has any witnesses present (that have firsthand knowledge of the facts) they may proceed to present their testimony after the complainant.
- Following the completion of the complainant's testimony, and at the conclusion of the presentation of witnesses by the complainant, the members of the panel shall have the opportunity to ask questions to the complainant or their witnesses.
- After questioning, the complainant is given the opportunity to explain or refute testimony.
- After all questions have been satisfied by the panel, the complainant and their witnesses will be instructed to exit the room while the respondent and their witnesses (who have firsthand knowledge of the facts) and their advisor (who must remain silent while the meeting is in session) is called upon to enter.
- Once in the room the respondent and their witnesses giving testimony will be asked to sign an honesty statement before proceeding.
- The respondent will then be allowed to give their testimony and /or extenuating circumstances that he or she believes the panel should consider in determining the facts. The testimony may include presentations by witnesses who have firsthand knowledge of the facts. (The respondent's

advisor is to remain quiet during the panel meeting, and may only speak with the respondent privately during breaks, or by passing notes. The respondent may ask for a break to the chair in order to speak with the advisor if needed).

- Following the completion of the respondent's testimony, and at the conclusion of the presentation of witnesses by the respondent, the panel is invited to ask questions of the respondent directly. Questions asked shall be intended to aid in the process of determining the facts set forth in the allegations.
- After questioning, the respondent is given the opportunity to explain or refute testimony.
- Next, the respondent is given an opportunity to make closing remarks lasting no more than three minutes. The chair may allow additional time at his or her discretion.
- After the closing remarks by the respondent, he or she will be excused from the meeting, along with their witnesses and advisor, and instructed that a final decision will be sent to them after 48 hours via certified mail. Any prior decision will remain in effect unless the outcome of the meeting overturns or amends the prior decision.
- After the respondent has exited the room, the complainant will be asked to reenter. The committee will then be given an opportunity to ask any follow up questions to the complainant that surfaced during the presentation by the respondent.
- Once follow up questioning by the panel has been completed, the complainant will be asked to give closing remarks of no more than 3 minutes.
- Additional time may be granted at the request of the panel chair.
- Following closing remarks, members of the Academic Review or Student Affairs Panel will meet in closed session to consider the preponderance of the evidence as to whether the respondent was responsible for the allegations.
- The panel has up to 48 hours to make its determination.
- If the panel determines that the respondent is responsible, it will proceed to make a recommendation for continued or new sanctions to be imposed.
- The designee of the Vice President of Student Services for the Academic Review Committee and the designee of the Vice President of Instruction and Chief Academic Officer for the Student Affairs Committee will communicate to the accused the outcome of the hearing, and when appropriate, the appeal process. Appeals of a decision of the Academic Review Panel will be directed to the Vice President of Student Services, and

appeals of a decision of the Student Affairs Panel will be directed to the Vice President of Instruction and Chief Academic Officer.

Attendance at the Academic Review or Student Affairs Panel Hearings

- Attendance is limited to the committee chair, the committee resource staff, an administrative assistant for the collection of minutes, the members of the panel, the complainant, the respondent, the respondent's advisor if desired, and any witnesses who have firsthand knowledge of the facts. The complainant, respondent, witnesses, and advisor will be required to sit outside of the meeting until called upon per the procedural process.
- The advisor may not ask questions or speak to the panel members or witnesses. His or her role is to give guidance to the respondent when requested during a break, or by passing notes. An advisor may be removed or dismissed for being disruptive or not abiding by restrictions imposed.
- The process may not be video or tape recorded.

Student or Club Dismissal, Suspension or Expulsion Authority

The President or his or her designee is authorized to use the College's Disciplinary Actions as stated in the Catalog for violations of the NCC Student Conduct regulations. Any student who impairs, impedes, or disrupts the Mission, processes, or functions of the College or who violates any provision of Student Code Conduct will be subject to disciplinary action. Students who encourage, counsel, instigate, or incite others to impede, impair, or disrupt the said mission, processes, procedures or functions of the College shall also be subject to the disciplinary action. If a student is expelled or suspended, he or she will be notified in writing of the following: (1) the nature of the Conduct Code violation(s), and (2) the appeal process.

Disciplinary Actions

The following disciplinary action or actions may be imposed by the Vice President of Student Services or his/her designee and Appeal Committee for violations of student or club conduct.

Admonition

A warning to the student that his or her behavior is objectionable and that if the pattern of behavior continues, the student will face disciplinary action up to and including suspension from the College. Verbal warnings shall be documented and included as evidence in the event of subsequent violations.

Reprimand

A written communication that gives official notice to the student that he or she has violated student conduct and that any subsequent violation of student conduct may result in a more severe disciplinary action.

General Probation

An individual may be placed on general probation when involved in a substantive disciplinary offense(s). General probation has two important implications: the individual is given a chance to show capability and willingness to observe the Student Conduct Code without further penalty. Secondly, subsequent offenses will result in disciplinary action. The probation will be in effect for no more than two semesters (excludes the summer semester).

Restrictive Probation

Restrictive probation results in loss of good standing, and notation of such is made in the individual's record. Restrictive conditions limit activity in the College community and access to College facilities. The individual will not be eligible for initiation into any local or national organization, and may not receive College awards or other honorary recognition. The individual is not eligible to occupy a position of leadership or responsibility with any College or student organization, publication, or activity. This probation will be in effect for not less than two semesters (excludes the summer semester). Any violation of restrictive probation may result in immediate suspension.

Suspension

Suspension of a student from a Nash Community College class (traditional, online, hybrid, etc.), a College program of study, and/or all activities of the College for a stated period of time. Suspended students may return upon the approval of the Vice President of Student Services.

Expulsion

Dismissing a student from the campus of Nash Community College to include participation in College classes (traditional, online, hybrid, etc.) or a College program of study, and/or all activities of the College. The student loses matriculation status. Expelled students may apply for admission only after a minimum of two semesters and upon the approval of the Vice President of Student Services.

Student Group/Club Probation

Used for a College club or other organized group for a specified period of time. If group violations are repeated during the probationary period, the group's charter or authority to operate as a club may be revoked or activities restricted.

Student Group/Club Restriction

Used when removing College recognition during the semester in which the offense occurred or for a longer period (usually not more than two semesters). While under restriction the group may not seek or add members, hold or sponsor events in the College community, or engage in other activities as specified.

Student Group Charter Revocation

Removal of College recognition from a group, a club, a society, or other organizations for a minimum of two years. Reorganization or rechartering after the determined time must be approved by completing reinstatement requirements (Form 1.3).

Title IX Process

Nash Community College (the “College”) is committed to comply with all requirements of Title IX and any regulations under that law. The College has any obligation to investigate and respond to any alleged misconduct under Title IX of which the College has actual knowledge.

Pursuant to Title IX, Nash Community College strictly prohibits all acts of sexual harassment, sexual assault, domestic violence, dating violence, and stalking. For purposes of Title IX, sexual harassment includes, but is not necessarily limited to, quid pro quo harassment. Quid pro quo harassment occurs when a school employee conditions a student’s participation in an education program or activity or bases an educational decision on the student’s submission to unwelcome sexual advances, requests for sexual favors, or other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment also includes any instance of sexual assault, dating violence, domestic violence, or stalking (as those terms are defined in the Clery Act and the Violence Against Women Act). Sexual harassment also includes, but is not limited to, unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive as to deny a person equal access to the College’s educational programs or activities. For purposes of Title IX, sexual harassment that occurs on property owned or controlled by an officially recognized student group is subject to this policy. For purposes of Title IX, this policy applies only to sexual harassment against persons in the United States.

The College’s Title IX Coordinator will oversee all investigations of allegations of gender-based violence and/or sexual harassment. Employees who are found responsible for having committed such a violation could face disciplinary action, up to and including termination of employment. Students who are found responsible for having committed such a violation may face disciplinary probation, deferred suspension, suspension from the College, or dismissal from the College. The Office of Human Resources will handle any incidents involving employees

and College affiliates who are found by the College to have engaged in behavior that violates College policy, including but not limited to sexual assault, domestic violence, dating violence, or stalking.

In addition to facing criminal investigation and prosecution, students, employees, and other affiliates may also face action by the College. When students or employees are accused of having engaged in sexual harassment, sexual assault, domestic violence, dating violence, or stalking, the College may, depending on the facts alleged, issue interim safety measures prior to the resolution of the charges. Such interim safety measures might include altering an individual's work or class schedule, placing an employee accused of misconduct on leave, or placing a student accused of misconduct on suspension.

All conduct proceedings, whether the conduct is reported to have occurred on or off campus, shall provide a prompt, fair, and impartial investigation and resolution. All investigations and proceedings shall be conducted by officials who receive annual training on the nature of the types of cases they are handling (including the definition of sexual harassment for Title IX purposes and the scope of the College's programs and activities under Title IX), how to conduct an impartial investigation, and how to conduct in an impartial manner a proceeding (including hearings, appeals and informal resolution methods) in a manner that protects the safety of victims and promotes accountability, among other relevant issues required under Title IX.

Nash Community College seeks to investigate and adjudicate promptly any official complaints of sexual harassment, sexual abuse, domestic violence, dating violence, or stalking that are filed with the College within sixty (60) days of the College's receipt of that complaint, unless mitigating circumstances require the extension of a time frame beyond sixty (60) days. Such circumstances may include the complexity of the allegations, the number of witnesses involved, the availability of the parties or witnesses, the effect of a concurrent criminal investigation, college breaks or vacations that occur during the term of the investigation, or other unforeseen circumstances. In these matters the complainant and the accused shall be notified, provided an explanation, and given information about the amount of additional time required.

In all investigatory and adjudication proceedings conducted by the College concerning charges of sexual harassment, sexual misconduct, domestic violence, dating violence, or stalking, including any related meetings or hearings, both the complainant and the accused will be afforded the same process rights, including equal opportunities to have others present. This includes the right to be accompanied by an advisor of their choice. This advisor may be but is not required to

be an attorney at law. Both the complainant and the accused may request that the College provide an advisor free of charge. The College appointed advisor is not required to be an attorney at law. Both the complainant and accused will also be afforded an equal opportunity to introduce evidence and identify witnesses. When a student or faculty member is accused of any violation of student conduct, including but not limited to charges of sexual assault, domestic or dating violence, or stalking, the charges will be decided using the preponderance of evidence standard. This implies that it is more likely than not that the reported misconduct occurred.

For additional information concerning student complaints of sexual wrongdoing and the process for resolving such complaints please see the Nash Community College Academic Catalog available in print and on the College website.

Process for Resolving Complaints of Sexual Wrongdoing

Nash Community College is committed to providing a safe learning and working environment. In compliance with federal law, specifically Title IX, the Jeanne Clery Act, the Violence Against Women Act and the Campus Sexual Violence Elimination (SaVE) Act, the College has adopted policies and procedures to prevent and respond to incidents of sexual harassment, sexual assault, domestic violence, dating violence, and stalking. This process applies to students, faculty, and staff as well as contractors and visitors of the College.

The College will not tolerate sexual harassment, sexual assault, domestic violence, dating violence, or stalking, as defined in any form. Such acts of harassment or violence are prohibited by the College, as well as state and federal laws. Violators of these types of behaviors are subject to penalties up to and including dismissal or separation from Nash Community College regardless of whether they are also facing criminal or civil charges in a court of law. The College will follow the following process in determining wrongdoing:

Initiating a Title IX Investigation

Any individual may start a Title IX investigation by the College against a student, faculty, staff, contractor and or visitors of the College community for violation of the Campus Sexual Violence Elimination Policy in writing or in person to the College's Human Resources Director, Title IX Coordinator. Her contact information is 252-451-8258.

A formal complaint should include the following information:

- The name (s) of the accused or if not known a physical description(s); and

- A statement explaining the circumstances of the complaint including a list of potential witnesses; and
- The names, addresses, and phone numbers of the complainant(s).

The written document must be signed by the individual initiating the complaint. Formal complaints will result in a Title IX investigation to determine, if established by the preponderance of the evidence, that the accused violated any provisions of Title IX or the Campus Sexual Violence Elimination Policy. The College must have actual knowledge of potential Title IX misconduct before it investigates. Actual knowledge of potential Title IX misconduct occurs when the College's Title IX Coordinator (its Human Resources Director) or any other official with authority to institute corrective measures, is aware of alleged actions that would violate Title IX.

If a complainant withdraws his or her complaint, the Title IX Coordinator will evaluate whether sufficient evidence exists to start a Title IX investigation. In such a case, the Title IX Coordinator may only sign a formal complaint (which prompts the investigation) if he or she first determines that doing so over the complainant's wishes is not clearly unreasonable in light of the known circumstances. Among other relevant evidence, the Title IX Coordinator may consider prior complaints by the complainant or prior complaints that have been made against the accused in making this determination. It is the Title IX Coordinator's decision to proceed in investigating the complainant after withdrawal, but the complainant's desire will be taken into consideration when making the decision. If the Title IX Coordinator decides not to proceed with the allegations because the complaint withdrew the complaint, a file will be maintained by the Title IX Coordinator, so the investigation can be re-opened if the complainant later decides to reinitiate the complaint, or if the College receives actual knowledge of independent evidence of sexual misconduct by the accused, which the Title IX Coordinator determines in good faith merits re-opening the investigation. If the accused admits to a violation, the Title

IX Coordinator may forego an investigation and refer the matter directly to the discipline process.

Time Frame for Filing a Formal Complaint

The College does not limit the timeframe for filing a Title IX complaint. However, complainants are encouraged to file a complaint as soon as possible in order to maximize the College's ability to investigate the matter, to preserve relevant evidence, and to come to an appropriate determination of the facts. The College will

not be able to pursue disciplinary action if an accused is no longer affiliated with the College.

Incomplete and Unofficial Reports

Any member of the College community may make a Sexual Violence Report involving a student or community member by bringing the report to the attention of the Title IX Coordinator, any member of the Nash Community College Police Department (NCCPD) or any faculty or staff member.

The initial report can be verbal, but a formal complaint must contain the information as stated above in “Initiating a Title IX Investigation”. When the Title IX Coordinator receives a report that a sexual violation has occurred and the report does not meet the formal reporting standards, the Title IX Coordinator will determine what steps need to be taken to gather additional details of the allegations.

If the Title IX Coordinator determines additional information is warranted to proceed with a formal complaint, a College administrator will serve as the complainant. In making a final determination about proceeding with the formal complaint process, the Title IX Coordinator will consider the complainant’s desire to proceed when making the decision. If the Title IX Coordinator decides not to proceed with the allegations, a file will be maintained by the Title IX Coordinator, so the investigation can be re-opened if the complainant later decides to reinitiate the complaint, or if the College receives actual knowledge of independent evidence of sexual misconduct by the accused, which the Title IX Coordinator determines in good faith merits re-opening the investigation. In all cases the Title IX Coordinator will consider the safety of the complainant or the College community before a final decision is made. Furthermore, the Title IX Coordinator will only sign a formal complaint if he or she determines that doing so over the complainant’s wishes is not clearly unreasonable in light of known circumstances.

Even if an individual ultimately decides not to advance a formal complaint, the College will offer supportive measures tailored to the individual’s situation. These supportive measures, which the College will offer free of charge on a confidential basis, may include counseling, course adjustments, leaves of absence, modification to housing or work areas, increased security, and monitoring.

Temporary Action

If deemed necessary, upon receiving a formal complaint or incomplete and unofficial report, the Title IX Coordinator shall put temporary preventive actions in place. Temporary actions imposed may include, but are not limited to, no-contact guidelines, suspension, academic schedule changes and or a change in a worker’s work location. Any member of the College community who is involved in a Title

IX investigation (complainant, accused and/or witnesses) may request temporary action to the Title IX Coordinator. The Title IX Coordinator may impose temporary actions based on the best interests of the College community. Also, both the complainant and the accused may request temporary support measures to be coordinated by the Title IX Coordinator while the process advances. Emergency measures to remove the accused from the environment may be taken if the Title IX's Coordinator's individualized safety and risk assessment determines that there is an immediate safety threat. In such a case, notice must be provided to the accused, and the accused will be given the opportunity to provide evidence to the Title IX Coordinator to challenge the decision immediately after removal.

Investigative Process And Hearing Process

Upon receipt of a formal complaint, the Title IX Coordinator will send written notice to both the complainant and the respondent of the allegations. The Title IX Coordinator will contact a Title IX Investigator to assist with the investigation. During the investigation, the College will ensure an equal opportunity for the parties to present evidence, including fact and expert witnesses. It will send written notice of any investigative interviews, meetings, or hearings to both parties. The College will also send to all the parties (and their advisors) evidence directly related to the allegations, whether inculpatory or exculpatory, even if the College does not intend to rely upon such evidence in making its determination of responsibility.

The Title IX Investigator will investigate the report and make recommendations:

- 1) a recommended determination of the facts of the allegations and 2) a recommendation as to whether the accused violated any of the provisions of the College's Sexual Assault policy. The standard of proof shall be by a preponderance of the evidence.

The Title IX Coordinator will meet with the complainant and accused individually. Both parties will be provided with written notification of the allegations of the Campus Sexual Violence Policy under investigation and that the allegations have been referred to the Title IX Investigator for investigation. Inquiries regarding the investigation process and or progress shall be referred to the Title IX Investigator.

The complainant and accused shall be advised that any behavior, on or off campus, that can be interpreted as retaliation against the complainant, witnesses or accused shall be grounds for immediate disciplinary action up to and including suspension or dismissal from the College. The complainant and accused shall be provided with a copy of the sexual assault complaint and advised that if they

have questions concerning the policy or complaint process, they may contact the Title IX Coordinator.

The complainant and accused shall be advised that they may have an advisor present whenever they meet with the Title IX Investigator. This advisor may be, but is not required to be, an attorney at law. Both the complainant and the accused may request that the College provide an advisor free of charge. The College appointed advisor is not required to be an attorney at law. An advisor may be removed or dismissed for being disruptive or not abiding by restrictions imposed. An advisor who accompanies a complainant or accused to a Title IX meeting with an investigator attends solely for the purpose of consultation and may not answer or ask questions.

- The complainant and accused shall be advised of the following:
- They are permitted to submit a list of witnesses to the Title IX Investigator.
- They may submit pertinent documentary evidence to the Title IX Investigator (for example, text messages, emails, photographs).
- The importance of preservation of evidence (for example, text messages, emails, photographs).
- They have the option to request that the College take steps to prevent unwanted contact or communication with a member of the College community.
- The complainant has the option to contact the local law enforcement agency with jurisdiction over this matter and start a criminal investigation.
- The NCCPD will assist the complainant with making contact with local law enforcement agencies and will assist them with seeking restraining orders.

The Title IX Investigator shall interview the complainant and summarize the interview in a written statement. The complainant (and his or her advisor) will have the opportunity to review the statement and make comments. The Title IX Investigator shall include pertinent and clarifying comments into the complainant's statement. Confusing or conflicting comments that depart from the original will be noted by the Title IX Investigator. Additionally, the Title IX Investigator shall ask the complainant for the name, address, phone number and email address of witnesses.

The Title IX Investigator shall interview the accused and summarize the interview in a written statement. The accused (and his or her advisor) will have the opportunity to review the statement and make comments. The Title IX Investigator shall include pertinent and clarifying comments into the accused's statement. Confusing or conflicting comments that depart from the original will be noted by the Title IX Investigator. Additionally, the Title IX Investigator shall ask the accused for the name, address, phone number and email address of witnesses. The Title IX Investigator will evaluate if the temporary preventive actions implemented are appropriate and work with the Title IX Coordinator to ensure the accused is in compliance.

The Title IX Investigator will review the accused's College academic and/or personnel records to determine if there are previous allegations made against the accused that relate to the complainant's allegations. The complainant and the accused will be provided with a copy of the disciplinary records that relate to the complaint.

Reasonable attempts will be made by the Title IX Investigator to interview witnesses identified on the witness list provided by the complainant and accused. Additionally, the Title IX Investigator will make every effort to identify witnesses by other sources. Written summaries of witness accounts as well as the statements given by the complainant and accused will form the basis of the Title IX Investigator's report. The Title IX Investigator will also evaluate all other relevant evidence. Additional examples of evidence include, but are not limited to:

- security camera footage;
- medical records (subject to the provision below);
- prior disciplinary history.

During this process, the Title IX Investigator may not require, allow, rely upon or otherwise use questions or evidence that constitute or seek disclosure of information protected by a legally recognized privilege, unless the holder of that privilege waives it. The College cannot consider, disclose, or otherwise use medical treatment records without the written consent of the party involved.

The Title IX Investigator will consider and review all evidence, i.e. documentary, physical, and testimonial, submitted by the complainant or accused to prepare a report to be submitted to the decisionmaker. The Title IX Investigator's report will describe his or her determinations concerning the relevance of the evidence being considered. The report will include the Title IX's investigator conclusions

regarding the facts and his or her recommendations regarding whether the accused violated the College's policies. Before final recommendations are reached by the Title IX Investigator, a written draft report accompanied, by a summary of the evidence, shall be provided to the Title IX Coordinator for review. The Title IX Coordinator shall review the report and make additional suggestions as needed.

After the Title IX Coordinator review, the Title IX Investigator shall allow both the complainant and accused and their advisors review a copy of the draft written report (without findings) under the supervision of the Title IX Coordinator or Title IX Investigator. During the review, clarification or comments may be provided. The complainant, the accused and their advisor may not copy, photograph, and video tape or remove the draft report from the viewing location.

At the Title IX Investigator's discretion, relevant and revealing comments provided by the complainant or accused will be incorporated into the draft report.

The Title IX Investigator will note significant changes from the original statement. If additional evidence is provided, the Title IX Investigator will incorporate the information into the written report. The additional evidence may be shared with the complainant or accused for remarks.

The Title IX Investigator's report will be finalized and conclusions drawn based on the preponderance of the evidence standard as to whether the accused violated the College's Title IX or Sexual Assault Policy. The revised draft will be submitted to the Title IX Coordinator for final review. After final review, the Title IX Investigator's final report is prepared and submitted to the Title IX Panel prior to the live hearing described below.

Live Hearing And Final Determination

The College is mandated to provide a live hearing in which the complainant and accused may provide evidence and witnesses. This hearing must be conducted in real-time, allowing both parties to see and hear questioning of the parties and other witnesses. If requested by either party, the hearing will be conducted virtually.

The procedure below is the process that is followed for a Title IX Panel hearing. The complainant and accused involved in a Title IX Panel hearing is entitled to the following:

- Communication setting forth the date, time, and location of the meeting;

- Communication setting forth the individual's right to be accompanied by an advisor, who can be an attorney at law;
- Communication setting forth the individual's right to have the College appoint an advisor appointed for them free of charge, who does not need to be an attorney at law;
- Communication stating the individual's right to have witnesses testify in their favor, including fact or expert witnesses; and,
- A list of the members on the Title IX Review Panel and the procedure for challenging the participation of a member for reasons of conflict of interest.

The communication will be sent by the Title IX Coordinator to the concerned parties. At least five (5) days prior to the hearing, the Title IX Investigator will provide all collected evidence, whether inculpatory or exculpatory, to both the complainant and the accused (as well as their respective advisors), in hard copy or electronic format. The Title IX Panel will consist of a Title IX Adjudicator, six panel members (three faculty, three staff), and an administrative assistant (ex officio-for the taking of minutes). The Title IX Adjudicator can vote only in the case of a tie vote by the panel. The Title IX Coordinator and the Title IX Investigator will not be on the Title IX Panel.

The Title IX Panel meeting shall be conducted as follows:

- Prior to the start of the meeting, all parties participating in the meeting shall sign a statement of confidentiality and nondisclosure, and an honesty statement if they are giving testimony to the panel.
- The meeting will be called to order at the predesignated date and time by the chair once a quorum has been established with the following individuals in attendance: The Title IX Adjudicator (Presiding Officer), a quorum of panel members, and administrative assistant (for the collection of minutes). The complainant, the accused, advisor(s) (if desired), and any witnesses will be asked to wait outside the hearing until called upon.
- Once the meeting is called to order, the Adjudicator will announce the purpose for the meeting, including any relevant information pertaining to the circumstances leading up to the meeting.

- The Title IX Investigator will then present to the panel the findings of his or her investigation. The members of the panel shall have the opportunity to ask questions of the Investigator.
- Next, the chair will ask the complainant and accuser, as well as any advisors, into the room. Upon request of either party, the meeting can be conducted virtually with complainant and accuser at separate sites but able to see and hear one another remotely.
- The complainant will then be asked to present the facts that support his or her allegations that the accused violated the College's sexual harassment or sexual violence rules. If the complainant has any witnesses present (that have firsthand knowledge of the facts) they may proceed to present their testimony after the complainant.
- Following the completion of the complainant's testimony, and at the conclusion of the presentation of witnesses by the complainant, the members of the panel as well as the accused shall have the opportunity to ask questions to the complainant or the complainant's witnesses. With regard to cross examination by the accused, however, such questions may only be asked by the accused's advisor. During such cross examination, the Chair must make a ruling on whether each such question is relevant and in compliance with rape shield law protections, prior to the question being answered. When making a decision to disallow a question, the Chair will provide the basis of his or her decision on the record.
- After questioning, the complainant is given the opportunity to explain or refute testimony.
- At this point, the accused will then be allowed to give his or her testimony and/or extenuating circumstances that he or she believes the panel should consider in determining the facts. The testimony may include presentations by witnesses who have firsthand knowledge of the facts.
- Following the completion of the respondent's testimony, and at the conclusion of the presentation of witnesses by the respondent, the members of the panel as well as the complainant shall have the opportunity to ask questions to the accused or the accused's witnesses. With regard to cross examination by the complainant, however, such questions may only be asked by the accused's advisor. During such cross examination, the Chair must make a ruling on whether each such question is relevant and in compliance with rape shield law protections, prior to the question being answered. When making

a decision to disallow a question, the Chair will provide the basis of his or her decision on the record.

- After questioning, the accused is given the opportunity to explain or refute testimony.
- Next, the complainant is given an opportunity to make closing remarks lasting no more than three minutes.
- Next, the accused is given an opportunity to make closing remarks lasting no more than three minutes.
- After the closing remarks by both the complainant and the accused, both will be excused from the meeting, along with their witnesses and advisor(s), and instructed that a final decision sent to them after 48 hours via certified mail. Any prior measures will remain in effect unless the outcome of the meeting overturns or amends the prior actions.
- Following closing remarks, members of the Title IX Panel will meet in closed session to consider the preponderance of the evidence as to whether the accused violated the College's policies and was responsible for the allegations. The panel has up to 48 hours to make its determination.
- If the panel determines that the respondent is responsible, it will proceed to make a written determination with findings of fact and continued or new sanctions to be imposed in the case of the accused being a student by the Vice President of Student Services, the College's Chief Disciplinary Officer, or in the case of an employee of the College by the Human Resources Director.
- Within five (5) business days of receiving the Panel's determination, the Title IX Coordinator will communicate to the accused the outcome of the hearing and the appeal process, including a written copy of the Panel's determination. A recording of the live hearing will be made available to both parties for inspection and review.

Sanctions Resulting From a Disciplinary Proceeding

The College has the option of imposing the following sanction or sanctions when an accused is found more likely than not (preponderance of the evidence standard) to have committed a Title IX offense.

Suspension

Suspension of a student from a Nash Community College class (traditional, online, hybrid, etc.), a College program of study, and/or all activities of the College for a stated period of time. Suspended students may petition the College for readmission only upon the approval of the Vice President of Student Services.

Expulsion

Dismissing a student from the campus of Nash Community College to include participation in College classes (traditional, online, hybrid, etc.) or a College program of study, and/or all activities of the College. The student loses matriculation status. Expelled students may petition for readmission only after a minimum of two semesters and upon the approval of the Vice President of Student Services.

Restitution

Payment for damaged, misused, destroyed, or lost property belonging to the College, College personnel, or students.

Withholding

Transcript, diploma, or right to register shall be denied when financial obligations are not met.

The Title IX Appeal Process

The complainant and accused shall have seven (7) business days after receiving notice of the decision of the Title IX Panel to submit an appeal to the Vice President of Instruction/Chief Academic Officer. The sole grounds for an appeal are: 1) information brought forth by the complainant indicates discrimination on the basis of age, sex, national origin, religion, or disability, or other bias or conflict of interest, on the part of the Title IX Coordinator, Title IX Investigator or decision-maker, 2) the complainant brings forth substantial evidence that procedural due process was denied and that such procedural irregularity affected the outcome, or 3) significant new (unknown) information has been discovered that was not reasonably available at the time of the hearing and which substantially changes the facts of the allegations and may change the outcome of the investigation.

Within ten (10) business days and after the review for the request of an appeal, the Vice President of Instruction/Chief Academic Officer shall notify both parties that the appeal has been granted or rejected. If the Vice President of Instruction/Chief Academic Officer grants the appeal, it will then be heard by an independently appointed appeal committee designated by the Vice President of Instruction/Chief Academic Officer. The committee will make its recommendation to the Vice President of Instruction/Chief Academic Officer who makes the final decision regarding the appeal.

Amnesty

The College recognizes that students who have been using drugs or alcohol at the time of a sexual assault or incident may be reluctant to make a report because of the potential disciplinary consequences. Any student who reports a sexual assault, either as a complainant or a third-party witness, will not be subjected to disciplinary action by the College for their own consumption of alcohol or drugs at the time of the incident. This is provided that the violation did not place a person in danger or jeopardy at the time of the incident and the allegations were not unfounded.

Family Educational Rights and Privacy Act of 1974 (FERPA)

Compliance with these provisions does not constitute a violation of Section 444 of the General Education Provisions Act (20 U.S.C.1232g), commonly known as the Family Educational Rights and Privacy Act of 1974 (FERPA).

Children on Campus

Children may not remain on campus while parents are testing, in class, or in lab, including open computer or tutoring labs. The College cannot assume the responsibility nor the liability for unattended children and the College must adhere to regulations as interpreted by the Attorney General's office (G.S. 115D-1).

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. (An "eligible student" under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution.) These rights include:

1. The right to inspect and review education records within 45 days after the day Nash Community College receives a request for access. A student should submit to the Director of Records and Registrar, or other appropriate official, a written request that identifies the record(s) the student wishes to inspect. The Director of Records and Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes is inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask Nash Community College to amend a record should write the Director of Records and Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If Nash Community College decides not to amend the record as requested, Nash Community College will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the College discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

Nash Community College discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by Nash Community College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official also may include a volunteer or contractor outside of Nash Community College who performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent or a student volunteering to assist another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for Nash Community College.

Upon request, Nash Community College also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Nash Community College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

FERPA permits the disclosure of PII from a student's education records, without consent of the student, if the disclosure meets certain conditions found in §99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the student, §99.32 of FERPA regulations requires the institution to record the disclosure. Eligible students have a right to inspect and review the record of disclosures. A postsecondary institution may disclose PII from the education records without obtaining prior written consent of the student –

- To other school officials, including teachers, within Nash Community College whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in §99.31(a)(1)(i) (B)(1) - (a)(1)(i)(B)(2) are met. (§99.31(a)(1))
- To officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student's enrollment or transfer, subject to the requirements of §99.34. (§99.31(a)(2))
- To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as a State postsecondary authority that is responsible for supervising the university's State-supported education programs. Disclosures under this provision may be made, subject to the requirements of §99.35, in connection with an audit or evaluation of Federal or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf. (§99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§99.31(a)(4))
- To organizations conducting studies for, or on behalf of, the school, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction. (§99.31(a)(6))
- To accrediting organizations to carry out their accrediting functions. (§99.31(a)(7))
- To parents of an eligible student if the student is a dependent for IRS tax purposes. (§99.31(a)(8))

- To comply with a judicial order or lawfully issued subpoena. (§99.31(a)(9))
- To appropriate officials in connection with a health or safety emergency, subject to §99.36. (§99.31(a)(10))
- Information the school has designated as “directory information” under §99.37. (§99.31(a)(11)). Directory information at Nash Community College includes the name, major field of study, dates of attendance, and degrees and awards received.
- To a victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense, subject to the requirements of §99.39. The disclosure may only include the final results of the disciplinary proceeding with respect to that alleged crime or offense, regardless of the finding. (§99.31(a)(13))
- To the general public, the final results of a disciplinary proceeding, subject to the requirements of §99.39, if the school determines the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the school’s rules or policies with respect to the allegation made against him or her. (§99.31(a)(14))
- To parents of a student regarding the student’s violation of any Federal, State, or local law, or of any rule or policy of the school, governing the use or possession of alcohol or a controlled substance if the school determines the student committed a disciplinary violation and the student is under the age of 21. (§99.31(a)(15))

Student Responsibility

Each student is responsible for the proper completion of their academic program. It is the responsibility of the student to know the academic regulations of Nash Community College, for maintaining academic standing, and for meeting all graduation requirements. Advisors will provide counsel, but the final responsibility rests with the student.

Student Dress

Students are not allowed in any campus facility without shoes, shirts, and pants. Underclothing must not be visible and clothing should not be distracting to the educational environment.

In addition, students must meet the specific dress requirements of their program of study, including uniforms or personal protective equipment such as goggles, shields, etc., required in laboratory and shop settings. Students in violation of dress policies may be subject to corrective action, including being asked to leave the classroom, lab or campus.

A student’s overall personal appearance must reflect cleanliness and good grooming. If a student’s dress or hygiene interferes with the learning process, the

student's instructor will counsel the student. Repeat offenses may result in referral to the Vice President of Student Services.

Smoking on Campus

Smoking within college buildings is prohibited. This also includes all forms of smokeless cigarettes. Smoking is also prohibited within 25 feet of all building entrances. Smoking is permitted in the designated areas outside of all buildings. Employees and students who smoke shall be expected to exercise caution regarding fire damage to property in designated areas and to utilize cigarette receptacles.

Student Abuse: Alcoholic Beverages, Controlled and Other Illegal Substances

The College recognizes its obligation to all employees, students, and the public at large and is committed to provide and maintain a safe working environment which is free of alcohol and illegal drugs and/or controlled substances. The policy is in accord with the requirements of the Federal Drug-Free Workplace Act of 1988 and the Drug-Free Schools and Communities Act Amendment of 1989. The unlawful use or possession of alcoholic beverages, hallucinatory drugs, other controlled and/or illegal substances is not permitted on campus or at any worksite and/or class site. Violation of this policy may subject the student to disciplinary measures or dismissal. The student is entitled to procedural due process.

Legal Sanctions

The Drug-Free Schools and Communities Act (DFSCA) requires publication of the description of the applicable legal sanctions under federal, state, or local law for the unlawful possession or distribution of illicit drugs or alcohol. The North Carolina Controlled Substances Act (G.S. § 90-86) may be found in the North Carolina Criminal Law and Procedure book or on the Internet at <http://www.ncleg.net/gascripts/Statutes/Statutes.asp>.

Similar to the Federal Controlled Substance Act (1970), the North Carolina Controlled Substances Act (G.S. § 90-86) defines controlled substances and places them into one of six categories called schedules. The placement of a controlled substance into a schedule is determined by a set of defined criteria that evaluate the substance's potential for abuse, medical use, and safety or dependence liabilities. Minimum punishments for violations may also be found in the Act.

Health Risks

Substance Use: Alcohol, Drugs, and Tobacco

Sources: <http://www.cdc.gov/family/college> and Appendix 4 Complying With the Drug-Free

Schools and Campuses Regulations

The pressure to use alcohol, drugs and cigarettes can be huge for some college students, especially when trying to make friends and become part of a group. Drinking on some college campuses is more pervasive and destructive than many people realize. Studies show that four out of five college students drink alcohol. Two out of five report binge drinking (defined as five or more drinks for men and four or more for women in one sitting). One in five students reports three or more binge episodes in the prior two weeks.

Alcohol is a depressant. Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long term consumption of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and liver. Mothers who drink alcohol during pregnancy increase the risk of birth defects, spontaneous abortion, and still births. In addition, research indicates that children of alcoholic parents are at a greater risk than other youngsters of becoming alcoholics. Substance abuse often leads to on-the-job accidents and absenteeism.

Alcohol consumption among persons aged 12–20 years contributes to the three leading causes of death (unintentional injury, homicide, and suicide) in this age group in the United States. It is associated with other health-risk behaviors, including high-risk sexual behavior, smoking, and physical fighting.

Club drugs refer to a wide variety of drugs often used at all-night dance parties ("raves"), nightclubs, and concerts. Mixing drugs together or with alcohol is extremely dangerous. The effects of one drug can magnify the effects and risks of another. Taking and/or mixing drugs can cause severe breathing problems, coma, and even death.

The use of alcohol and other drugs increases the risk of being sexually assaulted. Whether taken voluntarily or unknowingly (e.g. a drug is slipped into a person's

drink), alcohol and other drugs can decrease a victim's ability to assess a risky situation or resist sexual violence.

Tobacco use is common among college students nationwide and is not limited to cigarettes. One study found that the four most common reasons that college students gave for their smoking were stress, less supervision, having more free time, and the number of their friends who smoke. Unfortunately, many students do not realize how addictive nicotine is. Smoking causes cancer, cardiovascular disease, and other problems.

Action Steps

- Educate yourself about the dangers of drinking and binge drinking. Become familiar with campus resources (e.g., counseling services) that can help you make informed choices about the use of alcohol, tobacco, and other drugs.
- Help develop and participate in evening and weekend activities on campus featuring safe and healthy alternatives.
- Work with campus leaders to increase the availability of safe places on campus to meet with friends.
- If you are concerned about your or someone else's use of alcohol or other drugs, seek assistance from your parents, faculty advisor, counseling services, or doctor.
- Know that you CAN quit. Quitting has both immediate and long-term benefits.
- Avoid second-hand smoke. It is just as harmful as if you were smoking yourself.
- Don't drive after drinking or using drugs.

Weapons on Campus

As provided by North Carolina General Statute §14-269.2, all weapons, knives, firearms, dangerous chemicals, or instrumentalities/articles that might be injurious to persons or property are prohibited on Nash Community College's campus.

Exceptions allow for Nash Community College's Police Department, sworn North Carolina and federal law enforcement personnel, law enforcement training courses or clinics, Nash Community College faculty supervised course sessions as part of the regular, approved curriculum, College sanctioned ceremonial events and those exceptions allowed under N.C.G.S §14-269(a.2). This statute provides that a handgun may be brought on campus by an individual who has a valid "concealed handgun permit" and such handgun remains either (1) in a closed compartment or container within such permit holder's locked vehicle, or (2) within a locked container securely affixed to such permit holder's vehicle.

Classes requiring the use of firearms are held in the Continuing Education and Public Services Building located on the South Campus Connector. All students enrolled in classes requiring the use of firearms must park in the reserved Firing Range Parking Lot designated as P12. Sworn law enforcement personnel are asked to use the South lot, but may also use other parking as necessary.

Campus Traffic and Parking

The College requires compliance with all traffic and parking regulations on campus. In most cases these regulations are clearly marked. The campus speed limit is 20 mph. Parking is authorized only where indicated, and parking along any driveway is strictly prohibited. Students, faculty, and staff are required to register their vehicles and display a valid parking decal on the left side of the rear window. Parking decals may be obtained in Student Services. Students are charged a security/parking fee each semester.

Violators of traffic and parking regulations will subject themselves to certain sanctions imposed by the College. Habitual offenders will lose the privilege of parking on campus. Towing may be authorized to enforce traffic regulations. The College is not responsible for damages to vehicles while on campus.

Emergency and/or Inclement Weather Communication

When a determination has been made, including emergency response, evacuation or inclement weather announcements, information will be communicated to faculty, staff and students via the College website (www.nashcc.edu), social media channels (www.facebook.com/nashcommunitycollege and www.twitter.com/nashcc), email, voice alert and text messaging. Note: Users must subscribe in order to receive voice and text alerts. To subscribe to receive critical messages from Nash Community College via voice and text alert, go to www.nashcc.edu/alerts and follow the instructions. Standard text message fees apply. By default, emergency communications are sent to all student email addresses. However, students who wish to receive alerts by text and voice must update their settings at www.nashcc.edu/alerts. Community members unaffiliated with an NCC email address may subscribe to receive messages by creating a new account at www.nashcc.edu/alerts.

In the event emergency response is implemented, faculty and staff may also be notified with a voice alert via the College's telephone zone alert messaging system, through handheld radios distributed among the College's safety committee, all College Administrators and Department Chairs. The emergency siren mass notification tower will be activated as well.

Student Accounts Receivable

Students receiving educational assistance from an employer or other agency outside the college must contact the Business Office to establish procedures for the billing of tuition and fees to the third party.

Written authorization to bill a third party must be on file in the Business Office before a student will be allowed to charge to accounts receivable. If a third party fails to pay the charged tuition and fees, these charges become the responsibility of the student.

Student Activities and Life

The quality of life outside the classroom is of utmost importance at Nash Community College. Every effort is made to offer recreational, social, and cultural opportunities which will enhance the student's educational experience. The Student Government Association plans and implements student social activities throughout each semester.

Harassment Procedure

It is the policy of Nash Community College that each employee and student be able to work and study in an environment free from any form of improper discrimination. Harassment of any nature is prohibited whether it is based on race, color, national origin, sex, disability, or age. Harassment is a form of discrimination and is conduct unbecoming of a college employee or student. Harassment includes unwelcome sexual conduct or request for sexual favors and verbal or physical conduct reflecting on an individual's race, color, national origin, sex, disability or age which has the purpose or effect of creating an intimidating, hostile, or offensive educational or work environment, has the purpose or effect of unreasonably interfering with the individual's work or school performance or participation, or otherwise affects an individual's employment or educational opportunities. Any student or employee who is found to harass another student or employee will be subject to disciplinary action up to and including termination, suspension, and/or expulsion.

Any student who feels that he/she has been harassed should contact a counselor or the Vice President of Student Services.

Student Organizations

Nash Community College realizes the role of student organizations in enhancing a student's college experience. These organizations provide the students and the college with regional, state, and national exposure via participation in their respective chapter affiliations and campus social activities. Because of this public

exposure, all student organizations must coordinate their social and fundraising activities with the Vice President of Student Services and the College's Dean of Marketing. After review and approval of the activity, the Vice President of Student Services will forward the organization's activity to the Public Information Office. This coordination will eliminate any duplication of activities and assist the College in presenting the very best image.

Advanced Manufacturing Club

The Advanced Manufacturing Club is an organization to promote skills, technology, and knowledge for students in the Computer-Integrated Machining, Welding, and Industrial Systems Technology fields. The club serves to promote learning in related fields as well as to develop leaders within these career paths.

Ambassadors

The Nash Community College Foundation sponsors a Student Ambassador program for selected individuals who demonstrate leadership, scholarship, and strong written and oral communication skills. Ambassadors represent Nash Community College at Foundation events and a wide variety of school functions. Ambassadors assist the College during times such as registration and open house. Ambassador applications are available in the spring. In the spring of each year, a selection committee appointed by the Nash Community College Foundation Executive Director interviews and selects the ambassadors. Ambassadors receive a scholarship and serve the College in the subsequent school year.

Artistic Designers Club

The Artistic Designers Club is an organization open to all students taking Cosmetology courses at Nash Community College. The Artistic Designers Club encourages active participation in hair styling seminars for advancement, provides opportunities for development of leadership skills and group accountability. The Artistic Designers Club supports and participates in projects and activities to enhance the appreciation of the Cosmetology field.

Autistic Self-Advocacy Network Club (ASAN)

The NCC-ASAN seeks to advance the principles of the disability rights movement with regard to autism.

Automotive Technology Club

The purposes of this club are to enhance the knowledge and encourage the interests of undergraduate students and to promote the development of organized automotive technology activities and encourage student learning in automotive maintenance and automotive related fields.

Blue Love Creators

Creative writing and visual arts club open to any curriculum student at NCC who has an interest in writing, visual arts, marketing or publication. Its main purpose is to foster the production of creative writing and visual arts among the students of the College. By offering seminars and workshops, the club seeks to help students refine their skills. The club strives to produce a juried literary and visual arts magazine once per year.

Criminal Justice Club

The Nash Community College Criminal Justice Club is open to all students enrolled in the Criminal Justice program at Nash Community College. The purpose of the Criminal Justice Club is to afford students the opportunity to gain exposure to the professional realm of law enforcement, courts and corrections. Methods of accomplishing this exposure include involvement in activities such as attending criminal justice conferences, field trips to criminal justice agencies, and speaking with practicing criminal justice professionals. The Criminal Justice Club also attempts to promote civic responsibility by adopting a family for Thanksgiving or Christmas, collecting food and clothes for the homeless, volunteering at Baptist Ministries homeless shelter, assisting Habitat for Humanity, food drive for flood victims, as well as other civic and humanitarian duties.

Culinary Club

The Culinary Club is open to students enrolled in the Culinary Arts or Hospitality Management programs. The club is designed to encourage students to polish and perfect skills learned in culinary and hospitality courses and to promote these programs through campus activities.

Drama Club

The Nash Community College Drama Club (NCCDC) is designed to encourage support and participation in activities of theater interest. This includes participation in campus productions at Nash Community College as well as supporting and participating in projects and activities that enhance theatrical development. All students enrolled in NCC courses and programs, past graduates and alumni in good standing may be members.

Dungeons & Dragons Club

The purposes of this organization are to enrich student's knowledge and uses of improvisation and its application to the real world while enhancing a variety of skills including but not limited to teamwork, conflict resolution, and evaluation situations. To provide a place for students to come together and interact with each other through a fun and engaging means.

Early Childhood Education Club

The Early Childhood Education Club encourages active student involvement in local, state, and national professional activities and participation in NCC campus life. The club provides opportunities to develop leadership and child advocacy skills. The Early Childhood Club also supports projects, events and activities that enhance professional and academic development as well as those of general community interest.

Gaming Club

The Gaming Club gives students a positive environment to come together with other like-minded individuals to socialize through the art of gaming. Games can include board games, card games, and video games. Students must maintain a satisfactory GPA and standing, up to the discretion of the advisor.

Gamma Beta Phi Society

The Gamma Beta Phi Society is a non-profit, educational, honor and service organization for students in colleges and universities in the United States. Its objectives are to recognize and encourage excellence in education, to promote the development of leadership ability and character, and to foster, disseminate, and improve education through appropriate service projects.

To be considered for induction, the student must have a cumulative GPA at Nash Community College at or above 3.00 and have completed 12 or more semester credit hours in a major (zero-numbered courses are not considered in GPA).

