Tree Campus USA®

Nash Community College holds Tree Campus USA® recognition by the Arbor Day Foundation for its commitment to effective urban forest management.

Tree Campus USA is a national program created in 2008 by the Arbor Day Foundation and to honor colleges and universities for effective campus forest management and for engaging staff and students in conservation goals. Nash Community College achieved the title by meeting Tree Campus USA's five standards, which includes maintaining a tree advisory committee, a campus tree-care plan, dedicated annual expenditures for its campus tree program, an ArborDay observance and student service-learning project.

Bee Campus USA

Nash Community College is the 28th educational institution in the nation to be certified as an affiliate of the Bee Campus USA program, designed to marshal the strengths of educational campuses for the benefit of pollinators. College students, faculty, administrators, and staff have long been among the nation's most stalwart champions for sustainable environmental practices.

To earn the distinction, NCC established a Bee Campus USA committee to develop a Campus Pollinator Habitat Plan which included a locally native, pollinator-friendly plant list with regional sources for the plants and a least toxic integrated pest management (IPM) plan. Additionally, as a certified bee campus, the college hosts annual events to raise awareness of the importance of pollinators and annually sponsors and tracks student service projects to enhance pollinator habitats on-and off-campus. NCC biennially offers a pollinator protection course and incorporates pollinator protection topics into curriculum.
