

## Viewing Multiple Web Pages Using Tab Browsing

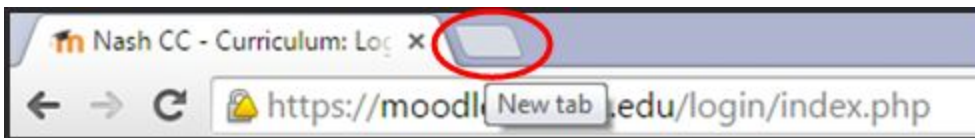

1. Tabs can be used to view multiple web pages at once. To begin tabbed browsing, open any web browser.

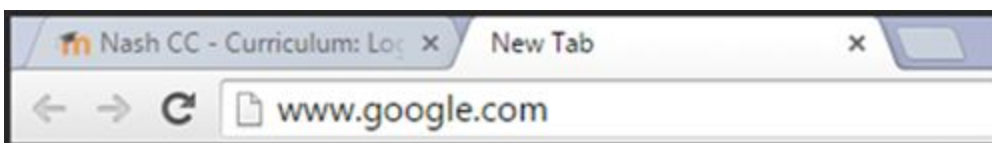

2. Type a web address in the address bar of the browser. For example, *moodle.nashcc.edu*.

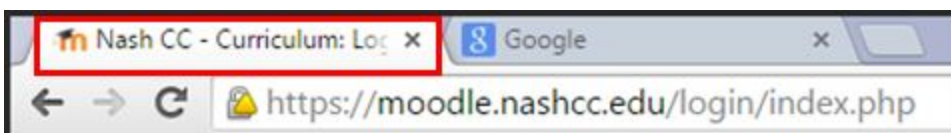

3. To visit another webpage, use your mouse cursor to select the **New Tab** feature at the top of the browser screen. You can also access this by simultaneously pressing and holding down both the **Ctrl + T** keys on your computer keyboard.

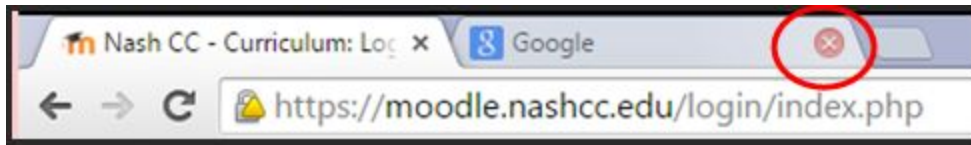

4. A new browser page is now open. Enter another website address in the address bar of the new browser page. For example, *google.com*.

5. To return to the first visited webpage, simply click its corresponding browser tab above the address bar.

6. To close any open/tabbed web page click the X located on the right side of its tab.

7. To close all open/tabbed web pages and end your browsing session, click the X in the top right corner of the browser screen.