Global Scholars Club

Through the Global Scholars program, students will develop global competencies and skills needed to be successful in today's global economy. The program will focus on discovering what it means to be a global citizen and how students can apply this knowledge to their academic and professional endeavors. Upon completion of all program requirements, students will earn the identification of "Global Scholar" on their transcripts and will receive specialized regalia for graduation.

Library Club

Members of the Nash Community College Library Club promote the library's collections, resources, services, and programs by sharing information and providing tours, teaching information literacy and research skills, participating in programs, assisting with projects, recruiting new members to the club, and encouraging others to read for academic success, personal growth, and recreation. Club members also contribute to improving the library for current and future students.

Men Achieving Leadership and Excellence (M.A.L.E.)

Men Achieving Leadership and Excellence (M.A.L.E.) promotes academic, personal & professional success for minority males at NCC.

Nash Community College Fitness Club

The purpose of this club is to give students an outlet to meet other students who are new to exercise and want to engage in physical recreational activities but don't know where to start.

Nash Community College Lambda Alliance of Students and Supporters

Nash Community College Lambda Alliance of Students and Supporters (NC-CLASS) is an organization whose purpose is to provide outreach, support, information, and resources for gay, lesbian, transgender, and bisexual students. NC-CLASS also provides information and resources to students regarding sexuality and sexual orientation and strives to promote a culture of equality for all Nash Community College students.

Nash Community College SkillsUSA Chapter

SkillsUSA is dedicated to building champions for America's workforce. Membership in Nash Community College's SkillsUSA chapter is open to all students in a career and technical education program, including health careers (eligible programs as of now: Automotive, Computer Engineering Technology, Culinary, Cosmetology, Welding, Computer and Integrated Machining, Criminal Justice, Industrial Systems Technology and Medical Assisting). NCC SkillsUSA provides quality education experiences for students in leadership, teamwork, citizenship, and character development. This framework builds and reinforces self-confidence, work attitudes, and communication skills. It emphasizes total quality at work: high ethical standards, superior work skills, life-long education, and pride in the dignity of work. Through integrated curricula, competitive events, and leadership training activities, NCC SkillsUSA Chapter promotes the understanding of the free-enterprise system and involvement in community service while meeting the demands of the ever-evolving workplace.

National Association of Veterinary Technicians in America

The objectives of the Student Chapter of the National Association of Veterinary Technician in America (NAVTA) are to promote the professional and educational advancement of veterinary technicians, to promote and maintain the professional image and high ethical standards of the veterinary technician, to promote progressive and humane medical care for all creatures, to promote and maintain a cooperative professional relationship with the veterinary medical profession, to

promote an interest in a national association of veterinary technicians, to serve as a contact between members of NAVTA and veterinary technology students, and to further the social and scientific advancement of Nash Community College veterinary technology students.

National Society of Leadership and Success

The National Society of Leadership and Success is the nation's largest leadership honor society. Students are selected for membership via invitation based on academic standing. NSLS is a step-by-step leadership development program for members to build their skills through participation at campus or online. Upon completion of the program, members receive their leadership certificate and take their place among the top student leaders on campus and across the country.

Phi Beta Lambda

Phi Beta Lambda (or PBL) is an organization open to all curriculum students who are interested in business (PBL is the college-level counterpart of FBLA). The Kappa Alpha Chi chapter of Nash Community College PBL is affiliated with both the state and national chapters of Phi Beta Lambda.

The PBL chapter gives both day and evening students the opportunity to develop leadership, communication and business skills which will assist them in furthering their careers. PBL offers the opportunity to make business contacts and work with local business leaders. It also gives students the chance to compete with other students from across the state and nation for recognition as top students in a variety of business-related topics.

PBL assists students by enhancing their résumés with leadership opportunities and award recognition. All students are encouraged to become active members of PBL and experience the benefits of membership.

Phi Theta Kappa

Phi Theta Kappa is a national honor society that recognizes and encourages scholarship among two-year college students. To achieve this purpose, Phi Theta Kappa provides opportunity for the development of leadership and service, for an intellectual climate for exchange of ideas and ideals, for lively fellowship for scholars, and for stimulation of interest in continuing academic excellence.

To be eligible for membership in PTK at Nash Community College, a student must have completed a minimum of twelve (12) semester hours of non-developmental course work and must have earned a cumulative grade point average of 3.50 or higher. To maintain membership, the student must continue a high academic standing throughout enrollment in the two-year college.

Physical Therapist Assistant Student Organization

The Physical Therapist Assistant Student Organization (PTASO) is a non-profit organization for Physical Therapist Assistant students, other students eligible for enrollment in the program, and program alumni. The PTASO encourages active participation in professional activities at the state and national levels; development of leadership skills; participation in projects and activities that develop support and interest within the professional community; and participation in projects and activities that enhance and promote general community support and interest.

Psychology Club

The purposes of this organization are to enrich students' knowledge of psychology and its application in the real world while enhancing leadership skills and encourage involvement in the field of psychology.

STEM Club

The STEM Club provides opportunities to develop critical thinking and advocacy skills in mathematics and to promote the development of organized science activities and to provide opportunities to develop leadership, critical thinking and advocacy skills in the field.

Student Government Association

The SGA is the primary organization responsible for providing activities and opportunities that will enhance formal educational experiences. Through its democratic and representative system of government, SGA strives to protect the rights and privileges of all students.

All curriculum students are members of the Student Government Association by virtue of paying an activity fee upon class registration. Members are encouraged to attend monthly meetings and take advantage of the privileges of membership. Students are governed by the SGA Constitution without regard to sexual orientation, gender, race, religion, creed, national origin, sex, age, or disability.

SGA officers are elected in the spring semester for a one-year term. The SGA President represents the student body as a non-voting member of the College's Board of Trustees.

Student Medical Assisting Association (SMAA)

The Student Medical Assisting Association at Nash Community College helps to prepare students for a rewarding career in the medical assisting field by 1) encouraging knowledge and skill growth; 2) developing leadership, advocacy, and critical thinking skills; and 3) encouraging and developing active participation in

local and state levels of North Carolina Society of Medical Assistants (NCSMA) and American Association of Medical Assistants (AAMA).

Membership to those students who are currently enrolled into Medical Assisting courses and/or have been formally accepted into the Medical Assisting program. Students who are deemed as a pre-Medical Assisting student may become a member but do not hold any officer role.

Student Nurses' Association

The Nash Community College Student Nurses' Association is the pre-professional organization for student nurses at Nash Community College. Membership is open to nursing students and prenursing students. Nash Community College is affiliated with the North Carolina Association of Nursing Students and the National Student Nurses' Association.

The purpose of the organization is to provide opportunity for personal and professional growth and maximize leadership potential to enhance career development by: 1) assuming responsibility for contributing to nursing education in order to provide for the highest quality health care; 2) providing programs representative of fundamental and current professional interest and concerns; and 3) aiding in the development of the whole person, one's professional role, and one's responsibility for the health care of people in all walks of life.

The functions of the organization are to: 1) have direct input into standards of nursing education and influence the education process; 2) influence health care, nursing education and practice through legislative activities; 3) promote and encourage participation in community affairs and activities towards improved health care and the resolution of related social issues; 4) represent nursing students to the consumer; to institutions; and other organizations; 5) promote and encourage students' participation in interdisciplinary activities; 6) promote and encourage recruitment efforts; and 7) promote and encourage collaborative relationships with nursing and related health organizations.

Student Veterans' Association

The purpose of the Student Veterans' Association (SVA) at Nash Community College is to provide a network of support and resources to military veterans and their families in order to provide the veterans with the best college experience possible.

Study Abroad

Nash Abroad is a meaningful, global student-focused program centered on immersion, independence, and real-world experiences through study abroad. Thus,

allowing students the unique opportunity to travel outside his or her realm of knowledge along with gaining insight into the cultures of others while obtaining a broadened understanding of his or her own experiences.

Tetelestai Club

Tetelestai Club is an interdenominational, student, Christian organization seeking to provide a spiritual environment for students. Tetelestai Club exists to provide regular opportunities to study and discuss the Bible, worship, and pray, all in a group setting. Tetelestai Club is open to all students and seeks to provide an environment conducive to learning and leadership.

Outstanding Alumnus Award

The Nash Community College Outstanding Alumnus Award annually honors a graduate who is making outstanding contributions in their chosen profession and service to the community.

Nominations are reviewed by the President's Executive Council (PEC) and sent to the Board of Trustees for approval. The Outstanding Alumnus Award recipient is selected at the March meeting of the Board of Trustees and awarded during the College annual recognition program.

Food Service

The College provides food services at the Midway Café located in Building B. The Midway Café serves breakfast items such as biscuits and fresh fruit; lunch and evening meal options including salads and sandwiches; and snack foods and assorted beverages. Meal cards are available for purchase in the Campus Store with Financial Aid, and at the Midway Cafe for self paying students. The Meal Card is a prepaid, declining balance card that allows you to purchase unlimited menu options at the Midway Cafe. The cafe offers a Blue Plate Special which is a hot plated meal that changes daily.

The Midway Café is situated at the center of campus and offers students a place to gather. Many student club and student government events are held in the Café area.

Campus Store

Nash Community College operates a campus store for the convenience of students and staff members. All textbooks, supplies, and instruments required by the academic programs are available in the Campus Store. You may also purchase computers, college apparel, and gift items. Purchases can be made with cash, checks, financial aid, and all major credit cards. The Campus Store

is open both day and evening hours. Textbook and online Campus Store information is available at www.nashcampusstore.com.

Textbook Return Policy

The textbook return policy is printed on the back of the cash register receipt. To be returned, new books must be in new condition with no marginal notes or other handwritten markings. No refund will be given without the cash register receipt. Refunds will not be given for special order items, computers, computer accessories, calculators, or software. Books that have access codes will not be refunded if the code has been accessed, scratched off, or tampered with in any way. Book buyback will be held at the end of each semester during exams.

Class Rings and Graduation Announcements

For information on class rings or graduation announcements, students should contact the Campus Store or visit the www.nashcampusstore.com.

Graduation Fees

Cap and Gown – The cost for a cap and gown, approximately \$25.00, is due and payable when a student receives a cap and gown for graduation. Caps and gowns are available for purchase in the Campus Store beginning in March each year.

Campus Security and Crime Awareness

The Nash Community College Board of Trustees in accordance with G.S. § 74A and Title II Public Law 1-542 adopted the following "Campus Security and Crime Awareness Policy":

Nash Community College will provide adequate security personnel and procedures to protect the safety of its students, faculty, and staff, and to ensure the security of the College's assets. It is the responsibility of every college employee and student to report "crimes" as listed below whenever they become aware of such crimes.

I. Structure

Policies are established by the NCC Board of Trustees within the parameters of federal, state and local laws. The President has established the Campus Safety Committee consisting of the Vice President and Chief Financial Officer, Vice President for Instruction, Manager of Facilities, Security and Safety Director, Chair of the Public Services Department, Chair of the Engineering and Manufacturing Technologies Department, Physics Instructor. These members are responsible for annually reviewing the above policy, making

recommendations for updating and for fulfilling the annual reporting requirements of campus crime activity.

II. Security Officers

Campus security officers are empowered to protect the college community by enforcing state, municipal laws, and college rules and regulations. Campus security is provided by Nash County Deputy Sheriffs and Nash Community College Police.

III. Crime Awareness

1. Reporting: In compliance with the Campus Crime Awareness and Security Act, the Campus Safety Committee will ensure that:

a. Timely reports are made to the campus community on crimes reported to the Campus Security and Safety Director that are considered to be a threat to the students and employees of the College.

b. An annual report on crime statistics is published and distributed as required by the Crime Awareness and Security Act.

2. Communications: Students and employees are to notify the Campus Security and Safety Director of suspected crimes or violations and to assist the security officers and/or police in its investigation. An incident report form should be completed by any student, faculty, or staff member that witnesses a criminal activity and submitted to the Campus Security and Safety Director.

3. Crime Prevention Information: Crime awareness and prevention information will be distributed at the appropriate times and places on campus.

IV. Campus Access

The NCC campus is open to faculty, staff, students, and visitors with legitimate business during normal operating hours. Campus access is controlled by a master key system controlled by the Manager of Facilities and electronic security alarms under the supervision of the Campus Security and Safety Director.

Loitering on campus will not be permitted. Any unauthorized use of campus property is prohibited. Contact Campus Safety and Security for questions regarding allowable uses.

V. Facilities Maintenance

The Manager of Facilities will periodically check the exterior lights and make any needed repairs, inspect the shrubbery on campus and trim it in a manner to reduce the likelihood of concealing a potential attacker, and will inspect and maintain the electronic alarm systems.

VI. Personal Conduct

All persons, while on the premises, are expected and required to obey all federal, state, and local laws and ordinances, as well as college policies governing appropriate conduct. Persons in violation of this policy will be subject to legal action deemed appropriate by the college administration.

VII. Reportable Crimes per the Clery Act Committed on the NCC Campus, Non-Campus and Public Property:

Clery Act Regulatory Citations 34 CFR 668.46(b)(1) & 34 CFR 668.46(c)(1)-(2)

Academic Enhancement

Success Investments

Nash Community College is committed to student success by meeting students where they are and guiding them to a successful future. The College has implemented the following Success Investments throughout campus. These investments in student success, or demonstrations of “Blue Love”, include wholistic measures available to all students to assist in their academic work and overall wellness with a goal of helping them reach their full potential in obtaining life-long success.

Summer Semester Hours:

Monday – Thursday

7:30 am – 7:00 pm

Friday

7:30 am – 1:00 pm

Located in building A on campus, the main library at Nash Community College (NCC) provides collections, resources, and services to support academic success, professional development, lifelong learning, and recreational reading. Depository library collections are also available at the Automotive Technology Services facility, the Center for Industry, Technology, and Innovation (CITI High), and Southern Nash High School (SNHS). NCC library collections at CITI High and SNHS promote instructional partnerships with Nash-Rocky Mount Public Schools.

Students, faculty, and staff are encouraged to bring their Nash Community College photo identification card to the library for a borrower's account. The NCC ID then becomes your library card for borrowing books and movies, renewing these items online, and requesting books from other collections in the Community College Libraries in North Carolina (CCLINC) consortium. Library cards are also available for NCC alumni and members of the community.

Customized library instruction to improve information literacy skills is provided for classes by faculty request. Faculty may use the online library instruction request form on the library's web page or contact the library team by phone, email, or at the service desk. Individual research assistance is also available in the library,

by email, phone, or online chat. The blue chat box on the library's web page is staffed from 5:00 pm to 8:00 am the next morning during weekdays, and from 8:00 am to midnight on weekends.

The library's computer lab provides technology for student success. All computers are loaded with Microsoft Word, Excel, and PowerPoint. Advanced graphic software (Dreamweaver, Photoshop, and InDesign) and AutoCad are available on select computers. Members of the library team provide computer support for patrons needing assistance with basic hardware and software questions.

Printing from computers is free for all college-related work during the first two weeks of the fall and spring semesters and the first week of the summer semester. Students also receive up to twenty single-sided or ten double-sided free prints daily, throughout the year. Additional computer printing is ten cents per page, black and white. Color prints are twenty-five cents for every page. A photocopy machine is also available at ten cents per page. Scanning and emailing documents from the photocopy machine is free.

Quiet spaces for reading, writing, and study are available in the main library with tables and soft seating. Headphones may be borrowed from the library service desk for listening to audio/visual recordings. Priority use of study rooms for collaborative teamwork and group study is given to patrons with approved reservations, made from the library's web page.

Students, faculty, and staff may be prompted for a NCC username and password for remote access to some digital library collections. Alumni and community patrons may need to be in the library to access some digital content. Contact a member of the NCC library team by email, phone, chat, or at the library service desk for any questions about access or help with improving search strategies.

In addition to the main print book collection, there are several focused book collections in the library; fiction, early childhood, young adult, graphic novels, teaching and learning, small business, and the North Carolina collection. Access to ebooks and audiobooks in several disciplines and genres can be found in digital collections from links on the library web page. Notable digital collections include NC LIVE ebooks and audio-books, EBSCO ebooks, OverDrive ebooks and audio-books, OENC etextbooks, and ebooks in the Internet Archive. Access to OverDrive requires a personal account, available to all patrons by request to a member of the library team. All patrons are encouraged to submit book requests for titles not found in any collection with the library's web page book request form, by phone or email, or at the library service desk.

A collection of print academic journals, popular magazines, and local, state, and national newspapers are available for use in the library. Patrons also have access to thousands of digital journal, magazine, and newspaper articles that can be read anywhere via the Internet. Search for articles in NC LIVE, Open Access Journals, PubMed Central, and Stat!Ref.

Digital collections with multimedia (text, images, audio and video) include NC LIVE, Digital NC, NC Digital Collections, the Internet Archive, A to Z The World, and A to Z World Food.

A link to digital collections provided by the State Library of North Carolina is also on the NCC library web page. BioOne and JSTOR in the Reference section are valuable research collections. Access to some State Library digital collections require a State Library Card. Follow instructions for applying online and a card will be mailed to you.

The library's film collection in DVD format supplements classroom learning and promotes recreational enrichment. The collection emphasis is on films that support NCC programs, films based or inspired by books, and award winning films. Access to the Films on Demand Video Collection in NC LIVE is available from the library web page. This streaming online video collection includes instructional and vocational training, business and economics, health and medicine, humanities and social sciences, science and mathematics, travel, fitness programs, home improvement, popular music performances, award winning documentaries, interviews, historical speeches, newsreels, and Indie films.

The NCC Archives contains books, college catalogs, brochures, newsletters, reports, scrapbooks, and artifacts relating to the history of Nash Community College. Selected items have been digitized in partnership with the North Carolina Digital Heritage Center and may be viewed online from the library's web page. Other Archives material is available for research use in the library by request.

The Tim Valentine Collection preserves the legacy of a Nash County native who represented the people of this region in the North Carolina General Assembly and the United States Congress. The collection contains scrapbooks, photo albums, photographs, documents, artifacts, and other materials. Many treasures of the collection are on display in the Tim Valentine Study Room. Other material in this special collection is available for research use in the library by request.

The library's old card catalog holds a Seed Library that offers a variety of fruit, vegetable, herb, flower, and ornamental seeds. These seeds support the NCC Culinary program and promote homegrown sustainable food, decorative planting

for homes, gardens and landscapes, and the preservation of plant biodiversity. A Seed Library LigGuide provides information on gardening and horticulture.

Several LibGuides, a user-friendly web content management system used to curate collections and resources, have been developed to assist patrons with library research. Some LibGuides focus on specific NCC programs of study and academic disciplines while others address topics such as citing sources, avoiding plagiarism, and banned books. LibGuides on Bee Campus USA, Tree Campus USA, and Skills USA highlight noteworthy NCC initiatives. Each LibGuide contains recommendations for books, articles, and other learning resources.

An interlibrary loan service provides access to books and articles not available in the NCC library. Patrons may use the online library catalog to request books from the CCLINC (Community College Libraries in North Carolina) consortium. Submit an interlibrary loan request from the NCC library web page for books and articles found in WorldCat or other library databases.

Cooperative borrowing agreements with North Carolina Wesleyan College and East Carolina University also expand access with direct borrowing from those collections. A written referral from a NCC librarian is required. NCC students, faculty, and staff with this letter may also use digital resources in the Wesleyan College and East Carolina University campus libraries.

Nash Community College English Studio

The English Studio offers tutoring services and technology assistance to students currently enrolled in NCC courses. At the beginning of each semester, instructors inform students of the following services:

Individual Tutorial Assistance

One-on-one tutorial assistance is available on a drop-in basis and by appointment. Assistance may be provided on campus in the English Studio, which is located upstairs in building D, or virtually utilizing Google docs. The English Studio staff may assist students with understanding assignment directions, brainstorming and organizing ideas, formatting documents, and troubleshooting Moodle, Turnitin, Smarthinking, or Google suite. Tutors will not edit text or suggest what grade an assignment might earn.

Students are encouraged to make an appointment by emailing onlinewritingtutor@nashcc.edu. In the initial email, students should include their course section, their instructor's name, and the nature of the assistance they are requesting. A tutor will contact the student and arrange a time to meet.

Chromebook Access

The English Studio offers NCC students access to Chromebooks for use in the Studio during operating hours. These may be used to access course resources, including NCC email accounts, LMS Moodle, Google Suite, and Smarthinking or Turnitin feedback via NCC wifi. Printers are available in the English Studio; students may print documents for English or DRE courses.

Wifi Workspace

The English Studio provides a workspace for students to use their own devices or borrow a Chromebook to work independently.

Textbooks

The English Studio retains desk copies of current textbooks, which students may reference while in the Studio or when working with a tutor. These may not be removed from the premises.

Assignments

NCC English and DRE instructors may leave make-up assignments or quizzes for students who are absent from a class meeting. English Studio staff will supervise any graded assignments left by instructors for their respective students. Students may not remove test materials from the English Studio. If students elect to complete graded assignments in the Studio, they may not leave during the test.

Hours of Operation

English Studio hours may vary from semester to semester. Instructors will notify students of operating hours for the semester during the first week of class. This information will also be posted in Moodle

Nash Community College Math Tank

The NCC Math Department offers the following services free of charge to students currently enrolled in NCC courses. Students must check in and out of the Math Tank with ID cards. Services available are designed to help students in mathematics. At the beginning of each semester, the Math Department Chair briefly visits each NCC math class to inform students of the following services:

Individual Tutorial Assistance

One-on-one tutorial assistance is available on a drop-in basis. Assistance may be provided via the Math Tank (face-to-face) and/or Math Help (via Zoom), as determined at the beginning of the semester. Students will find a professional tutor on duty to assist them.

To utilize the Math Tank, students can either drop by for assistance on specific homework problems or concepts or stay to work on homework involving topics where assistance is needed. The Math Tank staff may not assist students with problems from take-home exams, quizzes, or assignments that will be graded by their instructor.

For assistance via Math Help, students may email math-help@nashcc.edu. During Math Help hours, a professional tutor will review the student's question(s), request any additional information needed, and then initiate a Zoom meeting. In the initial email, students should include their course section, their instructor's name, pictures of the problems on which they require assistance, and applicable notes, textbook pages, or slides (depending on the course format).

Computer Access

The Math Tank offers NCC students access to desktop style computers during operation hours. These may be used to access course resources, including NCC email accounts, LMS Moodle, and MyLabs, the software used in all fundamental and upper level math classes. Printers are available in the Math Tank where students can print documents for math courses. Internet and word processing applications are also available.

Textbooks and Solution Manuals

Textbooks and complete solution manuals for math courses are available for student use. These materials must be used in the Math Tank and may not be removed from the premises.

CDs

Students are allowed to check out CDs to watch on computers for most math courses. Students are allowed to hold these resources for a three-day period. If a student wishes to continue viewing after the three-day period, then the student must return to the Math Tank and renew the CD.

Assignments

NCC math instructors can leave make-up assignments or quizzes for students who are absent from a class meeting. Math Tank faculty will supervise any graded assignments left by instructors for their respective students.

Hours of Operation

Math Tank and Math Help hours may vary from semester to semester. Instructors will notify students of operating hours for the semester during the first week of class. This information will also be posted in Moodle.

Math Assessment Center

The NCC Math Department offers proctoring services via the Math Assessment Center (face-to-face) or a virtual counterpart (Zoom), as determined at the beginning of the semester. Students enrolled in fundamental math courses utilize the Math Assessment Center to complete end-of-module assessments. The center also provides make-up assessment for curriculum courses.

Hours of Operation

The Math Assessment Center hours may vary from semester to semester. Instructors will notify students of operating hours for the semester during the first week of class. This information will also be posted in Moodle.

The Math Assessment Center normally is not open on holiday weekends and academic break weekends. The center operates on reduced hours during the summer sessions.

Online students should make Zoom appointments with instructors and utilize tutoring and proctoring services as needed,

Nash Community College Child Development Center

The Nash Community College Child Development Center (CDC) provides early education for children who come from families within the college community and neighboring communities. The primary goal of the CDC is to provide quality early education for children birth to five years of age using the most current practices known to support the development of the child. The Center also serves as a demonstration program through supervised internships, service learning, and as an instructional extension of child development and other related curricula including Nash Community College Early Childhood and East Carolina University. Student interns are cooperatively supervised by Nash Community College faculty, the CDC director, and the CDC teachers. Community childcare providers are encouraged to observe and consult with the CDC staff and the NCC faculty.

The Nash Community College Child Development Center (CDC) is licensed by the Division of Child Development and Early Education, North Carolina Department of Health & Human Services. Food service is in compliance with the Healthy Food and Nutrition guidelines.

Online Resources

SAS Writing Reviewer

Revision means to look again. The SAS Writing Reviewer helps you see new opportunities for expressing yourself with greater precision and power. You begin by entering an essay into the Writing Reviser. An initial assessment helps you to see your work objectively so it can be revised with the reader in mind. SAS Writing Reviser is a free, self-help resource to assist with writing assignments. In regard to the content development of an essay, the program poses leading questions of the user requiring one to self-evaluate the essay. The program also provides assistance with grammar and mechanics by posing questions and providing additional information on proper use. To access, go to www.nashcc.edu/resources and click "Online Tutoring".

Student Username: NCCStudent

No password is used for students.

Smarthinking

Smarthinking is an online tutoring service provided for Nash Community College students. Tutoring assistance is provided 24 hours a day 7 days week in the areas of mathematics, writing, business, and science. Students can submit a question and a tutor will reply within 24 hours. Students can submit their writing for any class to the Online Writing Lab and receive feedback from a tutor within 24 hours. Students can connect with an e-structor and interact with a live tutor when they have a question. To access, go to [www.nashcc.edu/ resources](http://www.nashcc.edu/resources) and click "Online Tutoring".

Tutor.com

Tutor.com provides you with the help you need, when you need it. Here you can connect with one of our tutors in math, reading and writing, allowing for very focused review.

Braswell Library is offering Tutor.com. This is a free complete tutoring system offered on-line for the entire community! The only requirement is that you must be a Braswell Library member (have a library card, which is free to North Carolina residents) to use the service. To access, go to www.nashcc.edu/resources and click "Online Tutoring."

Toll Free tech support: 1-800-411-1970 (option 3) support.tutor.com

Moodle

Moodle will be used as the course management system platform and communication tool for all courses taught at Nash Community College. These include face-to-face, online, hybrid, and web-enhanced. Instructors may use Moodle's academic tools to post documents, keep records of grades, post assignments and send announcements to students. The URL for Moodle is <http://moodle.nashcc.edu/>.

WebAdvisor

WebAdvisor is a web interface that allows Nash Community College students the ability to register through the internet for classes, as well as access portions of their academic and financial records. Information available to students includes their personal course schedule, transcripts, financial account information, and their academic program evaluation information. Students may view grades using WebAdvisor (grade reports are not mailed to students). Registration functions include access to semester registration schedules, search for course sections, registration, and payment of fees. The URL is <https://wa.nashcc.edu/WebAdvisor>.

Username and Password convention for Student Email, Moodle, and WebAdvisor:

Username for Student Email, Moodle, and WebAdvisor: Your username is your first initial, middle initial (if provided), last name and the last 3 digits of your student ID (all lowercase, no spaces, no punctuation). Example: Name: John Allen Smith Student ID: 2563244 Username: jasmith244

Password for Email, Moodle, and WebAdvisor: Your password is set by the password reset button on the student portal.

To initially set or reset your password, visit <https://reset.ad.nashcc.edu/passwordreset>. You will need your 7 digit student ID to set your password.

College Online Accounts

Twelve (12) months after the end of a student's last enrolled semester, without exception, access to NCC student email, LMS materials, online storage, or any other technology resources provided to actively enrolled students will be revoked, and the account terminated and inaccessible. If an applicant does not register for courses for the semester indicated on their Admissions application, access to their NCC accounts will be revoked and the account terminated and inaccessible after the close of registration for the semester.

Curriculum Programs

DEGREES, DIPLOMAS, AND CERTIFICATES

Students interested in pursuing a curriculum program of study at NCC can choose one of the following options for program completion: the associate degree, the diploma, or the certificate.

Associate Degree Programs

Associate degree programs consist of planned academic curriculum programs that prepare students to enter the workforce or to transfer to a four-year institution upon graduation. The College offers the Associate in Arts (A.A.), Associate in Engineering (A.E.), Associate in Science (A.S.), Associate in Arts in Teacher Preparation (A.A.T.P.), Associate in Science in Teacher Preparation (A.S.T.P.), Associate in General Education (A.G.E.), and the Associate in Applied Science (A.A.S) degrees.

Diploma Programs

Diploma Programs are curriculum programs designed to provide entry-level employment training and range from 36 to 48 semester hour credits and can usually be completed by a full-time student within two semesters and one summer semester. Associate degree level courses within a diploma program may also be applied toward the associate degrees described.

Certificate Programs

Certificate programs are curriculum programs designed to provide entry-level employment training. Certificate programs range from 12 to 18 semester hour credits and can usually be completed within one semester by a full-time student.

PROGRAMS OF STUDY

Degree Abbreviations

Credit Hours

AA - Associate in Arts Degree (College Transfer); Two-Year Program	60-61
AATP - Associate in Arts in Teacher Preparation (effective Spring 2022)	60-61
AE - Associate in Engineering (College Transfer); Two-Year Program	60-61
AS - Associate in Science Degree (College Transfer); Two-Year Program	60-61
ASTP - Associate in Science in Teacher Preparation (effective Spring 2022)	60-61
AGE - Associate in General Education Degree; Two-Year Program	64-76
AAS - Associate in Applied Science Degree; Two-Year Program	65-73*
DIP - Diploma; One-Year Program;	36-48*
CERT - Certificate; Program length varies	12-18*

INSTRUCTIONAL SERVICE AGREEMENT PROGRAMS

The instructional agreement programs listed below are offered at another college, i.e., host college, that awards the degree upon completion of program requirements. Typically the agreement involves the host colleges' acceptance of transfer credit for non-core and general education courses and/or acceptance for program admission to transfer students. The major core courses in instructional agreement programs are taught at the host institution. Instructional service agreement programs include:

A20100	Biotechnology	BTC	AAS
A45260	Dental Hygiene	DEN	AAS
A25200	Healthcare Management Technology	HMT	AAS
A45440	Medical Sonography		AAS
A45460	Nuclear Medicine Technology		AAS

CONTINUING EDUCATION PROGRAMS

See the section titled *Continuing Education*

COLLEGE TRANSFER

ASSOCIATE IN ARTS DEGREE – A10100

The Associate in Arts degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of “C” or better in each course and an overall GPA of at least 2.0 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

ASSOCIATE IN ARTS IN TEACHER PREPARATION - A1010T

(Pending SACSCOC approval, effective Spring 2022)

The Associate in Arts in Teacher Preparation degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The Comprehensive Articulation Agreement (CAA) and the Independent Comprehensive Articulation Agreement (ICAA) enables North Carolina community college graduates of two-year associate in arts programs who are admitted to constituent institutions of The University of North Carolina and to Signatory Institutions of North Carolina Independent Colleges and Universities to transfer with junior status.

Community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.7 on a 4.0 scale in order to transfer with a junior status. Courses may also transfer through bilateral agreements between institutions.

**EAST CAROLINA UNIVERSITY STATE EMPLOYEES
CREDIT UNION PARTNERSHIP EAST**

SECU Partnership East provides opportunities for students to complete bachelor's degrees in Elementary Education, Special Education, and Middle Grades Education at Nash Community College. Students take specific courses from the college transfer program before transferring to East Carolina University as juniors. Junior and senior level coursework from ECU is offered through online enrollment with personal advising. Visit Kathy Bradley in room 7226 in the Science & Technology Center or contact her at 451-8212 or kbradley@nashcc.edu for a checklist of required courses, information about prerequisites, and application deadlines.

**ASSOCIATE IN GENERAL EDUCATION DEGREE
– A10300**

The Associate in General Education curriculum is designed for the academic enrichment of students who wish to broaden their education, with emphasis on personal interest, growth and development.

Course work includes study in the areas of humanities and fine arts, social and behavioral sciences, natural sciences and mathematics, and English composition. Opportunities for the achievement of competence in reading, writing, and communication, fundamental mathematical skills, and the basic use of computers will be provided.

Through these skills, students will have a sound base for lifelong learning. Graduates are prepared for advancements within their field of interest and become better qualified for a wide range of employment opportunities.

Only letter grades of "C" or higher in all curriculum courses will count towards completion of the College Transfer Degree.

General Education Core (15 SHC)

The associate in general education curriculum program shall include a minimum of 15 semester hours of credit from general education curriculum courses selected from the Combined Course Library, including six hours in communications, three hours in humanities/fine arts, three hours in social/behavioral sciences, and three

hours in natural sciences or mathematics. Courses must be at the 110-199 or 210-299 level.

Other Major Hours (49-50 SHC)

Other major hours include additional general education and professional courses.

A maximum of 7 SHC in health, physical education, college orientation, and/or study skills may be included. Selected topics or seminar courses may be included in a program of study up to a maximum of 3 semester hours credit.

Total Semester Hour Credits for AGE Degree

64-65

ASSOCIATE IN SCIENCE DEGREE – A10400

The Associate in Science degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of college transfer courses. Total Semester Hours Credit (SHC) for ASTP Degree**60-61*****ASSOCIATE IN ENGINEERING – A10500**

The Associate in Engineering (AE) degree shall be granted for a planned program of study consisting of a minimum of 60 semester hours of credit (SHC) of courses. Within the degree program, the institution shall include opportunities for the achievement of competence in reading, writing, oral communication, fundamental mathematical skills, and basic computer use.

The degree plan includes required general education and prerequisite courses that are acceptable to all state funded Bachelor of Engineering programs. Students who follow the degree progression plan will meet the entrance requirements at all of the North Carolina public Bachelor of Science Engineering programs. Associate in Engineering graduates may then apply to any of these programs without taking additional and sometimes duplicative courses. Admission to Engineering programs is highly competitive and admission is not guaranteed.

To be eligible for the transfer of credits under the AE to the Bachelor of Science in Engineering Articulation Agreement, community college graduates must obtain a grade of "C" or better in each course and an overall GPA of at least 2.5 on a 4.0 scale.

In selecting electives students should consult with their advisor in the College Transfer Department and make choices in keeping with their planned majors and the requirements of the institutions to which they anticipate transferring.

APPLIED SCIENCE

ACCOUNTING AND FINANCE– A25800

The Accounting and Finance curriculum is designed to provide students with the knowledge and the skills necessary for employment and growth in the accounting and finance profession. Accountants and finance professionals assemble and analyze, process, and communicate essential information about financial operations.

Course work may include accounting, finance, ethics, business law, computer applications, financial planning, insurance, marketing, real estate, selling, and taxation. Related skills are developed through the study of communications, computer applications, financial analysis, critical thinking skills, and ethics.

Graduates should qualify for entry-level accounting and finance positions in many types of organizations including accounting firms, small businesses, manufacturing firms, banks, hospitals, schools systems, and governmental agencies.

ADVERTISING AND GRAPHIC DESIGN – A30100

The Advertising and Graphic Design curriculum is designed to provide students with knowledge and skills necessary for employment in the graphic design profession which emphasizes design, advertising, illustration, and digital and multi-media preparation of printed and electronic promotional materials.

Students will be trained in the development of concept and design for promotional materials such as newspaper and magazine advertisements, posters, folders, letterheads, corporate symbols, brochures, booklets, preparation of art for printing, lettering and typography, photography, and electronic media.

Graduates should qualify for employment opportunities with graphic design studios, advertising agencies, printing companies, department stores, a wide variety of manufacturing industries, newspapers, and businesses with inhouse graphics operations.

ASSOCIATE DEGREE NURSING (INTEGRATED) – A45110

The Associate Degree Nursing curriculum provides knowledge, skills and strategies to integrate safety and quality into nursing care, to practice in a dynamic environment, and to meet individual needs which impact health, quality of life, and achievement of potential.

Course work includes and builds upon the domains of healthcare, nursing practice, and the holistic individual. Content emphasizes the nurse as a member of the interdisciplinary team providing safe, individualized care while employing evidence-based practice, quality improvement, and informatics.

Graduates of this program are eligible to apply to take the National Council Licensure Examination (NCLEX-RN). Employment opportunities are vast within the global health care system and may include positions within acute, chronic, extended, industrial, and community health care facilities.

Only letter grades of "C" or higher in non-nursing courses and nursing (NUR) courses with a grade of "B" or higher will count toward completion of the Associate Degree Nursing degree.

The ADN program has a selective admissions process. Please refer to the College Catalog - Admissions Requirements for detailed information for ADN program options, including the Evening option and LPN to ADN transition program.

BASIC LAW ENFORCEMENT TRAINING CERTIFICATE – C55120

Basic Law Enforcement Training (BLET) is designed to give students essential skills required for entry-level employment as law enforcement officers with state, county or municipal governments, or with private enterprise. This program utilizes State commission-mandated topics and methods of instruction. General subjects include, but are not limited to, criminal, juvenile, civil, traffic, and alcohol beverage laws; investigative, patrol, custody, and court procedures; emergency responses; and ethics and community relations. Students must successfully complete and pass all units of study, including certification examinations mandated by the North Carolina Criminal Justice Education and Training Standards Commission and the North Carolina Sheriffs' Education and Training Standards Commission.

BROADCASTING AND PRODUCTION TECHNOLOGY – A30120

The Broadcasting and Production Technology program focuses on audio and video editing, broadcast writing, radio production and performance, video production and performance, live broadcast production, post production, and modern media delivery methods.

During the program, students learn broadcasting fundamentals through hands-on experience. Students will create and edit audio and video productions using the latest software with modern studio audio/video equipment. Students will gain experience in contemporary studio operations as well as techniques in script and broadcast writing, performance in media, broadcast/media history, methodology, sales, and ethics.

BUSINESS ADMINISTRATION – A25120

The Business Administration curriculum is designed to introduce students to the various aspects of the free enterprise system. Students will be provided with a fundamental knowledge of business functions, processes, and an understanding of business organizations in today's global economy.

Course work includes business concepts such as accounting, business law, economics, management, and marketing. Skills related to the application of these concepts are developed through the study of computer applications, communication, team building, and decision making.

Through these skills, students will have a sound business education base for life-long learning. Graduates are prepared for employment opportunities in government agencies, financial institutions, and large to small business or industry.

COMPUTER ENGINEERING TECHNOLOGY – A40160

A course of study that prepares the students to use basic engineering principles and technical skills for installing, servicing, and maintaining computers, peripherals, networks, and microprocessor and computer controlled equipment. Includes instruction in mathematics, computer electronics and programming, prototype development and testing, systems installation and testing, solid state and micro-miniature circuitry, peripheral equipment, and report preparation. Graduates should qualify for employment opportunities in electronics technology, computer service, computer networks, server maintenance, programming, and other areas requiring knowledge of electronic and computer systems. Graduates may also qualify for certification in electronics, computers, or networks.

COMPUTER-INTEGRATED MACHINING – A50210

The Computer-Integrated Machining curriculum prepares students with the analytical, creative and innovative skills necessary to take a production idea from an initial concept through design, development and production, resulting in a finished product.

Coursework includes learning objectives in manual machining, computer applications, engineering design, computer-aided drafting (CAD), computer-aided machining (CAM), blueprint interpretation, advanced computerized numeric control (CNC) equipment, basic and advanced machining operations, precision measurement and high-speed multi-axis machining.

Graduates should qualify for employment as machining technicians in high-tech manufacturing, rapid-prototyping and rapid-manufacturing industries, specialty machine shops, fabrication industries, and high-tech or emerging industries such as aerospace, aviation, medical, and renewable energy, and to sit for machining certification examinations.

COSMETOLOGY – A55140

The cosmetology curriculum is designed to provide competency-based knowledge, scientific/artistic principles, and hands-on fundamentals associated with the cosmetology industry. The curriculum provides a simulated salon environment which enables students to develop manipulative skills. Course work includes instruction in all phases of professional imaging, hair design, chemical processes, skin care, nail care, multi-cultural practices, business/computer principles, product knowledge, and other selected topics. Graduates should qualify to sit for the State Board of Cosmetic Arts examination. Upon successfully passing the State Board exam, graduates will be issued a license. Employment is available in beauty salons and related businesses.

CRIMINAL JUSTICE TECHNOLOGY – A55180

The Criminal Justice Technology curriculum is designed to provide knowledge of criminal justice systems and operations. Study will focus on local, state, and federal law enforcement, judicial processes, corrections, and security services. The criminal justice system's role within society will be explored.

Emphasis is on criminal justice systems, criminology, juvenile justice, criminal and constitutional law, investigative principles, ethics, and community relations. Additional study may include issues and concepts of government, counseling, communications, computers, and technology.

Employment opportunities exist in a variety of local, state, and federal law enforcement, corrections, and security fields. Examples include police officer, deputy sheriff, county detention officer, state trooper, intensive probation/parole surveillance officer, correctional officer, and loss prevention specialist.

Latent Evidence is a concentration under the curriculum of Criminal Justice Technology. This curriculum is designed to provide knowledge of latent evidence systems and operations. Study will focus on local, state, and federal law enforcement, evidence processing and procedures. Students will learn both theory and

hands-on analysis of latent evidence. They will learn fingerprint classification, identification, and chemical development. Students will record, cast, and recognize footwear and tire-tracks; and process crime scenes. Issues and concepts of communications and the use of computers and computer assisted design programs in crime scene technology will be discussed.

Graduates should qualify for employment in a variety of criminal justice organizations especially those in local, state, and federal law enforcement, and correctional agencies.

Total Semester Hour Credits for AAS Degree**67****CULINARY ARTS – A55150**

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities.

Students will be provided theoretical knowledge/practical application that provide critical competencies to meet industry demands, including environmental stewardship, operational efficiencies and professionalism. Courses include sanitation/safety, baking, garde manger, culinary fundamentals/production skills, nutrition, customer service, purchasing/cost control, and human resource management.

Graduates should qualify for entry-level opportunities including prep cook, line cook, and station chef. American Culinary Federation certification may be available to graduates. With experience, graduates may advance to positions including sous chef, pastry chef, executive chef, or foodservice manager.

Note: Students must pass CUL 110 with a grade of C or better and must pass the ServSafe Food Safety exam with a 75% or better during the course in order to receive credit toward graduation and satisfy the CUL 110 prerequisite for culinary courses.

All CUL prefixed courses must be passed with a grade of 'C' or better in order to progress to a subsequent course and fulfill graduation requirements.

EARLY CHILDHOOD EDUCATION – A55220A (NON-TRANSFER)

The Early Childhood Education curriculum prepares individuals to work with children from infancy through middle childhood in diverse learning environments. Students will combine learned theories with practice in actual settings with young children under the supervision of qualified teachers.

Course work includes child growth and development; physical/nutritional needs of children; care and guidance of children; and communication skills with parents and children. Students will foster the cognitive/language, physical/motor, social/emotional and creative development of young children.

Graduates are prepared to plan and implement developmentally appropriate programs in early childhood settings. Employment opportunities include child development and child care programs, preschools, public and private schools, recreational centers, Head Start Programs, and school age programs. Early childhood graduates must obtain a grade of “C” or better in each course in order to progress to a subsequent course and fulfill graduation requirements. Students enrolled in the transfer pathways must also have a minimum GPA of 2.0 on a 4.0 scale.

ELECTRIC LINE CONSTRUCTION TECHNOLOGY – A35230

The Electric Line Construction curriculum prepares individuals for line construction in the preparation and repair of rural electrical utility service. Students will combine electrical theory with laboratory and practical applications in the course of study.

Students will be expected to master competencies such as those included in elements of electricity; overhead pole and electrical line construction, safety codes and applications, electric power system, transformer and meter installations, and exploration of underground electrical distribution.

Upon successful completion of the program, individuals will receive the Associate in Applied Science degree and will possess the necessary skills for employment in the dynamic electrical utility field.

Entry into the program restricted by employment requirement.

Students will have the opportunity to earn their Class A CDL license through the Continuing Education Department.

ELECTRICAL SYSTEMS TECHNOLOGY – A35130

This curriculum is designed to provide training for persons interested in the installation and maintenance of electrical systems found in residential, commercial, and industrial facilities.

Coursework, most of which is hands-on, will include such topics as AC/DC theory, basic wiring practices, programmable logic controllers, industrial motor controls, applications of the National Electric Code, and other subjects as local needs require.

Graduates should qualify for a variety of jobs in the electrical field as an on-the-job trainee or apprentice assisting in the layout, installation, and maintenance of electrical systems.

ELECTRONICS ENGINEERING TECHNOLOGY – A40200

A course of study that prepares the students to apply basic engineering principles and technical skills to become technicians who design, build, install, test, troubleshoot, repair and modify developmental and production electronic components, equipment, and systems such as industrial/computer controls, manufacturing systems, communication systems, and power electronic systems. Includes instruction in mathematics, basic electricity, solid-state fundamentals, digital concepts, and microprocessors or programmable logic controllers. Graduates should qualify for employment as electronics engineering technician, field service technician, instrumentation technician, maintenance technician, electronic tester, electronic systems integrator, bench technician, and production control technician.

EMERGENCY MANAGEMENT – A55460

The Emergency Preparedness Technology curriculum is designed to provide students with a foundation of technical and professional knowledge needed for emergency services delivery in local and state government agencies. Study involves both management and technical aspects of law enforcement, fire protection, emergency medical services, and emergency planning.

Course work includes classroom and laboratory exercises to introduce the student to various aspects of emergency preparedness, protection, and enforcement. Students will learn technical and administrative skills such as investigative principles, hazardous materials, codes, standards, emergency agency operations, and finance.

Employment opportunities include ambulance services, fire/rescue agencies, law enforcement agencies, fire marshal offices, industrial firms, educational institutions, emergency management offices, and other government agencies. Employed persons should have opportunities for skilled and supervisory-level positions.

This two-year degree program is designed for a student to work full-time in the public services field and attend school full-time on off-duty days. Nash Community College accomplishes this by offering program classes on a flip-flop or distance education delivery.

All EPT and FIP prefixed courses must be passed with a grade of "C" or better in order to progress to a subsequent course and fulfill graduation requirements.

EMERGENCY MEDICAL SCIENCE – A45340

The Emergency Medical Science curriculum provides individuals with the knowledge, skills, and attributes to provide advanced emergency medical care as a paramedic for critical and emergent patients who access the emergency medical system and prepares graduates to enter the workforce.

Students will gain complex knowledge, competency, and experience while employing evidence based practice under medical oversight, and serve as a link from the scene into the healthcare system.

