

## President's Message

Welcome to Nash Community College, you've made a great choice to continue your education by enrolling with us. Whether you are a first generation student or seeking to advance in your career, Nash Community College has the resources to support you from start to finish.

Speaking of resources, the recently implemented Success Network has enhanced the holistic nature of how students are supported at the College. The Network serves as a "hub" to connect students with success coaches, tutoring services, and on-campus resources like the food pantry, Single Stop, Student Government Association and the library to name a few.

It is important for the College to meet students where they are and to consider each individual's circumstances when working with students.

Nash Community College is known in eastern North Carolina and

throughout the North Carolina Community College System for its unique programs, innovative campus and nurturing environment. We are proud to offer many challenging programs that prepare students for transfer to four-year universities, provide training for local workforces, and expand the horizons for all who seek to achieve more in life. At NCC, we continually adapt to the growing demands of industry and to the needs of current and future students in order to better serve Nash County and the region..

For over five decades students like you have relied on Nash Community College when pursuing a degree, diploma, certificate, or workforce training. Every student has a choice when considering a college, and our team is delighted that you chose to become a Nash Community College Nighthawk.

Lew K. Hunnicutt, Ph.D.  
Nash Community College President