Graduates of this program may be eligible to take state and/or national certification examinations. Employment opportunities include providers of emergency medical services, fire departments, rescue agencies, hospital specialty areas, industry, educational and government agencies.

FIRE PROTECTION TECHNOLOGY – A55240

The Fire Protection Technology curriculum is designed to provide students with knowledge and skills in the technical, managerial, and leadership areas necessary for advancement within the fire protection community and related firefighting industries, and to provide currently employed firefighters with knowledge and skills often required for promotional consideration.

Course work includes diverse fire protection subject areas, including fire prevention and safety, public education, building construction, fire ground strategies and tactics, and local government finance and laws, as they apply to emergency services management. Emphasis includes understanding fire characteristics and the structural consequences of fire; risk assessment and management; and relevant research, communications, and leadership methodologies.

Employment opportunities exist with fire departments, governmental agencies, industrial firms, insurance rating organizations, and educational organizations.

GENERAL OCCUPATIONAL TECHNOLOGY – A55280

The General Occupational Technology curriculum provides individuals with an opportunity to upgrade their skills and to earn an associate degree by taking courses suited for their occupational interests and/or needs.

The curriculum content will be individualized for students according to their occupational interests and needs. A program of study for each student will be selected from associate degree level courses offered by the College.

Graduates will become more effective workers, better qualified for advancements within their field of employment, and become qualified for a wide range of entry level employment opportunities.

General Education

Students must take a minimum of 15 semester hours including at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, natural sciences/mathematics, and a minimum of 6 semester hours of communications.

Major Courses

Select 18 SHC from a combination of core courses for curriculums approved to be offered by the College. Select from prefixes for major courses for curriculums approved to be offered by the College

Minimum General Education Hours	15
Minimum Major Course Hours	49
Total Semester Hour Credits for AAS Degree	64-76

A student may elect to take up to 8 semester credit hours of Co-op education with advisor approval.

HOSPITALITY MANAGEMENT – A25110

The Hospitality Management curriculum prepares individuals to understand and apply the administrative and practical skills needed for supervisory and managerial positions in hotels, motels, resorts, inns, restaurants, institutions, and clubs.

Course work includes guest services, leadership, management, restaurant operations, lodging operations, marketing, sanitation, food preparation, food and beverage management and other critical areas.

Graduates should qualify for management or entry-level supervisory positions in food and lodging operations, including restaurants, foodservice, beverage service, catering, front office, reservations and housekeeping. Opportunities are also available in product services, and technology support and sales.

Note: Students must pass CUL 110 with a grade of C or better and must pass ServSafe food safety exam with a 75% or better during the course in order to

receive credit toward graduation and satisfy the CUL 110 prerequisite for culinary courses.

HUMAN SERVICES TECHNOLOGY – A45380

The Human Services Technology curriculum prepares students for entry-level positions in institutions and agencies which provide social, community, and educational services. Along with core courses, students take courses which prepare them for specialization in specific human service areas.

Students will take courses from a variety of disciplines. Emphasis in core courses is placed on development of relevant knowledge, skills, and attitudes in human services. Fieldwork experience will provide opportunities for application of knowledge and skills learned in the classroom.

Graduates should qualify for positions in mental health, child care, family services, social services, rehabilitation, correction, and educational agencies. Graduates choosing to continue their education may select from a variety of transfer programs at senior public and private institutions.

HUMAN SERVICES TECHNOLOGY/GERONTOLOGY CONCENTRATION – A4538B

The Human Services Technology/Gerontology concentration prepares students to specialize in direct service delivery work to older adults and their families. The curriculum provides both theoretical and applied models for understanding issues of aging.

Course work includes physical, psychological, and social aspects of the aging process; as well as health, wellness, nutrition, diet, exercise, and well-being. Field-work experiences provide opportunities to work in a variety of public and private agencies.

Graduates should qualify for employment in nursing and rest homes, specialized adult care services, respite services, and other programs servicing older adults

and their families. Graduates choosing to continue their education may select from a variety of programs at senior institutions.

HUMAN SERVICES TECHNOLOGY/SUBSTANCE ABUSE CONCENTRATION – A4538E

The Human Services Technology/Substance Abuse concentration prepares students to assist in drug and alcohol counseling, prevention-oriented educational activities, rehabilitation with recovering clients, managing community-based programs, counseling in residential facilities, and pursuit of four-year degrees.

Course work includes classroom and experiential activities oriented toward an overview of chemical dependency, psychological/sociological process, the twelve Core Functions, intervention techniques with individuals in groups, and follow-up activities with recovering clients.

Graduates should qualify for positions as substance abuse counselors, DUI counselors, halfway house workers, residential facility employees, and substance education specialists. With educational and clinical experiences, graduates can obtain certification by the North Carolina Substance Abuse Board.

INDUSTRIAL SYSTEMS TECHNOLOGY – A50240

The Industrial Systems Technology curriculum is designed to prepare or upgrade individuals to safely service, maintain, repair, or install equipment. Instruction includes theory and skill training needed for inspecting, testing, troubleshooting, and diagnosing industrial systems.

Students will learn multi-craft technical skills in blueprint reading, mechanical systems maintenance, electricity, hydraulics/pneumatics, welding, machining or fabrication, and includes various diagnostic and repair procedures. Practical application in these industrial systems will be emphasized and additional advanced course work may be offered.

Upon completion of this curriculum, graduates should be able to individually, or with a team, safely install, inspect, diagnose, repair, and maintain industrial process and support equipment. Students will also be encouraged to develop their skill as life-long learners.

Total Hours for Graduation**13****INFORMATION TECHNOLOGY**

The Information Technology (IT) curriculum prepares graduates for employment in the technology sector as designers, testers, support technicians, system administrators, developers, or programmers who use computer software and/or hardware to design, process, implement and manage information systems in specialties such as database services, security, business intelligence, healthcare informatics and others depending on the technical path selected within this curriculum. Course work includes development of a student's ability to create, store, communicate, exchange and use information to solve technical issues related to information support and services, interactive media, network systems, programming and software development, information security and other emerging technologies based on the selected area of study. Graduates should qualify for employment in entry-level positions with businesses, educational systems, and governmental agencies which rely on computer systems to design and manage information. The program will incorporate the competencies of industry-recognized certification exams.

MEDICAL ASSISTING – A45400

The Medical Assisting curriculum prepares multi-skilled health care professionals qualified to perform administrative, clinical, and laboratory procedures.

Course work includes instruction in scheduling appointments, coding and processing insurance accounts, billing, collections, computer operations; assisting with examinations/treatments, performing routine laboratory procedures, electrocardiography, supervised medication administration; and ethical/legal issues associated with patient care.

Graduates of CAAHEP-accredited medical assisting programs may be eligible to sit for the American Association of Medical Assistant's Certification Examination to become Certified Medical Assistants. Employment opportunities include physicians' offices, health maintenance organizations, health departments, and hospitals.

Only letter grades of "C" or higher in non-medical assisting courses and medical assisting (MED) courses with a grade of "B" or higher will count toward completion of the Medical Assisting degree or diploma.

The Medical Assisting program has a selective admissions process. Minimum application eligibility criteria include: DMA 010 through DMA 060, eligible to enroll in ENG 111, GPA ≥ 2.00 . Please refer to the College Catalog - Admission Requirements for detailed information.

MEDICAL OFFICE ADMINISTRATION

The Medical Office Administration curriculum prepares individuals for employment in medical and other healthcare related offices.

Course work would include medical terminology; information systems; office management; medical coding; billing and insurance; legal and ethical issues; and formatting and word processing. Students will learn administrative and support functions and develop skills applicable in medical environments.

Employment opportunities are available in medical and dental offices; hospitals, insurance companies, laboratories, medical supply companies, and other healthcare related organizations.

OFFICE ADMINISTRATION

OFFICE SOFTWARE SPECIALIST - A25370A

The Office Administration curriculum prepares individuals for positions in administrative support careers. It equips office professionals to respond to the demands of a dynamic computerized workplace.

Students will complete courses designed to develop proficiency in the use of integrated software, oral and written communication, analysis and coordination of office duties and systems, and other support topics. Emphasis is placed on non-technical as well as technical skills.

Graduates should qualify for employment in a variety of positions in business, government, and industry. Job classifications range from entry-level to supervisor to middle management.

PHYSICAL THERAPIST ASSISTANT – A45640

The Physical Therapist Assistant curriculum prepares graduates to work in direct patient care settings under supervision of physical therapists. Assistants work to improve or restore function by alleviation or prevention of physical impairment and perform other essential activities in a physical therapy department.

Course work includes normal human anatomy and physiology, the consequences of disease or injury, and physical therapy treatment of a variety of patient conditions affecting humans throughout the lifespan.

Graduates may be eligible to take the licensure examination administered by the NC Board of Physical Therapy Examiners. Employment is available in general

hospitals, rehabilitation centers, extended care facilities, specialty hospitals, home health agencies, private clinics and public school systems.

Only letter grades of "C" or higher in non-PTA courses and PTA courses with a grade of "B" or higher will count toward completion of the Physical Therapist Assistant degree.

The PTA program has a selective admissions process. Minimum application eligibility criteria include eligible to enroll in ENG 111 without a co-requisite and MAT 171 without a co-requisite, GPA > 2.00. Please refer to the College Catalog – Admission Requirements for detailed information.

SUPPLY CHAIN MANAGEMENT - A25620

The Supply Chain Management curriculum prepares individuals for a multitude of career opportunities in distribution, transportation, warehousing, trucking operations, supply chain, and manufacturing organizations.

Course work includes the international and domestic movement of goods from the raw materials source(s) through production and ultimately to the consumer. Courses in economics and finance, transportation, warehousing, inventory control, material handling, purchasing, computerization, supply chain operations, federal transportation and safety regulations are emphasized.

Graduates should qualify for positions in a wide range of supply chain and logistics positions in government agencies, manufacturing, and service organizations. Employment opportunities include entry-level distribution, planning, material management, warehousing, inventory, transportation, trucking operations, international freight, and logistics.

VETERINARY MEDICAL TECHNOLOGY - A45780

This curriculum is designed to prepare individuals to assist veterinarians in preparing animals, equipment, and medications for examination and surgery; collecting specimens; performing laboratory, radiographic, anesthetic, dental procedures; assisting in surgery; and providing proper husbandry of animals and their environment.

Course work includes instruction in veterinary anatomy, nutrition, parasitology, pathology, physiology, radiology, terminology, zoology, office practices, laboratory techniques, dentistry, and small and large animal clinical practices.

Graduates of accredited programs may be eligible to take state and national examinations administered by the North Carolina Veterinary Medical Board. Graduates may be employed in veterinary clinics; diagnostic, research, or pharmaceutical laboratories; zoos; academic institutions; or other areas associated with animal care.

Only letter grades of "C" or higher in non-VET prefix courses and VET courses with a grade of "B" or higher will count toward completion of the Veterinary Medical Technology (VMT) degree.

The VMT program has a selective admissions process. Minimum application eligibility criteria include: eligible to enroll in MAT 171 and ENG 111, GPA > 2.00. Please refer to the College Catalog – Admissions Requirements for detailed information.

WELDING TECHNOLOGY – A50420

The Welding Technology curriculum provides students with a sound understanding of the science, technology, and applications essential for successful employment in the welding and metalworking industry.

Instruction includes consumable and non-consumable electrode welding and cutting processes. Courses may include math, blueprint reading, metallurgy, welding inspection, and destructive and non-destructive testing providing the student with industry-standard skills developed through classroom training and practical application.

Graduates of the Welding Technology curriculum may be employed as entry level technicians in welding and metalworking industries. Career opportunities also exist in construction, manufacturing, fabrication, sales, quality control, supervision, and welding-related self-employment.

DEVELOPMENTAL STUDIES PROGRAM

The Developmental Studies Program is designed to increase the likelihood of success for the student who may have academic deficiencies and who wishes to enter a two-year program. If, based on placement test scores, the student is academically deficient in two of the three areas — mathematics (MAT 030 or below), English (ENG 080) or reading (below RED 090) — the student is required to complete all of the courses in the program unless the student's intended curriculum or placement test scores indicate otherwise. If a student does not attain the minimum placement score levels in all three areas—reading, English, and mathematics—the student is referred to the Learning Center before being allowed to enroll

in curriculum courses. Any student may elect to complete the Developmental Studies Program.

All academic regulations are applicable to this phase of study. Curriculum electives taken while in the program apply toward degree credit; however, required courses in the Developmental Studies program award institutional credit only.

INSTRUCTIONAL SERVICE AGREEMENTS

BIOTECHNOLOGY – A20100

Instructional Service Agreement with Pitt Community College

The Biotechnology curriculum, which has emerged from molecular biology and chemical engineering, is designed to meet the increasing demands for skilled laboratory technicians in various fields of biological and chemical technology.

Course work emphasizes biology, chemistry, mathematics, and technical communications. The curriculum objectives are designed to prepare graduates to serve in three distinct capacities: research assistant to a biologist or chemist; laboratory technician/instrumentation technician; and quality control/quality assurance technician.

Graduates may find employment in various areas of industry and government, including research and development, manufacturing, sales, and customer service.

DENTAL HYGIENE – A45260*Instructional Service Agreement with Halifax Community College*

The Dental Hygiene curriculum provides individuals with the knowledge and skills to access, plan, implement, and evaluate dental hygiene care for the individual and the community.

Students will learn to prepare the operatory, take patient histories, note abnormalities, plan care, teach oral hygiene, clean teeth, take x-rays, apply preventive agents, complete necessary chart entries, and perform other procedures related to dental hygiene care. Graduate of this program may be eligible to take national and state/regional examinations for licensure which are required to practice dental hygiene.

Employment opportunities include dental offices, clinics, schools, public health agencies, industry, and professional education.

- Achievement of competence in the following basic skills courses must be met:
- Students taking CHM 130 at Nash are also required to take CHM 130A (lab)
- A local prerequisite of BIO 094, BIO 110, BIO 111, BIO 161, or BIO 163 is required at Nash before taking BIO 168
- Reading and Writing Skills - RED 090 or DRE 097
- Math Skills - MAT 070 or DMA 050
- PSY 150 and SOC 210 can be taken to substitute SOC 240

HEALTHCARE MANAGEMENT TECHNOLOGY – A25200

Instructional Service Agreement with Pitt Community College

The Healthcare Management Technology curriculum is designed to prepare students for employment in healthcare business and financial operations. Students will gain a comprehensive understanding of the application of management principles to the healthcare environment.

The curriculum places emphasis on planning, organizing, directing, and controlling tasks related to healthcare organizational objectives including the legal and ethical environment. Emphasis is placed on the development of effective communication, managerial, and supervisory skills.

Graduates may find employment in healthcare settings including hospitals, medical offices, clinics, long-term care facilities, and insurance companies. Graduates are eligible to sit for various certification exams upon completion of the degree with a combination of a minimum of two years administrative experience. Eligible certifications include, but are not limited to, the Professional Association of Healthcare Office Managers (PAHCOM), the Healthcare Financial Management Association (HFMA), the Certified Patient Account Manager (CPAM) and the Certified Manager of Patient Accounts (CMPA) examinations.

MEDICAL SONOGRAPHY– A45440

Instructional Service Agreement with Pitt Community College

The Medical Sonography curriculum provides knowledge and clinical skills in the application of high frequency sound waves to image internal body structures.

Course work includes physics, cross-sectional anatomy, and abdominal, introductory vascular and obstetrical/gynecological sonography. Competencies are attained in identification of normal anatomy and pathological processes, use of equipment, fetal growth and development, integration of related imaging, and patient interaction skills.

Graduates of accredited programs may be eligible to take examinations in ultrasound physics and instrumentation and specialty examinations administered by the American Registry of Diagnostic Medical Sonographers and find employment in clinics, physicians' offices, mobile services, hospitals, and educational institutions.

NUCLEAR MEDICINE TECHNOLOGY– A45460

Instructional Service Agreement with Pitt Community College

The Nuclear Medicine Technology curriculum provides the clinical and didactic experience necessary to prepare students to qualify as entry-level nuclear medicine technologists. Students will acquire the knowledge and skills necessary to properly perform clinical procedures. These skills include patient care, use of radioactive materials, operation of imaging and counting instrumentation, and laboratory procedures.

Graduates may be eligible to apply for certification/registration examinations given by the Nuclear Medicine Technology Certification Board and the American Registry of Radiologic Technologists.

Course Descriptions

To enroll in college transfer courses except PED and HEA 112, students must meet the admission requirement in one of the three areas of reading, mathematics, or English.

The letters A, B, or C following a course number denote that these courses are offered in sequential parts. All parts must be completed to satisfy the course requirements.

Appearing in parenthesis after each course title are the semesters the course is most often scheduled. "Intermittently" means semester scheduling varies. Nash Community College reserves the right to alter semesters when courses are offered in accordance with curriculum sequences and need. Appearing opposite each course title are either three numerals which represent hours per week required for class, laboratory, and credit hours; or, four numerals which represent hours per week required for class, laboratory, clinical or work experience, and credit hours. All courses offered by Nash Community College are web-enhanced.

ACA 122 College Transfer Success (Fall, Spring, Summer) o 2 1

Prerequisites: None

Corequisites: None

This course provides information and strategies necessary to develop clear academic and professional goals beyond the community college experience. Topics include the CAA, college policies and culture, career exploration, gathering information on senior institutions, strategic planning, critical thinking, and communications skills for a successful academic transition. Upon completion, students should be able to develop an academic plan to transition successfully to senior institutions. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course.

Competencies:

1. Develop a strategic plan for completing community college academic goals, including certificates, diplomas, and/or associate degrees.
2. Develop a strategic plan for transferring to a university and preparing for a new career.
3. Identify the rights and responsibilities of transfer students under the Comprehensive Articulation Agreement (CAA), including Universal General Education Transfer Component (UGETC) designated courses, the Transfer Assured Admissions Policy (TAAP), the CAA appeals process and university tuition surcharge.
4. Evaluate learning strategies, including note-taking, test-taking, information processing, time management, and memorization techniques, and identify strategies for improvement.

5. Identify essential college resources, including financial aid, advising, registration, tutoring, library services, computer labs, and counseling services and recognize the importance of these resources on student success.
6. Identify essential college policies and procedures, including academic integrity such as avoiding plagiarism; calculating a GPA, and maintaining satisfactory academic progress for financial aid eligibility and/or good academic standing.

ACC 110 Ten-Key Skills (Fall)

0 2 1

Prerequisites: None

Corequisites: None

This course is designed to enable mastery of the “touch system” on a ten-key device. Emphasis is placed on the “touch system” on a ten-key device. Upon completion, students should be able to use the “touch system” on a ten-key device in making computations necessary in accounting.

ACC 120 Principles of Financial Accounting (Fall, Spring, Summer)

3 2 4

Prerequisites: None

Corequisites: None

This course introduces business decision-making using accounting information systems. Emphasis is placed on analyzing, summarizing, reporting, and interpreting financial information. Upon completion, students should be able to prepare financial statements, understand the role of financial information in decision-making and address ethical considerations. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

ACC 121 Principles of Managerial Accounting (Fall, Spring, Summer)

3 2 4

Prerequisites: ACC 120

Corequisites: None

This course includes a greater emphasis on managerial and cost accounting skills. Emphasis is placed on managerial accounting concepts for external and internal analysis, reporting and decision-making. Upon completion, students should be able to analyze and interpret transactions relating to managerial concepts including product-costing systems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

ACC 131 Federal Income Taxes (Fall)

2 2 3

Prerequisites: None

Corequisites: None

This course provides an overview of federal income taxes for individuals, partnerships, and corporations. Topics include tax law, electronic research and methodologies and the use of technology for the preparation of individual and business tax returns. Upon completion, students should be able to analyze basic tax scenarios, research applicable tax laws, and complete federal tax returns for individuals, partnerships, and corporations.

ACC 140 Payroll Accounting (Spring)

1 3 2

Prerequisites: ACC 115 or ACC 120

Corequisites: None

This course covers federal and state laws pertaining to wages, payroll taxes, payroll tax forms, and journal and general ledger transactions. Emphasis is placed on computing wages; calculating social security, income and unemployment taxes; preparing appropriate payroll tax forms; and journalizing/posting transactions. Upon completion, students should be able to analyze data, make appropriate computations, complete forms, and prepare accounting entries using appropriate technology.

ACC 150 Accounting Software Applications (Fall)

1 3 2

Prerequisites: ACC 115 or ACC 120

Corequisites: None

This course introduces microcomputer applications related to accounting systems. Topics include general ledger, accounts receivable, accounts payable, inventory, payroll, and correcting, adjusting, and closing entries. Upon completion, students should be able to use a computer accounting software package to solve accounting problems.

ACC 180 Practices in Bookkeeping (Spring)

3 0 3

Prerequisites: ACC 120

Corequisites: None

This course provides advanced instruction in bookkeeping and record-keeping functions. Emphasis is placed on mastering adjusting entries, correction of errors, depreciation, payroll, and inventory. Upon completion, students should be able to conduct all key bookkeeping functions for small businesses.

ACC 220 Intermediate Accounting I (Fall)

3 2 4

Prerequisites: ACC 120

Corequisites: None

This course is a continuation of the study of accounting principles with in-depth coverage of theoretical concepts and balance sheet components. Topics include generally accepted accounting principles and extensive analyses of financial statements. Upon completion, students should be able to demonstrate competence in the conceptual framework underlying financial accounting, including the application of financial standards.

ACC 221 Intermediate Accounting II (Spring)

3 2 4

Prerequisites: ACC 120

Corequisites: None

This course is a continuation of ACC 220. Emphasis is placed on special problems which may include leases, bonds, investments, ratio analysis, present value applications, accounting changes and corrections. Upon completion, students should be able to demonstrate an understanding of the principles involved and display an analytical problem-solving ability for the topics covered.

AHR 110 Introduction to Refrigeration (Fall)

2 6 5

Prerequisites: None

Corequisites: None

This course introduces the basic refrigeration process used in mechanical refrigeration and air conditioning systems. Topics include terminology, safety, and identification and function of components; refrigeration cycle, and tools and instrumentation used in mechanical refrigeration systems. Upon completion, students should be able to identify refrigeration systems and components, explain the refrigeration process, and use the tools and instrumentation of the trade.

AHR 112 Heating Technology (Spring)

2 4 4

Prerequisites: None

Corequisites: None

This course covers the fundamentals of heating including oil, gas, and electric heating systems. Topics include safety, tools and instrumentation, system operating characteristics, installation techniques, efficiency testing, electrical power, and control systems. Upon completion, students should be able to explain the basic oil, gas, and electrical heating systems and describe the major components of a heating system.

ANT 210 General Anthropology (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the physical, archaeological, linguistic, and ethnological fields of anthropology. Topics include human origins, genetic variations, archaeology, linguistics, primatology, and contemporary cultures. Upon completion,

students should be able to demonstrate an understanding of the four major fields of anthropology. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

ANT 220	Cultural Anthropology (Intermittently)	3	0	3
---------	--	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the nature of human culture. Emphasis is placed on cultural theory, methods of fieldwork, and cross-cultural comparisons in the areas of ethnology, language, and the cultural past. Upon completion, students should be able to demonstrate an understanding of basic cultural processes and how cultural data are collected and analyzed. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

ART 111	Art Appreciation (Fall, Spring)	3	0	3
----------------	--	----------	----------	----------

Prerequisites: None

Corequisites: None

This course introduces the origins and historical development of art. Emphasis is placed on the relationship of design principles to various art forms including but not limited to sculpture, painting, and architecture. Upon completion, students should be able to identify and analyze a variety of artistic styles, periods, and media. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 114	Art History Survey I (Fall)	3	0	3
----------------	------------------------------------	----------	----------	----------

Prerequisites: None

Corequisites: None

This course covers the development of art forms from ancient times to the Renaissance. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in humanities/fine arts. This is a Universal General Education Transfer Component (UGETC) course.

ART 115	Art History Survey II (Spring)	3	0	3
----------------	---------------------------------------	----------	----------	----------

Prerequisites: None

Corequisites: None

This course covers the development of art forms from the Renaissance to the present. Emphasis is placed on content, terminology, design, and style. Upon completion, students should be able to demonstrate an historical understanding of art as a product reflective of human social development. This course has been approved for transfer under Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/ Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

AST 111 Descriptive Astronomy (Fall)

3 0 3

Prerequisites: None

Corequisites: AST111A

This course introduces an overall view of modern astronomy. Topics include an overview of the solar system, the sun, stars, galaxies, and the larger universe. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 111A Descriptive Astronomy Lab (Fall)

0 2 1

Prerequisites: None

Corequisites: AST111

This course is a laboratory to accompany AST 111. Emphasis is placed on laboratory experiences that enhance the materials presented in AST 111 and which provide practical experience. Upon completion, students should be able to demonstrate an understanding of the universe around them. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151 General Astronomy I (Intermittently)

3 0 3

Prerequisites: None

Corequisites: AST 151A

This course introduces the science of modern astronomy with a concentration on the solar system. Emphasis is placed on the history and physics of astronomy and an introduction to the solar system, including the planets, comets and meteors. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

AST 151A **General Astronomy I Lab (Intermittently)**

0 2 1

Prerequisites: None

Corequisites: AST 151

This course is a laboratory to accompany AST 151. Emphasis is placed on laboratory experiences which enhance the materials presented in AST 151 and which provide practical experience. Upon completion, students should be able to demonstrate a general understanding of the solar system. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

ATR 280	Robotic Fundamentals (Fall)	3	2	4
---------	-----------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course covers application, programming, and maintenance fundamentals for robotic devices. Emphasis is placed on terminology, problem solving, robotic systems controls, and hands-on projects. Upon completion, students should be able to apply basic concepts in application, programming, and robotic control systems.

ATR 280AB	Robotic Fundamentals-AB (Fall)	1	2	2
-----------	--------------------------------	---	---	---

Prerequisites: None

Corequisites: None

The first of two parts of ATR 280.

ATR 280BB Robotic Fundamentals-BB (Spring)	2	0	2
--	---	---	---

Prerequisites: ATR 280AB

Corequisites: None

A continuation of ATR 280AB and final part of ATR 280.

ATR 281	Automated Manufacturing (Spring)	3	2	4
---------	----------------------------------	---	---	---

Prerequisites: ATR 280

Corequisites: None

This course introduces the concepts and principles of automation in the manufacturing environment. Emphasis is placed on the devices used in hard and flexible automated systems, including the study of inputs, outputs, and control system integration. Upon completion, students should be able to plan, design, and implement automation to support manufacturing process.

AUT 113	Automotive Servicing I (Fall)	0	6	2
----------------	--------------------------------------	----------	----------	----------

Prerequisites: AUT 116, AUT 141, and AUT 151

Corequisites: None

This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon

completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

AUT 114	Safety and Emissions (Spring)	1	2	2
---------	-------------------------------	---	---	---

Prerequisites: None

Corequisites: AUT 114A

This course covers the laws, procedures, and specifications needed to perform a North Carolina State Safety and Emissions inspection. Topics include brake, steering and suspension, lighting, horn, windshield wiper, tire, mirrors, and emission control devices inspection. Upon completion, students should be able to perform complete and thorough North Carolina State Safety and Emissions inspections.

AUT 114A	Safety and Emissions Lab (Spring)	0	2	1
----------	-----------------------------------	---	---	---

Prerequisites: None

Corequisites: AUT 114

This course is an optional lab that allows students to enhance their understanding of North Carolina State Emissions Inspection failures. Topics include evaporative, positive crankcase ventilation, exhaust gas recirculation and exhaust emissions systems operation, including catalytic converter failure diagnosis. Upon completion, students should be able to employ diagnostic strategies to repair vehicle emissions failures resulting from North Carolina State Emissions inspection.

AUT 116	Engine Repair (Fall)	2	3	3
----------------	-----------------------------	----------	----------	----------

Prerequisites: None

Corequisites: TRN 110

This course covers the theory, construction, inspection, diagnosis, and repair of internal combustion engines and related systems. Topics include fundamental operating principles of engines and diagnosis, inspection, adjustment, and repair of automotive engines using appropriate service information. Upon completion, students should be able to perform basic diagnosis, measurement and repair of automotive engines using appropriate tools, equipment, procedures, and service information.

AUT 141	Suspension and Steering Systems (Spring)	2	3	3
----------------	---	----------	----------	----------

Prerequisites: None

Corequisites: AUT 141A

This course covers principles of operation, types, and diagnosis/repair of suspension and steering systems to include steering geometry. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 141A Suspension and Steering Lab (Spring)

0 3 1

Prerequisites: None

Corequisites: AUT 141

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include manual and power steering systems and standard and electronically controlled suspension and steering systems. Upon completion, students should be able to service and repair steering and suspension components, check and adjust alignment angles, repair tires, and balance wheels.

AUT 151 Brake Systems (Spring)

2 3 3

Prerequisites: None

Corequisites: AUT 151A

This course covers principles of operation and types, diagnosis, service, and repair of brake systems. Topics include drum and disc brakes involving hydraulic, vacuum boost, hydra-boost, electrically powered boost, and anti-lock and parking brake systems. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 151A Brakes Systems Lab (Spring)

0 3 1

Prerequisites: None

Corequisites: AUT 151

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include drum and disc brakes involving hydraulic, vacuum-boost, hydra-boost, electrically powered boost, and anti-lock, parking brake systems and emerging brake systems technologies. Upon completion, students should be able to diagnose, service, and repair various automotive braking systems.

AUT 163 Advanced Auto Electricity (Summer)

2 3 3

Prerequisites: TRN 120

Corequisites: None

This course covers electronic theory, wiring diagrams, test equipment, and diagnosis, repair, and replacement of electronics, lighting, gauges, horn, wiper, accessories, and body modules. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, and troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 163A Advanced Auto Electricity Lab**3 0 1**

Prerequisites: TRN 120

Corequisites: AUT 163

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include networking and module communication, circuit construction, wiring diagrams, circuit testing, troubleshooting and emerging electrical/electronic systems technologies. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair wiring, lighting, gauges, accessories, modules, and electronic concerns.

AUT 181 Engine Performance I (Spring)**2 3 3**

Prerequisites: AUT 116

Corequisites: None

This course covers the introduction, theory of operation, and basic diagnostic procedures required to restore engine performance to vehicles equipped with complex engine control systems. Topics include an overview of engine operation, ignition components and systems, fuel delivery, injection components and systems and emission control devices. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/ service information.

AUT 181A Engine Performance Lab**0 3 1**

Prerequisites: AUT 116

Corequisites: AUT 181

This course is an optional lab to be used as an alternative to co-op placement in meeting the NATEF standards for total hours. Topics include overviews of engine operation, ignition components and control systems, fuel delivery, injection components and systems and emission control devices and emerging engine performance technologies. Upon completion, students should be able to describe operation and diagnose/repair basic ignition, fuel and emission related drivability problems using appropriate test equipment/service information.

AUT 183 Engine Performance II (Fall)**2 6 4**

Prerequisites: AUT 181

Corequisites: None

This course covers study of the electronic engine control systems, the diagnostic process used to locate engine performance concerns, and procedures used to restore normal operation. Topics will include currently used fuels and fuel systems, exhaust gas analysis, emission control components and systems, OBD II (on-board diagnostics) and inter-related electrical/electronic systems. Upon

completion, students should be able to diagnose and repair complex engine performance concerns using appropriate test equipment and service information.

AUT 212 Auto Shop Management (Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the principals of management essential to decision-making, communication, authority, and leadership. Topics include shop supervision, shop organization, customer relations, cost effectiveness and work place ethics. Upon completion, students should be able to describe basic automotive shop operation from a management standpoint.

AUT 213 Automotive Servicing II (Spring)

1 3 2

Prerequisites: AUT 113

Corequisites: None

This course is a lab used as an alternative to co-op placement. Emphasis is placed on shop operations, troubleshooting, testing, adjusting, repairing, and replacing components using appropriate test equipment and service information. Upon completion, students should be able to perform a variety of automotive repairs using proper service procedures and to operate appropriate equipment.

AUT 221 Auto Transmissions/Transaxles (Fall)

2 3 3

Prerequisites: None

Corequisites: None

This course covers operation, diagnosis, service, and repair of automatic transmissions/ transaxles. Topics include hydraulic, pneumatic, mechanical, and electrical/ electronic operation of automatic drive trains and the use of appropriate service tools and equipment.

Upon completion, students should be able to explain operational theory, diagnose and re- pair automatic drive trains.

AUT 231 Manual Transmissions/Axles/Drive Trains (Spring) 2 3 3

Prerequisites: None

Corequisites: None

This course covers the operation, diagnosis, and repair of manual transmissions/transaxles, clutches, driveshafts, axles, and final drives. Topics include theory of torque, power flow, and manual drive train service and repair using appropriate service information, tools, and equipment. Upon completion, students should be able to explain operational theory, diagnose and repair manual drive trains.

AUT 281 Advanced Engine Performance (Spring) 2 2 3

Prerequisites: AUT 183

Corequisites: None

This course utilizes service information and specialized test equipment to diagnose and repair power train control systems. Topics include computerized ignition, fuel and emission systems, related diagnostic tools and equipment, data communication networks, and service information. Upon completion, students should be able to perform diagnosis and repair.

BIO 110 Principles of Biology (Fall, Spring, Summer) 3 3 4

Prerequisites: None

Corequisites: None

This course provides a survey of fundamental biological principles for non-science majors. Emphasis is placed on basic chemistry, cell biology, metabolism, genetics, evolution, ecology, diversity, and other related topics. Upon completion, students should be able to demonstrate increased knowledge and better understanding of biology as it applies to every-day life. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 111 General Biology I (Fall, Spring, Summer) 3 3 4

Prerequisites: None

Corequisites: None

This course introduces the principles and concepts of biology. Emphasis is placed on basic biological chemistry, molecular and cellular biology, metabolism and energy transformation, genetics, evolution, and other related topics. Upon completion, students should be able to demonstrate understanding of life at the molecular and cellular levels. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 112 General Biology II (Fall, Spring, Summer) 3 3 4

Prerequisites: BIO 111

Corequisites: None

This course is a continuation of BIO 111. Emphasis is placed on organisms, evolution, biodiversity, plant and animal systems, ecology, and other related topics. Upon completion, students should be able to demonstrate comprehension of life at the organismal and ecological levels. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

BIO 143	Field Biology Minicourse (Intermittently)	1	2	2
---------	---	---	---	---

Prerequisites: None

Corequisites: None

This course introduces the biological and physical components of a field environment. Emphasis is placed on a local field environment with extended field trips to other areas. Upon completion, students should be able to demonstrate an understanding of the biological and physical components of the specific biological environment. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 146	Regional Natural History (Intermittently)	3	3	4
---------	---	---	---	---

Prerequisites: None

Corequisites: None

This course is an interdisciplinary and historical analysis of the natural resources of the region. Emphasis is placed on geology, climate, forest systems, watersheds, water resources, and fish and wildlife resources of the region. Upon completion, students should be able to demonstrate comprehension of the natural history and the integration of the natural resources of the region. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 150	Genetics in Human Affairs (Intermittently)	3	0	3
---------	--	---	---	---

Prerequisites: BIO 110 or BIO 111

Corequisites: None

This course describes the importance of genetics in everyday life. Topics include the role of genetics in human development, birth defects, cancer, and chemical exposure, and current issues including genetic engineering and fertilization methods. Upon completion, students should be able to understand the relationship of genetics to society today and its possible influence on our future. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 155	Nutrition (Intermittently)	3	0	3
---------	----------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course covers the biochemistry of foods and nutrients with consideration of the physiological effects of specialized diets for specific biological needs. Topics include cultural, religious, and economic factors that influence a person's acceptance of food, as well as nutrient requirements of the various life stages. Upon completion, students should be able to identify the functions and sources of nutrients, the mechanisms of digestion and the nutritional requirements of all age

groups. This course has been approved for transfer under the CAA and ICAA as a premajor and /or elective course requirement.

BIO 163 Basic Anatomy & Physiology (Fall, Spring, Summer)

4 2 5

Prerequisites: None

Corequisites: None

This course provides a basic study of the structure and function of the human body. Topics include a basic study of the body systems as well as an introduction to homeostasis, cells, tissues, nutrition, acid-base balance, and electrolytes. Upon completion students should be able to demonstrate a basic understanding of the fundamental principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 168 Anatomy and Physiology I (Fall, Spring, Summer)

3 3 4

Prerequisites: None

Corequisites: None

This course provides a comprehensive study of the anatomy and physiology of the human body. Topics include body organization, homeostasis, cytology, histology, and the integumentary, skeletal, muscular, nervous, and special senses. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 169 Anatomy and Physiology II (Fall, Spring, Summer)

3 3 4

Prerequisites: BIO 168

Corequisites: None

This course provides a continuation of the comprehensive study of the anatomy and physiology of the human body. Topics include the endocrine, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems as well as metabolism, nutrition, acid-base balance, and fluid and electrolyte balance. Upon completion, students should be able to demonstrate an in-depth understanding of principles of anatomy and physiology and their interrelationships. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 175 General Microbiology (Fall, Spring, Summer) 2 2 3

Prerequisites: BIO 110 or BIO 111 or BIO 163 or BIO 168

Corequisites: None

This course covers the principles of microbiology with emphasis on microorganisms and human disease. Topics include an overview of microbiology and aspects of medical microbiology, identification and control of pathogens, disease transmission, host resistance, and immunity. Upon completion, students should be able to demonstrate knowledge of microorganisms and the disease process as well as aseptic and sterile techniques. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 250 Genetics (Fall) 3 3 4

Prerequisites: BIO 112

Corequisites: None

This course covers principles of prokaryotic and eukaryotic cell genetics. Emphasis is placed on the molecular basis of heredity, chromosome structure, patterns of Mendelian and non-Mendelian inheritance, evolution, and biotechnological applications. Upon completion, students should be able to recognize and describe genetic phenomena and demonstrate knowledge of important genetic principles. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 275 Microbiology (Fall, Spring) 3 3 4

Prerequisites: BIO 110 or BIO 111 or BIO 163 or BIO 168

Corequisites: None

This course covers principles of microbiology and the impact these organisms have on man and the environment. Topics include the various groups of microorganisms, their structure, physiology, genetics, microbial pathogenicity, infectious diseases, immunology, and selected practical applications. Upon completion, students should be able to demonstrate knowledge and skills including microscopy, aseptic technique, staining, culture methods, and identification of microorganisms. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BIO 280 Biotechnology (Spring) 2 3 3

Prerequisites: BIO 111 or CHM 131 or CHM 151

Corequisites: None

This course provides experience in selected laboratory procedures. Topics include proper laboratory techniques in biology and chemistry. Upon completion, students should be able to identify laboratory techniques and instrumentation in basic biotechnology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

BPR 111 Print Reading (Fall)**1 2 2**

Prerequisites: None

Corequisites: None

This course introduces the basic principles of print reading. Topics include line types, ortho- graphic projections, dimensioning methods, and notes. Upon completion, students should be able to interpret basic prints and visualize the features of a part.

BPT 110 Intro to Broadcasting (Fall)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces the field of broadcasting and other electronic media. Emphasis is placed on the history, development, and current status of radio, television, and related industries. Upon completion, students should be able to demonstrate knowledge of regulations, organizational structure, revenue sources, historical development, and on-going operation of broadcasting and related industries.

BPT 111 Broadcast Law & Ethics (Fall)**3 0 3**

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course covers judicial, legislative, and administrative policies pertinent to the ethical and legal operation of broadcast and other electronic media organizations. Emphasis is placed on legal and ethical issues including First Amendment protection, FCC regulations, copyright, and libel laws. Upon completion, students should be able to demonstrate an understanding of the historical significance and modern-day application of important broadcast laws and policies.

BPT 112 Broadcast Writing (Spring)**3 2 4**

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces proper copy and script writing techniques and formats for radio, television, and other electronic media. Emphasis is placed on creating effective scripts for programs and promotional materials, including commercial and public radio service announcements for a specific target audience. Upon completion, students should be able to understand and write copy and scripts according to standard industry formats.

BPT 113 Broadcast Sales (Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers sales principles applicable to radio, television, cable, and other electronic media. Emphasis is placed on prospecting and servicing accounts, developing clients, and preparing sales presentations. Upon completion, students should be able to create a sales presentation based upon standard ratings reports, prospect for new customers, and understand account management.

BPT 131 Audio/Radio Production I (Fall, alternates with video)

2 6 4

Prerequisites: None

Corequisites: None

This course covers the creation, development, production, and presentation of audio programming elements for broadcast and/or other electronic media applications. Emphasis is placed on the proper operation of professional audio equipment and the study of basic physical behavior and perceptual effects of sound. Upon completion, students should be able to correctly operate audio recording and playback equipment and demonstrate an understanding of the basic components of sound.

BPT 132 Audio/Radio Production II (Spring, alternates with video)

2 6 4

Prerequisites: BPT 131

Corequisites: None

This course cover the use of advanced audio production techniques in broadcast and/or other electronic media applications. Topics include basic audio signal processing equipment and analog and digital professional audio recording and playback equipment. Upon completion, students should be able to optimize the use of professional audio equipment in the production of effective audio programming.

BPT 135 Radio Performance I (Spring, alternates with TV) 0 6 2

Prerequisites: None

Corequisites: None

This course provides an opportunity to operate the college radio station as an announcer/board operator. Emphasis is placed on operating control-room equipment, logging transmitter readings, EBS tests, reading news, and broadcasting free of interruptions. Upon completion, students should be able to prepare music, public service announcements, and promos for timely broadcast; introduce songs/programs smoothly; and follow FCC rules.

BPT 231 Video/TV Production I (Fall, alternates with audio) 2 6 4

Prerequisites: None

Corequisites: None

This course covers the language of film/video, shot composition, set design, lighting, production planning, scripting, editing, and operation of video and television production equipment. Emphasis is placed on mastering the body of knowledge and techniques followed in producing all forms of video and television production. Upon completion, students should be able to produce basic video and television productions in a team environment.

BPT 232 Video/TV Production II (Spring, alternates with audio)

2 6 4

Prerequisites: None

Corequisites: None

This course covers advanced video and television production. Emphasis is placed on field production, post-production, digital video effects, graphics, and multi-camera productions. Upon completion, students should be able to create productions that optimize the use of studio, field, and post-production equipment.

BPT 235 TV Performance I (Fall, alternate year of radio)

0 6 2

Prerequisites: None

Corequisites: None

This course provides hands-on experience in the operation of television studios and/or stations. Emphasis is placed on the application of skills through direct participation in the production or distribution of television programs. Upon completion, students should be able to demonstrate competence in performing key station and/or studio duties.

BPT 250 Institutional Video (Spring, alternate year of radio)

2 3 3

Prerequisites: BPT 231

Corequisites: None

This course covers development and production of non-broadcast video productions for clients. Emphasis is placed on satisfying client objectives, including interviewing, research, site surveying, script review, photography, and post-production. Upon completion, students should be able to plan, write, shoot, and edit an institutional video designed to meet a client's objectives.

BPT 285 Broadcast Prod Capstone (Spring)

1 6 3

Prerequisites: BPT 132 or BPT 232

Corequisites: None

This course provides an opportunity to complete a broadcast production from the design phase through implementation with minimal instructor support. Emphasis is placed on planning/budgets, production, post-production and distribution. Upon completion, students should be able to plan, produce and distribute a broadcast production.

BUS 110 Introduction to Business (Fall, Spring, Summer) 3 0 3

Prerequisites: None

Corequisites: None

This course provides a survey of the business world. Topics include the basic principles and practices of contemporary business. Upon completion, students should be able to demonstrate an understanding of business concepts as a foundation for studying other business subjects. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

BUS 115 Business Law I (Fall, Spring) 3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces the ethics and legal framework of business. Contracts, negotiable instruments, the law of sales, torts, crimes, constitutional law, the Uniform Commercial Code, and the court systems are examined. Upon completion the student should be able to identify legal and ethical issues that arise in business decisions and the laws that apply to them. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

BUS 137 Principles of Management (Fall, Spring) 3 0 3

Prerequisites: BUS 110

Corequisites: None

This course is designed to be an overview of the major functions of management. Emphasis is placed on planning, organizing, controlling, directing, and communicating. Upon completion, students should be able to work as contributing members of a team utilizing these functions of management. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

BUS 151 People Skills (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces the basic concepts of identity and communication in the business setting. Topics include self-concept, values, communication styles, feelings and emotions, roles versus relationships, and basic assertiveness, listening, and conflict resolution. Upon completion, students should be able to distinguish between unhealthy, self-destructive, communication patterns and healthy, non-destructive, positive communication patterns.

BUS 225 Business Finance (Fall, Spring)

2 2 3

Prerequisites: ACC 120

Corequisites: None

This course provides an overview of business financial management. Emphasis is placed on financial statement analysis, time value of money, management of cash flow, risk and return, and sources of financing. Upon completion, students should be able to interpret and apply the principles of financial management.

BUS 238 Integrated Management (Spring)

3 0 3

Prerequisites: ACC 120, BUS 137, ECO 251 or ECO 252

Corequisites: None

This course provides a management simulation exercise in which students make critical managerial decisions based upon the situations that arise in operating competitive business enterprises. Topics include operations management, forecasting, budgeting, purchasing, facility layout, aggregate planning, and work improvement techniques. Upon completion, students should be able to perform the variety of analytical and decision-making requirements that will be faced in a business.

BUS 240 Business Ethics (Fall, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces contemporary and controversial ethical issues that face the business community. Topics include moral reasoning, moral dilemmas, law and morality, equity, justice and fairness, ethical standards, and moral development. Upon completion, students should be able to demonstrate an understanding of their moral responsibilities and obligations as members of the workforce and society.

BUS 260 Business Communication (Spring)

3 0 3

Prerequisites: ENG 111

Corequisites: None

This course is designed to develop skills in writing business communications. Emphasis is placed on business reports, correspondence, and professional presentations. Upon completion, students should be able to communicate effectively in the work place.

CET 111 Computer Upgrade/Repair I (Spring)

2 3 3

Prerequisites: EGR 125 or ELC 131

Corequisites: None

This course covers repairing, servicing, and upgrading computers and peripherals in preparation for industry certification. Topics include CPU/memory/bus

identification, disk sub- systems, hardware/software installation/configuration, common device drivers, data recovery, system maintenance, and other related topics. Upon completion, students should be able to safely repair and/or upgrade computer systems to perform within specifications.

CET 130 Computer Architecture (Summer)

2 3 2

Prerequisites: EGR-125

Corequisites: None

This course introduces the concepts, usage, internals and applications of operating systems used in engineering technology. Topics include resource management, shells, schedulers, file systems, networking, software considerations and other related topics. Upon completion, students should be able to choose and evaluate an operating system for engineering applications.

CET 211 Computer Upgrade/Repair II (Fall)

2 3 3

Prerequisites: CET 111

Corequisites: None

This course covers concepts of repair service, and upgrade of computers and peripherals in preparation for industry certification. Topics may include resolving resource conflicts and system bus specifications, configuration and troubleshooting peripherals, operating system configuration and optimization, and other related topics. Upon completion, students should be able to identify and resolve system conflicts and optimize system performance.

CET 245 Internet Servers

2 3 3

Prerequisites: ELN 237

Corequisites: None

This course covers the setup and management of Internet server hardware and software. Topics include TCP/IP, FTP, SMTP, and HTTP; installation and configuration of server software for web, FTP, DNS, mail, and other services. Upon completion, students should be able to set up and maintain Internet servers.

CET 251 Software Engineering Principles (Spring)

3 3 4

Prerequisites: CSC 143

Corequisites: None

This course introduces the methodology used to manage the development process for complex software systems. Topics include the software life cycle, resource allocation, team dynamics, design techniques, and tools that support these activities. Upon completion, students should be able to design and build robust software in a team setting.

CET 293 Selected Topics in Comp. Engineering Tech (Fall) 2 3 3

Prerequisites: CET Instructor Permission

Corequisites: None

This course provides an opportunity to explore areas of current interest in specific program or discipline areas. Emphasis is placed on subject matter appropriate to the program or discipline. Upon completion, students should be able to demonstrate an understanding of the specific area of study.

CHM 130 General Organic & Biochemistry (Fall, Spring, Summer)**3 0 3**

Prerequisites: None

Corequisites: CHM 130A

This course provides a survey of basic facts and principles of general, organic, and biochemistry. Topics include measurement, molecular structure, nuclear chemistry, solutions, acid-base chemistry, gas laws, and the structure, properties, and reactions of major organic and biological groups. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

**CHM 130A General Organic & Biochemistry Lab
(Fall, Spring, Summer)****0 2 1**

Prerequisites: None

Corequisites: CHM 130

This course is a laboratory for CHM 130. Emphasis is placed on laboratory experiences that enhance materials presented in CHM 130. Upon completion, students should be able to utilize basic laboratory procedures and apply them to chemical principles presented in CHM

130. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CHM 151 General Chemistry I (Fall, Spring, Summer)**3 3 4**

Prerequisites: None

Corequisites: None

This course covers fundamental principles and laws of chemistry. Topics include measurement, atomic and molecular structure, periodicity, chemical reactions, chemical bonding, stoichiometry, thermochemistry, gas laws, and solutions. Upon completion, students should be able to demonstrate an understanding of fundamental chemical laws and concepts as needed in CHM 152. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 152 General Chemistry II (Fall, Spring, Summer) 3 3 4

Prerequisites: CHM 151

Corequisites: None

This course provides a continuation of the study of the fundamental principles and laws of chemistry. Topics include kinetics, equilibrium, ionic and redox equations, acid-base theory, electrochemistry, thermodynamics, introduction to nuclear and organic chemistry, and complex ions. Upon completion, students should be able to demonstrate an understanding of chemical concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

CHM 251 Organic Chemistry I (Fall) 3 3 4

Prerequisites: CHM 152

Corequisites: None

This course provides a systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of hydrocarbons, alkyl halides, alcohols, and ethers; further topics include isomerization, stereochemistry, and spectroscopy. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of covered organic topics as needed in CHM 252. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CHM 252 Organic Chemistry II (Spring) 3 3 4

Prerequisites: CHM 251

Corequisites: None

This course provides continuation of the systematic study of the theories, principles, and techniques of organic chemistry. Topics include nomenclature, structure, properties, reactions, and mechanisms of aromatics, aldehydes, ketones, carboxylic acids and derivatives, amines and heterocyclics; multi-step synthesis will be emphasized. Upon completion, students should be able to demonstrate an understanding of organic concepts as needed to pursue further study in chemistry and related professional fields. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CIS 110 Introduction to Computers (Fall, Spring, Summer) 2 2 3

Prerequisites: None

Corequisites: None

This course introduces computer concepts, including fundamental functions and operations of the computer. Topics include identification of hardware

components, basic computer operations, security issues, and use of software applications. Upon completion, students should be able to demonstrate an understanding of the role and function of computers and use the computer to solve problems. This course is not intended for a computer novice; this course involves multiple concepts and is a fast-paced introduction to software applications. This course has been approved for transfer under the Comprehensive Articulation Agreement as a general education course in Mathematics (Quantitative Option).

CIS 115 Introduction to Programming and Logic (Intermittently)

2 3 3

Prerequisites: DMA 040

Corequisites: None

This course introduces computer programming and problem solving in a structured program logic environment. Topics include language syntax, data types, program organization, problem-solving methods, algorithm design, and logic control structures. Upon completion, students should be able to manage files with operating system commands, use top-down algorithm design, and implement algorithmic solutions in a programming language. This course has been approved to satisfy the Comprehensive Articulation Agreement general education core requirement in natural science/mathematics (Quantitative Option).

CJC 110 Basic Law Enforcement Training (Fall, Spring) 10 30 20

Prerequisites: Sponsorship letter required from a Public Law Enforcement Agency which must be maintained throughout the course.

Corequisites: None

This course covers the basic skills and knowledge needed for entry-level employment as a law enforcement officer in North Carolina. Topics include those mandated by North Carolina Administration Code as essential for functioning in law enforcement. Upon completion, the student should be able to demonstrate competence in the topics required for the state comprehensive certification examination.

CJC 111 Introduction to Criminal Justice (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces the components and processes of the criminal justice system. Topics include history, structure, functions, and philosophy of the criminal justice system and their relationship to life in our society. Upon completion, students should be able to define and describe the major system components and their interrelationships and evaluate career options. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 112 Criminology (Fall, Spring, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces deviant behavior as it relates to criminal activity. Topics include theories of crime causation; statistical analysis of criminal behavior; past, present, and future social control initiatives; and other related topics. Upon completion, students should be able to explain and discuss various theories of crime causation and societal response. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

CJC 113 Juvenile Justice (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the juvenile justice system and related juvenile issues. Topics include an overview of the juvenile justice system, treatment and prevention programs, special areas and laws unique to juveniles, and other related topics. Upon completion, students should be able to identify/discuss juvenile court structure/procedures, function and jurisdiction of juvenile agencies, processing/ detention of juveniles, and case disposition.

CJC 114 Investigative Photography (Fall)

1 2 2

Prerequisites: None

Corequisites: None

This course covers the operation of digital photographic equipment and its application to criminal justice. Topics include the use of digital cameras, storage of digital images, the retrieval of digital images and preparation of digital images as evidence. Upon completion, students should be able to demonstrate and explain the role and use of digital photography, image storage and retrieval in criminal investigations.

CJC 120 Interviews/Interrogations (Intermittently)

1 2 2

Prerequisites: None

Corequisites: None

This course covers basic and special techniques employed in criminal justice interviews and interrogations. Emphasis is placed on the interview/interrogation process, including interpretation of verbal and physical behavior and legal perspectives. Upon completion, students should be able to conduct interviews/interrogations in a legal, efficient, and professional manner and obtain the truth from suspects, witnesses, and victims.

CJC 121 Law Enforcement Operations (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces fundamental law enforcement operations. Topics include the contemporary evolution of law enforcement operations and related issues. Upon completion, students should be able to explain theories, practices, and issues related to law enforcement operations. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 122 Community Policing (Fall, Spring, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the historical, philosophical, and practical dimensions of community policing. Emphasis is placed on the empowerment of police and the community to find solutions to problems by forming partnerships. Upon completion, students should be able to define community policing, describe how community policing strategies solve problems, and compare community policing to traditional policing.

CJC 131 Criminal Law (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the history/evolution/principles and contemporary applications of criminal law. Topics include sources of substantive law, classification of crimes, parties to crime, elements of crimes, matters of criminal responsibility, and other related topics. Upon completion, students should be able to discuss the sources of law and identify, interpret, and apply the appropriate statutes/elements.

CJC 131AB Criminal Law

2 0 2

Prerequisites: None

Corequisites: None

The first of two parts of CJC 131.

CJC 131BB Criminal Law

1 0 1

Prerequisites: CJC 213AB

Corequisites: None

A continuation of CJC 131AB and the final part of CJC 131.

CJC 132 Court Procedure and Evidence (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course covers judicial structure/process/procedure from incident to disposition, kinds and degrees of evidence, and the rules governing admissibility of evidence in court. Topics include consideration of state and federal courts, arrest, search and seizure laws, exclusionary and statutory rules of evidence, and other related issues. Upon completion, students should be able to identify and discuss procedures necessary to establish a lawful arrest/ search, proper judicial procedures, and the admissibility of evidence.

CJC 141 Corrections (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the history, major philosophies, components, and current practices and problems of the field of corrections. Topics include historical evolution, functions of the various components, alternatives to incarceration, treatment programs, inmate control, and other related topics. Upon completion, students should be able to explain the various components, processes, and functions of the correctional system. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

CJC 144 Crime Scene Processing (Fall) 2 3 3

Prerequisites: None

Corequisites: None

This course introduces the theories and practices of crime scene processing and investigating. Topics include legal considerations at the crime scene, processing indoor and outdoor scenes, recording, note taking, collection and preservation of evidence and submission to the crime laboratory. Upon completion, the student should be able to evaluate and search various crime scenes and demonstrate the appropriate techniques. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 145 Crime Scene CAD (Fall, Spring) 2 3 3

Prerequisites: None

Corequisites: None

This course introduces the student to CAD software for crime scenes. Topics include drawing, editing, file management and drafting theory and practices. Upon completion, the students should be able to produce and plot a crime scene drawing.

CJC 146 Trace Evidence (Fall)**2 3 3**

Prerequisites: None

Corequisites: None

This course provides a study of trace evidence as it relates to forensic science. Topics include collection, packaging, and preservation of trace evidence from crime scenes such as bombings, fires and other scenes. Upon completion, students should be able to demonstrate the fundamental concepts of trace evidence collection, preservation and submission to the crime laboratory. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 151 Introduction to Loss Prevention (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces the concepts and methods related to commercial and private security systems. Topics include the historical, philosophical, and legal basis of security, with emphasis on security surveys, risk analysis, and associated functions. Upon completion, students should be able to demonstrate and understand security systems, risk management, and the laws relative to loss prevention.

CJC 212 Ethics and Community Relations (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers ethical considerations and accepted standards applicable to criminal justice organizations and professionals. Topics include ethical systems; social change, values, and norms; cultural diversity; citizen involvement in criminal justice issues; and other related topics. Upon completion, students should be able to apply ethical considerations to the decision-making process in identifiable criminal justice situations. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

CJC 213 Substance Abuse (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course is a study of substance abuse in our society. Topics include the history and classifications of drug abuse and the social, physical, and psychological impact of drug abuse. Upon completion, students should be able to identify various types of drugs, their effects on human behavior and society, and treatment modalities.

CJC 213AB Substance Abuse AB (Fall)

2 0 2

Prerequisites: None

Corequisites: None

The first of two parts of CJC 213.

CJC 213BB Substance Abuse BB (Spring)

1 0 1

Prerequisites: CJC 213AB

Corequisites: None

A continuation of CJC 213AB and the final part of CJC 213.

CJC 214 Victimology (Fall, Spring, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the study of victims. Emphasis is placed on roles/characteristics of victims, victim interaction with the criminal justice system and society, current victim assistance programs, and other related topics. Upon completion, students should be able to discuss and identify victims, the uniqueness of victims' roles, and current victim assistance programs.

CJC 215 Organization and Administration (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the components and functions of organization and administration as it applies to the agencies of the criminal justice system. Topics include operations/functions of organizations; recruiting, training, and retention of personnel; funding and budgeting; communications; span of control and discretion; and other related topics. Upon completion, students should be able to identify and discuss the basic components and functions of a criminal justice organization and its administrative operations.

CJC 221 Investigative Principles (Fall, Spring)

3 2 4

Prerequisites: None

Corequisites: None

This course introduces the theories and fundamentals of the investigative process. Topics include crime scene/incident processing, Information-gathering techniques, collection/ preservation of evidence, preparation of appropriate reports, court presentations, and other related topics. Upon completion, students should be able to identify, explain, and demonstrate the techniques of the investigative process, report preparation, and court- room presentation.

CJC 222 Criminalistics (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the functions of the forensic laboratory and its relationship to successful criminal investigation and prosecutions. Topics include advanced crime scene processing, investigative techniques, current forensic technologies, and other related topics. Upon completion, students should be able to identify and collect relevant evidence at simulated crime scenes and request appropriate laboratory analysis of submitted evidence.

CJC 225 Crisis Intervention (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces critical incident intervention and management techniques as they apply to operational criminal justice practitioners. Emphasis is placed on the victim/offender situation as well as job-related high stress, dangerous, or problem-solving citizen contacts. Upon completion, students should be able to provide insightful analysis of emotional, violent, drug-induced, and other critical and/or stressful incidents that require field analysis and/or resolution.

CJC 231 Constitutional Law (Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the impact of the Constitution of the United States and its amendments on the criminal justice system. Topics include the structure of the Constitution and its amendments, court decisions pertinent to contemporary criminal justice issues, and other related topics. Upon completion, students should be able to identify/discuss the basic structure of the United States Constitution and the rights/procedures as interpreted by the courts.

CJC 241 Community-Based Corrections (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers programs for convicted offenders that are used both as alternatives to incarceration and in post-incarceration situations. Topics include offenders, diversion, house arrest, restitution, community service, probation and parole, including both public and private participation, and other related topics. Upon completion, students should be able to identify/discuss the various programs from the perspective of the criminal justice professional, the offender, and the community.

CJC 245 Friction Ridge Analysis (Fall)

2 3 3

Prerequisites: None

Corequisites: None

This course introduces the basic elements of fingerprint technology and techniques applicable to the criminal justice field. Topics include the history and meaning of fingerprints, pattern types and classification filing sequence, searching and referencing. Upon completion, the students should be able to discuss and demonstrate the fundamental techniques of basic fingerprint technology. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 246 Advanced Friction Ridge Analysis (Spring)

2 3 3

Prerequisites: CJC 245

Corequisites: None

This course introduces the theories and processes of advanced friction ridge analysis. Topics include evaluation of friction ridges, chart preparation, comparative analysis for values determination rendering proper identification, chemical enhancement and AFIS preparation and usage. Upon completion, students must show an understanding of proper procedures for friction ridge analysis through written testing and practical exercises. This course is a unique concentration requirement in the Latent Evidence concentration in the Criminal Justice Technology Program.

CJC 250 Forensic Biology I (Fall, Spring, Summer)

2 2 3

Prerequisites: None

Corequisites: None

This course covers important biological principles that are applied in the crime laboratory. Topics include forensic toxicology, forensic serology, microscopy, and DNA typing analysis, with an overview of organic and inorganic analysis. Upon completion, students should be able to articulate how a crime laboratory processes physical evidence submitted by law enforcement agencies.

CJC 251 Forensic Chemistry I (Spring)

3 2 4

Prerequisites: None

Corequisites: None

This course provides a study of the fundamental concepts of chemistry as it relates to forensic science. Topics include physical and chemical properties of substances, metric measurements, chemical changes, elements, compounds, gases, and atomic structure. Upon completion, students should be able to demonstrate an understanding of the fundamental concepts of forensic chemistry.

COM 110 Introduction to Communication (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course provides an overview of the basic concepts of communication and the skills necessary to communicate in various contexts. Emphasis is placed on communication theories and techniques used in interpersonal, group, public, intercultural, and mass communication situations. Upon completion, students should be able to explain and illustrate the forms and purposes of human communication in a variety of contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in English Composition.

COM 120 Intro Interpersonal Communication (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces the practices and principles of interpersonal communication in both dyadic and group settings. Emphasis is placed on the communication process, perception, listening, self-disclosure, speech apprehension, ethics, nonverbal communication, conflict, power, and dysfunctional communication relationships. Upon completion, students should be able to demonstrate interpersonal communication skills, apply basic principles of group discussion, and manage conflict in interpersonal communication situations. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

COM 140 Intro Intercultural Communication (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces techniques of cultural research, definitions, functions, characteristics, and impacts of cultural differences in public address. Emphasis is placed on how diverse backgrounds influence the communication act and how cultural perceptions and experiences determine how one sends and receives messages. Upon completion, students should be able to demonstrate an understanding of the principles and skills needed to become effective in communicating outside one's primary culture. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general elective course in English Composition.

COM 231 Public Speaking (Fall, Spring)

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course provides instruction and experience in preparation and delivery of speeches within a public setting and group discussion. Emphasis is placed on research, preparation, delivery, and evaluation of informative, persuasive, and special occasion public speaking. Upon completion, students should be able to prepare and deliver well-organized speeches and participate in group discussion with appropriate audiovisual support. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

COS 111 Cosmetology Concepts I (Fall, Spring)

4 0 4

Prerequisites: None

Corequisites: COS 112

This course introduces basic cosmetology concepts. Topics include safety, first aid, sanitation, bacteriology, anatomy, diseases and disorders, hygiene, product knowledge, chemistry, ethics, manicures, and other related topics. Upon completion, students should be able to safely and competently apply cosmetology concepts in the salon setting.

COS 111AB Cosmetology Concepts I-AB (Fall)

2 0 2

Prerequisites: None

Corequisites: COS 112AB The first of two parts of COS 111.

COS 111BB Cosmetology Concepts I-BB (Spring)

2 0 2

Prerequisites: COS 111AB

Corequisites: COS 112BB

A continuation of COS 111AB and final part of COS 111.

COS 112 Salon I (Fall, Spring)

0 24 8

Prerequisites: None

Corequisites: COS 111

This course introduces basic salon services. Topics include scalp treatments, shampooing, rinsing, hair color, design, haircutting, permanent waving, pressing, relaxing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate salon services.

COS 112AB Salon I-AB (Fall)

0 12 4

Prerequisites: None

Corequisites: COS 111AB The first of two parts of COS 112.

COS 112AB Salon I-BB (Fall, Spring)**0 12 4**

Prerequisites: COS 112AB

Corequisites: COS 111BB

A continuation of COS 112AB and final part of COS 112.

COS 113 Cosmetology Concepts II (Fall, Spring)**4 0 4**

Prerequisites: COS 111, COS 112

Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, chemistry, manicuring, chemical restructuring, and hair coloring. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 113AB Cosmetology Concepts II-AB (Fall, Spring)**2 0 2**

Prerequisites: COS 111, COS 112

Corequisites: None

The first of two parts of COS 113.

COS 113BB Cosmetology Concepts II-BB (Fall, Spring)**2 0 2**

Prerequisites: COS 111, COS 112

Corequisites: None

A continuation of COS 113AB and final part of COS 113.

COS 114 Salon II (Fall, Spring)**0 24 8**

Prerequisites: COS 111, COS 112

Corequisites: None

This course provides experience in a simulated salon setting. Topics include basic skin care, manicuring, nail application, scalp treatments, shampooing, rinsing, hair color, design, haircutting, chemical restructuring, pressing, wigs, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 114AB Salon II-AB (Fall, Spring)**0 12 4**

Prerequisites: COS 111, COS 112

Corequisites: None

The first of two parts of COS 114

COS 114BB Salon II-BB (Spring)**0 12 4**

Prerequisites: COS 111, COS 112

Corequisites: None

A continuation of COS 114AB and final part of COS 114.

COS 115 Cosmetology Concepts III (Fall, Spring, Summer) 4 0 4

Prerequisites: COS 111, COS 112

Corequisites: None

This course covers more comprehensive cosmetology concepts. Topics include safety, product knowledge, salon management, salesmanship, skin care, electricity/light therapy, wigs, thermal hair styling, lash and brow tinting, superfluous hair removal, and other related topics. Upon completion, students should be able to safely and competently apply these cosmetology concepts in the salon setting.

COS 115AB Cosmetology Concepts III-AB (Fall, Spring) 2 0 2

Prerequisites: COS 111, COS 112

Corequisites: None

The first of two parts of COS 115.

COS 115BB Cosmetology Concepts III-BB (Spring) 2 0 2

Prerequisites: COS 111, COS 112

Corequisites: None

A continuation of COS 115AB and final part of COS 115.

COS 116 Salon III (Fall, Spring, Summer) 0 12 4

Prerequisites: COS 111, COS 112

Corequisites: None

This course provides comprehensive experience in a simulated salon setting. Emphasis is placed on intermediate-level of skin care, manicuring, scalp treatments, shampooing, hair color, design, haircutting, chemical restructuring, pressing, and other related topics. Upon completion, students should be able to safely and competently demonstrate these salon services.

COS 117 Cosmetology Concepts IV (Fall, Spring) 2 0 2

Prerequisites: COS 111, COS 112

Corequisites: None

This course covers advanced cosmetology concepts. Topics include chemistry and hair structure, advanced cutting and design, and an overview of all cosmetology concepts in preparation for the licensing examination. Upon completion, students should be able to demonstrate an understanding of these cosmetology concepts and meet program completion requirements.

COS 118 Salon IV (Fall, Spring)) 0 21 7

Prerequisites: COS 111, COS 112

Corequisites: None

This course provides advanced experience in a simulated salon setting. Emphasis is placed on efficient and competent delivery of all salon services in preparation

for the licensing examination and employment. Upon completion, students should be able to demonstrate competence in program requirements and the areas covered on the Cosmetology Licensing Examination and meet entry-level employment requirements.

COS 118AB Salon IV-AB (Fall)

0 9 3

Prerequisites: COS 111, COS 112

Corequisites: None

The first of two parts of COS 118.

COS 118BB Salon IV-BB (Spring)

0 12 4

Prerequisites: COS 111, COS 112

Corequisites: None

A continuation of COS 118AB and final part of COS 118. The courses are not required to be taken in sequential order.

COS 223 Contemporary Hair Coloring (Fall, Spring)

1 3 2

Prerequisites: COS 111, COS 112

Corequisites: None

This course covers basic color concepts, hair coloring problems, and application techniques. Topics include color theory, terminology, contemporary techniques, product knowledge, and other related topics. Upon completion, students should be able to identify a clients color needs and safely and competently perform color applications and correct problems.

CSC 134 C++ Programming

2 3 3

Prerequisites: None

Corequisites: None

This course introduces computer programming using the C++ programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test and debug at a beginning level. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

CSC 143 Object-Oriented Programming (Fall)

2 3 3

Prerequisites: CSC 251

Corequisites: None

This course introduces the concepts of object-oriented programming. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class

debugger. Upon completion, students should be able to design, test, debug, and implement objects at the application level using the appropriate environment.

CSC 151 Java Programming (Spring)

2 3 3

Prerequisites: EGR 125, EGR 150 or ELN 232 or CTI 110

Corequisites: None

This course introduces computer programming using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion students should be able to design, code, test, debug JAVA language programs. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

CSC 251 Advanced Java Programming (Summer)

2 3 3

Prerequisites: CSC 151

Corequisites: None

This course is a continuation of CSC 151 using the JAVA programming language with object-oriented programming principles. Emphasis is placed on event-driven programming methods, including creating and manipulating objects, classes, and using object-oriented tools such as the class debugger. Upon completion, students should be able to design, code, test, debug, and implement objects using the appropriate environment. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

CTI 110 Web, Pgm & DB Foundation (Fall, Spring)

2 3 3

Prerequisites: None

Corequisites: None

This course covers the introduction of the tools and resources available to students in programming, mark-up language and services on the Internet. Topics include standard mark-up language Internet services, creating web pages, using search engines, file transfer programs; and database design and creation with DBMS products. Upon completion students should be able to demonstrate knowledge of programming tools, deploy a web-site with mark-up tools, and create a simple database table.

CTI 120 Network & Sec Foundation (Fall, Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course introduces students to the Network concepts, including networking terminology and protocols, local and wide area networks, and network standards. Emphasis is placed on securing information systems and the various

implementation policies. Upon completion, students should be able to perform basic tasks related to networking mathematics, terminology, media and protocols.

CTI 141 Cloud & Storage Concepts (Fall) **1 4 3**

Prerequisites: NOS 130

Corequisites: None

This course introduces cloud computing and storage concepts. Emphasis is placed on cloud terminology, virtualization, storage networking and access control. Upon completion, students should be able to perform tasks related to installation, configuration and management of cloud storage systems.

CTI 150 Mobile Computing Devices (Spring) **2 2 3**

Prerequisites: NOS 130

Corequisites: None

This course introduces mobile computing devices, including topics related to their selection, usage, deployment, and support in enterprise environments. Emphasis is placed on the evaluation, usage, deployment, security, and support of mobile devices, applications (apps), and peripherals. Upon completion, students should be able to select, deploy, and support mobile devices in an enterprise environment.

CTI 175 Intro to Wireless Technology (Fall) **2 2 3**

Prerequisites: NOS 130

Corequisites: None

This course introduces the student to the technologies and standards of wireless telecommunications. Topics include the design, implementation, configuration, security, standards and protocols of wireless local area networks (WLAN). Upon completion, students should be able to design, implement, and administer wireless local area networks.

CTI 240 Virtualization Admin I (Spring) **1 4 3**

Prerequisites: NOS 130

Corequisites: None

This course covers datacenter virtualization concepts. Topics include data storage, virtual network configuration, virtual machine and virtual application deployment. Upon completion, students should be able to perform tasks related to virtual machine and hypervisor installation and configuration.

CTS 115 Info System Business Concepts (Fall) **3 0 3**

Prerequisites: None

Corequisites: None

The course introduces the role of IT in managing business processes and the need for business process and IT alignment. Emphasis is placed on industry need for understanding business challenges and developing/managing information systems to contribute to the decision making process based on these challenges. Upon completion, students should be able to demonstrate knowledge of the hybrid business manager' and the potential offered by new technology and systems. This course has been approved for transfer under the Comprehensive Articulation Agreement as a premajor and/or elective course requirement.

CTS 120	Hardware/Software Support (Fall)	2	3	3
---------	----------------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course covers the basic hardware of a personal computer, including installation, operations and interactions with software. Topics include component identification, memory-system, peripheral installation and configuration, preventive maintenance, hardware diagnostics/repair, installation and optimization of system software, commercial programs, system configuration, and device-drivers. Upon completion, students should be able to select appropriate computer equipment and software, upgrade/maintain existing equipment and software, and troubleshoot/repair non-functioning personal computers.

CTS 130	Spreadsheet (Fall, Spring)	2	2	3
---------	----------------------------	---	---	---

Prerequisites: None Corequisites: None

This course introduces basic spreadsheet design and development. Topics include writing formulas, using functions, enhancing spreadsheets, creating charts, and printing. Upon completion, students should be able to design and print basic spreadsheets and charts.

CTS 220	Advanced Hardware/Software Support (Spring)	2	3	3
---------	---	---	---	---

Prerequisites: CTS 120

Corequisites: None

This course provides advanced knowledge and competencies in hardware and operating system technologies for computer technicians to support personal computers. Emphasis is placed on: configuring and upgrading; diagnosis and troubleshooting; as well as preventive maintenance of hardware and system software. Upon completion, students should be able to install, configure, diagnose, perform preventive maintenance, and maintain basic networking on personal computers.

CTS 287	Emerging Technologies (Spring)	3	0	3
---------	--------------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course introduces emerging information technologies. Emphasis is placed on evolving technologies and trends in business and industry. Upon completion, students should be able to articulate an understanding of the current trends and issues in emerging technologies for information systems.

CTS 289 System Support Project (Spring) 1 4 3

Prerequisites: CTS 115, CTI 110, CTI 120 and Instructor Permission

Corequisites: None

This course provides an opportunity to complete a significant support project with minimal instructor assistance. Emphasis is placed on written and oral communication skills, project definition, documentation, installation, testing, presentation, and user training. Upon completion, students should be able to complete a project from the definition phase through implementation.

CUL 110 Sanitation and Safety (Fall, Spring) 2 0 2

Prerequisites: None

Corequisites: None

This course introduces the basic principles of sanitation and safety relative to the hospitality industry. Topics include personal hygiene, sanitation and safety regulations, use and care of equipment, the principles of food-borne illness, and other related topics. Upon completion, students should be able to demonstrate an understanding of the content necessary for successful completion of a nationally recognized food/safety/sanitation exam. Students must pass the course with a grade of C or better and must pass the ServSafe Food Safety exam with a 75% or better during the course in order to receive credit toward graduation and satisfy the CUL 110 prerequisite for culinary courses.

CUL 112 Nutrition for Foodservice (Summer) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the principles of nutrition and its relationship to the foodservice industry. Topics include personal nutrition fundamentals, weight management, exercise, nutritional adaptation/analysis of recipes/menus, healthy cooking techniques, and marketing nutrition in a foodservice operation. Upon completion, students should be able to apply basic nutritional concepts to food preparation and selection.

CUL 120 Purchasing (Fall) 2 0 2

Prerequisites: DMA 010, DMA 020, DMA 030

Corequisites: CUL 120A

This course covers purchasing for foodservice operations. Emphasis is placed on yield tests, procurement, negotiating, inventory control, product specification,

purchasing ethics, vendor relationships, food product specification, and software applications. Upon completion, students should be able to apply effective purchasing techniques based on the end-use of the product.

CUL 120A Purchasing Lab (Fall)

0 2 1

Prerequisites: DMA 010, DMA 020, DMA 030

Corequisites: CUL 120

This course provides a laboratory experience for enhancing student skills in purchasing for foodservice operations. Emphasis is placed on practical experiences in yield tests, procurement, negotiating, inventory control, product specification, purchasing ethics, vendor relationships, food product specifications; and software applications. Upon completion, students should be able to demonstrate practical applications of purchasing within the hospitality industry.

CUL 130 Menu Design (Fall, Spring)

2 0 2

Prerequisites: None

Corequisites: None

This course introduces menu design and its relationship to foodservice operations. Topics include layout, marketing, concept development, dietary concerns, product utilization, target consumers, and trends. Upon completion, students should be able to design, create, and produce menus for a variety of foodservice settings.

CUL 135 Food and Beverage Service (Fall, Spring)

2 0 2

Prerequisites: None

Corequisites: CUL 135A

This course is designed to cover the practical skills and knowledge necessary for effective food and beverage service in a variety of settings. Topics include greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles, and reservations. Upon completion, students should be able to demonstrate competence in human relations and the skills required in the service of foods and beverages.

CUL 135A Food and Beverage Service Lab (Fall, Spring)

0 2 1

Prerequisites: None

Corequisites: CUL 135

This course provides a laboratory experience for enhancing student skills in effective food and beverage service. Emphasis is placed on practical experiences including greeting/service of guests, dining room set-up, profitability, menu sales and merchandising, service styles, and reservations. Upon completion, students should be able to demonstrate practical applications of human relations and the skills required in the service of foods and beverages.

CUL 140 Culinary Skills I (Fall)**2 6 5**

Prerequisites: DMA 010, DMA 020, DMA 030

Corequisites: CUL 110

This course introduces the fundamental concepts, skills, and techniques in basic cookery, and moist, dry, and combination heat. Emphasis is placed on recipe conversion, measurements, terminology, classical knife cuts, safe food/equipment handling, flavorings/seasonings, stocks/sauces/soups, and related topics. Upon completion, students should be able to exhibit the basic cooking skills used in the food service industry.

CUL 142 Fundamentals of Food (Intermittently)**2 6 5**

Prerequisites: None

Corequisites: CUL 110

This course introduces the student to the basic principles of cooking, baking and kitchen operations. Topics include preparation methods for protein, starch, vegetable/fruit identification/selection, storage; breakfast cookery, breads, sweet dough/pastries, basic fabrication, knife skills, and mise en place. Upon completion, students should be able to execute efficiently a broad range of basic cooking/baking skills as they apply to different stations in foodservice operations.

CUL 160 Baking I (Fall)**1 4 3**

Prerequisites: DMA 010, DMA 020, DMA 030

Corequisites: CUL 110

This course covers basic ingredients, techniques, weights and measures, baking terminology, and formula calculations. Topics include yeast/chemically leavened products, laminated doughs, pastry dough batter, pies/tarts, meringue, custard, cakes and cookies, icings, glazes, and basic sauces. Upon completion, students should be able to demonstrate proper scaling and measurement techniques, and prepare and evaluate a variety of bakery products.

CUL 170 Garde Manger I (Fall)**1 4 3**

Prerequisites: CUL 240

Corequisites: CUL 110

This course introduces basic cold food preparation techniques and pantry production. Topics include salads, sandwiches, appetizers, dressings, basic garnishes, cheeses, cold sauces, and related food items. Upon completion, students should be able to present a cold food display and exhibit an understanding of the cold kitchen and its related terminology.

CUL 230 Global Cuisines (Fall)**1 8 5**

Prerequisites: CUL 110, CUL 140, CUL 240

Corequisites: None

This course provides practical experience in the planning, preparation, and presentation of representative foods from a variety of world cuisines. Emphasis is placed on indigenous ingredients and customs, nutritional concerns, and cooking techniques. Upon completion, students should be able to research and execute a variety of international and domestic menus.

CUL 240 Culinary Skills II (Spring)

1 8 5

Prerequisites: CUL 110, CUL 140

Corequisites: None

This course is designed to further students' knowledge of the fundamental concepts, skills, and techniques involved in basic cookery. Emphasis is placed on meat identification/fabrication, butchery, and cooking techniques/methods, appropriate vegetable/starch accompaniments; compound sauces; plate presentation; breakfast cookery; and quantity food preparation. Upon completion, students should be able to plan, execute, and successfully serve entrees with complementary side items.

CUL 250 Classical Cuisine (Spring)

1 8 5

Prerequisites: CUL 110, CUL 140, and CUL 240

Corequisites: None

This course is designed to reinforce the classical culinary kitchen. Topics include the working Grand Brigade of the kitchen, signature dishes, and classical banquets. Upon completion, students should be able to demonstrate competence in food preparation in a classical/upscale restaurant or banquet setting.

CUL 260 Baking II (Spring)

1 4 3

Prerequisites: CUL 110, CUL 160

Corequisites: None

This course is designed to further students' knowledge in ingredients, weights and measures, baking terminology, and formula calculation. Topics include classical desserts, frozen desserts, cake and torte production, decorating and icings/glazes, dessert plating, and presentation. Upon completion, students should be able to demonstrate pastry preparation, plating, and dessert buffet production skills.

CUL 270 Garde Manger II (Spring)

1 4 3

Prerequisites: CUL 110, CUL 140, and CUL 170

Corequisites: None

This course is designed to further students' knowledge in basic cold food preparation techniques and pantry production. Topics include pâtés, terrines, galantines, decorative garnishing skills, carving, charcuterie, smoking, canapés, hors d'oeuvres, and related food items. Upon completion, students should be able

to design, set up, and evaluate a catering/event display to include a cold buffet with appropriate showpieces.

DBA 110 Database Concepts (Fall, Spring) 2 3 3

Prerequisites: None

Corequisites: None

This course introduces database design and creation using a DBMS product. Emphasis is placed on data dictionaries, normalization, data integrity, data modeling, and creation of simple tables, queries, reports, and forms. Upon completion, students should be able to design and implement normalized database structures by creating simple database tables, queries, reports, and forms.

DBA 115 Database Applications (Fall) 2 2 3

Prerequisites: DBA 110

Corequisites: None

This course applies concepts learned in DBA 110 to a specific DBMS. Topics include manipulating multiple tables, advanced queries, screens and reports, linking, and command files. Upon completion, students should be able to create multiple table systems that demonstrate updates, screens, and reports representative of industry requirements.

DFT 119 Basic CAD (Summer) 1 2 2

Prerequisites: None

Corequisites: None

This course introduces computer-aided drafting software for specific technologies to non-drafting majors. Emphasis is placed on understanding the software command structure and drafting standards for specific technical fields. Upon completion, students should be able to create and plot basic drawings.

DFT 151 CAD I (Spring) 2 3 3

Prerequisites: CIS 110, CIS 113, or EGR 125

Corequisites: None

This course introduces CAD software as a drawing tool. Topics include drawing, editing, file management, and plotting. Upon completion, students should be able to produce and plot a CAD drawing.

DFT 170 Engineering Graphics (Fall, Spring) 2 2 3

Prerequisites: None

Corequisites: None

This course introduces basic engineering graphics skills and applications. Topics include sketching, selection and use of current methods and tools, and the use of engineering graphics applications. Upon completion, students should be able

to demonstrate an understanding of basic engineering graphics principles and practices. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

DMA 010 Operations with Integers **.75 .50 1**

Prerequisites: Appropriate score on Course Readiness Assessments

Corequisites: None

This course provides a conceptual study of integers and integer operations. Topics include integers, absolute value, exponents, square roots, perimeter and area of basic geometric figures, Pythagorean theorem, and use of the correct order of operations. Upon completion, students should be able to demonstrate an understanding of pertinent concepts and principles and apply this knowledge in the evaluation of expressions.

DMA 020 Fractions and Decimals **.75 .50 1**

Prerequisite: DMA 010

Corequisite: None

This course provides a conceptual study of the relationship between fractions and decimals and covers related problems. Topics include application of operations and solving contextual application problems, including determining the circumference and area of circles with the concept of pi. Upon completion, students should be able to demonstrate an understanding of the connections between fractions and decimals.

DMA 030 Proportions/Ratios/Rate/Percent **.75 .50 1**

Prerequisite: DMA 010 and DMA 020

Corequisite: None

This course provides a conceptual study of the problems that are represented by rates, ratios, percent, and proportions. Topics include rates, ratios, percent, proportion, conversion of English and metric units, and applications of the geometry of similar triangles. Upon completion, students should be able to use their understanding to solve conceptual application problems.

DMA 040 Expressions/Linear Equations/Inequalities **.75 .50 1**

Prerequisite: DMA 010, DMA 020, and DMA 030, or DMA 025

Corequisite: None

This course provides a conceptual study of problems involving linear expressions, equations, and inequalities. Emphasis is placed on solving contextual application problems. Upon completion, students should be able to distinguish between simplifying expressions and solving equations and apply this knowledge to problems involving linear expressions, equations, and inequalities.

DMA 050 Graphs/Equations of Lines .75 .50 1

Prerequisite: DMA 010, DMA 020, DMA 030 and DMA 040 or DMA 025 and DMA 040

Corequisite: None

This course provides a conceptual study of problems involving graphic and algebraic representations of lines. Topics include slope, equations of lines, interpretation of basic graphs, and linear modeling. Upon completion, students should be able to solve contextual application problems and represent real-world situations as linear equations in two variables.

DMA 060 Polynomials/Quadratic Applications .75 .50 1

Prerequisite: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050 or DMA 025, and DMA 045

Corequisite: None

This course provides a study of problems involving algebraic representations of quadratic equations. Topics include basic polynomial operations, factoring polynomials, and solving polynomial equations by means of factoring. Upon completion, students should be able to find algebraic solutions to contextual problems with quadratic applications.

DMA 070 Rational Expressions and Equations .75 .50 1

Prerequisite: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050 and DMA 060 or DMA 025, DMA 045, and DMA 060

Corequisite: None

This course provides a study of problems involving algebraic representations of rational equations. Topics include simplifying and performing operations with rational expressions and equations, understanding the domain, and determining the reasonableness of an answer. Upon completion, students should be able to find algebraic solutions to contextual problems with rational applications.

DMA 080 Radical Expressions and Equations .75 .50 1

Prerequisite: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, and DMA 070, or DMA 025, DMA 045, DMA 060, and DMA 070

Corequisite: None

This course provides a study of problems involving algebraic representations of the manipulation of radical expressions and the application of radical equations. Topics include simplifying and performing operations with radical expressions and rational exponents, solving radical equations, and determining the seasonableness of a solution. Upon completion, students should be able to find algebraic solutions to contextual problems with radical applications.

DRA 111 Theatre Appreciation (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course provides a study of the art, craft, and business of the theatre. Emphasis is placed on the audience's appreciation of the work of the playwright, director, actor, designer, producer, and critic. Upon completion, students should be able to demonstrate a vocabulary of theatre terms and to recognize the contributions of various theatre artists. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

DRA 170 Play Production I (Spring)

0 9 3

Prerequisites: None

Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

DRA 171 Play Production II (Spring)

0 9 3

Prerequisites: DRA 170

Corequisites: None

This course provides an applied laboratory study of the processes involved in the production of a play. Topics include fundamental practices, principles, and techniques associated with producing plays of various periods and styles. Upon completion, students should be able to participate in an assigned position with a college theatre production. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

DRE 096 Integrated Reading and Writing I

2.5 1 3

Prerequisites: None

Corequisites: None

This course is designed to develop proficiency in specific integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; these topics are primarily taught at the introductory level using texts primarily in a Lexile® range of 960 to 1115.

Upon completion, students should be able to apply those skills toward understanding a variety of academic and career-related texts and composing effective paragraphs.

DRE 097 Integrated Reading and Writing II

2.5 1 3

Prerequisites: DRE 096

Corequisites: None

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught at a reinforcement level using texts primarily in a Lexile® range of 1070 to 1220. Upon completion, students should be able to demonstrate and apply those skills toward understanding a variety of academic and career texts and composing essays incorporating relevant, valid evidence.

DRE 098 Integrated Reading and Writing III

2.5 1 3

Prerequisites: DRE 097

Corequisites: None

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught using texts primarily in a Lexile® range of 1185 to 1385. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and composing a documented essay.

DRE 099 Integrated Reading and Writing III

2 0 2

Prerequisites: DRE 097

Corequisites: ENG 111

This course is designed to develop proficiency in integrated and contextualized reading and writing skills and strategies by complementing, supporting and reinforcing material covered in ENG 111. Topics include reading and writing processes, critical thinking strategies, and recognition and composition of well-developed, coherent, and unified texts; except where noted, these topics are taught using texts primarily in a Lexile® range of 1185 to 1385 in order to prepare students to be career and college ready. Upon completion, students should be able to apply those skills toward understanding a variety of texts at the career and college ready level and toward composing a documented essay.

ECO 251 Principles of Microeconomics (Fall, Spring, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces economic analysis of individual, business, and industry in the market economy. Topics include the price mechanism, supply and demand, optimizing economic behavior, costs and revenue, market structures, factor markets, income distribution, market failure, and government intervention. Upon completion, students should be able to identify and evaluate consumer and business alternatives in order to efficiently achieve economic objectives. This course has been approved for transfer under Comprehensive Articulation Agreement as a general education core requirement in social/behavioral sciences. This is a Universal General Education Transfer Component (UGETC) course.

ECO 252 Principles of Macroeconomics (Fall, Spring, Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces economic analysis of aggregate employment, income, and prices. Topics include major schools of economic thought; aggregate supply and demand; economic measures, fluctuations, and growth; money and banking; stabilization techniques; and international trade. Upon completion, students should be able to evaluate national economic components, conditions, and alternatives for achieving socioeconomic goals. This course has been approved for transfer under Comprehensive Articulation Agreement as a general education course in social/behavioral sciences. This is a Universal General Education Transfer Component (UGETC) course.

EDU 119 Introduction to Early Child Education (Fall, Spring)

4 0 4

Prerequisites: None

Corequisites: None

This course introduces the foundations of early childhood education, the diverse educational settings for young children, professionalism and planning intentional developmentally appropriate experiences for each child. Topics include theoretical foundations, national early learning standards, NC Foundations for Early Learning and Development, state regulations, program types, career options, professionalism, ethical conduct, quality inclusive environments, and curriculum responsive to the needs of each child/family. Upon completion, students should be able to design a career/professional development plan, appropriate environments, schedules, and activity plans.

EDU 131 Child, Family and Community (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the development of partnerships among culturally, linguistically and ability diverse families, children, schools and communities through the use of evidence-based strategies. Emphasis is placed on developing skills and identifying benefits for establishing and supporting respectful relationships between diverse families, programs/schools, and community agencies/resources reflective of the NAEYC Code of Ethical Conduct and the Code of Ethics for North Carolina Educators. Upon completion, students should be able to identify appropriate relationship building strategies between diverse families, children birth through adolescence, schools, and communities and demonstrate a variety of communication skills including appropriate use of technology to support every child.

EDU 144 Child Development I (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from conception through approximately 36 months. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse.

EDU 145 Child Development II (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course includes the theories of child development, observation and assessment, milestones, and factors that influence development, from preschool through middle childhood. Emphasis is placed on knowledge, observation and assessment of developmental sequences in approaches to play/learning, emotional/social, health/physical, language/communication and cognitive domains. Upon completion, students should be able to compare/contrast typical/atypical developmental characteristics, explain biological and environmental factors that impact development, and identify evidence-based strategies for enhancing development for children that are culturally, linguistically, and ability diverse.

EDU 146 Child Guidance (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces evidence-based strategies to build nurturing relationships with each child by applying principles and practical techniques to facilitate developmentally appropriate guidance. Topics include designing responsive/supportive learning environments, cultural, linguistic and socio-economic influences on behavior, appropriate expectations, the importance of communication with children/families including using technology and the use of formative assessments in establishing intentional strategies for children with unique needs. Upon completion, students should be able to demonstrate direct/indirect strategies to encourage social skills, self-regulation, emotional expression and positive behaviors while recognizing the relationship between children's social, emotional and cognitive development.

EDU 151 Creative Activities (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces developmentally supportive creative learning environments with attention to divergent thinking, creative problem-solving, evidence-based teaching practices, and open-ended learning materials while applying NC Foundations for Early Learning and Development. Emphasis is placed on observation of process driven learning experiences in art, music, creative movement, dance, and dramatics for every young child age birth through eight, integrated through all domains and academic content. Upon completion, students should be able to examine, create, and adapt developmentally creative learning materials, experiences, and environments for children that are culturally, linguistically, and ability diverse.

EDU 153 Health, Safety and Nutrition (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course covers promoting and maintaining the health and well-being of every child. Topics include health and nutritional guidelines, common childhood illnesses, maintaining safe and healthy learning environments, health benefits of active play, recognition and reporting of abuse/neglect, and state regulations. Upon completion, students should be able to apply knowledge of NC Foundations for Early Learning and Development for health, safety, nutritional needs and safe learning environments.

EDU 163 Classroom Management and Instruction (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course examines classroom management and evidence-based instructional strategies that create supportive learning environments to provide developmentally appropriate guidance for school-age populations. Topics include classroom management and organization, teaching strategies, individual student differences and learning styles, ongoing systematic observation, and developmentally appropriate classroom guidance techniques. Upon completion, students should be able to utilize developmentally appropriate behavior management and high quality instructional strategies that enhance the teaching/learning process and promote student's academic success.

EDU 184 Early Child Intro. Pract. (Fall, Spring)**1 3 2**

Prerequisites: EDU-119

Corequisites: None

This course introduces students to early childhood settings and applying skills in a three- star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on observing children and assisting in the implementation of developmentally appropriate activities/environments for all children; and modeling reflective/professional practices. Upon completion, students should be able to demonstrate developmentally appropriate interactions with children and ethical/professional behaviors as indicated by assignments and on site faculty visits.

EDU 187 Teaching and Learning for All**3 3 4**

Prerequisites: None

Corequisites: None

This course introduces students to knowledge, concepts, and best practices needed to provide developmentally appropriate, effective, inclusive, and culturally responsive educational experiences in the classroom. Topics include growth and development, learning theory, student motivation, teaching diverse learners, classroom management, inclusive environments, student-centered practices, instructional strategies, teaching methodologies, observation/assessment techniques, education planning, reflective practice, collaboration, cultural competence, ethics, professionalism, and leadership. Upon completion, students should be able to identify knowledge, skills, roles, and responsibilities of an effective educator as defined by state and national professional teaching standards.

EDU 216 Foundations of Education (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the examination of the American educational systems and the teaching profession. Topics include the historical and philosophical influences on education, various perspectives on educational issues, and experiences in birth through grade 12 classrooms. Upon completion, students should be able to reflect on classroom observations, analyze the different educational approaches, including classical/traditional and progressive, and have knowledge of the various roles of educational systems at the federal, state and local level. This course has been approved for transfer under the CAA and ICAA as a pre-major and/or elective course requirement.

EDU 221 Children with Exceptionalities (Fall)

3 0 3

Prerequisites: EDU-144 and EDU-145, or PSY-244 and PSY-245

Corequisites: None

This course covers atypical patterns of child development, inclusive/diverse settings, evidenced-based educational/family plans, differentiated instruction, adaptive materials, and assistive technology. Emphasis is placed on the characteristics of exceptionalities and delays, early intervention/special education, transitions, observation, developmental screening, formative assessment of children, and collaborating with families and community partners. Upon completion, students should be able to recognize diverse abilities, describe the referral process, identify community resources, explain the importance of collaboration with families/professionals, and develop appropriate strategies/adaptations to support children in all environments with best practices as defined by laws, policies and the NC Foundations for Early Learning and Development.

EDU 234 Infants, Toddlers and Twos (Spring)

3 0 3

Prerequisites: EDU-119

Corequisites: None

This course covers the development of high-quality, individualized, responsive/engaging relationships and experiences for infants, toddlers, and twos. Emphasis is placed on typical and atypical child development, working with diverse families to provide positive, supportive, and engaging early learning activities and interactions through field experiences and the application of the NC Foundations for Early Learning and Development. Upon completion, students should be able to demonstrate responsive curriculum planning, respectful relationships and exposure to a variety of developmentally appropriate experiences/materials that support a foundation for healthy development and growth of culturally, linguistically and ability diverse children birth to 36 months.

EDU 250 Teacher Licensure Preparation (Fall)**3 0 3**

Prerequisites: ENG 111 and MAT 143, or ENG 111 and MAT 152, or ENG 111 and MAT 171

Corequisites: None

This course provides information and strategies necessary for transfer to a teacher licensure program at a senior institution. Topics include entry level teacher licensure exam preparation, performance based assessment systems, requirements for entry into teacher educational programs, the process to become a licensed teacher in North Carolina, and professionalism and expectation within the field of education. Upon completion, students should be able to utilize educational terminology and demonstrate knowledge of teacher licensure processes including exam preparation, technology based portfolio assessment, and secondary admissions processes to the school of education at a senior institution.

EDU 259 Curriculum Planning (Fall)**3 0 3**

Prerequisites: EDU-119

Corequisites: None

This course is designed to focus on using content knowledge to build developmentally effective approaches for culturally/linguistically/ability diverse young children. Topics include components of curriculum, a variety of curriculum models, authentic observation and assessment, and planning developmentally appropriate experiences aligned with the NC Foundations for Early Learning and Development. Upon completion, students should be able to understand, evaluate, and use curriculum to plan for individual/group needs.

EDU 261 Early Childhood Administration I (Fall)**3 0 3**

Prerequisites: None

Corequisites: EDU 119

This course introduces principles and practices essential to preparing and supporting child care administrators. Topics include program philosophy, policies and procedures, NC Child Care Law and Rules, business planning, personnel and fiscal management, and NAEYC Code of Ethical Conduct Supplement for Early Childhood Program Administration. Upon completion, students should be able to articulate a developmentally appropriate program philosophy, locate current state licensing regulations, analyze a business plan and examine comprehensive program policies and procedures.

EDU 262 Early Childhood Administration II (Spring)**3 0 3**

Prerequisites: EDU 119 & EDU 261

Corequisites: none

This course focuses on advocacy/leadership, public relations/community outreach and program quality/evaluation for diverse early childhood programs. Topics include program evaluation/accreditation, involvement in early childhood

professional organizations, leadership/mentoring, family, volunteer and community involvement and early childhood advocacy. Upon completion, students should be able to define and evaluate all components of early childhood programs, develop strategies for advocacy and integrate community into programs.

EDU 271 Educational Technology (Intermittently) 2 2 3

Prerequisites: None

Corequisites: None

This course introduces the ethical use of technology to enhance teaching and learning in all educational settings. Emphasis is placed on technology concepts, ethical issues, digital citizenship, instructional strategies, assistive technology, and the use of technology for professional development and communication. Upon completion, students should be able to discuss technology concepts, ethically use a variety of technology resources, demonstrate appropriate technology skills in educational environments, and identify assistive technology.

EDU 279 Literacy Develop and Instruct (Intermittently) 3 3 4

Prerequisites: None

Corequisites: None

This course is designed to provide students with concepts and skills of literacy development, instructional methods/materials and assessment techniques needed to provide scientifically-based, systematic reading and writing instruction into educational practice. Topics include literacy concepts, reading and writing development, developmentally appropriate pedagogy, culturally-responsive instruction, standards-based outcomes, lesson planning, formative/summative assessment, recognizing reading difficulties, research-based interventions, authentic learning experiences, classroom implementation, and reflective practice. Upon completion, students should be able to plan, implement, assess, evaluate, and demonstrate developmentally appropriate literacy instruction aligned to the NC Standard Course of Study and other state and national standards.

EDU 280 Language and Literacy Experiences (Fall) 3 0 3

Prerequisites: EDU 119

Corequisites: None

This course provides evidence-based strategies for enhancing language and literacy experiences that align with NC Foundations for Early Learning and Development. Topics include developmental sequences for children's emergent receptive and expressive language, print concepts, appropriate observations/assessments, literacy enriched environments, quality selection of diverse literature, interactive media, and inclusive practices. Upon completion, students should be able to select, plan, implement and evaluate developmentally appropriate language

and literacy experiences for children who are culturally, linguistically and ability diverse.

EDU 282 Early Childhood Literature (Spring)

3 0 3

Prerequisites: EDU 119

Corequisites: None

This course covers the history, selection, and integration of literature and language in the early childhood curriculum. Topics include the history and selection of developmentally appropriate children's literature and the use of books and other media to enhance language and literacy in the classroom. Upon completion, students should be able to select appropriate books for storytelling, reading aloud, puppetry, flannel board use, and other techniques for children who are culturally, linguistically, and ability diverse.

EDU 284 Early Child Capstone Prac (Fall, Spring)

1 9 4

Prerequisites: EDU 119, EDU 144, EDU 145, EDU 146, EDU 151, EDU 184

Corequisites: None

This course is designed to allow students to demonstrate acquired skills in a three star (minimum) or NAEYC accredited or equivalent, quality early childhood environment. Emphasis is placed on designing, implementing and evaluating developmentally appropriate activities and environments for all children; supporting/engaging families; and modeling reflective and professional practices based on national and state guidelines. Upon completion, students should be able to apply NC Foundations for Early Learning and Development to demonstrate developmentally appropriate plans/assessments, appropriate guidance techniques and ethical/professional behaviors, including the use of appropriate technology, as indicated by assignments and onsite faculty assessments.

EGR 125 Appl Software for Tech (Fall, Spring, Summer)

1 2 2

Prerequisites: None

Corequisites: None

This course introduces personal computer software and teaches students how to customize the software for technical applications. Emphasis is placed on the use of common office applications software programs such as spreadsheets, word processing, graphics, and internet access. Upon completion, students should be able to demonstrate competency in using applications software to solve technical problems and communicate the results in text and graphical formats.

EGR 150 Introduction to Engineering (Fall, Spring)

1 2 2

Prerequisites: None

Corequisites: None

This course is an overview of the engineering profession. Topics include goal setting and career assessment, ethics, public safety, the engineering method and design process, written and oral communication, interpersonal skills and team building, and computer applications. Upon completion, students should be able to understand the engineering process, the engineering profession, and utilize college resources to meet their educational goals. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 210 Intro to Elec/Comp Eng Lab

1 3 2

Prerequisites: Take All: MAT 271 and PHY 251

Corequisites: None

This course provides an overview of electrical and computer engineering, through a lecture and laboratory setting. Topics include fundamental concepts, electronic circuits, digital circuits, communication systems, and signal processing. Upon completion, students should be able to discuss the wide range of fields available to the electrical or computer engineer. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 212 Logic System Design I

3 0 3

Prerequisites: Take All: MAT 271 and PHY 251

Corequisites: None

This course provides an introduction to digital circuits and analysis. Topics include Boolean Algebra; mixed logic; design of combinational circuits; introduction to sequential systems; and MSI building blocks. Upon completion, students should be able to analyze and design digital circuits and systems. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 214 Numerical Methods for Engineers (Spring)

3 0 3

Prerequisites: MAT 272

Corequisites: None

This course introduces contemporary methods and tools for numerical analysis in engineering. Topics include numerical methods in differentiation , integration, root-finding, linear and non-linear regressions, Upon completion, students should be able to demonstrate: basic structured programming concepts involving decision making, loops, functions, and parameter passing; common numerical methods used in engineering analysis; estimation of the amount of error inherent in different numerical methods; assessment of numerical efficiency; method assessment of numerical efficiency;; and convergence properties of different numerical methods. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 215 Network Theory I**3 0 3**

Prerequisites: Take All: MAT 272 and PHY 251

Corequisites: Take PHY 252 and MAT 273

This course provides an introduction to Kirchoff's laws and terminal equations, circuit analysis techniques and network theorems, transient and natural response, and state variable analysis. Topics include Kirchoff's laws, Ohm's law, circuit analysis techniques, Network theorems, singularity functions, transient and natural responses, power, and state variable analysis. Upon completion, students should be able to analyze electric circuits involving capacitors, inductors, and resistors to determine required parameters. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 216 Logic and Network Lab**0 3 1**

Prerequisites: Take All: MAT 272 and PHY 251

Corequisites: Take EGR 215

This course provides laboratory experiments in network measurements and logic design and laboratory equipment and techniques. Topics include network measurement and applications, experimental logic design and introduction to laboratory equipment and techniques. Upon completion, students should be able to complete network measurement logic design and be able to use laboratory equipment with proper techniques. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 220 Engineering Statics (Spring)**3 0 3**

Prerequisites: PHY 251

Corequisites: MAT 272

This course introduces the concepts of engineering based on forces in equilibrium. Topics include concentrated forces, distributed forces, forces due to friction, and inertia as they apply to machines, structures, and systems. Upon completion, students should be able to solve problems which require the ability to analyze systems of forces in static equilibrium. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 225 Engineering Dynamics**3 0 3**

Prerequisites: Take EGR 220

Corequisites: Take MAT 273

This course introduces the concepts of engineering based on the analysis of motion in Cartesian, cylindrical, and spherical coordinate systems. Topics include the two and three dimensional motion of particles and rigid bodies, the forces associated with that motion, and relative motion between two coordinate systems. Upon completion, student should be able to solve problems which require the ability to analyze the motion and forces involved in a dynamic system. This course

has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 228 Intro to Solid Mechanics

3 0 3

Prerequisites: Take EGR 220

Corequisites: None

This course provides an introduction to engineering theory of deformable solids and applications. Topics include stress and deformation resulting from axial, torsion, and bending loads; shear and moment diagrams; Mohr's circle of stress; and strain and buckling of columns. Upon completion, students should be able to analyze solids subject to various forces and design systems using a variety of materials. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

EGR 250 Statics/Strength of Mater

4 3 5

Prerequisites: MAT 121 or MAT 171

Corequisites: None

This course includes vector analysis, equilibrium of force systems, friction, sectional properties, stress/strain, and deformation. Topics include resultants and components of forces, moments and couples, free-body diagrams, shear and moment diagrams, trusses, frames, beams, columns, connections, and combined stresses. Upon completion, students should be able to analyze simple structures.

ELC 111 Introduction to Electricity (Fall, Spring, Summer) **2 2 3**

Prerequisites: None

Corequisites: None

This course introduces the fundamental concepts of electricity and test equipment to non- electrical/electronic majors. Topics include basic DC and AC principles (voltage, resistance, current, impedance); components (resistors, inductors and capacitors); power; and operation of test equipment. Upon completion, students should be able to construct and analyze simple DC and AC circuits using electrical test equipment.

ELC 113 Residential Wiring I (Fall)

2 6 4

Prerequisites: None

Corequisites: None

This course introduces the care/usage of tools and materials used in residential electrical installations and the requirements of the National Electrical Code. Topics include NEC, electrical safety, and electrical blueprint reading; planning, layout; and installation of electrical distribution equipment; lighting; overcurrent protection; conductors; branch circuits; and conduits. Upon completion,

students should be able to properly install conduits, wiring, and electrical distribution equipment associated with basic electrical installations.

ELC 113AB Residential Wiring I-AB (Fall) 1 3 2

Prerequisites: None

Corequisites: None

The first of two parts of ELC 113.

ELC 113BB Residential Wiring I-BB (Spring) 1 3 2

Prerequisites: ELC 113AB

Corequisites: None

A continuation of ELC 113AB and final part of ELC 113.

ELC 115 Industrial Wiring (Spring) 2 6 4

Prerequisites: ELC 111 or ELC 113 or ELC 131

Corequisites: None

This course covers layout, planning, and installation of wiring systems in industrial facilities. Emphasis is placed on industrial wiring methods and materials. Upon completion, students should be able to install industrial systems and equipment.

ELC 117 Motors and Controls (Fall, Spring) 2 6 4

Prerequisites: ELC 111 or ELC 112 or ELC 131

Corequisites: None

This course introduces the fundamental concepts of motors and motor controls. Topics include ladder diagrams, pilot devices, contractors, motor starters, motors, and other control devices. Upon completion, students should be able to properly select, connect, and troubleshoot motors and control circuits.

ELC 117AB Motors and Controls-AB (Fall) 1 3 2

Prerequisites: ELC 111, ELC 112, or ELC 131

Corequisites: None

The first of two parts of ELC 117.

ELC 117BB Motors and Controls-BB (Spring) 1 3 2

Prerequisites: ELC 117AB

Corequisites: None

A continuation of ELC 117A and final part of ELC 117.

ELC 126 Electrical Computations (Fall, Spring, Summer) 2 2 3

Prerequisites: None

Corequisites: None

This course introduces the fundamental applications of mathematics which are used by an electrical/electronics technician. Topics include whole numbers, fractions, decimals, powers, roots, simple electrical formulas, and usage of a scientific calculator. Upon completion, students should be able to solve simple electrical mathematical problems.

ELC 131 **Circuit Analysis I (Fall, Spring)**

3 3 4

Prerequisites: None

Corequisites: ELC 131A

This course introduces DC and AC electricity with an emphasis on circuit analysis, measurements, and operation of test equipment. Topics include DC and AC principles, circuit analysis laws and theorems, components, test equipment operation, circuit simulation software, and other related topics. Upon completion, students should be able to interpret circuit schematics; design, construct, verify, and analyze DC/AC circuits; and properly use test equipment.

ELC 131AB Circuit Analysis-AB (Fall)

1 3 2

Prerequisites: None

Corequisites: ELC 131A

The first of two parts of ELC 131.

ELC 131BB Circuit Analysis-BB (Spring)

3 0 3

Prerequisites: ELC 131AB

Corequisites: ELC 131A

A continuation of ELC 131AB and final part of ELC 131.

ELC 131A Circuit Analysis I Lab (Fall, Spring)

0 3 1

Prerequisites: None

Corequisites: ELC 131

This course provides laboratory assignments as applied to fundamental principles of DC/ AC electricity. Emphasis is placed on measurements and evaluation of electrical components, devices and circuits. Upon completion, the students will gain hands-on experience by measuring voltage, current, and opposition to current flow utilizing various meters and test equipment.

ELC 213 Instrumentation (Spring)

3 2 4

Prerequisites: ELC 112 or ELC 131

Corequisites: None

This course covers the fundamentals of instrumentation used in industry. Emphasis is placed on electric, electronic, and other instruments. Upon completion, students should be able to install, maintain, and calibrate instrumentation.

ELC 228 PLC Applications (Fall)**2 6 4**

Prerequisites: ELC 128 or ELN 260

Corequisites: None

This course covers programming and applications of programmable logic controllers. Emphasis is placed on programming techniques, networking, specialty I/O modules, and system troubleshooting. Upon completion, students should be able to specify, implement, and maintain complex PLC controlled systems.

ELC 228AB PLC Applications-AB (Fall)**1 3 2**

Prerequisites: ELC 128 or ELN 260

Corequisites: None

The first of two parts of ELC 228.

ELC 228BB PLC Applications-BB (Spring)**1 3 2**

Prerequisites: ELC 228AB

Corequisites: None

A continuation of ELC 228AB and final part of ELC 228.

ELC 231 Electric Power Systems (Fall)**3 2 4**

Prerequisites: ELC 111 or ELC 112 or ELC 131

Corequisites: None

This course covers the basic principles of electric power systems, including transmission lines, generator and transformer characteristics, and fault detection and correction. Emphasis is placed on line diagrams and per unit calculations for circuit performance analysis in regards to voltage regulation, power factor, and protection devices. Upon completion, students should be able to analyze simple distribution subsystems, calculate fault current, and determine the size and type of circuit protection devices.

ELC 233 Energy Management (Spring)**2 2 3**

Prerequisites: ELC 231

Corequisites: None

This course covers energy management principles and techniques typical of those found in industry and commercial facilities, including load control and peak demand reduction systems. Topics include load and peak demand calculations, load shedding, load balance and power factor, priority scheduling, remote sensing and control, and supplementary/alternative energy sources. Upon completion, students should be able to determine energy management parameters, calculate demand and energy use, propose energy management procedures, and implement alternative energy sources.

ELN 131	Analog Electronics I (Spring)	3	3	4
Prerequisites: ELC 112 or ELC 131				
Corequisites: None				
This course introduces the characteristics and applications of semiconductor devices and circuits. Emphasis is placed on analysis, selection, biasing, and applications. Upon completion, students should be able to construct, analyze, verify, and troubleshoot discrete component circuits using appropriate techniques and test equipment.				
ELN 131AB	Analog Electronics I - AB (Fall)	1	3	2
Prerequisites: ELC 112 or ELC 131				
Corequisites: None				
The first of two parts of ELN 131.				
ELN 131BB	Analog Electronics I - BB (Spring)	2	0	2
Prerequisites: ELN 131AB				
Corequisites: None				
A continuation of ELN 131AB and final part of ELN 131.				
ELN 132	Analog Electronics II (Fall)	3	3	4
Prerequisites: ELN 131				
Corequisites: None				
This course covers additional applications of analog electronic circuits with an emphasis on analog and mixed signal integrated circuits (IC). Topics include amplification, filtering, oscillation, voltage regulation, and other analog circuits. Upon completion, students should be able to construct, analyze, verify, and troubleshoot analog electronic circuits using appropriate techniques and test equipment.				
ELN 132AB	Linear IC Applications - AB (Fall)	1	3	2
Prerequisites: ELN 131				
Corequisites: None				
The first of two parts of ELN 132.				
ELN 132BB	Analog Electronics II - BB (Spring)	2	0	2
Prerequisites: ELN 132AB Corequisites: None				
A continuation of ELN 132AB and final part of ELN 132.				
ELN 133	Digital Electronics (Fall, Summer)	3	3	4
Prerequisites: None				
Corequisites: None				

This course covers combinational and sequential logic circuits. Topics include number systems, Boolean algebra, logic families, medium scale integration (MSI) and large scale integration (LSI), analog to digital (AD) and digital to analog (DA) conversion, and other related topics. Upon completion, students should be able to construct, analyze, verify, and troubleshoot digital circuits using appropriate techniques and test equipment.

ELN 133AB Digital Electronics - AB (Fall) **1 3 2**

Prerequisites: None

Corequisites: None

The first of two parts of ELN 133.

ELN 133BB Digital Electronics - BB (Spring) **2 0 2**

Prerequisites: ELN 133AB

Corequisites: None

A continuation of ELN 133AB and final part of ELN 133.

ELN 229 Industrial Electronics (Spring) **3 3 4**

Prerequisites: ELC 112 or ELC 131

Corequisites: None

This course covers semiconductor devices used in industrial applications. Topics include the basic theory, application, and operating characteristics of semiconductor devices.

Upon completion, students should be able to install and/or troubleshoot these devices for proper operation in an industrial electronic circuit.

ELN 229AB Industrial Electronics-AB (Fall) **1 3 2**

Prerequisites: ELC 112 or ELC 131

Corequisites: None

The first of two parts of ELN 229.

ELN 229BB Industrial Electronics-BB (Spring) **2 0 2**

Prerequisites: ELN 229AB

Corequisites: None

A continuation of ELN 229AB and final part of ELN 229.

ELN 232 Introduction to Microprocessors (Spring) **3 3 4**

Prerequisites: ELN 133

Corequisites: None

This course introduces microprocessor architecture and microcomputer systems including memory and input/output interfacing. Topics include low-level language programming, bus architecture, I/O systems, memory systems, interrupts,

and other related topics. Upon completion, students should be able to interpret, analyze, verify, and troubleshoot fundamental microprocessor circuits and programs using appropriate techniques and test equipment.

ELN 232AB Introduction to Microprocessors-AB (Fall) 1 3 2

Prerequisites: ELN 133

Corequisites: None

The first of two parts of ELN 232.

ELN 232BB Introduction to Microprocessors-BB (Spring) 2 0 2

Prerequisites: ELN 232AB

Corequisites: None

A continuation of ELN 232AB and final part of ELN 232.

ELN 235 Data Communication Systems (Fall, Spring) 3 3 4

Prerequisites: None

Corequisites: None

This course covers data communication systems and the transmission of digital information from source to destination. Topics include data transmission systems, interfaces and modems, protocols, networks, and other related topics. Upon completion, students should be able to demonstrate knowledge of the concepts associated with data communication systems.

ELN 235AB Data Communication Systems-AB (Fall) 1 3 2

Prerequisites: None

Corequisites: None

The first of two parts of ELN 235.

ELN 235BB Data Communication Systems-BB (Spring) 2 0 2

Prerequisites: ELN 235AB

Corequisites: None

A continuation of ELN 235AB and final part of ELN 235.

ELN 236 Fiber Optics and Lasers (Spring) 3 2 4

Prerequisites: None

Corequisites: None

This course introduces the fundamentals of fiber optics and lasers. Topics include the transmission of light; characteristics of fiber optics and lasers and their systems; fiber optic production; types of lasers; and laser safety. Upon completion, students should be able to understand fiber optic communications and basic laser fundamentals.

ELN 236AB Fiber Optics and Lasers-AB (Fall)	1	2	2
Prerequisites: None			
Corequisites: None			
The first of two parts of ELN 236.			
ELN 236BB Fiber Optics and Lasers-BB (Spring)	2	0	2
Prerequisites: ELN 236AB			
Corequisites: None			
A continuation of ELN 236AB and final part of ELN 236.			
ELN 237 Local Area Networks (Intermittently)	2	3	3
Prerequisites: ELN 235			
Corequisites: None			
This course introduces the fundamentals of local area networks and their operation. Topics include the characteristics of network topologies, system hardware, system configuration, installation and operation of the LAN. Upon completion, students should be able to install and maintain a local area network.			
ELN 238 Advanced LANs (Intermittently)	2	3	3
Prerequisites: ELN 237			
Corequisites: None			
This course covers advanced concepts, tools, and techniques associated with servers, workstations, and overall local area network performance. Topics include network security and configuration, system performance and optimization, communication protocols and packet formats, troubleshooting techniques, multi-platform integration, and other related topics. Upon completion, students should be able to use advanced techniques to install, manage, and troubleshoot networks and optimize server and workstation performance.			
ELN 260 Prog Logic Controllers (Spring, Summer)	3	3	4
Prerequisites: None			
Corequisites: None			
This course provides a detailed study of PLC applications, with a focus on design of industrial controls using the PLC. Topics include PLC components, memory organization, math instructions, documentation, input/output devices, and applying PLCs in industrial control systems. Upon completion, students should be able to select and program a PLC system to perform a wide variety of industrial control functions.			

ELN 275 Troubleshooting (Summer)

1 3 2

Prerequisites: ELN 131 and ELN 133

Corequisites: None

This course covers techniques of analyzing and repairing failures in electronic equipment. Topics include safety, signal tracing, use of service manuals, and specific troubleshooting methods for analog, digital, and other electronics-based circuits and systems. Upon completion, students should be able to logically diagnose and isolate faults and perform necessary repairs to meet manufacturers' specifications.

ELT 111 Intro. to Electric Line Construction (Fall, Spring)

2 0 2

Prerequisites: None

Corequisites: None

This course introduces basic principles of electricity, tools, and materials. Topics include electrical distribution systems and components and line installation and maintenance applications. Upon completion, students should be able to identify tools and explain their use in electrical distribution systems.

ELT 111A Intro. to Electric Line Construction Lab (Fall, Spring)

0 6 2

Prerequisites: None

Corequisites: ELT 111

This course provides a laboratory setting to enhance basic electric lineman skills. Emphasis is placed on integrating classroom learning with hands-on experience. Upon completion, students should be able to demonstrate employability and work-related skills required for electric line construction.

ELT 112 National Electrical Safety Code (Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course covers the use of the current National Electrical Safety Code. Topics include terms, systems, meters, overhead and underground construction and maintenance procedures. Upon completion, students should be able to apply principles of the NESC.

ELT 112AB National Electrical Safety Code-AB (Spring)

2 0 2

Prerequisites: None

Corequisites: None

The First of two parts of ELT 112.

ELT 112BB National Electrical Safety Code-BB (Spring) 0 2 1

Prerequisites: None

Corequisites: None

A continuation of ELT 112 AB and the final part of ELT 112. The courses are not required to be taken in sequential order.

ELT 114 Overhead Line Construction I (Fall, Spring) 2 0 2

Prerequisites: ELT 111

Corequisites: None

This course introduces the basics of Power Line Construction. Topics include safe work habits, protective equipment, and pole climbing techniques. Upon completion, students should be able to identify, inspect, and use equipment and demonstrate climbing techniques.

ELT 115 Overhead Line Construction II (Spring) 2 0 2

Prerequisites: ELT 114

Corequisites: None

This course introduces line maintenance, construction, and framing. Topics include safe working practices and procedures of working off a pole using hooks. Upon completion, students should be able to construct a line and perform routine maintenance to specifications.

ELT 116 Overhead Line Construction III (Spring) 2 0 2

Prerequisites: ELT 115

Corequisites: None

This course introduces the phase of energized line work. Topics include the use of aerial lifts and the application of rubber protective equipment. Upon completion, students will be able to delineate proper techniques of energized line work.

ELT 117 Overhead Line Construction IV (Spring) 2 0 2

Prerequisites: ELT 116

Corequisites: None

This course introduces regulators, reclosures, and fuse coordination. Topics include these concepts as applied to substation operation. Upon completion, students should be able to explain the operation of bypass, reclosures, and regulators in distribution substation.

ELT 117AB Overhead Line Construction IV-AB (Spring) 1 0 1

Prerequisites: ELT 116

Corequisites: None

The first of two parts of ELT 117

ELT 117BB Overhead Line Construction IV-BB (Spring) 1 0 1

Prerequisites: ELT 116

Corequisites: None

A continuation of ELT 117 AB and the final part of ELT 117 The courses are not required to be taken in sequential order.

ELT 211 Underground Line Construction I (Fall, Spring) 2 0 2

Prerequisites: None

Corequisites: None

This course introduces grounding an underground distribution system. Topics include terminators, elbows, and transformers; underground installation, safety practices. Upon completion, students should be able to relate safety practices associated with URD systems and delineate proper underground system makeup.

ELT 212 Underground Line Construction II (Spring) 2 0 2

Prerequisites: ELT 211

Corequisites: None

This course covers underground troubleshooting and associated equipment. Topics include fault locating, single and three-phase enclosures, and URD procedures. Upon completion, students should be able to install enclosures and recognize and utilize equipment used in URD troubleshooting.

ELT 221 Advanced Line Construction (Spring) 2 0 2

Prerequisites: ELT 117 and ELT 212

Corequisites: None

This course introduces advanced concepts in line construction. Topics include required OSHA training in trenching and excavations, digital paneling for regulators and reclosure, and lightning protection. Upon completion, students should be able to identify lightning, trenching, and/or excavation safety practices and explain the use of digital panels.

ELT 221AB Advanced Line Construction-AB (Spring) 1 0 1

Prerequisites: ELT 117 and ELT 212

Corequisites: None

The first of two parts of ELT 221

ELT 221BB Advanced Line Construction-BB (Spring) 1 0 1

Prerequisites: ELT 117 and ELT 212

Corequisites: None

A continuation of ELT 221 AB and the final part of ELT 221. The courses are not required to be taken in sequential order.

EMS 110 Emergency Medical Technical**6 6 3 0 9**

Prerequisite: None

Corequisite: None

This course introduces basic emergency medical care. Topics include preparatory, airway, patient assessment, medical emergencies, trauma, infants and children, and operations. Upon completion, students should be able to demonstrate the knowledge and skills necessary to achieve North Carolina State or National Registry EMT certification

EMS 122 EMS Practicum I**0 0 3 0 1**

Prerequisite: EMS 110

Corequisite: None

This course provides the introductory hospital clinical experience for the paramedic student. Emphasis is placed on mastering fundamental paramedic skills. Upon completion, students should be able to demonstrate competency with fundamental paramedic level skills.

EMS 130 Pharmacology**3 3 0 0 4**

Prerequisite: EMS 110

Corequisite: None

This course introduces the fundamental principles of pharmacology and medication administration and is required for paramedic certification. Topics include medical terminology, pharmacological concepts, weights, measures, drug calculations, vascular access for fluids and medication administration and legislation. Upon completion, students should be able to accurately calculate drug dosages, properly administer medications, and demonstrate general knowledge of pharmacology.

EMS 131 Advanced Airway Management**1 2 0 0 2**

Prerequisite: EMS 110

Corequisite: None

This course is designed to provide advanced airway management techniques and is required for paramedic certification. Topics must meet current guidelines for advanced airway management in the pre-hospital setting. Upon completion, students should be able to properly utilize all airway adjuncts and pharmacology associated with airway control and maintenance.

EMS 140 Rescue Scene Management**1 3 0 0 2**

Prerequisite: None

Corequisite: None

This course introduces rescue scene management. Topics include response to hazardous material conditions, incident command, and extrication of patients

from a variety of situations. Upon completion, students should be able to recognize and manage rescue operations based upon initial and follow-up scene assessment.

EMS 160 Cardiology I

2 3 0 0 3

Prerequisite: EMS -110

Corequisite: None

This course introduces the study of cardiovascular emergencies and is required for paramedic certification. Topics include anatomy and physiology, pathophysiology, electrophysiology, and rhythm interpretation. Upon completion, students should be able to recognize and interpret rhythms.

EMS 220 Cardiology II

2 3 0 0 3

Prerequisite: EMS-122, EMS 130, and EMS 160

Corequisite: None

This course provides an in-depth study of cardiovascular emergencies and is required for paramedic certification. Topics include assessment and treatment of cardiac emergencies, cardiac pharmacology, and patient care. Upon completion, students should be able to manage the cardiac patient.

EMS 221 EMS Clinical Practicum II

0 0 6 0 2

Prerequisite: EMS 121 or EMS 122

Corequisite: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on increasing the proficiency of students' skills and abilities in patient assessments and the delivery of care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

EMS 231 EMS Clinical Practicum III

0 0 9 0 3

Prerequisite: EMS 221

Corequisite: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on enhancing the students' skills and abilities in providing advanced-level care. Upon completion, students should be able to demonstrate continued progress in advanced-level patient care.

EMS 235 EMS Management

2 0 0 0 2

Prerequisite: None

Corequisite: None

This course stresses the principles of managing a modern emergency medical service system. Topics include structure and function of municipal governments, EMS grantsmanship, finance, regulatory agencies, system management, legal

issues, and other topics relevant to the EMS manager. Upon completion, students should be able to understand the principles of managing emergency medical service delivery systems.

EMS 240 Patients with Special Challenges 1 2 0 0 2

Prerequisite: EMS 122 and EMS 130

Corequisite: None

This course includes concepts of crisis intervention and techniques of interacting with patients with special challenges and is required for paramedic certification. Topics include appropriate intervention and interaction for neglected, abused, terminally ill, chronically ill, technology assisted, bariatric, physically challenged, mentally challenged, or assaulted patients as well as behavioral emergencies. Upon completion, students should be able to recognize and manage the care of patients with special challenges.

EMS 241 EMS Clinical Practicum IV 0 0 12 0 4

Prerequisite: EMS 231

Corequisite: None

This course provides clinical experiences in the hospital and/or field. Emphasis is placed on mastering the skills/competencies required of the paramedic providing advanced-level care. Upon completion, students should be able to provide advanced-level patient care as an entry-level paramedic.

EMS 250 Medical Emergencies 3 3 0 0 4

Prerequisite: EMS 122 and EMS 130

Corequisite: None

This course provides an in-depth study of medical conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include appropriate interventions/treatments for disorders/diseases/injuries affecting the following systems: respiratory, neurological, abdominal/gastrointestinal, endocrine, genitourinary, musculoskeletal, and immunological as well as toxicology, infectious diseases and diseases of the eyes, ears, nose and throat. Upon completion, students should be able to recognize, assess and manage the care of frequently encountered medical conditions based upon initial patient assessment.

EMS 260 Trauma Emergencies 1 3 0 0 2

Prerequisite: EMS 122 and EMS 130

Corequisite: None

This course provides in-depth study of trauma including pharmacological interventions for conditions frequently encountered in the prehospital setting and is required for paramedic certification. Topics include an overview of thoracic,

abdominal, genitourinary, orthopedic, neurological, and multi-system trauma, soft tissue trauma of the head, neck, and face as well as environmental emergencies. Upon completion, students should be able to recognize and manage trauma situations based upon patient assessment and should adhere to standards of care.

EMS 270 Lifespan Emergencies 3 3 0 0 3

Prerequisite: EMS 122 and EMS 130

Corequisite: None

This course covers medical/ethical/legal issues and the spectrum of age-specific emergencies from conception through death required for paramedic certification. Topics include gynecological, obstetrical, neonatal, pediatric, and geriatric emergencies and pharmacological therapeutics. Upon completion, students should be able to recognize and treat age-specific emergencies.

EMS 280 EMS Bridge Course 2 2 0 0 3

Prerequisite: None

Corequisite: None

This course is designed to provide currently credentialed state or national Paramedic students with the most current education trends in Paramedic Practice. Emphasis is placed on transitions in healthcare. Upon completion, students should be able to integrate emerging trends in pre-hospital care.

EMS 285 EMS Capstone 1 3 0 0 2

Prerequisite: EMS 220, EMS 250, and EMS 260

Corequisite: None

This course provides an opportunity to demonstrate problem-solving skills as a team leader in simulated patient scenarios and is required for paramedic certification. Emphasis is placed on critical thinking, integration of didactic and psychomotor skills, and effective performance in simulated emergency situations. Upon completion, students should be able to recognize and appropriately respond to a variety of EMS-related events.

ENG 001 English Skills Support (Spring) 2 0 1

Prerequisites: None

Corequisites: None

This course is designed to supplement the skills introduced in ENG-111 with emphasis placed on the editing and revision components of the writing process. Topics include concepts, skills, writing in a variety of genres and formats using a recursive process, and effective use of rhetorical strategies, with emphasis placed on the editing and revision components of the writing process. Upon completion,

students should be able to produce unified, coherent, well-developed essays using standard written English.

ENG 002 Transition English (Fall)

6 0 3

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational English content in specific areas and will include developing a growth mindset. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in college-level English. Upon completion, students should be able to build a stronger foundation for success in their gateway level English courses by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

ENG 011 Writing and Inquiry Support (Fall)

1 2 3

Prerequisites: None

Corequisites: None

This course is designed to support students in the development of skills necessary for success in ENG 111 by complementing, supporting, and reinforcing ENG 111 Student Learning Outcomes. Emphasis is placed on developing a growth mindset, expanding skills for use in active reading and writing processes, recognizing organizational relationships within texts from a variety of genres and formats, and employing appropriate technology when reading and composing texts. Upon completion, students should be able to apply active reading strategies to college-level texts and produce unified, well-developed writing using standard written English.

ENG 101 Applied Communications I (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course is designed to enhance reading and writing skills for the workplace. Emphasis is placed on technical reading, job-related vocabulary, sentence writing, punctuation, and spelling. Upon completion, students should be able to identify main ideas with supporting details and produce mechanically correct short writings appropriate to the workplace. This is a diploma-level course.

ENG 110 Freshman Composition (Intermittently)

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course is designed to develop informative and business writing skills. Emphasis is placed on logical organization of writing, including effective introductions and conclusions, precise use of grammar, and appropriate selection and use

of sources. Upon completion, students should be able to produce clear, concise, well-organized short papers.

ENG 111 Writing and Inquiry (Fall, Spring, Summer) 3 0 3

Prerequisites: BSP-4002, or ENG 090 and RED 090, or ENG 095, or ENG 002 or DRE 098

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course. This course has been approved for transfer under the CAA as a general education course in English Composition. This course has been approved for transfer under the ICAA as a general education course in English Composition.

ENG 111-HN Writing and Inquiry- Honors (Intermittently) 3 0 3

Prerequisites: Minimum Course Readiness Reading Assessment score of 96 or SAT score of 550 on critical reading portion or ACT score of 23 on the reading portion. Corequisites: ACA 115 or ACA 122

This course is designed to develop the ability to produce clear writing in a variety of genres and formats using a recursive process. Emphasis includes inquiry, analysis, effective use of rhetorical strategies, thesis development, audience awareness, and revision. Upon completion, students should be able to produce unified, coherent, well-developed essays using standard written English. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 112 Writing/Research in the Disciplines 3 0 3

Prerequisites: ENG 111

Corequisites: None

This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 112-HN Writing/Research in the Disciplines Honors (Intermittently)

Prerequisites: ENG 111HN or permission of the Instructor

Corequisites: None

This course, the second in a series of two, introduces research techniques, documentation styles, and writing strategies. Emphasis is placed on analyzing information and ideas and incorporating research findings into documented writing and research projects. Upon completion, students should be able to evaluate and synthesize information from primary and secondary sources using documentation appropriate to various disciplines. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 114 Professional Research and Reporting (Fall, Spring, Summer)**3 0 3**

Prerequisites: ENG 111 Corequisites: None

This course, the second in a series of two, is designed to teach professional communication skills. Emphasis is placed on research, listening, critical reading and thinking, analysis, interpretation, and design used in oral and written presentations. Upon completion, students should be able to work individually and collaboratively to produce well-designed business and professional written and oral presentations. This course has been approved for transfer under the CAA and ICAA as a general education course in English Composition. This is a Universal General Education Transfer Component (UGETC) course.

ENG 125 Creative Writing I (Intermittently)**3 0 3**

Prerequisites: ENG 111

Corequisites: None

This course is designed to provide students with the opportunity to practice the art of creative writing. Emphasis is placed on writing, fiction, poetry, and sketches. Upon completion, students should be able to craft and critique their own writing and critique the writing of others. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) or ICAA as a premajor and/or elective course requirement.

ENG 126 Creative Writing II (Intermittently)**3 0 3**

Prerequisites: ENG 125

Corequisites: None

This course is designed as a workshop approach for advancing imaginative and literary skills. Emphasis is placed on the discussion of style, techniques, and challenges for first publications. Upon completion, students should be able to submit a piece of their writing for publication. This course has been approved for transfer

under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

ENG 231 American Literature I (Fall, Spring)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course covers selected works in American literature from its beginnings to 1865. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 232 American Literature II (Fall, Spring)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course covers selected works in American literature from 1865 to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to analyze and interpret literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 233 Major American Writers (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course provides an intensive study of the works of several major American authors. Emphasis is placed on American history, culture, and their literary merits. Upon completion, students should be able to interpret, analyze, and evaluate the works studied. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

ENG 241 British Literature I (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course covers selected works in British literature from its beginnings to the Romantic Period. Emphasis is placed on historical background, cultural context,

and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 242 British Literature II (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course covers selected works in British literature from the Romantic Period to the present. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to literary works in their historical and cultural contexts. This course has been approved for transfer under Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

ENG 253 The Bible as Literature (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114 Corequisites: None

This course introduces the Hebrew Old Testament and the Christian New Testament as works of literary art. Emphasis is placed on the Bible's literary aspects including history, composition, structure, and cultural contexts. Upon completion, students should be able to identify and analyze selected books and passages using appropriate literary conventions. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

ENG 261 World Literature I (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from their literary beginnings through the seventeenth century. Emphasis is placed on historical background, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

ENG 262 World Literature II (Intermittently)

3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course introduces selected works from the Pacific, Asia, Africa, Europe, and the Americas from the eighteenth century to the present. Emphasis is placed on historical back- ground, cultural context, and literary analysis of selected prose, poetry, and drama. Upon completion, students should be able to interpret, analyze, and respond to selected works. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

ENG 273 African-American Literature (Intermittently) 3 0 3

Prerequisites: ENG 112 or ENG 113 or ENG 114

Corequisites: None

This course provides a survey of the development of African-American literature from its beginning to the present. Emphasis is placed on historical and cultural context, themes, literary traditions, and the backgrounds of the authors. Upon completion, students should be able to interpret, analyze, and respond to selected texts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

EPT 120 Sociology of Disaster (Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course is designed to overview sociological disaster research, disaster systems, and alternative research approaches. Topics include human and organizational behaviors, long- term disaster impact on communities, disasters warning, and evacuation considerations. Upon completion, students should be able to assess and predict the impact of disaster- related human behavior.

EPT 130 Mitigation and Preparedness (Fall) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces the mitigation and preparation techniques and methods necessary to minimize the impact of natural, technological, and man-made disasters. Topics include hazard identification and mapping, design and construction applications, financial incentives, insurance, structural controls, preparation, planning, assessment, implementation, and exercises. Upon completion students should be able to develop a mitigation and preparedness plan.

EPT 140 Emergency Management (Fall) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles of government agencies at all levels. Upon completion, student should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

EPT 150 Incident Management (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the National Incident Management System (NIMS). Topics include integrating command and control systems, maintaining communication within command and control systems, and using NIMS procedures. Upon completion, students should be able to demonstrate knowledge of key concepts necessary for operating within the National Incident Management System.

EPT 210 Response and Recovery (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the basic concepts, operational procedures, and authorities involved in response and recovery efforts to major disasters. Topics include federal, state, and local roles and responsibilities in major disaster response and recovery work, with an emphasis on governmental coordination. Upon completion, students should be able to implement a disaster response plan and assess the needs of those involved in a major disaster.

EPT 220 Terrorism and Emergency Management (Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course covers preparing for, responding to, and safely mitigating terrorism incidents. Topics include the history of terrorism, scene hazards, evidence preservation, risk assessment, roles and responsibilities, explosive recognition, and terrorism planning. Upon completion, students should be able to recognize the threat of terrorism and operate within the emergency management framework at a terrorism incident.

EPT 275 Emergency Operations Center Management (Fall)

3 0 3

Prerequisites: None Corequisites: None

This course provides students with the knowledge and skills to effectively manage and operate an EOC during crisis situations. Topics include properly locating and designing an EOC, staffing, training and briefing EOC personnel, and how

to operate and EOC. Upon completion, students should be able to demonstrate how to set up and operate an effective emergency operations center.

ETR 210 Introduction to Entrepreneurship (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course provides a survey of the starting and operating of an entrepreneurial venture. Topics include new venture creation, the business plan, economics of the business, determining resource needs and acquiring resources, marketing, technology, leadership skills, and business ethics. Upon completion, students should be able to demonstrate an understanding of entrepreneurship concepts and how to use the entrepreneurial mindset to succeed in their careers.

FIP 120 Introduction to Fire Protection (Summer)

3 0 3

Prerequisites: None

Corequisites: None

This course provides an overview of the history, development, methods, systems, and regulations as they apply to the fire protection field. Topics include history, evolution, statistics, suppression, organizations, careers, curriculum, and other related topics. Upon completion, students should be able to demonstrate a broad understanding of the fire protection field.

FIP 124 Fire Protection & Public Ed. (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces fire prevention concepts as they relate to community and industrial operations referenced in the NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

FIP 128 Detection & Investigation

3 0 3

Prerequisites: None

Corequisites: None

This course covers procedures for determining the origin and cause of accidental and incendiary fires referenced in NFPA standard 921. Topics include collection and preservation of evidence, detection and determination of accelerants, courtroom procedure and testimony, and documentation of the fire scene. Upon completion, students should be able to conduct a competent fire investigation and present those findings to appropriate officials or equivalent.

FIP 132 Building Construction (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces fire prevention concepts as they relate to community and industrial operations referenced in NFPA standard 101. Topics include the development and maintenance of fire prevention programs, educational programs, and inspection programs. Upon completion, students should be able to research, develop, and present a fire safety program to a citizens or industrial group.

FIP 136 Inspection and Codes (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the fundamentals of fire and building codes and procedures to conduct an inspection. Topics include review of fire and building codes, writing inspection reports, identifying hazards, plan reviews, site sketches, and other related topics. Upon completion, students should be able to conduct a fire code compliance inspection and produce a written report.

FIP 152 Fire Protection Law (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course covers fire protection law. Topics include torts, legal terms, contracts, liability, review of case histories, and other related topics. Upon completion, students should be able to discuss laws, codes, and ordinances as they relate to fire protection.

FIP 176 **HazMat: Operations (Intermittently)**

4 0 4

Prerequisites: None

Corequisites: None

This course is designed to increase first responder awareness of the type, nature, physiological effects of, and defensive techniques for mitigation of HazMat incidents. Topics include recognition, identification, regulations and standards, zoning, resource usage, defensive operations, and other related topics. Upon completion, students should be able to recognize and identify the presence of hazardous materials and use proper defensive techniques for incident mitigation.

FIP 220 **Fire Fighting Strategies (Intermittently)**

3 0 3

Prerequisites: None

Corequisites: None

This course provides preparation for command of initial incident operations involving emergencies within both the public and private sector. Topics include incident management, fire-ground tactics and strategies, incident safety, and

command/control of emergency operations. Upon completion, students should be able to describe the initial incident system related to operations involving various emergencies in fire/non-fire situations, meeting NFPA 1021.

FIP 220 AB Fire Fighting Strategies – AB (Spring) 2 0 2

Prerequisites: None

Corequisites: None

The first of two parts of FIP 220.

FIP 220 BB Fire Fighting Strategies – BB (Fall) 1 0 1

Prerequisites: FIP 220AB

Corequisites: None

A continuation of FIP 220 AB and final part of FIP 220.

FIP 228 Local Government Finance (Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces local governmental financial principles and practices. Topics include budget preparation and justification, revenue policies, statutory requirements, taxation, audits, and the economic climate. Upon completion, students should be able to comprehend the importance of finance as it applies to the operation of a department.

FIP 236 Emergency Management (Fall) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the four phases of emergency management: mitigation, preparedness, response, and recovery. Topics include organizing for emergency management, coordinating for community resources, public sector liability, and the roles for government agencies at all levels. Upon completion, students should be able to demonstrate an understanding of comprehensive emergency management and the integrated emergency management system.

FIP 240 Fire Service Supervision (Summer) 3 0 3

Prerequisites: None

Corequisites: None

This course covers supervisory skills and practices in the fire protection field. Topics include the supervisor's job, supervision skills, the changing work environment, managing change, organizing for results, discipline and grievances, and safety. Upon completion, students should be able to demonstrate an understanding of the roles and responsibilities of the fire service supervisor, meeting elements of NFPA 1021.

FIP 248 Fire Services Personnel Admin**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the basics of setting up and administering the personnel functions of fire protection organizations referenced in NFPA standard 1021. Emphasis is placed on human resource planning, classification and job analysis, equal opportunity employment, affirmative action, recruitment, retention, development, performance evaluation, and assessment centers. Upon completion, students should be able to demonstrate knowledge of the personnel function as it relates to managing fire protection.

FIP 260 Fire Protection Planning**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the need for a comprehensive approach to fire protection planning referenced in NFPA standards 424 and 1620. Topics include the planning process, using an advisory committee, establishing goals and objectives, and techniques used to approve and implement a plan. Upon completion, students should be able to demonstrate a working knowledge of the concepts and principles of planning as it relates to fire protection.

FIP 276 Managing Fire Services (Summer)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers an overview of fire department operative services. Topics include finance, staffing, equipment, code enforcement, management information, specialized services, legal issues, planning, and other related topics. Upon completion, students should be able to understand concepts and apply fire department management and operations principles. A continuation of FIP 276AB and final part of FIP 276.

FVP 240 Intro to Screenwriting (Spring)**3 0 3**

Prerequisites: ENG 111

Corequisites: None

This course introduces the principles and practices of the screenwriting craft. Emphasis is placed on analysis of screenwriting and script components and the preparation and development of motion picture and television treatments and scripts. Upon completion, students should be able to critically analyze the components of both motion picture and television treatments and scripts, and prepare effective, camera-ready motion picture and television scripts.

GEL 111 Geology (Fall, Spring, Summer)

3 2 4

Prerequisites: None

Corequisites: None

This course introduces basic landforms and geological processes. Topics include rocks, minerals, volcanoes, fluvial process, geological history, plate tectonics, glaciers, coastal dynamics. Upon completion, students should be able to describe basic geological processes that shape the Earth. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a General Education Transfer Component (UGETC) course.

GEO 111 World Regional Geography (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the regional concept that emphasizes the spatial association of people and their environment. Emphasis is placed on the physical, cultural, and economic systems that interact to produce the distinct regions of the earth. Upon completion, students should be able to describe variations in physical and cultural features of a region and demonstrate an understanding of their functional relationships. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

GRD 110 Typography I (Fall)

2 2 3

Prerequisites: None

Corequisites: None

This course introduces the history and mechanics of type and its application to layout and design. Topics include typographic fundamentals, anatomy, measurements, composition, identification, and terminology. Upon completion, students should be able to demonstrate proficiency in design application, analysis, specification, and creation of typographic elements.

GRD 121 Drawing Fundamentals I (Fall)

1 3 2

Prerequisites: None

Corequisites: None

This course increases observation skills using basic drawing techniques and media in graphic design. Emphasis is placed on developing the use of graphic design principles, media applications, spatial considerations, drawing styles, and approaches. Upon completion, students should be able to show competence and proficiency in finished works.

GRD 131 Illustration I (Spring)**1 3 2**

Prerequisites: ART 131 or DES 125 or GRD 121

Corequisites: None

This course introduces the application of rendering techniques to create illustrations. Emphasis is placed on controlling various media, methods, surfaces, design problems, and the appropriate media selection process. Upon completion, students should be able to produce quality illustrations from conception through finished artwork.

GRD 141 Graphic Design I (Fall)**2 4 4**

Prerequisites: None

Corequisites: None

This course introduces the conceptualization process used in visual problem solving. Emphasis is placed on learning the principles of design and on the manipulation and organization of elements. Upon completion, students should be able to apply design principles and visual elements to projects.

GRD 142 Graphic Design II (Spring)**2 4 4**

Prerequisites: DES 135 or GRD 141 or ART 121

Corequisites: None

This course covers the application of visual elements and design principles in advertising and graphic design. Topics include creation of various designs, such as logos, advertisements, posters, outdoor advertising, and publication design. Upon completion, students should be able to effectively apply design principles and visual elements to projects.

GRD 151 Computer Design Basics (Fall)**1 4 3**

Prerequisites: None

Corequisites: None

This course covers designing and drawing with various types of software applications for advertising and graphic design. Emphasis is placed on creative and imaginative use of space, shapes, value, texture, color, and typography to provide effective solutions to advertising and graphic design problems. Upon completion, students should be able to use the computer as a creative tool.

GRD 152 Computer Design Tech I (Spring)**1 4 3**

Prerequisites: GRD 151

Corequisites: None

This course covers complex design problems utilizing various design and drawing software applications. Topics include the expressive use of typography, image, and organization to communicate a message. Upon completion, students should be able to use appropriate computer software to professionally present.

GRD 160 Photo Fundamentals I (Fall)

1 4 3

Prerequisites: None

Corequisites: None

This course introduces basic camera operations, roll film processing, and photographic print production. Topics include contrast, depth-of-field, subject composition, enlarger operation, and density control. Upon completion, students should be able to produce photographic prints with acceptable density values and quality.

GRD 241 Graphic Design III (Fall)

2 4 4

Prerequisites: DES 136 or GRD 142

Corequisites: None

This course is an advanced exploration of various techniques and media for advertising and graphic design. Emphasis is placed on advanced concepts and solutions to complex and challenging graphic design problems. Upon completion, students should be able to demonstrate competence and professionalism in visual problem solving.

GRD 242 Graphic Design IV (Spring)

2 4 4

Prerequisites: GRD 241

Corequisites: None

This course is a continuation of GRD 241. Emphasis is placed on using advanced media techniques, concepts, strategies, and professionalism in all aspects of design. Upon completion, students should be able to conceptualize, create, and produce designs for reproduction.

GRD 265 Digital Print Production (Spring)

1 4 3

Prerequisites: GRD 151 or GRA 151

Corequisites: None

This course covers preparation of digital files for output and reproduction. Emphasis is placed on output options, separations, color proofing, and cost and design considerations. Upon completion, students should be able to prepare files and select appropriate output methods for design solutions.

GRD 280 Portfolio Design (Spring)

2 4 4

Prerequisites: GRD 142 and GRD 152 or GRA 152

Corequisites: None

This course covers the organization and presentation of a design/advertising or graphic art portfolio and appropriate related materials. Emphasis is placed on development and evaluation of the portfolio, design and production of a resume and self-promotional materials, and interview techniques. Upon completion,

students should be able to prepare and professionally present an effective portfolio and related self-promotional materials.

GRD 281 Design of Advertising (Fall)

1 3 2

Prerequisites: GRD 151

Corequisites: None

This course explores the origins, roles, scope, forms, and development of advertising. Emphasis is placed on advertising development from idea through production and the interrelationship of marketing to types of advertising, media, and organizational structure. Upon completion, students should be able to demonstrate an understanding of the complexities and relationships involved in advertising design.

GRD 285 Client/Media Relations (Spring)

1 2 2

Prerequisites: GRD 142 and GRA 121 or GRA 152 or GRD 152

Corequisites: None

This course introduces media pricing, scheduling, and business ethics. Emphasis is placed on communication with clients and determination of clients' advertising needs. Upon completion, students should be able to use professional communication skills to effectively orchestrate client/media relationships.

GRO 120 Gerontology

3 0 0 3

Prerequisites: DRE 097

Corequisites: None

This course covers the psychological, social, and physical aspects of aging. Emphasis is placed on the factors that promote mental and physical well-being. Upon completion, students should be able to recognize the aging process and its psychological, social, and physical aspects.

GRO 220 Psy/Soc. Aspects of Aging (Spring)

3 0 0 3

Prerequisites: PSY 150

Corequisites: None

This course covers the individual and social aspects of the aging process. Topics include psychological and social factors of aging; roles of older adults within families, work, and community; and adjustments to aging and retirement.

GRO 230 Health Wellness & Nutrition (Spring)

3 2 0 4

Prerequisites: DRE 097, MAT 143, ENG 111

Corequisites: None

This course covers the basic concepts of health, wellness, and nutrition related to aging. Emphasis is placed on nutrition and diet, physical activity and exercise,

and maintenance of well-being. Upon completion, students should be able to identify health, wellness, and nutrition concepts related to aging.

HBI 110 Issues and Trends in HBI (Spring) 3 0 0 3

Prerequisites: None

Corequisites: None

This course is a survey of current and emerging technology applications and data standards in the healthcare industry. Topics include history, implementation, use, management, and impact of information technology in healthcare settings. Upon completion, students should have an understanding of the current trends and issues in healthcare informatics.

HBI 113 Survey of Med Insurance (Fall, Spring) 3 0 0 3

Prerequisites: None

Corequisites: None

This course is a survey of the healthcare insurance systems. Emphasis is placed on the foundation necessary for understanding the healthcare delivery system, terminology and practices of healthcare insurance, and provider reimbursement. Upon completion, students should have an understanding of healthcare insurance and how outcomes are addressed through healthcare informatics.

HBI 250 Data Management & Utilization (Fall) 2 2 0 3

Prerequisites: DBA 110

Corequisites: None

This course covers the management and usage of data in healthcare settings according to current practices in healthcare informatics. Topics include data warehousing, data integrity, data security, data mining, and report generating in healthcare settings. Upon completion, students should be able to demonstrate and understanding of using healthcare data to support reporting and decision making in healthcare settings.

HEA 110 Personal Health/Wellness (Fall, Spring, Summer) 3 0 3

Prerequisites: None

Corequisites: None

This course provides an introduction to basic personal health and wellness. Emphasis is placed on current health issues such as nutrition, mental health, and fitness. Upon completion, students should be able to demonstrate an understanding of the factors necessary to the maintenance of health and wellness. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

HEA 112 First Aid and CPR (Fall, Spring)**1 2 2**

Prerequisites: None

Corequisites: None

This course introduces the basics of emergency first aid treatment. Topics include rescue breathing, CPR, first aid for choking and bleeding, and other first aid procedures. Upon completion, students should be able to demonstrate skills in providing emergency care for the sick and injured until medical help can be obtained. This course has been approved to satisfy the Comprehensive Articulation Agreement for transferability as a premajor and/or elective course requirement.

HIS 111 World Civilizations I (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces world history from the dawn of civilization to the early modern era. Topics include Eurasian, African, American, and Greco-Roman civilizations and Christian, Islamic and Byzantine cultures. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in pre-modern world civilizations. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 112 World Civilizations II (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces world history from the early modern era to the present. Topics include the cultures of Africa, Europe, India, China, Japan, and the Americas. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in modern world civilizations. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 116 Current World Problems (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers current world events from an historical perspective. Topics include regional problems as well as international concerns. Upon completion, students should be able to analyze significant current world problems from an historical perspective. This course has been approved for transfer under the

Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

HIS 131 American History I (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course is a survey of American history from pre-history through the Civil War era. Topics include the migrations to the Americas, the colonial and revolutionary periods, the development of the Republic, and the Civil War. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in early American history. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 132 American History II (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course is a survey of American history from the Civil War era to the present. Topics include industrialization, immigration, the Great Depression, the major American wars, the Cold War, and social conflict. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in American history since the Civil War. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

HIS 145 The Second World War (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course covers the period of the Second World War from 1919 to 1945. Topics include the Treaty of Versailles, the rise of totalitarian regimes, the origins of the war, the major military campaigns in Europe and the Pacific, and the aftermath. Upon completion, students should be able to analyze significant political, military, socioeconomic, and cultural developments that influenced the Second World War. This course has been approved for transfer under The Comprehensive Articulation Agreement (CAA) and the ICAA as a pre-major and/or elective course requirement.

HIS 226 The Civil War (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course examines the social, political, economic, and ideological forces that led to the Civil War and Reconstruction. Topics include regional conflicts and sectionalism, dissolution of the Union, military campaigns, and the War's socioeconomic impact, aftermath, and consequences. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in the United States during the era of the Civil War. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

HIS 228 History of the South (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the origin and development of the South as a distinct region of the United States. Emphasis is placed on Southern identity and its basis in cultural, social, economic, and political developments during the 19th and 20th centuries. Upon completion, students should be able to identify and analyze the major cultural, social, economic, and political developments in the South. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

HIS 236 North Carolina History (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course is a study of geographical, political, economic, and social conditions existing in North Carolina from America's discovery to the present. Topics include native and immigrant backgrounds; colonial, antebellum, and Reconstruction periods; party politics; race relations; and the transition from an agrarian to an industrial economy. Upon completion, students should be able to analyze significant political, socioeconomic, and cultural developments in North Carolina. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

HIS 261 East Asian History (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course surveys the history of China and Japan from the development of civilization in Asia to the present. Emphasis is placed on the evaluation of social, political, economic, and governmental structures in China and Japan. Upon completion, students should be able to analyze significant political, socioeconomic, and

cultural developments in East Asia. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

HMT 110 Intro to Healthcare Management (Fall) 3 0 0 3

Prerequisites: None

Corequisites: None

This course introduces the functions, practices, organizational structures, and professional issues in healthcare management. Emphasis is placed on planning, controlling, directing, and communications within health and human services organizations. Upon completion, students should be able to apply the concepts of management within a healthcare service environment.

HRM 110 Introduction to Hospitality and Tourism (Fall) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the growth and progress of the hospitality industry. Topics include tourism, lodging, resorts, gaming, restaurants, foodservice, and clubs. Upon completion, students should be able to demonstrate an understanding of the background, context, and career opportunities that exist within the hospitality industry.

HRM 120 Front Office Procedures (Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces a systematic approach to lodging front office procedures. Topics include reservations, registration, guest satisfaction, occupancy and revenue management, security, interdepartmental communications, and related guest services. Upon completion, students should be able to demonstrate a basic understanding of current front office operating systems, including efficient and courteous guest services.

HRM 130 Bed and Breakfast Management (Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course provides an overview of the management of bed and breakfast facilities. Emphasis is placed on lifestyle commitment, property needs, computer operations, business and marketing plans, customer service and facility management. Upon completion, students should be able to describe and apply the principles of management unique to the bed and breakfast industry.

HRM 140 Legal Issues-Hospitality (Fall)**3 0 3**

Prerequisites: None

Corequisites: None

This course covers the rights and responsibilities that the law grants to or imposes upon the hospitality industry. Topics include federal and state regulations, historical and current practices, safety and security, risk management, loss prevention, relevant torts, and contracts. Upon completion, students should be able to demonstrate an understanding of the legal system and the concepts necessary to prevent or minimize organizational liability.

HRM 210 Meetings and Event Planning (Fall)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces concepts related to the planning and operation of conventions, trade shows, professional meetings, and foodservice events. Emphasis is placed on methods of marketing, selling, organizing, and producing conventions, events, and trade shows that will increase financial and environmental value. Upon completion, students should be able to demonstrate an understanding of management principles for multi-function, multi-day conferences and events.

HRM 220 Cost Control - Food and Beverage (Spring)**3 0 3**

Prerequisites: DMA 010, DMA 020, DMA 030, 040

Corequisites: None

This course introduces controls and accounting procedures as applied to costs in the hospitality industry. Topics include reports, cost control, planning and forecasting, control systems, financial statements, operational efficiencies, labor controls, and scheduling. Upon completion, students should be able to demonstrate an understanding of food, beverage, and labor cost control systems for operating troubleshooting and problem solving.

HRM 225 Beverage Management (Fall)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces the management of beverages served in hospitality operations. Topics include history and trends; service, procurement, and storage; knowledge and control of wines and fermented/distilled beverages; and non-alcoholic beverages, coffees, and teas. Upon completion, students should be able to demonstrate an understanding of responsible alcohol service and the knowledge of beverages consumed in a hospitality operation.

HRM 240 Marketing for Hospitality (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course covers planning, organizing, directing, and analyzing the results of marketing programs for the hospitality industry. Emphasis is placed on target marketing, marketing mix, analysis, product and image development, use of current media, sales planning, advertising, public relations, and collateral materials. Upon completion, students should be able to apply the marketing process as it relates to the hospitality industry.

HRM 245 Human Resource Management - Hospitality (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces a systematic approach to human resource management in the hospitality industry. Topics include training/development, staffing, selection, hiring, recruitment, evaluation, benefit administration, employee relations, labor regulations/laws, discipline, motivation, productivity, shift management, contract employees, and organizational culture. Upon completion, students should be able to apply human resource management skills for the hospitality industry.

HRM 280 Management Problems - Hospitality (Spring)

3 0 3

Prerequisites: HRM 110

Corequisites: None

This course is designed to introduce students to timely issues within the hospitality industry and is intended to move students into a managerial mindset. Emphasis is placed on problem-solving skills using currently available resources. Upon completion, students should be able to demonstrate knowledge of how hospitality management principles may be applied to real challenges facing industry managers.

HSE 110 Intro to Human Services (Fall, Spring)

2 2 0 3

Prerequisites: None

Corequisites: None

This course introduces the human services field, including the history, agencies, roles, and careers. Topics include personal/professional characteristics, diverse populations, community resources, and disciplines in the field, systems, ethical standards, and major theoretical and treatment approaches. Upon completion, students should be able to identify the knowledge, skills, and roles of the human services worker.

HSE 112 Group Process I (Fall, Spring)**1 2 0 2**

Prerequisites: None

Corequisites: None

This course introduces interpersonal concepts and group dynamics. Emphasis is placed on self-awareness facilitated by experiential learning in small groups with analysis of personal experiences and the behavior of others. Upon completion, students should be able to show competence in identifying and explaining how people are influenced by their interactions in group settings.

HSE 123 Interviewing Techniques (Fall, Spring)**2 2 0 3**

Prerequisites: None

Corequisites: None

This course covers the purpose, structure, focus, and techniques employed in effective interviewing. Emphasis is placed on observing, attending, listening, responding, recording, and summarizing of personal histories with instructor supervision. Upon completion, students should be able to perform the basic interviewing skills needed to function in the helping relationship.

HSE 125 Counseling (Fall, Spring)**2 2 0 3**

Prerequisites: PSY 150

Corequisites: None

This course covers the major approaches to psychotherapy and counseling, including theory, characteristics, and techniques. Emphasis is placed on facilitation of self-exploration, problem solving, decision making, and personal growth. Upon completion, students should be able to understand various theories of counseling and demonstrate counseling techniques.

HSE 210 Human Service Issues (Fall, Spring)**2 0 0 2**

Prerequisites: None

Corequisites: None

This course covers current issues and trends in the field of human services. Emphasis is placed on contemporary topics with relevance to special issues in a multi-faceted field. Upon completion, students should be able to integrate the knowledge, skills, and experiences gained in classroom and clinical experiences with emerging trends in the field.

HSE 220 Case Management (Fall, Spring)**2 2 0 3**

Prerequisites: HSE 110

Corequisites: None

This course covers the variety of tasks associated with professional case management. Topics include treatment planning, needs assessment, referral procedures, and follow-up and integration of services. Upon completion, students should

be able to effectively manage the care of the whole person from initial contact through termination of services.

HSE 225 Crisis Intervention (Fall, Spring)

3 0 3

Prerequisites: HSE 110, MAT 143, ENG 111

Corequisites: None

This course introduces the basic theories and principles of crisis intervention. Emphasis is placed on identifying and demonstrating appropriate and differential techniques for intervening in various crisis situations. Upon completion, students should be able to assess crisis situations and respond appropriately.

HUM 110 Technology and Society (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course considers technological change from historical, artistic, and philosophical perspectives and its effect on human needs and concerns. Emphasis is placed on the causes and consequences of technological change. Upon completion, students should be able to critically evaluate the implications of technology. This course has been approved to satisfy the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

HUM 115 Critical Thinking (Fall, Spring)

3 0 3

Take one set: Set 1: DRE 098; Set 2: ENG 002; Set 3: BSP 4002; Set 4: ENG 111

Corequisites: None

This course introduces the use of critical thinking skills in the context of human conflict. Emphasis is placed on evaluating information, problem solving, approaching cross-cultural perspectives, and resolving controversies and dilemmas. Upon completion, students should be able to demonstrate orally and in writing the use of critical thinking skills in the analysis of appropriate texts. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in the Humanities/Fine Arts.

HUM 120 Cultural Studies (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the distinctive features of a particular culture. Topics include art, history, music, literature, politics, philosophy, and religion. Upon completion, students should be able to appreciate the unique character of the study culture. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

HUM 130	Myth in Human Culture (Intermittently)	3	0	3
---------	--	---	---	---

Prerequisites: None

Corequisites: None

This course provides an in-depth study of myths and legends. Topics include the varied sources of myths and their influence on the individual and society within diverse cultural contexts. Upon completion, students should be able to demonstrate a general familiarity with myths and a broad-based understanding of the influence of myths and legends on modern culture. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

HUM 160	Introduction to Film (Intermittently)	2	2	3
----------------	--	----------	----------	----------

Prerequisites: None

Corequisites: None

This course introduces the fundamental elements of film artistry and production. Topics include film styles, history, and production techniques, as well as the social values reflected in film art. Upon completion, students should be able to critically analyze the elements covered in relation to selected films. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

HUM 180 International Cultural Exploration (Intermittently) 2 3 3

Prerequisites: None

Corequisites: None

This course provides a framework for students to visit, examine, and analyze a country/region outside the United States to learn about the place and people. Upon completion, students should be able to identify similarities/differences, analyze causes/effects, and clearly articulate the impact of one or more cultural elements. This course has been approved for transfer under The Comprehensive Articulation Agreement (CAA) and the ICAA as a pre-major and/or elective course requirement.

HYD 110	Hydraulics/Pneumatics I (Fall)	2	3	3
----------------	---------------------------------------	----------	----------	----------

Prerequisites: DMA 010, DMA 020, and DMA 030

Corequisites: None

This course introduces the basic components and functions of hydraulic and pneumatic systems. Topics include standard symbols, pumps, control valves, control assemblies, actuators, FRL, maintenance procedures, and switching and control devices. Upon completion, students should be able to understand the operation of a fluid power system, including design, application, and troubleshooting.

HYD 110AB	Hydraulics/Pneumatics I-AB (Fall)	2	0	2
Prerequisites: DMA 010, DMA 020 and DMA 030, and DMA 040				
Corequisites: None				
The first of two parts of HYD 110.				
HYD 110BB	Hydraulics/Pneumatics I-BB (Spring)	0	3	1
Prerequisites: HYD 110AB				
Corequisites: None				
A continuation of HYD 110AB and final part of HYD 110.				
INT 110	International Business (Spring)	3	0	3
Prerequisites: DRE 097				
Corequisites: None				
This course provides an overview of the environment, concepts, and basic differences involved in international business. Topics include forms of foreign involvement, international trade theory, governmental influences on trade and strategies, international organizations, multinational corporations, personnel management, and international marketing. Upon completion, students should be able to describe the foundation of international business.				
ISC 112	Industrial Safety (Fall, Spring)	2	0	2
Prerequisites: None				
Corequisites: None				
This course introduces the principles of industrial safety. Emphasis is placed on industrial safety and OSHA and environmental regulations. Upon completion, students should be able to demonstrate knowledge of a safe working environment and OSHA compliance. This course meets the OSHA requirement for the 30 hour general industry outreach training and students are eligible to receive an OSHA-issued completion card.				
LOG 110	Introduction to Logistics (Intermittently)	3	0	3
Prerequisites: None				
Corequisites: None				
This course provides an overview of logistics. Topics include traffic management, warehousing, inventory control, material handling, global logistics, and the movement and storage of goods from raw materials sources to end consumers. Upon completion, students should be able to identify the different segments of logistics and use the terminology of the industry.				
LOG 125	Transportation Logistics (Intermittently)	3	0	3
Prerequisites: None				
Corequisites: None				

This course covers the role and importance of the transportation industry. This is an over- view of transportation emphasizing its environmental and sociological aspects, economic impact, services, regulatory guidelines, policies, and its future. Upon completion, students should be able to identify modes of transportation, interpret governing regulations, and describe the principles and terminology used in the transportation industry.

LOG 211 Distribution Management (Intermittently) 2 2 3

Prerequisites: LOG 110

Corequisites: None

This course covers the functions, techniques, and tools utilized in warehousing and distribution centers and their role in business and logistics. Emphasis is placed on warehouse and distribution center management, operations, productivity, software systems, picking, automation, cross docking, safety, security, material handling, benchmarking, and cost. Upon completion, students should be able to describe the role of warehouses and distribution centers, apply industry principles and terminology, and understand distribution productivity measures.

LOG 215 Supply Chain Management (Intermittently) 3 0 3

Prerequisites: LOG 110

Corequisites: None

This course covers all activities involved in the flow of products and information between the suppliers, customers, producers, and service providers. Topics include acquiring, purchasing, manufacturing, assembling, and distributing goods and services throughout the supply chain organizations. Upon completion, students should be able to identify the supply chain units and describe the materials management processes.

LOG 225 Logistics Systems (Intermittently) 3 2 4

Prerequisites: LOG 215

Corequisites: None

This course covers the design, implementation, and application of logistics software systems utilized by businesses to improve accountability, and capabilities of their logistics processes. Emphasis is placed on an in-depth understanding of logistical software applications, optimization models, automated data collection, electronic data interchange, and other logistics software tools. Upon completion, students should be able to identify the various logistics software applications and explain how they are utilized to improve business and logistics processes.

LOG 235 Import/Export Management (Intermittently) 3 0 3

Prerequisites: LOG 125

Corequisites: None

This course introduces the elements of import and export operations, from transportation to documentation, finance, and security and the effects on the global supply chain. Emphasis is placed on existing import/export regulations, customs documentation, intermodal transportation, foreign freight forwarders, global technology, and homeland security initiatives. Upon completion, students should be able to perform import/export operations, channels of distribution, implemented technologies, and associate with operating a secure supply chain.

LOG 240 Purchasing Logistics (Intermittently) 3 0 3

Prerequisites: LOG 110

Corequisites: None

This course introduces the various aspects of purchasing, and their impact on materials management, supply chain, transportation, and global logistics processes. Emphasis is placed on the different methods of electronic sourcing, negotiating and pricing principles, and on the internal and external considerations associated with international logistics. Upon completion, students should be able to describe and apply the principles and terminology used in procurement including electronic data interchange services, purchasing and logistics systems.

LOG 250 Advanced Global Logistics (Intermittently) 3 2 4

Prerequisites: LOG 125

Corequisites: None

This course covers the advanced application of global operations and logistics strategies, planning, technology, risk, and management necessary to cope with the global business environment. Emphasis is placed on an in-depth understanding of global sourcing, shipping, tracking, and e-logistics systems necessary to operate inbound/outbound logistics in a global market. Upon completion, students should be able to identify the different global markets and logistics technology available to process international inbound/outbound logistics transactions.

MAC 121 Introduction to CNC (Fall) 2 0 2

Prerequisites: None

Corequisites: None

This course introduces the concepts and capabilities of computer numerical control machine tools. Topics include set-up, operation, and basic applications. Upon completion, students should be able to explain operator safety, machine protection, data input, program preparation, and program storage.

MAC 122 CNC Turning (Fall) 1 3 2

Prerequisites: MAC 121

Corequisites: None

This course introduces the programming, setup, and operation of CNC turning centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC turning centers.

MAC 124 CNC Milling (Spring)

1 3 2

Prerequisites: MAC 121

Corequisites: None

This course introduces the manual programming, setup, and operation of CNC machining centers. Topics include programming formats, control functions, program editing, part production, and inspection. Upon completion, students should be able to manufacture simple parts using CNC machining centers.

MAC 141 Machining Applications I (Fall)

2 6 4

Prerequisites: None

Corequisites: None

This course provides an introduction to a variety of material-working processes that are common to the machining industry. Topics include safety, process specific machining equipment, measurement devices, setup and layout instruments, and common shop practices. Upon completion, students should be able to safely demonstrate basic machining operations, accurately measure components, and effectively use layout instruments.

MAC 141AB Machining Applications I-AB

1 3 2

Prerequisites: None

Corequisites: None

The first of two parts of MAC 141.

MAC 141BB Machining Applications I-BB

1 3 2

Prerequisites: MAC 141AB

Corequisites: None

A continuation of MAC 141AB and second part of MAC 141.

MAC 141A Machining Applications I Lab (Fall)

0 6 2

Prerequisites: None

Corequisites: MAC 141

This course provides an introduction to a variety of material-working processes, in a laboratory setting, that are common to the machining industry. Topics include safety, process-specific machining equipment, measurement devices, set-up and layout instruments, and common shop practices. Upon completion,

students should be able to safely demonstrate basic machining operations, accurately measure components, and effectively use layout instruments.

MAC 142	Machining Applications II (Spring)	2	6	4
----------------	---	----------	----------	----------

Prerequisites: MAC 141

Corequisites: None

This course provides instruction in the wide variety of processes associated with machining. Topics include safety, equipment set-up, holding fixtures, tooling, cutting speeds and depths, metal properties, and proper finishes. Upon completion, students should be able to safely demonstrate advanced machining operations, accurately measure components, and produce accurate components with a proper finish.

MAC 142A	Machining Applications II Lab (Spring)	0	6	2
----------	--	---	---	---

Prerequisites: MAC 141

Corequisites: MAC 142

This course provides laboratory instruction in the wide variety of processes associated with machining. Topics include safety, equipment setup, holding fixtures, tooling, cutting speeds and depths, metal properties, and proper finishes. Upon completion, students should be able to safely demonstrate advanced machining operations, accurately measure components, and produce accurate components with a proper finish.

MAC 143	Machining Applications III (Summer)	2	6	4
----------------	--	----------	----------	----------

Prerequisites: MAC 142 and MAC 142A

Corequisites: None

This course provides instruction in the field of advanced machining. Emphasis is placed on creating complex components, close-tolerance machining, precise measurement, and proper equipment usage. Upon completion, students should be able to demonstrate the ability to produce an accurately machined component with a quality finish using the proper machining process.

MAC 151	Machining Calculations (Fall)	1	2	2
---------	-------------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course introduces basic calculations as they relate to machining occupations. Emphasis is placed on basic calculations and their applications in the machine shop. Upon completion, students should be able to perform basic shop calculations.

MAC 152 Advanced Machining Calculations (Spring) 1 2 2

Prerequisites: MAC 151

Corequisites: None

This course combines mathematical functions with practical machine shop applications and problems. Emphasis is placed on gear ratios, lead screws, indexing problems, and their applications in the machine shop. Upon completion, students should be able to calculate solutions to machining problems.

MAC 171 Measure/Material & Safety (Fall) 0 2 1

Prerequisites: None

Corequisites: None

This course introduces precision measuring instruments, process control and adjustment, inspection, material handling and workplace safety. Topics include properly identifying and handling various measurement instruments and materials, process control, adjustment and improvement, personal protective equipment (PPE) and OSHA safety regulations. Upon completion, students should be able to safely demonstrate effective measurement techniques, identify and handle various materials, and explain safe industry practices

MAC 222 Advanced CNC Turning (Spring) 1 3 2

Prerequisites: MAC 122 and MEC 231

Corequisites: None

This course covers advanced methods in setup and operation of CNC turning centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC turning centers.

MAC 224 Advanced CNC Milling (Fall) 1 3 2

Prerequisites: MAC 124

Corequisites: None

This course covers advanced methods in setup and operation of CNC machining centers. Emphasis is placed on programming and production of complex parts. Upon completion, students should be able to demonstrate skills in programming, operations, and setup of CNC machining centers.

MAC 226 CNC EDM Machining (Spring) 1 3 2

Prerequisites: MAC 121 and MEC 231

Corequisites: None

This course introduces the programming, setup, and operation of CNC electrical discharge machines. Topics include programming formats, control functions, program editing, production of parts, and inspection. Upon completion, students

should be able to manufacture simple parts using CNC electrical discharge machines.

MAC 234	Advanced Multi-Axis Machining (Spring)	2	3	3
---------	--	---	---	---

Prerequisites: MAC 224 and MEC 231

Corequisites: None

This course includes multi-axis machining using machining centers with multi-axis capabilities. Emphasis is placed on generation of machining center input with a CAM system and setup and operation of pallet changer and rotary system for multi-axis machining fixtures. Upon completion, students should be able to convert CAD to output for multi-axis machining centers, including tooling, setup, and debugging processes.

MAC 241	Jigs and Fixtures I (Fall)	2	6	4
---------	----------------------------	---	---	---

Prerequisites: MAC 142

Corequisites: None

This course introduces the application and use of jigs and fixtures. Emphasis is placed on design and manufacture of simple jigs and fixtures. Upon completion, students should be able to design and build simple jigs and fixtures.

MAC 241AB Jigs and Fixtures I-AB (Fall)	1	3	2
---	---	---	---

Prerequisites: MAC 142

Corequisites: None

The first of two parts of MAC 241.

MAC 241BB	Jigs and Fixtures I-BB (Spring)	1	3	2
-----------	---------------------------------	---	---	---

Prerequisites: MAC 241AB

Corequisites: None

A continuation of MAC 241AB and final part of MAC 241.

MAC 247	Production Tooling (Spring)	2	0	2
---------	-----------------------------	---	---	---

Prerequisites: MAC 141

Corequisites: None

This course provides advanced study in tooling currently utilized in the production of metal parts. Emphasis is placed on the proper use of tooling used on CNC and other production machine tools. Upon completion, students should be able to choose proper tool grades based on manufacturing requirements and troubleshoot carbide-tooling problems.

MAC 248 Production Procedures (Spring)**1 2 2**

Prerequisites: MAC 122, MAC 124, and MEC 231

Corequisites: None

This course covers product planning and control and scheduling and routing of operations. Topics include cost-effective production methods, dimensional and statistical quality control, and the tooling and machines required for production. Upon completion, students should be able to plan, set up, and produce cost-effective quality machined parts.

MAT 003 Transition Math (Fall)**0 6 3**

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational math content in specific math areas and will include developing a growth mindset. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in their gateway level math courses by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

MAT 021 Algebra/Trigonometry I Support (Fall)**1 2 2**

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational math content specific to Algebra and Trigonometry I. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Algebra/Trigonometry I by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

MAT 043 Quantitative Literacy Support (Fall)**1 2 2**

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational math content specific to Quantitative Literacy. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Quantitative Literacy by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

MAT 052 Statistical Methods I Support (Fall)

1 2 2

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational math content specific to Statistical Methods I. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Statistical Methods I by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

MAT 071 Precalculus Algebra Support (Fall)

0 4 2

Prerequisites: None

Corequisites: None

This course provides an opportunity to customize foundational math content specific to Precalculus Algebra. Topics include developing the academic habits, learning strategies, social skills, and growth mindset necessary to be successful in mathematics. Upon completion, students should be able to build a stronger foundation for success in Precalculus Algebra by obtaining skills through a variety of instructional strategies with emphasis placed on the most essential prerequisite knowledge.

MAT 121 Algebra/Trigonometry I (Fall, Spring)

2 2 3

Prerequisites: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, and DMA 060 or DMA 025, DMA 045, DMA 060, or MAT 003 with a grade of P2

Corequisites: MAT 021

This course provides an integrated approach to technology and the skills required to manipulate, display, and interpret mathematical functions and formulas used in problem solving. Topics include the properties of plane and solid geometry, area and volume, and basic proportion applications; simplification, evaluation, and solving of algebraic equations and inequalities and radical functions; complex numbers; right triangle trigonometry; and systems of equations. Upon completion, students will be able to demonstrate the ability to use mathematics and technology for problem solving, analyzing and communicating results.

MAT 143 Quantitative Literacy (Fall, Spring, Summer)

2 2 3

Prerequisites: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050, and DRE 098, or DMA 025, DMA 045, DRE 098, or MAT 003 with a grade of P2

Corequisites: MAT 043

This course is designed to engage students in complex and realistic situations involving the mathematical phenomena of quantity, change and relationship, and uncertainty through project- and activity-based assessment. Emphasis is

placed on authentic contexts which will introduce the concepts of numeracy, proportional reasoning, dimensional analysis, rates of growth, personal finance, consumer statistics, practical probabilities, and mathematics for citizenship. Upon completion, students should be able to utilize quantitative information as consumers and to make personal, professional, and civic decisions by decoding, interpreting, using, and communicating quantitative information found in modern media and encountered in everyday life. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 152 Statistical Methods I (Fall, Spring, Summer) 3 2 4

Prerequisites: DMA 010, DMA 020, DMA 030, DMA 040, and DMA 050, and DRE 098, or DMA 025, DMA 045, DRE 098, or MAT 003 with a grade of P2

Corequisites: MAT 052

This course provides a project-based approach to introductory statistics with emphasis on using real-world data and statistical literacy. Topics include descriptive statistics, correlation and regression, basic probability, discrete and continuous probability distributions, confidence intervals and hypothesis testing. Upon completion, students should be able to use appropriate technology to describe important characteristics of a data set, draw inferences about a population from sample data, and interpret and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 171 Precalculus Algebra (Fall, Spring, Summer) 3 2 4

Prerequisites: DMA 010, DMA 020, DMA 030, DMA 040, DMA 050, DMA 060, DMA 070, and DMA 080; or MAT 121, or DMA 025, DMA 045, DMA 065, or MAT 003 with a grade of P2

Corequisites: MAT 071

This course is designed to develop topics which are fundamental to the study of Calculus. Emphasis is placed on solving equations and inequalities, solving systems of equations and inequalities, and analysis of functions (absolute value, radical, polynomial, rational, exponential, and logarithmic) in multiple representations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 172 Precalculus Trigonometry (Fall, Spring, Summer)

3 2 4

Prerequisites: MAT 171

Corequisites: None

This course is designed to develop an understanding of topics which are fundamental to the study of Calculus. Emphasis is placed on the analysis of trigonometric functions in multiple representations, right and oblique triangles, vectors, polar coordinates, conic sections, and parametric equations. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to trigonometry-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 263 Brief Calculus (Spring)

3 2 4

Prerequisites: MAT 171

Corequisites: None

This course is designed to introduce concepts of differentiation and integration and their application to solving problems. Topics include graphing, differentiation, and integration with emphasis on applications drawn from business, economics, and biological and behavioral sciences. Upon completion, students should be able to demonstrate an understanding of the use of basic calculus and technology to solve problems and to analyze and communicate results. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 271 Calculus I (Fall, Spring, Summer)

3 2 4

Prerequisites: MAT 172

Corequisites: None

This course is designed to develop the topics of differential and integral calculus. Emphasis is placed on limits, continuity, derivatives and integrals of algebraic and transcendental functions of one variable. Upon completion, students should be able to select and use appropriate models and techniques for finding solutions to derivative-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 272 Calculus II (Fall, Spring)

3 2 4

Prerequisites: MAT 271

Corequisites: None

This course is designed to develop advanced topics of differential and integral calculus. Emphasis is placed on the applications of definite integrals, techniques of integration, indeterminate forms, improper integrals, infinite series, conic sections, parametric equations, polar coordinates, and differential equations. Upon completion students should be able to select and use appropriate models and techniques for finding solutions to integral-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics. This is a Universal General Education Transfer Component (UGETC) course.

MAT 273 Calculus III (Fall, Spring, Summer)

3 2 4

Prerequisites: MAT 272

Corequisites: None

This course is designed to develop the topics of multivariate calculus. Emphasis is placed on multivariate functions, partial derivatives, multiple integration, solid analytical geometry, vector valued functions, and line and surface integrals. Upon completion, students should be able to select and use appropriate models and techniques for finding the solution to multivariate-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a general education course in Mathematics.

MAT 280 Linear Algebra (Fall)

2 2 3

Prerequisites: MAT 271

Corequisites: None

This course provides an introduction to linear algebra topics. Emphasis is placed on the development of abstract concepts and applications for vectors, systems of equations, matrices, determinants, vector spaces, multi-dimensional linear transformations, eigenvectors, eigenvalues, diagonalization and orthogonality. Upon completion, students should be able to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to linear algebra-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

MAT 285 Differential Equations (Spring)

2 2 3

Prerequisites: MAT 272

Corequisites: None

This course provides an introduction to topics involving ordinary differential equations. Emphasis is placed on the development of abstract concepts and applications for first- order and linear higher-order differential equations, systems of differential equations, numerical methods, series solutions, eigenvalues and eigenvectors, and LaPlace transforms. Upon completion, students should be able

to demonstrate understanding of the theoretical concepts and select and use appropriate models and techniques for finding solutions to differential equations-related problems with and without technology. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

MEC 231 Computer-Aided Manufacturing I (Fall) 1 4 3

Prerequisites: DFT 119

Corequisites: None

This course introduces computer-aided design/manufacturing (CAD/CAM) applications and concepts. Topics include software, programming, data transfer and verification, and equipment setup. Upon completion, students should be able to produce parts using CAD/ CAM applications.

MEC 231AB Computer-Aided Manufacturing I-AB (Fall) 1 2 2

Prerequisites: DFT 119

Corequisites: None

The first of two parts of MEC 231.

MEC 231BB Computer-Aided Manufacturing I-BB (Spring) 0 2 1

Prerequisites: MEC 231AB

Corequisites: None

A continuation of MEC 231AB and final part of MEC 231.

MEC 232 Computer-Aided Manufacturing II (Spring) 1 4 3

Prerequisites: MEC 231

Corequisites: None

This course provides an in-depth study of CAM applications and concepts. Emphasis is placed on the manufacturing of complex parts using computer-aided manufacturing software. Upon completion, students should be able to manufacture complex parts using CAM software.

MEC 232AB Computer-Aided Manufacturing II-AB (Fall) 1 2 2

Prerequisites: MEC 231

Corequisites: None

The first of two parts of MEC 232.

MEC 232BB Computer-Aided Manufacturing II-BB (Spring) 0 2 1

Prerequisites: MEC 232AB

Corequisites: None

A continuation of MEC 232AB and final part of MEC 232.

MED 110 Orientation to Medical Assist (Fall)**1 0 1**

Prerequisites: Admission to MA Program

Corequisites: MED 130, ACA 122, BIO 163, OST 141, OST 149, ENG 111

This course covers the history of medicine and the role of the medical assistant in the health care setting. Emphasis is placed on professionalism, communication, attitude, behaviors, and duties in the medical environment. Upon completion, students should be able to project a positive attitude and promote the profession of medical assisting.

MED 130 Administrative Office Procedures I (Fall)**1 2 2**

Prerequisites: Admission to MA Program

Corequisites: MED 110, ACA 122, BIO 163, OST 141, ENG 111, OST 149

This course introduces medical office administrative procedures. Topics include appointment processing, written and oral communications, medical records, patient orientation, and safety. Upon completion, students should be able to perform basic administrative skills within the medical environment.

MED 131 Administrative Office Procedures II (Spring)**1 2 2**

Prerequisites: MED 110, MED 130, ACA 122, BIO 163, ENG 111, OST 141, OST 149

Corequisites: MED 140, MED 150, OST 142, PSY 150

This course provides medical office procedures in both economic and management skills. Topics include physical plant maintenance, equipment and supplies, liability coverage, medical economics, and introductory insurance procedures. Upon completion, students should be able to manage the economics of the medical office and supervise personnel.

MED 140 Exam Room Procedures I (Spring)**3 4 5**

Prerequisites: MED 110, MED 130, ACA 122, BIO 163, ENG 111, OST 141, OST 149

Corequisites: MED 150, OST 142, MED 131, PSY 150

This course provides instruction in clinical examining room procedures. Topics include asepsis, infection control, assisting with exams and treatment, patient education, preparation and administration of medications, EKG, vital signs, and medical emergencies. Upon completion, students should be able to demonstrate competence in exam room procedures.

MED 150 Laboratory Procedures I (Spring)**3 4 5**

Prerequisites: MED 110, MED 130, ACA 122, BIO 163, OST 141, OST 149, ENG 111

Corequisites: MED 140, OST 142, MED 131, PSY 150

This course provides instruction in basic lab techniques used by the medical assistant. Topics include lab safety, quality control, collecting and processing specimens, performing selective tests, phlebotomy, screening and follow-up of test

results, and OSHA/CLIA regulations. Upon completion, students should be able to perform basic lab tests/skills based on course topics.

MED 240 Exam Room Procedures II (Fall)

3 4 5

Prerequisites: MED 260 and MED 262

Corequisites: None

This course is designed to expand and build upon skills presented in MED 140. Emphasis is placed on advanced exam room procedures. Upon completion, students should be able to demonstrate enhanced competence in selected exam room procedures.

MED 260 MED Clinical Practicum (Summer)

0 0 15 5

Prerequisites: MED 140, MED 150, OST 142, PSY 150, MED 131

Corequisites: MED 262

This course provides the opportunity to apply clinical, laboratory, and administrative skills in a medical facility. Emphasis is placed on enhancing competence in clinical and administrative skills necessary for comprehensive patient care and strengthening professional communications and interactions. Upon completion, students should be able to function as an entry-level health care professional.

MED 262 Clinical Perspectives (Summer)

1 0 1

Prerequisites: MED 140, MED 150, OST 142, PSY 150, MED 131

Corequisites: MED 260

This course is designed to explore personal and occupational responsibilities of the practicing medical assistant. Emphasis is placed on problems encountered during externships and development of problem-solving skills. Upon completion, students should be able to demonstrate courteous and diplomatic behavior when solving problems in the medical facility.

MED 270 Symptomatology (Fall)

2 2 3

Prerequisites: MED 260, MED 262

Corequisites: None

This course covers the study of disease symptoms and the appropriate actions taken by medical assistants in a medical facility in relation to these symptoms. Emphasis is placed on interviewing skills and appropriate triage, preparing patients for procedures, and screening test results. Upon completion, students should be able to recognize how certain symptoms relate to specific diseases, recognize emergency situations, and take appropriate actions.

MED 272 Drug Therapy (Spring)

3 0 3

Prerequisites: MED 260, MED 262

Corequisites: None

This course focuses on major drug groups, including their side effects, interactions, methods of administration, and proper documentation. Emphasis is placed on the theory of drug administration. Upon completion, students should be able to identify, spell, recognize side effects of, and document the most commonly used medications in a physician's office.

MED 274 Diet Therapy / Nutrition

3 0 3

Prerequisites: MED 260, MED 262

Corequisites: None

This course introduces the basic principles of nutrition as they relate to health and disease. Topics include basic nutrients, physiology, dietary deficiencies, weight management, and therapeutic nutrition in wellness and disease. Upon completion, students should be able to interpret clinical and dietary data and provide patient counseling and education.

MKT 120 Principles of Marketing (Fall)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces principles and problems of marketing goods and services. Topics include promotion, placement, and pricing strategies for products. Upon completion, students should be able to apply marketing principles in organizational decision making.

MKT 123 Fundamentals of Selling (Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course is designed to emphasize the necessity of selling skills in a modern business environment. Emphasis is placed on sales techniques involved in various types of selling situations. Upon completion, students should be able to demonstrate an understanding of the techniques covered.

MNT 110 Introduction to Maintenance Procedures (Spring)

1 3 2

Prerequisites: None

Corequisites: None

This course covers basic maintenance fundamentals for power transmission equipment. Topics include equipment inspection, lubrication, alignment, and other scheduled maintenance procedures. Upon completion, students should be able to demonstrate knowledge of accepted maintenance procedures and practices according to current industry standards.

MUS 110 **Music Appreciation (Fall, Spring)**

3 0 3

Prerequisites: None

Corequisites: None

This course is a basic survey of the music of the Western world. Emphasis is placed on the elements of music, terminology, composers, form, and style within a historical perspective. Upon completion, students should be able to demonstrate skills in basic listening and understanding of the art of music. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

MUS 112 Introduction to Jazz (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the origins and musical components of jazz and the contributions of its major artists. Emphasis is placed on the development of discriminating listening habits, as well as the investigation of the styles and structural forms of the jazz idiom. Upon completion, students should be able to demonstrate skills in listening and understanding this form of American music. This is a Universal General Education Transfer Component (UGETC) course.

NET 125 Introduction to Networks (Fall)

1 4 3

Prerequisites: None

Corequisites: None

This course introduces the networking field. Emphasis is placed on network terminology and protocols, local area networks, wide area networks, OSI model, cabling, router programming, Ethernet, IP addressing, and network standards. Upon completion, students should be able to perform tasks related to networking mathematics, terminology, and models, media, Ethernet, subnetting, and TCP/IP Protocols.

NET 126 Routing Basics (Spring)

1 4 3

Prerequisites: NET 125

Corequisites: None

This course focuses on initial router configuration, router software management, routing protocol configuration, TCP/IP, and access control lists (ACLs). Emphasis will be placed on the fundamentals of router configuration, managing router software, routing protocol, and access lists. Upon completion, students should have an understanding of routers and their role in WANs, router configuration, routing protocols, TCP/IP, troubleshooting, and ACLs.

NET 225 Routing and Switching I (Fall)**1 4 3**

Prerequisites: NET 126

Corequisites: None

This course focuses on advanced IP addressing techniques, intermediate routing protocols, command-line interface configuration of switches, Ethernet switching, VLANs, STP, and VTP. Emphasis will be placed on application and demonstration of skills acquired in pre-requisite courses. Upon completion, students should be able to perform tasks related to VLSM, routing protocols, switching concepts and configuration, STP, VLANs, and VTP.

NET 226 Routing and Switching II (Intermittently)**1 4 3**

Prerequisites: NET 225

Corequisites: None

This course introduces WAN theory and design, WAN technology, PPP, Frame Relay, ISDN, and additional case studies. Topics include network congestion problems, TCP/IP transport and network layer protocols, advanced routing and switching configuration, ISDN protocols, PPP encapsulation operations on a router. Upon completion, students should be able to provide solutions for network routing problems, identify ISDN protocols, and describe the Spanning Tree protocol.

NOS 120 Linux/UNIX Single User (Spring)**2 2 3**

Prerequisites: None

Corequisites: None

This course develops the necessary skills for students to develop both GUI and command line skills for using and customizing a Linux workstation. Topics include Linux file system and access permissions, GNOME Interface, VI editor, X Window System expression pattern matching, I/O redirection, network and printing utilities. Upon completion, students should be able to customize and use Linux systems for command line requirements and desktop productivity roles.

NOS 130 Windows Single User (Fall, Spring)**2 2 3**

Prerequisites: None

Corequisites: None

This course introduces operating system concepts for single-user systems. Topics include hardware management, file and memory management, system configuration/optimization, and utilities. Upon completion, students should be able to perform operating systems functions at the support level in a single-user environment.

NOS 230 Windows Administration I (Fall)

2 2 3

Prerequisites: NOS 130

Corequisites: None

This course covers the installation and configuration of a Windows Server operating system. Emphasis is placed on the basic configuration of core network services, Active Directory and group policies. Upon completion, students should be able to install and configure a Windows Server operating system.

NUR 101 Practical Nursing I (Fall)

7 6 6 11

Prerequisites: Admission to the Practical Nursing Program

Corequisites: BIO 168, MAT 171

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including assessment, clinical decision making, professional behaviors, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching/learning, safety, ethical principles, legal issues, informatics, and evidence-based practice. Upon completion, student should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 102 Practical Nursing II (Spring)

7 0 9 10

Prerequisites: BIO 168, MAT 171 and NUR 101

Corequisites: BIO 169

This course is designed to further develop the concepts within the three domains of the individual, nursing, and healthcare. Emphasis is placed on the concepts within each domain including clinical decision making, caring interventions, biophysical and psychosocial concepts, communication, collaboration, teaching and learning, accountability, safety, informatics, and evidence-based practice. Upon completion, students should be able to provide safe nursing care across the lifespan incorporating the concepts identified in this course.

NUR 103 Practical Nursing III (Summer)

6 0 9 9

Prerequisites: BIO 169 and NUR 102

Corequisites: ENG 111

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on biophysical and psychosocial concepts, professional behaviors, healthcare systems, health policy, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide safe, quality, and individualized entry level nursing care.

NUR 111 Introduction to Health Concepts (Fall) 4 6 6 8

Prerequisites: Admission to the Associate Degree Nursing Program

Corequisites: ACA 122, BIO 168 and CHM 130/CHM 130A

This course introduces the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts within each domain including medication administration, assessment, nutrition, ethics, interdisciplinary teams, informatics, evidence-based practice, individual-centered care, and quality improvement. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 112 Health-Illness Concepts (Spring) 3 0 6 5

Prerequisites: NUR 111, BIO 168, ACA 122, and CHM 130/CHM 130A

Corequisites: BIO 169 and PSY 150

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of acid-base, metabolism, cellular regulation, oxygenation, infection, stress/coping, health-wellness-illness, communication, caring interventions, managing care, safety, quality improvement, and informatics. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 113 Family Health Concepts (Summer) 3 0 6 5

Prerequisites: NUR 114 or NUR 214, BIO 169 and PSY 150

Corequisites: MAT 171

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of oxygenation, sexuality, reproduction, grief/loss, mood/affect, behaviors, development, family, health-wellness-illness, communication, caring interventions, managing care, safety, and advocacy. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 114 Holistic Health Concepts (Spring) 3 0 6 5

Prerequisites: NUR 112, BIO 168, ACA 122, and CHM 130/CHM 130A

Corequisites: BIO 169, PSY 150

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, inflammation, sensory perception, stress/coping, mood/affect, cognition, self, violence, health-wellness-illness, professional behaviors, caring interventions, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 211 Health Care Concepts (Fall)

3 0 6 5

Prerequisites: NUR 113 and MAT 171

Corequisites: ENG 111, PSY 241

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of cellular regulation, perfusion, infection, immunity, mobility, comfort, behaviors, health-wellness-illness, clinical decision-making, caring interventions, managing care, and safety. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 212 Health System Concepts (Fall)

3 0 6 5

Prerequisites: NUR 211 and MAT 171

Corequisites: ENG 111, PSY 241

This course is designed to further develop the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of grief/loss, violence, health-wellness-illness, collaboration, managing care, safety, advocacy, legal issues, policy, healthcare systems, ethics, accountability, and evidence-based practice. Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

NUR 213 Complex Health Concepts (Spring)

4 3 15 10

Prerequisites: NUR 212, ENG 111, and PSY 241

Corequisites: ENG 114 and HUM 115 or PHI 215 or PHI 240

This course is designed to assimilate the concepts within the three domains of the individual, healthcare, and nursing. Emphasis is placed on the concepts of fluid/electrolytes, metabolism, perfusion, mobility, stress/coping, violence, health-wellness-illness, professional behaviors, caring interventions, managing care, healthcare systems, and quality improvement. Upon completion, students should be able to demonstrate the knowledge, skills, and attitudes necessary to provide quality, individualized, entry level nursing care.

NUR 214 Nursing Transition Concepts (Spring)

3 0 3 4

Prerequisites: Admission to Associate Degree Nursing Transition Program, Licensed Practical Nurse, and NUR 101, NUR 102, NUR 103, ACA 122, BIO 168, CHM 130/CHM 130A

Corequisites: BIO 169 and PSY 150

This course is designed to introduce concepts within the three domains of the individual, healthcare, and nursing as the LPN transitions to the ADN role. Emphasis is placed on the concepts within each domain including evidenced-based practice, quality improvement, communication, safety, interdisciplinary team, clinical decision-making, informatics, assessment, caring, and health-wellness-illness.

Upon completion, students should be able to provide safe nursing care incorporating the concepts identified in this course.

OST o8o Keyboarding Literacy (Fall, Spring)

1 2 2

Prerequisites: None

Corequisites: None

This course is designed to develop elementary keyboarding skills. Emphasis is placed on mastery of the keyboard. Upon completion, students should be able to demonstrate basic proficiency in keyboarding.

OST 122 Office Computations (Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course covers the keypad touch method using the electronic calculator (10-key) and mathematical functions used in office applications. Topics may include budgets, discounts, purchasing, inventory, and petty cash. Upon completion, students should be able to solve a wide variety of numerical problems commonly encountered in an office setting.

OST 132 Keyboard Skill Building (Fall, Spring)

1 2 2

Prerequisites: OST o80 or 25 words per minute

Corequisites: None

This course is designed to increase speed and improve accuracy in keyboarding. Emphasis is placed on diagnostic tests to identify accuracy and speed deficiencies followed by corrective drills. Upon completion, students should be able to keyboard rhythmically with greater accuracy and speed.

OST 134 Text Entry and Formatting (Spring)

2 2 3

Prerequisites: OST 132

Corequisites: None

This course is designed to provide skills needed to increase speed, improve accuracy, and format documents. Topics include letters, memos, tables, and business reports. Upon completion, students should be able to produce documents and key timed writings at speeds commensurate with employability. Forty (40) WPM required to pass course.

OST 136 Word Processing (Fall, Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course is designed to introduce word processing concepts and applications. Topics include preparation of a variety of documents and mastery of specialized

software functions. Upon completion, students should be able to work effectively in a computerized word processing environment.

OST 138 Office Applications II (Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course is designed to improve the efficiency in the utilization of software applications used in business offices through a hands-on approach. Emphasis is placed on in-depth usage of software to create a variety of documents applicable to current business environments. Upon completion, students should be able to master the skills required to design documents that can be customized using the latest software applications.

OST 141 Med Office Terms I (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course uses a language-structure approach to present the terminology and vocabulary that will be encountered in medical office settings. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in approximately one-half of the systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 142 Med Office Terms II (Fall, Spring)

3 0 3

Prerequisites: OST 141 or MED 121

Corequisites: None

This course is a continuation of OST 141 and continues the study, using a language-structure approach, of medical office terminology and vocabulary. Topics include word parts that relate to systemic components, conditions, pathology, and disorder remediation in the remaining systems of the human body. Upon completion, students should be able to relate words to systems, pluralize, define, pronounce, and construct sentences with the included terms.

OST 148 Med Ins & Billing (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces fundamentals of medical coding, billing and insurance. Emphasis is placed on the medical billing cycle to include third-party payers, coding concepts and form preparation. Upon completion, students should be able to explain the life cycle of and accurately complete a medical insurance claim.

OST 149 Medical Legal Issues (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces the complex legal, moral, and ethical issues involved in providing health-care services. Emphasis is placed on the legal requirements of medical practices; the relationship of physician, patient, and office personnel; professional liabilities; and medical practice liability. Upon completion, students should be able to demonstrate a working knowledge of current medical law and accepted ethical behavior.

OST 164 Office Editing (Spring)

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course provides a comprehensive study of editing skills needed in the workplace. Emphasis is placed on grammar, punctuation, sentence structure, proofreading, and editing. Upon completion, students should be able to use reference materials to compose and edit text.

OST 184 Records Management (Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course includes the creation, maintenance, protection, security, and disposition of records stored in a variety of media forms. Topics include alphabetic, geographic, subject, and numeric filing methods. Upon completion, students should be able to set up and maintain a records management system.

OST 233 Office Publications Design (Fall)

2 2 3

Prerequisites: OST 136

Corequisites: None

This course provides entry-level skills in using software with desktop publishing capabilities. Topics include principles of page layout, desktop publishing terminology and applications, and legal and ethical considerations of software use. Upon completion, students should be able to design and produce professional business documents and publications.

OST 236 **Advanced Word Processing (Spring)**

2 2 3

Prerequisites: OST 136

Corequisites: None

This course develops proficiency in the utilization of advanced word processing functions. Emphasis is placed on advanced word processing features. Upon completion, students should be able to produce a variety of complex business documents.

OST 243	Medical Office Simulation (Intermittently)	2	2	3
---------	--	---	---	---

Prerequisites: OST 148

Corequisites: None

This course introduces medical systems used to process information in the automated office. Topics include traditional and electronic information resources, storing and retrieving information, and the billing cycle. Upon completion, students should be able to use the computer accurately to schedule, bill, update, and make corrections.

OST 244	Med Document Processing (Fall)	2	2	3
---------	--------------------------------	---	---	---

Prerequisites: OST 134 or OST 136

Corequisites: None

This course provides production-level skill development in processing medical documents. Emphasis is placed on producing mailable documents through the use of medical-related materials. Upon completion, students should be able to perform competently in preparing accurate, correctly formatted, and usable documents.

OST 247	Procedure Coding (Fall, Spring)	2	2	3
---------	---------------------------------	---	---	---

Prerequisites: MED 121 or OST 141

Corequisites: MED 122 or OST 142

This course provides in-depth coverage of procedural coding. Emphasis is placed on CPT and HCPCS coding systems. Upon completion, students should be able to properly code procedures and services performed in a medical facility.

OST 248	Diagnostic Coding (Fall, Spring)	2	2	3
---------	----------------------------------	---	---	---

Prerequisites: MED 121 or OST 141

Corequisites: MED 122 or OST 142

This course provides an in-depth study of diagnostic coding. Emphasis is placed on ICD coding system. Upon completion, students should be able to properly code diagnoses in a medical facility.

OST 249	Med Coding Certification Prep (Spring)	2	3	3
---------	--	---	---	---

Prerequisites: OST 247 and OST 248 and Course Instructor Permission

Corequisites: None

This course provides instruction that will prepare students to sit for the American Association of Professional Coders (AAPC) CPC Exam. Topics include diagnostic and procedural coding. Upon completion, students should be able to sit for the AAPC CPC Exam.

OST 260 Adv Coding Methodologies (Spring)

2 2 3

Prerequisites: OST 247 and OST 248

Corequisites: None

This course provides advanced instruction in a variety of emergent methodologies in medical coding. Topics include advanced outpatient coding, inpatient coding, risk adjustment coding, online encoder software, Correct Coding Initiatives (CCI), and advanced record abstraction. Upon completion, students should be able to perform advanced coding in a healthcare facility.

OST 263 Healthcare Customer Relations (Fall)

3 0 3

Prerequisites: OST 248

Corequisites: None

This course provides the soft skills necessary for effective communication and maintaining customer satisfaction in healthcare. Emphasis is placed on the importance of positive attitudes, techniques for handling difficult/angry customers, rephrasing blunt communication for better results, and the communication skills required to discuss topics such as insurance and billing issues with the patient and other medical personnel. Upon completion, students should be able to communicate information in a professional manner.

OST 264 Medical Auditing (Spring)

3 0 3

Prerequisites: OST 247 and OST 248

Corequisites: None

This course provides instruction on how to apply regulations and policies to perform medical record audits for provider services. Emphasis is placed on understanding the scope of an audit, statistical sampling methodologies, performing a medical record audit, and compiling data for reports to improve the revenue cycle for healthcare services. Upon completion, students should be able to perform a medical audit.

OST 265 Healthcare Comp & Reg (Fall, Spring)

2 2 3

Prerequisites: OST 264

Corequisites: None

This course provides advanced instruction in a variety of emergent methodologies in medial coding. Topics include advanced outpatient coding, inpatient coding, risk adjustment coding, online encoder software, Correct Coding Initiatives (CCI), and advanced record abstraction. Upon completion, students should be able to perform advanced coding in a healthcare facility.

OST 266 Adv Medical Auditing (Fall, Spring)

2 2 3

Prerequisites: OST 264

Corequisites: None

This course provides instruction on finalizing the audit report, determining trends of a healthcare facility, and communicating the audit report. Emphasis is placed on determining the audit report contents, analyzing the coding trends, compiling a formal report of findings, and delivering the audit results. Upon completion, students should be able to develop and present a audit report to the healthcare facility.

OST 280 Electronic Health Records (Fall)

2 2 3

Prerequisites: CIS 110

Corequisites: None

This course focuses on the use of electronic health records in medical documentation and patient management. Emphasis is placed on creating and maintaining patient medical information, scheduling patient appointments, documenting patient encounters, and billing/insurance claim processing. Upon completion, students should be able to perform the required software task following a patient visit from start to finish.

OST 286 Professional Development (Fall)

3 0 3

Prerequisites: Course Instructor Permission

Corequisites: None

This course covers the personal competencies and qualities needed to project a professional image in the office. Topics include interpersonal skills, health lifestyles, appearance, attitude, personal and professional growth, multicultural awareness, and professional etiquette. Upon completion, students should be able to demonstrate these attributes in the classroom, office, and society.

OST 288 Medical Office Admin Capstone (Spring)

2 2 3

Prerequisites: OST 148 and Instructor permission

Corequisites: None

This course is designed to be a capstone course for the medical office professional and provides a working knowledge of medical office procedures. Emphasis is placed on written and oral communication skills, practice management, electronic health records, medical office procedures, ethics, and professional development. Upon completion, students should be able to demonstrate the skills necessary to manage a medical office.

OST 289 Administrative Office Management (Spring)

2 2 3

Prerequisites: OST 164 and OST 134 or OST 136

Faculty approval and assignment.

Corequisites: None

This course is designed to be a capstone course for the office professional and provides a working knowledge of modern office procedures. Emphasis is placed

on scheduling, telephone procedures, travel arrangements, event planning, office design and ergonomics. Upon completion, students should be able to adapt in an office environment.

PCI 264 Process Control with PLCs (Spring)

3 3 4

Prerequisites: ELC 228

Corequisites: None

This course introduces automatic process control implemented with PLC technology. Topics include interfacing and controlling advanced control loops and devices using various PLC-based systems. Upon completion, students should be able to demonstrate an understanding of advanced applications of process control and instrumentation systems with PLC-based devices.

PED 110 Fit and Well for Life (Fall, Spring, Summer)

1 2 2

Prerequisites: None

Corequisites: None

This course is designed to investigate and apply the basic concepts and principles of lifetime physical fitness and other health related factors. Emphasis is placed on wellness through the study of nutrition, weight control, stress management, and consumer facts on exercise and fitness. Upon completion, students should be able to plan a personal, lifelong fitness program based on individual needs, abilities, and interests. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective requirement.

PED 123 Yoga II (Intermittently)

0 2 1

Prerequisites: PED 122

Corequisites: None

This course introduces more detailed aspects of the discipline of yoga. Topics include breathing and physical postures, relaxation, and mental concentration. Upon completion, students should be able to demonstrate advanced procedures of yoga. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective requirement.

PED 125 Self Defense (Intermittently)

0 2 1

Prerequisites: None

Corequisites: None

This course is designed to aid students in developing rudimentary skills in self-defense. Emphasis is placed on stances, blocks, punches, and kicks as well as non-physical means of self-defense. Upon completion, students should be able to demonstrate basic self-defense techniques of a physical and non-physical nature. This course has been approved for transfer under the CAA as a premajor and/or elective course requirement. This course has been approved for transfer under the ICAA as a premajor and/or elective course requirement.

PHI 215 Philosophical Issues (Fall, Spring)

3 0 3

Prerequisites: ENG 111

Corequisites: None

This course introduces fundamental issues in philosophy considering the views of classical and contemporary philosophers. Emphasis is placed on knowledge and belief, appearance and reality, determinism and free will, faith and reason, and justice and inequality. Upon completion, students should be able to identify, analyze, and critically evaluate the philosophical components of an issue. This course has been approved for transfer under the CAA and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

PHI 240 Introduction to Ethics (Fall, Spring)

3 0 3

Prerequisites: ENG 111

Corequisites: None

This course introduces theories about the nature and foundations of moral judgments and applications to contemporary moral issues. Emphasis is placed on utilitarianism, rule- based ethics, existentialism, relativism versus objectivism, and egoism. Upon completion, students should be able to apply various ethical theories to individual moral issues such as euthanasia, abortion, crime and punishment, and justice. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts. This is a Universal General Education Transfer Component (UGETC) course.

PHS 121 Applied Physical Science I (Intermittently)

3 2 4

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces the general principles of physics and chemistry. Topics include measurement, motion, Newton's laws of motion, momentum, energy, work, power, heat, thermodynamics, waves, sound, light, electricity, magnetism, and chemical principles. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced.

PHS 122 **Applied Physical Science II (Intermittently)**

3 2 4

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces the principles of nuclear energy, modern physics, geology, oceanography, meteorology, and astronomy. Topics include nuclear chemistry, relativity, composition of the earth, geologic processes and time, ocean currents and tides, eroding beaches, climate, weather, atmospheric influences, and the

solar system. Upon completion, students should be able to demonstrate an understanding of the physical environment and be able to apply the scientific principles to observations experienced.

PHS 130	Earth Science (Intermittently)	3	2	4
---------	--------------------------------	---	---	---

Prerequisites: None

Corequisites: None

This course is a survey of the forces that impact the earth. Topics include geology, oceanography, and meteorology. Upon completion, students should be able to explain and identify the forces within, on, and around the earth as they influence the earth's dynamics. This course has been approved for transfer under the CAA and ICAA as a premajor and/or elective course requirement.

PHY 110	Conceptual Physics (Fall, Spring)	3	0	3
---------	-----------------------------------	---	---	---

Prerequisites: None

Corequisites: PHY 110A

This course provides a conceptually-based exposure to the fundamental principles and processes of the physical world. Topics include basic concepts of motion, forces, energy, heat, electricity, magnetism, and the structure of matter and the universe. Upon completion, students should be able to describe examples and applications of the principles studied. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 110A	Conceptual Physics Lab (Fall, Spring)	0	2	1
----------	---------------------------------------	---	---	---

Prerequisites: None

Corequisites: PHY 110

This course is a laboratory for PHY 110. Emphasis is placed on laboratory experiences that enhance materials presented in PHY 110. Upon completion, students should be able to apply the laboratory experiences to the concepts presented in PHY 110. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 151	College Physics I (FALL)	3	2	4
---------	--------------------------	---	---	---

Prerequisites: MAT 171 or MAT 271

Corequisites: None

This course uses algebra – and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vectors, linear kinematics and dynamics, energy, power, momentum, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and

display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 152 College Physics II (Spring)

3 2 4

Prerequisites: PHY 151

Corequisites: None

This course uses algebra-and trigonometry-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 251 General Physics I (Fall, Spring)

3 3 4

Prerequisites: MAT 271

Corequisites: MAT 272

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include units and measurement, vector operations, linear kinematics and dynamics, energy, power, momentum, rotational mechanics, periodic motion, fluid mechanics, and heat. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

PHY 252 General Physics II (Spring, Summer)

3 3 4

Prerequisites: MAT 272 and PHY 251

Corequisites: None

This course uses calculus-based mathematical models to introduce the fundamental concepts that describe the physical world. Topics include electrostatic forces, electric fields, electric potentials, direct-current circuits, magnetostatic forces, magnetic fields, electromagnetic induction, alternating-current circuits, and light. Upon completion, students should be able to demonstrate an understanding of the principles involved and display analytical problem-solving ability for the topics covered. This course has been approved for transfer under the CAA

and ICAA as a general education course in Natural Science. This is a Universal General Education Transfer Component (UGETC) course.

POL 110 Introduction to Political Science (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course introduces basic political concepts used by governments and addresses a wide range of political issues. Topics include political theory, ideologies, legitimacy, and sovereignty in democratic and non-democratic systems. Upon completion, students should be able to discuss a variety of issues inherent in all political systems and draw logical conclusions in evaluating these systems. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/ Behavioral Sciences.

POL 120 American Government (Fall, Spring)

3 0 3

Prerequisites: None

Corequisites: None

This course is a study of the origins, development, structure, and functions of American government. Topics include the constitutional framework, federalism, the three branches of government including the bureaucracy, civil rights and liberties, political participation and behavior, and policy formation. Upon completion, students should be able to demonstrate an understanding of the basic concepts and participatory processes of the American political system. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

POL 220 International Relations (Intermittently)

3 0 3

Prerequisites: None

Corequisites: None

This course provides a study of the effects of ideologies, trade, armaments, and alliances on relations among nation-states. Emphasis is placed on regional and global cooperation and conflict, economic development, trade, non-governmental organizations, and international institutions such as the World Court and UN. Upon completion, students should be able to identify and discuss major international relationships, institutions, and problems. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

This course provides an introduction to the study of human growth and development. Emphasis is placed on the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span and apply this knowledge to their specific field of study.

This course introduces the basic principles of psychology as they relate to personal and professional development. Emphasis is placed on personality traits, communication/leadership styles, effective problem solving, and cultural diversity as they apply to personal and work environments. Upon completion, students should be able to demonstrate an understanding of these principles of psychology as they apply to personal and professional development.

This course provides an examination of group dynamics and structure. Topics include team- building, interpersonal communication, leadership, decision making, and problem solving. Upon completion, students should be able to demonstrate the knowledge and skills necessary for effective group participation.

This course provides an overview of the scientific study of human behavior. Topics include history, methodology, biopsychology, sensation, perception, learning, motivation, cognition, abnormal behavior, personality theory, social psychology, and other relevant topics. Upon completion, students should be able to demonstrate a basic knowledge of the science of psychology. This course has been approved for transfer under Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

Corequisites: None

This course covers major personality theories and personality research methods. Topics include psychoanalytic, behavioristic, social learning, cognitive, humanistic, and trait theories including supporting research. Upon completion, students should be able to compare and contrast traditional and contemporary approaches to the understanding of individual differences in human behavior. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/ Behavioral Sciences.

PSY 241 Developmental Psychology (Fall, Spring) 3 0 3

Prerequisites: PSY 150

Corequisites: None

This course is a study of human growth and development. Emphasis is placed on major theories and perspectives as they relate to the physical, cognitive, and psychosocial aspects of development from conception to death. Upon completion, students should be able to demonstrate knowledge of development across the life span. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/ Behavioral Sciences.

PSY 263 Educational Psychology (Intermittently) 3 0 3

Prerequisites: PSY 150

Corequisites: None

This course examines the application of psychological theories and principles to the educational process and setting. Topics include learning and cognitive theories, achievement motivation, teaching and learning styles, teacher and learner roles, assessment, and developmental issues. Upon completion, students should be able to demonstrate an understanding of the application of psychological theory to educational practice. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

PSY 281 Abnormal Psychology (Fall, Spring) 3 0 3

Prerequisites: PSY 150

Corequisites: None

This course provides an examination of the various psychological disorders, as well as theoretical, clinical, and experimental perspectives of the study of psychopathology. Emphasis is placed on terminology, classification, etiology, assessment, and treatment of the major disorders. Upon completion, students should be able to distinguish between normal and abnormal behavior patterns as well as demonstrate knowledge of etiology, symptoms, and therapeutic techniques. This course has been approved for transfer under the Comprehensive Articulation

Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

PTA 110 Introduction to Physical Therapy (Spring) 2 3 0 3

Prerequisites: Admission to the Physical Therapist Assistant Program, MAT 171, BIO 168, ENG 111, PSY 150, ACA 122, and CIS 110

Corequisites: BIO 169, COM 231, HUM/FA

This course introduces the field of physical therapy including the history and standards of practice for the physical therapist assistant and basic treatment techniques. Emphasis is placed on ethical and legal considerations, universal precautions, vital signs, documentation, basic patient preparation and treatment skills, and architectural barrier screening. Upon completion, students should be able to explain the role of the physical therapist assistant and demonstrate competence in basic techniques of patient care.

PTA 125 Gross and Functional Anatomy (Spring) 3 6 0 5

Prerequisites: PTA 110, MAT 171, BIO 168, ENG 111, ACA 122, and CIS 110

Corequisites: BIO 169, HUM/FA, COM 231

This course provides an in-depth, clinically oriented survey of gross and functional anatomy. Emphasis is placed on musculoskeletal and nervous systems and clinical biomechanics, including goniometry, basic manual muscle testing, and components of normal gait. Upon completion, students should be able to identify specific anatomical structures and describe, observe, and measure musculoskeletal posture and function.

PTA 135 Pathology (Summer) 4 0 0 4

Prerequisites: PTA 125, BIO 169, COM 231 and HUM/FA

Corequisites: PTA 225, PTA 222

This course introduces principles of pathology, processes of and normal responses to injury and disease, and changes related to aging. Emphasis is placed on conditions most commonly treated in physical therapy. Upon completion, students should be able to discuss basic pathological processes and identify etiology, signs, symptoms, complications, treatment options, and prognoses of specific orthopedic conditions.

PTA 145 Therapeutic Procedures (Fall) 2 6 0 4

Prerequisites: PTA 135, PTA 222, PTA 225

Corequisites: PTA 235

This course provides a detailed study of specific treatment procedures and the physiological principles and techniques involved. Emphasis is placed on the correct application of superficial heat and cold, massage and soft tissue mobilization, ultrasound, diathermy, traction, and electrical stimulation. Upon completion,

students should be able to demonstrate competence in the application of these modalities and explain the indications, contraindications, effects, and precautions for each.

PTA 155 PTA Clinical I (Spring) 0 0 6 2

Prerequisites: PTA 255

Corequisites: PTA 185

This course provides the opportunity to gain clinical experience and apply academic skills and knowledge to patient care. Emphasis is placed on performing patient care skills, observation and measurement, and professional and patient interaction. Upon completion, students should be able to demonstrate safe and effective clinical practice as measured by a standardized performance evaluation.

PTA 185 PTA Clinical II (Spring) 0 0 9 3

Prerequisites: PTA 255

Corequisites: PTA 155

This course provides the opportunity to gain clinical experience and apply academic skills and knowledge to patient care. Emphasis is placed on performing patient care skills, observation and measurement, and professional and patient interaction. Upon completion, students should be able to demonstrate safe and effective clinical practice as measured by a standardized performance evaluation.

PTA 212 Health Care/Resources (Spring) 2 0 0 2

Prerequisites: PTA 245

Corequisites: PTA 215

This course provides an overview of various aspects of health care delivery systems and the interrelationships of health care team members. Topics include health agencies and their functions, health care team member roles, management, and other health care issues. Upon completion, students should be able to discuss the functions of health organizations and team members and aspects of health care affecting physical therapy delivery.

PTA 215 Therapeutic Exercise (Spring) 2 3 0 3

Prerequisites: PTA 245

Corequisites: PTA 212

This course introduces basic concepts of strengthening, endurance, and flexibility exercise and balance, gait, and posture training. Emphasis is placed on applying techniques to the treatment of orthopedic conditions. Upon completion, students should be able to safely and effectively execute basic exercise programs and balance, gait, and posture training.

PTA 222 Professional Interactions (Summer) 2 0 0 2

Prerequisites: PTA 125, BIO 169, COM 231 and HUM/FA

Corequisites: PTA 135 and PTA 225

This course is designed to assist in the development of effective interpersonal skills in the physical therapist assistant setting. Topics include reactions to disability, the grieving process, methods of communication, motivation, health promotion, disease prevention, and aging. Upon completion, students should be able to discuss and demonstrate methods for achieving effective interaction with patients, families, the public, and other health care providers.

PTA 225 Introduction to Rehabilitation (Summer) 3 3 0 4

Prerequisites: PTA 125, BIO 169, COM 231 and HUM/FA

Corequisites: PTA 135 and PTA 222

This course covers cardiovascular, pulmonary, and integumentary conditions, as well as causes and treatment of amputations. Emphasis is placed upon pathological processes as well as comprehensive treatment of the various conditions studied. Upon completion, students should be able to discuss etiology, signs, symptoms, complications, and prognoses of various conditions and implement components of a comprehensive treatment program.

PTA 235 Neurological Rehabilitation (Fall) 3 6 0 5

Prerequisites: PTA 135, PTA 225, and PTA 222

Corequisites: PTA 145

This course covers neurological and neuromuscular conditions experienced throughout the life span. Topics include the pathology of selected conditions and the methods and rationales of various treatment approaches. Upon completion, students should be able to discuss etiology, signs, symptoms, complications, and prognoses of various conditions and implement components of a comprehensive treatment program.

PTA 245 PTA Clinical III (Fall) 0 0 12 4

Prerequisites: PTA 145 and PTA 235

Corequisites: None

This course provides the opportunity to gain clinical experience and apply academic skills and knowledge to patient care. Emphasis is placed on performing patient care skills, observation and measurement, and professional and patient interaction. Upon completion, students should be able to demonstrate safe and effective clinical practice as measured by a standardized performance evaluation.

PTA 255 PTA Clinical IV (Spring)**0 0 12 4**

Prerequisites: PTA 212 and PTA 215

Corequisites: None

This course provides the opportunity to gain clinical experience and apply academic skills and knowledge to patient care. Emphasis is placed on performing patient care skills, observation and measurement, and professional and patient interaction. Upon completion, students should be able to demonstrate safe and effective clinical practice as measured by a standardized performance evaluation.

REL 110 World Religions (Fall, Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course introduces the world's major religious traditions. Topics include Primal religions, Hinduism, Buddhism, Islam, Judaism, and Christianity. Upon completion, students should be able to identify the origins, history, beliefs, and practices of the religions studied. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

REL 211 Introduction to Old Testament (Fall)**3 0 3**

Prerequisites: None

Corequisites: None

This course is a survey of the literature of the Hebrews with readings from the law, prophets, and other writings. Emphasis is placed on the use of literary, historical, archeological, and cultural analysis. Upon completion, students should be able to use the tools of critical analysis to read and understand Old Testament literature. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

REL 212 Introduction to New Testament (Spring)**3 0 3**

Prerequisites: None

Corequisites: None

This course is a survey of the literature of first-century Christianity with readings from the gospels, Acts, and the Pauline and pastoral letters. Topics include the literary structure, audience, and religious perspective of the writings, as well as the historical and cultural context of the early Christian community. Upon completion, students should be able to use the tools of critical analysis to read and understand New Testament literature. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

SAB 110 Substance Abuse Overview

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course provides an overview of the core concepts in substance abuse and dependence. Topics include the history of drug use/abuse, effects on societal members, treatment of ad- diction, and preventive measures. Upon comple- tion, students should be able to demonstrate knowledge of the etiology of drug abuse, addiction, prevention, and treatment.

SAB 120 Intake and Assessment

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course develops processes for establishment of client rapport, elicitation of client information on which therapeutic activities are based, and stimulation of client introspection. Topics include diagnostic criteria, functions of counsel- ing, nonverbal behavior, collaterals and significant others, dual diagnosis, client strengths and weakness, uncooperative clients, and crisis interventions. Upon completion, students should be able to establish communication with clients, recognize disorders, obtain information for counseling, and terminate the coun- seling process.

SAB 125 SA Case Management

2 2 3

Prerequisites: DRE 097 or ENG 002 Tier 1, SAB 110, MAT 143, ENG 111

Corequisites: None

This course provides case management activities, including record keeping, re- covery issues, community resources, and continuum of care. Emphasis is placed on establishing a systematic approach to monitor the treatment plan and main- tain quality of life. Upon completion, students should be able to assist clients in the continuum of care as an ongoing recovery process and develop agency networking.

SAB 135 Addictive Process

3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course explores the physical, emotional, psychological, and cultural aspects of the addictive process. Emphasis is placed on addictions to food, sex, alcohol, drugs, work, gambling, and relationships. Upon completion, students should be able to identify the effects, prevention strategies, and treatment methods associ- ated with addictive disorders.

SAB 240 Sab Issues in Client Serv**3 0 3**

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces systems of professional standards, values, and issues in substance abuse counseling. Topics include confidentiality, assessment of personal values, professional responsibilities, competencies, and ethics relative to multicultural counseling and research. Upon completion, students should be able to understand and discuss multiple ethical issues applicable to counseling and apply various decision-making models to current issues.

SEC 110 Security Concepts (Spring)**2 2 3**

Prerequisites: None

Corequisites: None

This course introduces the concepts and issues related to securing information systems and the development of policies to implement information security controls. Topics include the historical view of networking and security, security issues, trends, security resources, and the role of policy, people, and processes in information security. Upon completion, students should be able to identify information security risks, create an information security policy, and identify processes to implement and enforce policy.

SEC 150 Secure Communications (Fall)**2 2 3**

Prerequisites: SEC 110

Corequisites: None

This course provides an overview of current technologies used to provide secure transport of information across networks. Topics include data integrity through encryption, Virtual Private Networks, SSL, SSH and IPSec. Upon completion, students should be able to implement secure data transmission technologies.

SEC 160 Security Administration I**2 2 3**

Prerequisites: SEC 110 or NET 126

Corequisites: None

This course provides an overview of security administration and fundamentals of designing security architectures. Topics include networking technologies, TCP/IP concepts, protocols, network traffic analysis, monitoring, and security best practices. Upon completion, students should be able to identify normal network traffic using network analysis tools and design basic security defenses.

SEC 180 Info Assurance Principles (Spring)**2 3 3**

Prerequisites: SEC 110

Corequisites: None

This course introduces students to the concepts of layered and comprehensive Information Assurance best practices. Topics include user defensive measures, edge defensive measures, along with confidentiality, integrity and availability of enterprise data with the business continuity concepts of: redundancy, disaster recovery, incident handling, compliance and auditing. Upon completion, students should be able to plan effective information assurance strategies.

SEC 210 Intrusion Detection (Spring)

2 2 3

Prerequisites: SEC 110

Corequisites: None

This course introduces the student to intrusion detection methods in use today. Topics include the types of intrusion detection products, traffic analysis, and planning and placement of intrusion detection solutions. Upon completion, students should be able to plan and implement intrusion detection solution for networks and host-based systems.

SGD 111 Intro. to Simulation and Game Development (Fall)

2 3 3

Prerequisites: None

Corequisites: None

This course provides students with an introduction to simulation and game development. Topics include setting, storytelling, narrative, character design, interface design, game play, internal economy, core mechanics, game genres, AI, the psychology of game design and professionalism. Upon completion, students should be able to demonstrate knowledge of the major aspects of simulation and game design and development.

SGD 112 SGD Design (Fall)

2 3 3

Prerequisites: None

Corequisites: None

This course introduces the fundamentals of simulation and game design. Topics include industry standards and design elements for simulations and games. Upon completion, students should be able to design simple simulations and/or games.

SGD 116 Graphic Design Tools (Spring)

2 2 3

Prerequisites: None

Corequisites: None

This course introduces students to computer-based graphic design tools and their use within the context of simulation and game design. Topics include texture creation, map creation, and introduction to advanced level graphic design

techniques. Upon completion, students should be able to competently use and explain industry-standard graphic design software.

SGD 162 SG 3D Animation (Fall) 2 3 3

Prerequisites: SGD 116

Corequisites: None

This course introduces the fundamental principles of 3D animation used in simulation and game development. Emphasis is placed on a historical survey of 3D animation, aspects of the 3D animation techniques. Upon completion, students should be able to produce 3D character sketches, morph simple objects, create walk and run cycles and develop professional storyboards.

SGD 165 SG Character Development (Fall) 2 3 3

Prerequisites: None

Corequisites: None

This course introduces the concepts needed to create fictional personality for use in digital videos, animations, simulations and games. Topics include aspects of character, developing backgrounds, mannerisms and voice. Upon completion, students should be able to develop characters and backgrounds for simulations and games.

SGD 174 SG Level Design (Spring) 2 3 3

Prerequisites: SGD 162

Corequisites: None

This course introduces the tools used to create levels for real-time simulation and games. Topics include level design, architecture theory, modeling for 3D engines and texturing methods. Upon completion, students should be able to design simple levels using industry standard tools.

SGD 212 SGD Design II (Spring) 2 3 3

Prerequisites: SGD 112

Corequisites: None

This course covers the advanced principles of simulation and game design. Topics include advanced design concepts in simulation and game development. Upon completion, students should be able to design an advanced simulation or game.

SGD 289 SGD Project (Spring) 2 3 3

Prerequisites: SGD 212

Corequisites: None

This course provides students with the opportunity to create a functional simulation or game with minimal instructor support. Emphasis is placed upon verbal and written communication, skill documentation, professional presentation and

user training. Upon completion, students should be able to create and professionally present a fully functional simulation or game.

SOC 210 Introduction to Sociology (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course introduces the scientific study of human society, culture, and social interactions. Topics include socialization, research methods, diversity and inequality, cooperation and conflict, social change, social institutions, and organizations. Upon completion, students should be able to demonstrate knowledge of sociological concepts as they apply to the interplay among individuals, groups, and societies. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences. This is a Universal General Education Transfer Component (UGETC) course.

SOC 213 Sociology of the Family (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course covers the institution of the family and other intimate relationships. Emphasis is placed on mate selection, gender roles, sexuality, communication, power and conflict, parenthood, diverse lifestyles, divorce and remarriage, and economic issues. Upon completion, students should be able to analyze the family as a social institution and the social forces which influence its development and change. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

SOC 220 Social Problems (Intermittently) 3 0 3

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course provides an in-depth study of current social problems. Emphasis is placed on causes, consequences, and possible solutions to problems associated with families, schools, workplaces, communities, and the environment. Upon completion, students should be able to recognize, define, analyze, and propose solutions to these problems. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

SOC 225 Social Diversity**3 0 3**

Prerequisites: None

Corequisites: None

This course provides a comparison of diverse roles, interests, opportunities, contributions, and experiences in social life. Topics include race, ethnicity, gender, sexual orientation, class, and religion. Upon completion, students should be able to analyze how cultural and ethnic differences evolve and how they affect personality development, values, and tolerance. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

SOC 240 Social Psychology (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course examines the influence of culture and social groups on individual behavior and personality. Emphasis is placed on the process of socialization, communication, conformity, deviance, interpersonal attraction, intimacy, race and ethnicity, small group experiences, and social movements. Upon completion, students should be able to identify and analyze cultural and social forces that influence the individual in a society. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Social/Behavioral Sciences.

SOC 242 Sociology of Deviance (Intermittently)**3 0 3**

Prerequisites: None

Corequisites: None

This course provides an overview of deviant behavior and the processes involved in its definition, causation, prevention, control, and treatment. Topics include theories of causation, social control, delinquency, victimization, criminality, the criminal justice system, punishment, rehabilitation, and restitution. Upon completion, students should be able to identify and analyze issues surrounding the nature and development of social responses to deviance. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a premajor and/or elective course requirement.

SPA 111 Elementary Spanish I (Fall, Spring)**3 0 3**

Prerequisites: DRE 097 or ENG 002 Tier 1

Corequisites: None

This course introduces the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the development of basic listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with grammatical accuracy to spoken and written

Spanish and demonstrate cultural awareness. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

SPA 112 Elementary Spanish II (Fall, Spring) 3 0 3

Prerequisites: SPA 111

Corequisites: None

This course is a continuation of SPA 111 focusing on the fundamental elements of the Spanish language within a cultural context. Emphasis is placed on the progressive development of listening, speaking, reading, and writing skills. Upon completion, students should be able to comprehend and respond with increasing proficiency to spoken and written Spanish and demonstrate further cultural awareness. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

SPA 120 Spanish for the Workplace (Fall, Spring) 3 0 3

Prerequisites: None

Corequisites: None

This course offers applied Spanish for the workplace to facilitate basic communication with people whose native language is Spanish. Emphasis is placed on oral communication and career-specific vocabulary that targets health, business, and/or public service professions. Upon completion, students should be able to communicate at a functional level with native speakers and demonstrate cultural sensitivity. The course will incorporate development of cultural awareness through the cultural context of the Spanish language.

SPA 211 Intermediate Spanish I (Intermittently) 3 0 3

Prerequisites: SPA 112

Corequisites: None

This course provides a review and expansion of the essential skills of the Spanish language. Emphasis is placed on the study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate effectively, accurately, and creatively about the past, present, and future. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

SPA 212 Intermediate Spanish II (Intermittently) 3 0 3

Prerequisites: SPA 211

Corequisites: None

This course provides a continuation of SPA 211. Emphasis is placed on the continuing study of authentic and representative literary and cultural texts. Upon completion, students should be able to communicate spontaneously and accurately with increasing complexity and sophistication. This course has been approved for transfer under the Comprehensive Articulation Agreement (CAA) and ICAA as a general education course in Humanities/Fine Arts.

SST 140 Green Bldg & Design Concepts (Fall) 3 0 3

Prerequisites: None Corequisites: None

This course is designed to introduce the student to sustainable building design and construction principles and practices. Topics include sustainable building rating systems and certifications, energy efficiency, indoor environmental quality, sustainable building materials and water use. Upon completion, students should be able to identify the principles and practices of sustainable building design and construction.

SWK 110 Intro to Social Work 3 0 3

Prerequisites: None

Corequisites: None

This course examines the historical development, values, orientation, and professional standards of social work and focuses on the terminology and broader systems of social welfare. Emphasis is placed on the various fields of practice including those agencies whose primary function is financial assistance, corrections, mental health, and protective services. Upon completion, students should be able to demonstrate an understanding of the knowledge, values, and skills of the social work professional.

SWK 113 Working With Diversity 3 0 3

Prerequisites: None

Corequisites: None

This course examines and promotes understanding, sensitivity, awareness, and knowledge of human diversity. Emphasis is placed on professional responsibilities, duties, and skills critical to multicultural human services practice. Upon completion, students should be able to integrate and expand knowledge, skills, and cultural awareness relevant to diverse populations.

TRN 110 Intro to Transport Tech (Fall) 1 2 2

Prerequisites: None

Corequisites: None

This course covers workplace safety, hazardous materials, environmental regulations, hand tools, service information, basic concepts, vehicle systems, and common transportation industry terminology. Topics include familiarization with

major vehicle systems, proper use of various hand and power tools, material safety data sheets, and personal protective equipment. Upon completion, students should be able to demonstrate appropriate safety procedures, identify and use basic shop tools, and describe government regulations regarding transportation repair facilities.

TRN 120 Basic Transport Electricity (Fall)

4 3 5

Prerequisites: None

Corequisites: None

This course covers basic electrical theory, wiring diagrams, test equipment, and diagnosis, repair and replacement of batteries, starters, and alternators. Topics include Ohm's Law, circuit construction, wiring diagrams, circuit testing, and basic troubleshooting. Upon completion, students should be able to properly use wiring diagrams, diagnose, test, and repair basic wiring, battery, starting, charging, and electrical concerns.

TRN 120A Basic Transport Electricity Lab (Fall)

0 3 1

Prerequisites: None

Corequisites: TRN 120

This course provides a lab that allows students to enhance their understanding of electrical components and circuits used in the transportation industry. Topics include inspection, diagnosis, and repair of electrical components and circuits using appropriate service information for specific transportation systems. Upon completion, students should be able to diagnose and service electrical components and circuits used in transportation systems.

TRN 130 Intro to Sustainable Transport (Fall)

2 2 3

Prerequisites: None

Corequisites: None

This course provides an overview of alternative fuels and alternative fuel vehicles. Topics include composition and use of alternative fuels including compressed natural gas, biodiesel, ethanol, hydrogen, and synthetic fuels, hybrid/electric, and vehicles using alternative fuels. Upon completion, students should be able to identify alternative fuel vehicles, explain how each alternative fuel delivery system operates, and perform minor repairs.

TRN 140 Transport Climate Control (Spring)

1 2 2

Prerequisites: None

Corequisites: TRN 140A

This course covers the theory of refrigeration and heating, electrical/electronic/pneumatic controls, and diagnosis and repair of climate control systems. Topics include diagnosis and repair of climate control components and systems,

recovery/ recycling of refrigerants, and safety and environmental regulations. Upon completion, students should be able to diagnose and repair vehicle climate control systems.

TRN 140A Transport Climate Cont Lab (Spring) 1 2 2

Prerequisites: None

Corequisites: TRN 140

This course provides experiences for enhancing student skills in the diagnosis and re- pair of transportation climate control systems. Emphasis is placed on re- claiming, recovery, recharging, leak detection, climate control components, diagnosis, air conditioning equipment, tools and safety. Upon completion, students should be able to describe the operation, diagnose, and safely service climate control systems using appropriate tools, equipment, and service information.

TRN 145 Advanced Transport Electronics (Fall) 2 3 3

Prerequisites: TRN 120

Corequisites: None

This course covers advanced transportation electronic systems including programmable logic controllers, on-board data networks, telematics, high voltage systems, navigation, collision avoidance systems and electronic accessories. Topics include interpretation of wiring schematics, reprogramming PLCs, diagnosing and testing data networks and other electronic concerns. Upon completion, students should be able to reprogram PLCs, diagnose and test data networks and other electronic concerns, and work safely with high volt- age systems.

VET 110 Animal Breeds and Husbandry 2 2 0 3

Prerequisites: Admission to VMT

Corequisites: ACA 122, ENG 110 or ENG 111, CHM 130/130A, VET 121, VET 123

This course provides a study of the individual breed characteristics and management techniques of the canine, feline, equine, bovine, porcine, ovine, caprine, and laboratory animals. Topics include physiological data, animal health management, and basic care and handling of animals. Upon completion, students should be able to identify breeds of domestic and laboratory animals, list physiological data, and outline basic care, handling, and management techniques.

VET 120 Vet Anatomy and Physiology 3 3 0 4

Prerequisites: ACA 122, ENG 110 or ENG 111, CHM 130/130A, VET 110, VET 121, VET 123

Corequisites: MAT 171, PSY 150, VET 131, VET 133

This course covers the structure and function of the animal body with emphasis on the similarities and differences among domestic animals. Emphasis is placed on the structure and function of the major physiological systems of domestic, laboratory, and zoo animals. Upon completion, students should be able to

identify relevant anatomical structure and describe basic physiological processes for the major body systems.

VET 121 Veterinary Medical Terminology 3 0 0 3

Prerequisites: Admission to VMT

Corequisites: ACA 122, ENG 110 or ENG 111, CHM 130/130A, VET 110, VET 123

This course covers the basic medical terminology required for veterinary technicians. Topics include the pronunciation, spelling and definition of word parts and vocabulary terms unique to the anatomy, clinical pathology, and treatment of animals. Upon completion, students should be able to demonstrate knowledge and understanding of basic medical terms as they relate to veterinary medicine.

VET 123 Veterinary Parasitology 2 3 0 3

Prerequisites: Admission to VMT

Corequisites: ACA 122, ENG 110 or ENG 111, CHM 130/130A, VET 110, VET 121

This course covers the common internal and external parasites of companion animals, livestock, selected zoo animals, and wild animals. Emphasis is placed on laboratory diagnosis of the most common forms of the parasite through fecal, urine, skin, and blood exams. Upon completion, students should be able to identify common parasites and discuss life-cycles, treatment and prevention strategies, and public health aspects of veterinary parasitology.

VET 125 Veterinary Diseases I 2 0 0 2

Prerequisites: MAT 171, PSY 150, VET 120, VET 131, VET 133

Corequisites: COM elective (110, 120, or 231), VET 137

This course introduces basic immunology, fundamentals of disease processes including inflammation, and common infectious diseases of animals and their prevention through immunization. Topics include fundamental disease processes, principles of medical therapy, immunologic processes, infections and zoonotic diseases of domestic animals, and prevention of disease. Upon completion, students should be able to describe basic disease and immunological processes, recognize infections and zoonotic diseases, and discuss prevention strategies.

VET 126 Veterinary Diseases II 1 3 0 2

Prerequisites: COM elective (110,120,231), VET 125, VET 137

Corequisites: HUM/FA elective, VET 211, VET 213, VET 215, WBL 112A

This course is the study of basic disease processes and fundamentals of pathology, and other selected topics of veterinary medicine. Topics include histopathology, pathologic changes associated with common diseases of animals, necropsy procedures, and specimen handling. Upon completion, students should be able to describe basic pathologic changes associated with disease, recognize histopathologic changes, and properly perform collection and submission of necropsy specimens.

VET 131 Veterinary Laboratory Techniques I 2 3 0 3

Prerequisites: ACA 122, ENG 110 or 111, CHM 130/130A, VET 110, VET 121, VET 123

Corequisites: MAT 171, PSY 150, VET 120, VET 133

This course includes the fundamental study of hematology, hemostasis, and urinalysis. Emphasis is placed on basic hematology and urinalysis techniques, manual skill development, instrumentation, quality control, and applications to veterinary science. Upon completion, students should be able to perform manual and automated CBCs, hemostatic assays, and complete urinalyses and maintain laboratory equipment and quality control.

VET 133 Veterinary Clinical Practice I 2 3 0 3

Prerequisites: ACA 122, ENG 110 or 111, CHM 130/130A, VET 110, VET 121 VET 123,

Corequisites: MAT 171, PSY 150, VET 120, VET 131

This course introduces basic practices and techniques of the veterinary clinic and biomedical research fields for dogs, cats, and laboratory animals. Topics include physical exam, husbandry, housing, sanitation, restraint and handling, administration of medications, anesthesia and euthanasia techniques, grooming, and dentistry. Upon completion, students should be able to properly restrain, medicate, examine, groom, and maintain each of the species studied.

VET 137 Veterinary Office Practices 1 2 0 2

Prerequisites: MAT 171, PSY 150, VET 120, VET 131, VET 133

Corequisites: COM elective (110, 120, or 231), VET 125

This course is designed to teach basic administrative techniques, client communication skills, and regulations pertaining to veterinary medicine. Topics include record keeping, telephone techniques, professional liability, office procedures, state and national regulatory laws, human relations, and animal welfare. Upon completion, students should be able to demonstrate effective communication techniques, office procedures, and knowledge of regulatory laws and issues relating to animal welfare.

VET 211 Veterinary Laboratory Techniques II 2 3 0 3

Prerequisites: COM elective (110, 120, or 231), VET 125, VET 131, VET 137

Corequisites: HUM/FA elective, VET 126, VET 213, VET 215, WBL 112A

This course covers advanced hematology, serology, immunology, and clinical chemistry. Topics include advanced hematologic, serologic, and immunologic test procedures: manual and automated clinical chemistry procedures: laboratory safety: and quality control. Upon completion, students should be able to collect, prepare, and analyze serum and plasma samples and outline quality control and safety procedures.

VET 212 Veterinary Laboratory Techniques III 2 3 0 3

Prerequisites: HUM/FA elective, VET 126, VET 211, VET 213, VET 215, WBL 112A

Corequisites: VET 214, VET 217, VET 237, WBL 112B

This course introduces the basic principles of microbiology, histology, and cytology. Emphasis is placed on collection of microbiological samples for culture and sensitivity and collection and preparation of samples for histological and cytological examination. Upon completion, students should be able to perform microbiological culture and sensitivity and evaluate cytology and histology specimens.

VET 213 Veterinary Clinical Practice II 1 9 0 4

Prerequisites: COM elective (110, 120, or 231), VET 125, VET 133 VET 137

Corequisites: HUM/FA elective, VET 126, VET 211, VET 215, WBL 112A

This course covers basic radiography, anesthesia techniques, dentistry, sample collection and handling, surgical assistance and instrumentation, sterile techniques, and patient record keeping. Topics include basic radiography, injectable and gas anesthesia, dentistry, instrument identification and care, sterile surgical technique, specimen collection and processing, and maintenance of patient records. Upon completion, students should be able to take and process radiographs, administer and monitor anesthesia, assist in surgical procedures, collect specimens, and maintain surgical records.

VET 214 Veterinary Clinical Practice III 1 9 0 4

Prerequisites: HUM/FA elective, VET 126, VET 211, VET 213, VET 215, WBL 112A

Corequisites: VET 212, VET 217, VET 237, WBL 112B

This course covers advanced anesthetic techniques, special radiographic techniques, advanced dentistry, sample collection and processing, bandaging, and emergency and critical care procedures. Topics include induction and maintenance of anesthesia, radiographic contrast studies, advanced dentistry, external coaptation, intensive care procedures, and advanced sample collection techniques. Upon completion, students should be able to demonstrate proficiency in sample collection, radiology, anesthesia, critical care and emergency procedures, and dentistry.

VET 215 Veterinary Pharmacology 3 0 0 3

Prerequisites: COM elective (110, 120, or 231), VET 125, VET 137

Corequisites: HUM/FA elective, VET 126, VET 211, VET 213, WBL 112A

This course introduces drugs and other substances utilized in veterinary medicine. Emphasis is placed on drug classification and methods of action, administration, effects and side effects, storing and handling of drugs, and dosage calculations. Upon completion, students should be able to properly calculate and

administer medications, recognize adverse reactions, and maintain pharmaceutical inventory and administration records.

VET 217 Large Animal Clinical Practice 2 3 0 3

Prerequisites: HUM/FA, VET 120 VET, 126, VET 211, VET 213, VET 215, WBL 112A

Corequisites: VET 212, VET 214, VET 237, WBL 112B

This course covers topics relevant to the medical and surgical techniques for the common domestic large animal species. Topics include physical exam, restraint, sample collection, bandaging, emergency treatment, surgical and obstetrical procedures and instruments, herd health, and lameness topics. Upon completion, students should be able to safely perform restraint, examination, and sample collection; assist surgical, obstetrical, and emergency procedures; and discuss herd health.

VET 237 Animal Nutrition 3 0 0 3

Prerequisites: HUM/FA elective, VET 126, VET 211, VET 213, VET 215, WBL 112A

Corequisites: VET 212, VET 214, VET 217, WBL 112B

This course covers the principles of nutrition and their application to feeding practices of domestic, farm, and companion animals. Topics include basic nutrients and nutritional needs of individual species, proximate analysis, interpretation of food and feed labels, types of animal foods, and ration formulation. Upon completion, students should be able to select appropriate diets for animals in various stages of health and disease, analyze nutrition labels, and identify foods.

WBL 111 Work-Based Learning I (Fall, Spring, Summer) 0 0 10 1

Prerequisites: For Hospitality Management – Instructor Permission Required;
For Human Services Technology/Gerontology & Substance Abuse

– Instructor Permission Required

For Information Technologies – Instructor Permission Required

For Advertising and Graphic Design – Instructor Permission Required

For Medical Office Administration – Instructor Permission Required

For Office Administration – Instructor Permission Required

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WBL 112 Work-Based Learning I (Fall, Spring) 0 0 20 2

Prerequisites: For Computer Integrated Machining, completion of 9 semester credit hours and MAC 141 and MAC 141A.

For Veterinary Medical Technology, faculty approval and assignment.

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. Appropriate departmental faculty/department chair will monitor student progress and attendance.

WBL 114 Work-Based Learning I (Fall, Spring) 0 0 40 4

Prerequisites: For Electric Line Construction, completion of 9 semester credit hours and one major core course.

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. The Vice President of Corporate and Economic Development will assign appropriate personnel to monitor student progress and attendance.

WBL 115 Work-Based Learning Seminar I 1 0 0 1

Prerequisites: None

Corequisites: WBL 111

This course is designed to be taken during the same semester as WBL 111 to allow students to reflect on what they are learning during their co-op work experience and to make connections between academic concepts and their application in the field. Emphasis is placed on integrating classroom learning with related work experience. Appropriate departmental faculty will monitor student progress and attendance.

WBL 121 Work-Based Learning II (Fall, Spring, Summer) 0 0 10 1

Prerequisites: For Hospitality Management – Instructor Permission Required

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon

completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WBL 124 Work-Based Learning II (Fall, Spring) 0 0 40 4

Prerequisites: For Electric Lineman Technology (ELT), WBL 114

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. The Vice President of Corporate and Economic Development will assign appropriate personnel to monitor student progress and attendance.

WBL 131 Work-Based Learning III (Fall, Spring, Summer) 0 0 10 1

Prerequisites: For Culinary Arts – CUL 240

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WBL 134 Work Based Learning III (Fall, Spring) 0 0 40 4

Prerequisites: For Electric Lineman Technology (ELT), WBL 124

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies. The Vice President of Corporate and Economic Development will assign appropriate personnel to monitor student progress and attendance.

WBL 211 Work-Based Learning IV (Fall, Spring, Summer) 0 0 10 1

Prerequisites: For Culinary Arts – CUL 240

Corequisites: None

This course provides a work-based learning experience with a college-approved employer in an area related to the student's program of study. Emphasis is placed on integrating classroom learning with related work experience. Upon

completion, students should be able to evaluate career selection, demonstrate employability skills, and satisfactorily perform work-related competencies.

WEB 111	Introduction to Web Graphics (Fall)	2	2	3
----------------	--	----------	----------	----------

Prerequisites: None

Corequisites: None

This course introduces the creation of web graphics and addressing problems peculiar to WWW display using appropriate software. Topics include web graphics file types, optimization, RGB color, web typography, elementary special effects, transparency, animation, slicing, basic photo manipulation, and other related topics. Upon completion, students should be able to create graphics such as animated banners, buttons, backgrounds, logos, and manipulate photographic images for Web delivery.

WEB 115	Web Markup and Scripting (Fall)	2	2	3
----------------	--	----------	----------	----------

Prerequisites: WEB 210

Corequisites: None

This course introduces Worldwide Web Consortium (W3C) standard client-side Internet programming using industry-established practices. Topics include JavaScript, markup elements, stylesheets, validation, accessibility, standards, and browsers. Upon completion, students should be able to develop hand-coded web pages using current markup standards.

WEB 125	Mobile Web Design (Fall)	2	3	3
----------------	---------------------------------	----------	----------	----------

Prerequisites: WEB 210

Corequisites: None

This course introduces students to web design for mobile devices. Topics include planning an effective mobile Web site, industry standard Mobile Markup Language, CSS3, multimedia, m-commerce, social media, testing and publishing. Upon completion, students should be able to plan, develop, test, and publish Web content designed for mobile devices.

WEB 140	Web Development Tools (Spring)	2	2	3
----------------	---------------------------------------	----------	----------	----------

Prerequisites: None

Corequisites: None

This course provides an introduction to web development software suites. Topics include the creation of web sites and applets using web development software. Upon completion, students should be able to create entire web sites and supporting applets.

WEB 151	Mobile Application Dev I (Spring)	2	2	3
----------------	--	----------	----------	----------

Prerequisites: WEB 210

Corequisites: None

This course introduces students to programming technologies, design and development related to mobile applications. Topics include accessing device capabilities, industry standards, operating systems, and programming for mobile applications using an OS Software Development Kit (SDK). Upon completion, students should be able to create basic applications for mobile devices.

WEB 210 Web Design (Spring)

2 2 3

Prerequisites: CTI 110

Corequisites: None

This course introduces intermediate to advanced web page design techniques. Topics include customer expectations, advanced markup language, multimedia technologies, usability and accessibility practices, and techniques for the evaluation of web design. Upon completion, students should be able to employ advanced design techniques to create high impact and highly functional websites.

WEB 250 Database Driven Web sites (Spring)

2 2 3

Prerequisites: DBA 115 and WEB 115

Corequisites: None

This course introduces dynamic (database-driven) web site development. Topics include the use of basic database CRUD statements (create, read, update and delete) incorporated into web applications, as well as in software architecture principles. Upon completion, students should be able to design and develop database driven web applications according to industry standards.

WLD 112 Basic Welding Processes (Spring)

1 3 2

Prerequisites: None

Corequisites: None

This course introduces basic welding and cutting. Emphasis is placed on beads applied with gases, mild steel fillers, and electrodes and the capillary action of solder. Upon completion, students should be able to set up welding and oxy-fuel equipment and perform welding, brazing, and soldering processes.

WLD 115 SMAW (Stick) Plate (Fall)

2 9 5

Prerequisites: None

Corequisites: None

This course introduces the shielded metal arc (stick) welding process. Emphasis is placed on padding, fillet, and groove welds in various positions with SMAW electrodes. Upon completion, students should be able to perform SMAW fillet and groove welds on carbon plate with prescribed electrodes.

WLD 115AB SMAW (Stick) Plate-AB (Fall)

2 4 3

Prerequisites: None

Corequisites: None

This first of two parts of WLD 115.

WLD 115BB SMAW (Stick) Plate-BB (Spring) 0 5 2

Prerequisites: WLD 115AC

Corequisites: None

A continuation of WLD 115AB and second part of WLD 115.

WLD 116 SMAW (Stick) Plate/Pipe (Spring) 1 9 4

Prerequisites: WLD 115

Corequisites: None

This course is designed to enhance skills with the shielded metal arc (stick) welding process. Emphasis is placed on advancing manipulative skills with SMAW electrodes on varying joint geometry. Upon completion, students should be able to perform groove welds on carbon steel with prescribed electrodes in the flat, horizontal, vertical, and overhead positions.

WLD 116AB SMAW (Stick) Plate/Pipe-AC (Spring) 1 4 2

Prerequisites: WLD 115

Corequisites: None

The first of two parts of WLD 116.

WLD 116BB SMAW (Stick) Plate/Pipe-BC (Fall) 0 5 2

Prerequisites: WLD 116AB

Corequisites: None

A continuation of WLD 116AB and second part of WLD 116.

WLD 121 GMAW (MIG) FCAW/Plate (Fall) 2 6 4

Prerequisites: None

Corequisites: None

This course introduces metal arc welding and flux core arc welding processes. Topics include equipment setup and fillet and groove welds with emphasis on application of GMAW and FCAW electrodes on carbon steel plate. Upon completion, students should be able to perform fillet welds on carbon steel with prescribed electrodes in the flat, horizontal, and overhead positions.

WLD 121AB GMAW (MIG) FCAW/Plate-AB (Fall) 1 3 2

Prerequisites: None

Corequisites: None

The first of two parts of WLD 121.

WLD 121BB GMAW (MIG) FCAW/Plate-BB (Spring)	1	3	2
Prerequisites: WLD 121AB			
Corequisites: None			
A continuation of WLD 121AB and final part of WLD 121.			
WLD 122 GMAW (MIG) Plate/Pipe (Spring)	1	6	3
Prerequisites: WLD 121			
Corequisites: None			
This course is designed to enhance skills with the gas metal arc (MIG) welding process. Emphasis is placed on advancing skills with the GMAW process making groove welds on carbon steel plate and pipe in various positions. Upon completion, students should be able to perform groove welds with prescribed electrodes on various joint geometry.			
WLD 122AB GMAW (MIG) Plate/Pipe-AB (Spring)	1	3	2
Prerequisites: WLD 121			
Corequisites: None			
The first of two parts of WLD 122.			
WLD 122BB GMAW (MIG) Plate/Pipe-BB (Fall)	0	3	1
Prerequisites: WLD 122AB			
Corequisites: None			
A continuation of WLD 122AB and final part of WLD 122.			
WLD 131 GTAW (TIG) Plate (Spring)	2	6	4
Prerequisites: None			
Corequisites: None			
This course introduces the gas tungsten arc (TIG) welding process. Topics include correct selection of tungsten, polarity, gas, and proper filler rod with emphasis placed on safety, equipment setup, and welding techniques. Upon completion, students should be able to perform GTAW fillet and groove welds with various electrodes and filler materials.			
WLD 131AB GTAW (TIG) Plate-AB (Spring)	1	3	2
Prerequisites: None			
Corequisites: None			
The first of two parts of WLD 131.			
WLD 131BB GTAW (MIG) Plate-BB (Fall)	1	3	2
Prerequisites: WLD 131AB			
Corequisites: None			
A continuation of WLD 131AB and final part of WLD 131.			

WLD 132 GTAW (TIG) Plate/Pipe (Summer) 1 6 3

Prerequisites: WLD 131

Corequisites: None

This course is designed to enhance skills with the gas tungsten arc (TIG) welding process. Topics include setup, joint preparation, and electrode selection with emphasis on manipulative skills in all welding positions on plate and pipe. Upon completion, students should be able to perform GTAW welds with prescribed electrodes and filler materials on various joint geometry.

WLD 132AB GTAW (TIG) Plate/Pipe-AB (Summer) 1 3 2

Prerequisites: None

Corequisites: None

The first of two parts of WLD 132.

WLD 132BB GTAW (TIG) Plate/Pipe-BB (Fall) 0 3 1

Prerequisites: WLD 132AB

Corequisites: None

A continuation of WLD 132AB and final part of WLD 132.

WLD 141 Symbols and Specifications (Fall) 2 2 3

Prerequisites: None

Corequisites: None

This course introduces the basic symbols and specifications used in welding. Emphasis is placed on interpretation of lines, notes, welding symbols, and specifications. Upon completion, students should be able to read and interpret symbols and specifications commonly used in welding.

WLD 151 Fabrication I (Fall) 2 6 4

Prerequisites: DFT 119 or DFT 151

Corequisites: MAC 121

This course introduces the basic principles of fabrication. Emphasis is placed on safety, measurement, layout techniques, and the use of fabrication tools and equipment. Upon completion, students should be able to perform layout activities and operate various fabrication and material handling equipment.

WLD 151AB Fabrication I-AB (Fall) 1 3 1

Prerequisites: DFT 119 or DFT 151

Corequisites: MAC 121

The first of two parts of WLD 151.

WLD 151BB Fabrication I-BB (Spring)	1	3	2
Prerequisites: WLD 151AB			
Corequisites: None			
A continuation of WLD 151AB and final part of WLD 151.			
WLD 251 Fabrication II (Spring)	1	6	3
Prerequisites: WLD 151			
Corequisites: None			
This course covers advanced fabrication skills. Topics include advanced layout and assembly methods with emphasis on the safe and correct use of fabrication tools and equipment. Upon completion, students should be able to fabricate projects from working drawings.			
WLD 251AB Fabrication II-AB (Fall)	1	3	2
Prerequisites: WLD 151			
Corequisites: None			
The first of two parts of WLD 251.			
WLD 251BB Fabrication II-BB (Spring)	0	3	1
Prerequisites: WLD 251AB			
Corequisites: None			
A continuation of WLD 251AB and final part of WLD 251.			
WLD 261 Certification Practices (Spring)	1	3	2
Prerequisites: WLD 115, WLD 121, and WLD 131			
Corequisites: None			
This course covers certification requirements for industrial welding processes. Topics include techniques and certification requirements for prequalified joint geometry. Upon completion, students should be able to perform welds on carbon steel plate and/or pipe according to applicable codes.			
WLD 262 Inspection and Testing (Spring)	2	2	3
Prerequisites: None			
Corequisites: None			
This course introduces destructive and non-destructive testing methods. Emphasis is placed on safety, types and methods of testing, and the use of testing equipment and materials. Upon completion, students should be able to understand and/or perform a variety of destructive and non-destructive testing processes.			

WLD 265 Automated Welding/Cutting (Fall)

2 6 4

Prerequisites: DFT-151, WLD-110, and WLD-121

Corequisites: None

This course introduces automated welding equipment and processes. Topics include setup, programming, and operation of automated welding and cutting equipment. Upon completion, students should be able to set up, program, and operate automated welding and cutting equipment. Has been approved for transfer under the CAA and ICAA as a premajor and/or elective requirement.

Continuing Education

Purpose Statement

The Continuing Education Department's purpose is to provide adults with quality and convenient learning opportunities consistent with identified student needs. These opportunities are accessible to all adults regardless of age, sex, socioeconomic status, ethnicity, race, religion, or disability. Educational and training programs are designed to enhance the personal, social, and economic potential of the individual and to produce measurable benefits to the community and the state. The Continuing Education Department fulfills this purpose statement by providing the following:

Occupational programs and courses for students desiring to prepare for skilled professions or to upgrade their job skills;

Programs and courses to meet certification, recertification, or continuing education requirements of the individual or the employer;

Occupational training and programs for businesses, industries, and agencies to support economic development;

Programs and courses in Adult Basic Education (ABE), English as a Second Language (ESL), Adult High School Diploma (AHSD), and High School Equivalency (HSE) to enhance personal and professional goals;

Counseling and career guidance, job search services and other programs essential to developing the potential of individual students;

Programs, services, and lifelong learning opportunities to improve the quality of life for an ever-changing diverse community;

Effective and cooperative relationships, which foster partnerships with schools, government agencies, businesses, industries, and other employers, and;

Sound management practices and systematic planning to allocate the resources required to achieve the stated objectives of the Continuing Education Department.

Admission

Individuals 16 years of age or older may register for a Continuing Education class subject to course requirements.

Fees

A registration fee and local fees are charged for each Continuing Education course and are posted on the College website and in the published class schedule. All fees, when charged, are due and payable at registration. Books and supplies are available through the Campus Store. Students who are fire department personnel, law enforcement officers, telecommunicators, and rescue squad personnel may be exempt from the registration fee based on their organization's training needs and affiliation. Students enrolled in College and Career Readiness Program and Human Resources Development classes may be exempt from the registration fee. Elementary and secondary school employees are exempt from the registration fee in CPR or first aid courses. All students will be required to pay a fee for self-supporting classes. No refunds are given for self-supporting classes.

Attendance

Regular attendance and class participation are essential to effective teaching and learning. Adult students are expected to be regular and punctual in attendance. A minimum of 80% student attendance in each course, including excused absences for religious observances, is required in order for a student to receive a satisfactory completion certificate. Some classes have additional attendance requirements to receive a satisfactory completion certificate and will be outlined in the course syllabus.

Permanent Records

Permanent records are kept on all students who participate in a Continuing Education course. The College also awards the Continuing Education Unit (CEU) as a measure of non-credit for those courses that are approved for CEUs.

Transcripts

Please refer to the "transcripts" section of this catalog, for details on requesting Continuing Education transcripts.

Weapons on Campus

As provided by North Carolina General Statute §14-269.2, all weapons, knives, firearms, dangerous chemicals, or instrumentalities/articles that might be injurious to persons or property are prohibited on Nash Community College's campus.

Exceptions allow for Nash Community College's Police Department, sworn North Carolina and federal law enforcement personnel, law enforcement training courses or clinics, Nash Community College faculty supervised course sessions as part of the regular, approved curriculum, College sanctioned ceremonial events and those exceptions allowed under N.C.G.S §14-269(a.2). This statute provides that a handgun may be brought on campus by an individual who has a valid "concealed handgun permit" and such handgun remains either (1) in a closed compartment or container within such permit holder's locked vehicle, or (2) within a locked container securely affixed to such permit holder's vehicle.

Classes requiring the use of firearms are held in the Continuing Education Building located on the South Campus Connector. All students enrolled in classes requiring the use of firearms must park in the reserved Firing Range Parking Lot designated as P12. Sworn law enforcement personnel are asked to use the South lot, but may also use other parking as necessary.

Occupational Skills Training Areas

Nash Community College, through the Continuing Education Department, offers specifically directed short courses to assist individuals entering certain jobs as well as upgrading skills in existing jobs. Examples are as follows:

Alive at 25	Income Maintenance Caseworker
DDC (Defensive Driving)	- NC Fast
Basic Carpentry	Microsoft Office Overview
Basic Electrical Wiring	QuickBooks
Basic Plumbing	Residential Maintenance & Repair
Basic Welding Processes	Small Engine Maintenance
Computer for Beginners	Social Media
Culinary Boot Camp	Tire Manufacturing
Heating, Venting &	Web Design
Air Conditioning (HVAC)	

Professional In-Service and Certificate Programs

Nash Community College sponsors and promotes a number of educational services which contribute to the needs of business, industry, and the people of Nash County. These programs are intended to improve and update the skills of workers on both a professional and sub-professional level for better job placement and to encourage labor mobility. Examples are as follows:

A+ Certification	Natural Hair Care Specialist
Basic Law Enforcement Training (BLET)	Networking
Cisco Academy	Notary Public
Cosmetology Instructor Training	Nurse Aide Level I & II
CPR & First Aid	Nurse Aide Level I
Cybersecurity	Nurse Aide Level I Fast Track
Detention Officer	Operating Systems Support
EKG Technician	OBD II Emissions
Electrical License Renewal	Pharmacy Technician
EMT, Advanced EMT, Paramedic	Phlebotomy
Emergency Dispatch Academy	Refresher Medication Aide
Emergency Dispatch (EMD) (EFD)	ServSafe (food handling course)
(EPD)	Teacher Certification Renewal
Firefighter Level I & II	Truck Driver (CDL) Training
General Contractor License Renewal	Underground Electric Line
Law Enforcement Telecommunicator	Vehicle Escort
Law Enforcement Instructor	Vehicle Safety Inspection
Manicurist/Nail Technician	Veterinary Assistant
National Electric Code	

Go to www.nashcc.edu to view additional courses offered.

Fire and Health Services

Fire and Rescue Training

Nash Community College's Fire Service Training program is designed to provide individuals and firefighters with the information and skills needed for modern firefighting through a variety of learning experiences and training scenarios. The classes are taken directly to firefighters through training sessions held in local departments and at training sites throughout the community. Nash Community College offers training and certifications in the following categories, as well as others.

Arson Detection	Incident Command System (ICS)
Driver Operator	Training
Emergency Response Scuba Diver	Industrial Fire Brigade and Safety
Fire Instructor	Training
Fire Officer	National Fire Academy Courses
Fire & Life Safety Educator	National Incident Management
Firefighter	System(NIMS)
Recruit Firefighter Training Academy	Technical Rescuer (TR)
Hazardous Materials	Wild Land & Urban Interface Training

For more information about the Fire & Rescue Programs, please visit Nash Community College's Fire & Health Services website at www.nashcc.edu/fire.

Emergency Medical Services

Nash Community College's Emergency Medical Services program is a comprehensive approach to the delivery of emergency medical care to the critically ill and injured. There are many key components that make up this system including transportation, communication, manpower and training, organization, evaluation, standard record keeping, and public education.

The focus of Nash Community College is to meet the training needs of each component for the overall growth and development of a successful EMS system. Nash Community College offers American Heart Association (AHA) and EMS training in the following categories:

Advanced Cardiac Life Support (ACLS)	Emergency Medical Dispatcher (EMD)
Advanced Emergency Medical Tech. (AEMT)	Electrocardiography Technician
AHA Cardiopulmonary Resuscitation (CPR)	Emergency Medical Tech. (EMT)
AHA First Aid	First Responder
AHA Instructor Certification	International Trauma Life Support (ITLS)
Brain Trauma Foundation – Provider	Medical Responder
Emergency Dispatch Academy	Paramedic
EMS Instructor Training	Pediatric Advanced Life Support (PALS)

For more information about the EMS and AHA Programs, please visit Nash Community College's Fire and Health Services website at www.nashcc.edu/ems.

Nurse Aide I

(Blended and Traditional): Prerequisite: Completed English 111 and Math DMA 050, have a 2 or 4 year degree within 5 years, or reading and math TABE placement tests with a minimum score of 8.0 on both portions, or have a silver Career Readiness Certificate (CRC) within the past 2 years. Transcripts are required. Nash Community College's Nurse Aide I course offers basic nursing skills required to provide personal care for patients, residents, or clients in a health care setting. Topics include communications, safety, patients' rights, personal care, vital signs, elimination, nutrition, emergencies, rehabilitation, and mental health. Upon successful completion of the course, the student is eligible to make application for the National Nurse Aide Assessment Program (NNAAP). This examination is necessary for listing on the North Carolina Nurse Aide I Registry.

Nurse Aide I Refresher

Prerequisite: Listing on Nurse Aide I Registry within the past four years. The Nurse Aide I Refresher course prepares students who have been on the NAI registry within the past four years, but have allowed their certification to expire, to take the state mandated National Nurse Aide Assessment Program (NNAAP). This examination is necessary for re-listing on the North Carolina Nurse Aide I Registry.

Nurse Aide I Blended Fast Track

Prerequisite: Completed English 111 & Math DMA 050, have a 2 or 4 year degree within 5 years, or reading and math TABE placement tests with a minimum score of 8.0 on both portions, or have a silver CRC Certificate within the past 2 years. Transcripts are required. Nurse Aide I Hybrid Fast Track is an accelerated course that allows students to complete the Nurse Aide I course in an accelerated time of online instruction, offered concurrently with class and clinical time. Hybrid indicates the lecture (theory) portion of the class is online. This course introduces basic nursing skills required to provide personal care for patients, residents, or clients in a health care setting. Topics include communications, safety, patients' rights, personal care, vital signs, elimination, nutrition, emergencies, rehabilitation, and mental health. Upon successful completion of the course, the student is eligible to make application for the National Nurse Aide Assessment Program (NNAAP). This examination is necessary for listing on the North Carolina Nurse Aide I Registry.

Nurse Aide II

(Blended and Traditional) Prerequisite: High School Diploma or HSE, certification from a state-approved Nurse Aide I course and current listing on the NC Nurse Aide I Registry with no substantiated charges of resident abuse, neglect, or misappropriation of resident's property. The Nurse Aide II course prepares students to perform more complex skills for patients or residents regardless of the setting. A skill/competency evaluation is required for documenting student competency. The course includes class, laboratory and clinical learning experiences. Upon satisfactory completion of the course and skill/competency evaluation, the student is eligible to apply for listing as a Nurse Aide II by the North Carolina Board of Nursing Nurse Aide II Registry. In all employment settings, the listed Nurse Aide II will work under the direction and supervision of licensed personnel.

Medication Aide

Prerequisite: High School Diploma or High School Equivalency, certification from a state-approved Nurse Aide I course and current listing on the NC Nurse Aide I Registry. Nash Community College's Medication Aide course prepares students to pass medication in skilled nursing facilities. 100% attendance is required for successful completion of the course. Upon successful completion of the course, the

student is eligible to make application for the state mandated Medication Aide Exam. This examination is necessary for listing on the North Carolina Medication Aide Registry.

Law Enforcement Training

Criminal Justice In-Service Training

Continuous and comprehensive training is essential for those individuals employed in a Criminal Justice occupation. Nash Community College provides an assortment of programs designed to meet the needs of this demanding profession. Examples are as follows:

Annual Mandated In-Service Training	Gang Investigation
Arrest, Search & Seizure	Instructor Training
ASP Training	K-9 Handler Training
Civil Liabilities	Officer Survival
Defensive Driving	RADAR/LIDAR
Firearms In-Service Training	Certification /Recertification
Firearms – Tactical & Combat Courses	Telecommunicator Certification Course

For an up-to-date training calendar and contact information, please refer to the Nash Community College website at www.nashcc.edu/le.

Detention Officer Certification Course

The Detention Officer Certification Course is designed to train qualified participants to function as detention officers. The course is governed by the North Carolina Sheriffs' Education and Training Standards Commission and the North Carolina Criminal Justice Education and Training Standards Commission.

Customized Industry Training

The Customized Training Program provides customized training assistance in support of full-time production and direct customer service positions for new and existing businesses and industries to remain productive, profitable, and within the State. Resources may support training assessment, instructional design, instructional costs, and training delivery for personnel involved in the direct production of goods and services. Classes are taught at Nash Community College or the employer work site.

Small Business Center

The Nash Community College Small Business Center is part of the North Carolina Community College System's Small Business Center Network. The Small Business Center provides assistance to entrepreneurs with ideas for business ownership, and current business owners, through counseling, training and educational programs. Nash Community College is committed to the concept that education and business can become partners to help continue the growth and success of the Nash County business community.

The Small Business Center delivers technical and managerial assistance to small business owners and prospective owners by providing: (1) information, (2) no cost education and training, (3) no cost counseling and referral, and (4) other technical/managerial assistance as appropriate. The range of service includes:

Entrepreneurship Programs
and Business Training
On Campus and Virtual
Information Centers
One-on-One Counseling

Networking Opportunities
with like minded Entrepreneurs
Small Business Development Seminars
and Webinars

Teacher Renewal Program

Teachers are constantly seeking opportunities for professional growth through in-service education. Nash Community College cooperates with local school agencies, senior colleges, and universities in providing short courses, workshops, and non-credit courses for certificate renewal and professional growth. Examples are as follows:

Praxis Core Preparation
Understanding Adolescents

Effective Teacher Training
Classroom Technology

Personal Enrichment Program

Community Service Program is provided to help adults develop basic skills, discover and develop new talents, or refine active talents. Courses are designed to encourage wise use of leisure time and to provide skills for supplementary income.

Arts & Craft Beer	Health/Fitness	Quilting
Beer Brewing/Distilling	Knitting and Crocheting	Stained Glass
Cooking	Line Dance	Summer Camps
Concealed Carry	Motorcycle Safety	Unarmed Self-Defense
Hangun	Numerous Online	Yoga
Culinary Boot Camp	Classes	
Gardening/Herbs	Photography	

Human Resources Development (HRD)

Nash Community College's Human Resources Development Program (HRD) is an innovative program that provides training for all adults who are seeking gainful employment, transitioning back into the workforce, or redefining their professional goals. The various classes, workshops labs, and seminars are designed to address the current needs and trends in the constantly changing job market. These training opportunities are fee waived for students who meet the eligibility criteria. Some of the courses offered included, but are not limited to:

Basic Computer and Keyboarding	DSS Caseworker
Career Bootcamp	Internet and Email
Career Readiness Certification (CRC)	Job Search Fundamentals
Preparation	Microsoft IT Academy Certification
Drirect Care Basics	Personal Finance
Document Prep for the Job Search	Working Smart
Human Services Exploration:	

College and Career Readiness

The mission of the College and Career Readiness Program is to prepare adults to earn a high school diploma or equivalency and to prepare for the transition to post-secondary education or employment through career pathways. NCC's College and Career Readiness staff members take a student-focused approach advising participants one-on-one before they enroll in college or seek employment. Program areas include preparation for the High School Equivalency (HSE), the Adult High School Diploma (AHSD), career pathways and enhancement of English, math, writing, and reading skills. All classes are designed to improve basic skills that enable students to be more successful in

today's workplace or college. Special requirements for students under 18 years of age include a minor release packet signed by the student's parent or legal guardian. Test of Adult Basic Education (TABE) assessments are administered during a placement testing process to determine proper course placement. Following testing, students complete a course that prepares incoming CCR students to be successful in their quest for a High School Equivalency Diploma (HSE). During this course, students meet with their advisor to develop an individual educational plan.

College and Career Readiness offers individualized flexible schedules for students to achieve their credential in a timely manner. College and Career Readiness operating hours are Monday through Thursday from 8 a.m. – 9 p.m.; and Friday from 8 a.m. – 4 p.m. Courses are offered without cost to participants.

High School Equivalency (HSE)

Students in the HSE program score at or above a 9th grade level in reading and math. After orientation, students are placed in graduated courses in math, reading, and writing. Additionally, "Fast Track" courses are offered that cover science and social studies concepts. Once students are prepared, they choose to take one of the exams offered through NCC Testing Center GED® or HiSET®.

Basic Skills Plus

Students in the HSE program are eligible to take coursework at no cost toward a curriculum or continuing education diploma or certificate in the following areas: Machine Operator Certificate, Automotive Systems Technology, Certified Nursing Assistant, HVAC and Refrigeration, and Welding.

Basic Skills Plus requires at least a 9.0 Reading and Math TABE Test score. Students may begin college classes prior to earning a High School Equivalency Diploma.

Adult Basic Skills Education (ABE)

The ABE program at Nash Community College serves students who score below a 9th grade level in reading and/or math. After completing Ready, Set, Go, students are placed in graduated reading and math courses. Students work on basic skills until they progress to the HSE level at which point they transition into higher level classes. Additionally, students in the ABE program are eligible for expanded pathway courses which prepare them to enter either curriculum or continuing education when they complete their High School Equivalency.

Pathway courses include careers in healthcare, manufacturing and computer training, and business services.

Adult High School Diploma

The Adult High School Diploma Program (AHSD) provides an opportunity for students to earn an adult high school diploma through individualized study. The program is conducted in cooperation with the local board of education. A diploma is awarded by Nash-Rocky Mount Public Schools and Nash Community College at the completion of the required courses of study.

Adults 16 years of age and over may enroll in the Adult High School Diploma Program. Special requirements for students under 18 years of age include a minor release packet signed by the student's parent or legal guardian. Previous high school transcripts are also required for the AHSD program.

Students complete studies in the areas of English, science, mathematics, social studies, health and elective studies. Programmed study materials are provided for students without cost.

Registration and orientation are held monthly. Prospective students are required to attend an orientation session before beginning the program. Preregistration is required for enrollment in the AHSD program.

English as a Second Language

Adult English as a Second Language courses prepare adults whose native language is not English to obtain language proficiency that allows them to meet personal and professional goals. Instruction includes the development of basic skills in listening, speaking, writing, reading, and comprehending the English language, as well as cultural acclimation to American society. Advanced classes prepare students to transition to high school equivalency and post-secondary education in the United States. Classes are also offered in citizenship, career awareness and assorted workplace credentials. Students receive academic placement according to their literacy skills with regard to the English language. Preregistration is required for enrollment in the English as a Second Language program.

Career Readiness Certificate (CRC)

North Carolina's Career Readiness Certification (CRC) is designed to meet the needs of employers and job seekers in a transitioning economy.

- The CRC offers employers a reliable means of determining employee potential in terms of necessary literacy, numeracy and problem solving skills to be “job ready.”
- The CRC provides job candidates with a portable credential in addition to documentation of education and experience when presenting to potential employers.
- The CRC assists educators by providing a tool for preparing students to enter the workplace.
- The CRC provides workforce development agencies with documentation of actual work- force skills to help attract businesses.

The CRC is based upon WorkKeys, a nationally recognized job skills assessment tool developed by ACT Inc. WorkKeys is a comprehensive evaluation instrument recognized by thousands of companies in the U.S. including state and federal agencies. In order to earn a Career Readiness Certificate, individuals undergo testing related to workplace documents, applied math, and graphic literacy through the WorkKeys skills assessment system. Individual results can lead to four levels of Career Readiness Certificates: bronze, silver, gold, and platinum.

Testing Center

Nash Community College Testing Center administers GED®, HiSET® and TASC®. Assistance with registration and test preparation is available through the College and Career Readiness Learning Lab. The testing center is located in the Continuing Education and Public Safety Building.

NCC Foundation Directors & Personnel

Nash Community College Foundation, Inc.

The Nash Community College Foundation, Inc., a non-profit organization, was founded and chartered in 1983 to encourage and develop public and private support beyond and in addition to funds provided by county, state and federal sources.

Private contributions give the College a margin of excellence not provided by public sources, and private support strengthens and deepens the ties of interest existing between the College and the community.

The membership of the Foundation Board of Directors represents a broad segment of civic and community leaders of the Nash County area which the college serves
